Senator R.H. Walker,  
Athens, Alabama

My dear Senator:-

Please find enclosed copy of a letter which I have just addressed to Hon. Lawrence Lee, Legal Advisor to Governor Graves.

Won't you please take an interest in this matter and see if the suggestion of your Florence friends can be carried out?

The building of a million and a half dollar bridge is too much responsibility for any one man, and as you well know, that will be the case in the event one Commissioner was appointed from this vicinity and four from other parts of the State.

Any assistance in this matter will be greatly appreciated.

What is the situation regarding building the Lee Highway from Athens to Florence - a modern, up-to-date, wide, concrete highway, the best in the State?

Please tell me what can be done to bring this about.

Very sincerely yours,

T. M. ROGERS

TMR/MCK.
