Honorable Harry Walker,  
Athens, Alabama.

Dear Mr. Walker:

As a member of our State Legislature and Speaker of the House, I feel that you could have a great influence in placing a young man in the State Department.

I have a young friend, Mr. Lester Romine here in Florence who is a real young Gentleman in every respect, so far as I know, who is anxious of getting a position with the State Department in Clerical Work. He <sup>is</sup> Twenty years of age and is a graduate of Coffee High at Florence and has completed a course in typing and bookkeeping offered in the school.

He needs a position and I feel that he will make a good man at his job if given the opportunity. Any favors shown him will be appreciated and remembered.

Yours very truly,

*J. A. Bendall*
