Hon. R. H. Walker

Athens,

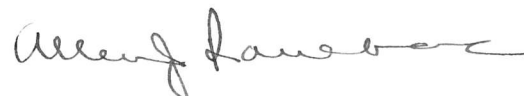

Alabama.

Dear Mr. Walker;

A good many people are making inquiries regarding your intention to run for congress. The introduction by Almon of the ~~Hoover~~-Muscle Shoals Commission <sup>bill</sup> has not helped him in this section. There was already strong opposition to him and this has been materially increased by recent happenings. If you decide to run I think you can count on a good vote in this section. I have been urged by a large number to make the race, but have no intention of doing so. I have no political ambition at present. Just as soon as you make up your mind let us know. There is a strong feeling here that Almon should not be re-elected and we do not want to be placed in the position of having to vote for either Almon or Patterson.

With regards, I am,

Yours sincerely,

Allen J. Roulhac.
