

Mrs R. H. Weber - July 16, 1935

Tuesday  
—

Dear Mother,

Each time I've been ready to write you I'd find Bill had just written. Instead of waiting just one more day I'd let a week get by. There's always a lot to do before and after a trip.

We enjoyed our visit so much. It seemed so short & sometimes feel as if I haven't even been yet. I hope next year we can have an extra week. I'm really in favor of two vacations each year. Some of us have thought of so many things we didn't do.

We got Nellie and the  
children off last Friday. She  
and Gene J. drove to Florida  
with her mother and sister  
who have been here about a  
month. Mary Ellen went by  
train to Savannah. (The kids  
gets car sick so they had to  
send her by train) We expected  
Big Gene to go to the beach  
with us Sunday but he didn't  
feel like it. When we came  
by late in the afternoon  
he had had his doctor in  
and was being taken to the  
hospital. His heart is not so  
good and he almost has  
pericarditis. You'd never

guess it to look at him. He's to stay in the hospital all week. If he's to be on a diet we may go out and stay with him until Nellie finishes her visit. He doesn't enjoy being alone so if we're any help we'll be glad to go. The sick girl is there but he may want us too. We don't want Nellie's trip ruined either.

Bill has joined a Tennis club and is having a good time playing each morning. He feels fine all the time now I'm glad to say. I'm taking up some Tennis this week. I won't play every day.

Fritzi is just doing fine. I won't say she's no trouble for she is but not much. We left her alone more than six hours yesterday and she behaved alright. We took her to the beach last week and she had a grand time. She'd go into the reef after her haul. She tasted so much salt water and sand she drank gallons of water when we got home.

I tried to call Anna  
to go to the beach with us  
Sunday but she was away  
for the week-end. I called  
Mrs Spidle but she too had  
an ~~engagement~~ engagement. We're getting there  
later. Bill has time off again  
the 26<sup>th</sup> 28<sup>th</sup> & 29<sup>th</sup>.

I haven't been to Town  
yet but plan to go tomorrow.  
Bill works tomorrow night  
so I won't have to hurry home.  
It's been too hot to go anywhere  
most of the time since we  
got back. We've just gone to the  
beach when it was possible.

do you hear from Emma?  
I hope she doesn't decide to  
stay away. I was so surprised  
to see her down there the morning  
she left. That's loyalty. She's really  
a fine person so I don't want  
her to get away.

Love to each of you and  
thanks again for your parts in  
our very pleasant vacation.

~~Love~~

Mama
