My dear Mrs. Walker,

I'm again been negligent
about writing, but I had to
drop everything and get moved.
I appreciate the stationery very
much indeed and am just
sorry we thought best to
move and change the
address. That won't keep me
from supplying writing the
stationery however.
We are very pleased

wish our new home and I
feel that we will find it
quite an advantage to live
here. It's centrally located and
the extra room adds much
to our comfort. I suppose Bill
wrote you why we thought
best to be within walking
distance and the difference
in the prices.

We have an extra bed
now so we would like

For you to visit us. We
were very glad to have
you just any time you can
come.

I suppose Bess has written
you of our second dinner with
the Stratfords. We can't under-
stand their interest in us and
it almost seems to grow. & he
called this morning and
asked us to spend the afternoon
in the ~~park~~ park with her and

wanted us to take supper
with them. I did spend the
afternoon with her but Miss
was out when I couldn't reach
him for the supper appointment.
I gave my last letter we
have added to our collection
of gifts a picture frame, three
guest towels, the new every
part set, Mrs ~~Robert~~ Horton's
cups, and one finger ring
spoon. Surely this is all we
need yet. Helen's gift is yet to
come and she wants to give

continuing electric.

I spend my long evenings
reading. I have read most
of the new ones, the new ones
order, the Book of Paradise, the
Briary Bush and others. We
are near the branch library
here so I expect to visit it
as frequently as I did the one
out at the other place.
much love to each of you
