ED E. REID
EXECUTIVE SECRETARY

August 30, 1935.

Hon. R. H. Walker,
Athens, Alabama.

Dear Mr. Speaker:

I had lunch today with Mr. Homer Williams, County Superintendent of Education of Lauderdale County who is attending the conference of County Superintendents here in Montgomery this week.

I discussed quite at length the Congressional situation with Mr. Williams, and found to my extreme delight that he considers you logically Mr. Carmichael's successor. When I stated to him that I would like very much to tell you that he was going to offer his support to your candidacy in the event that you run, he authorized me to state that unless Judge Fred Johnson announces, he is positive that he will support you actively and even feels that he would support you rather inactively if Judge Johnson ran. This, to me, was encouraging in view of the fact that Mr. Williams is considered quite a successful politician himself and usually, from all reports that come to me, does not remain quiet in any campaign.

You might write to him and state that I have just advised you that he plans to support you and express your appreciation for this favorable consideration.

Looking forward to seeing you here next week, I am

Yours very truly,

Ed E. Reid.
