Dear Senator:

I was very glad to have your letter of the 19th. Baughn and I have already discussed developments in the speakers' race and I am looking for an opportunity to do what we can in behalf of your candidacy.

I was especially pleased to hear that you are acceptable to the incoming governor because I believe that with a progressive in the governor's chair and another presiding over the house that we will go far in Alabama toward making the principles and ideals of the new deal effective in our state.

I am sure that you will agree with me that it is of great importance that the Tennessee Valley Authority keep out of politics and for that reason the information that they too would like very much to see you in the speakers' chair should be held strictly confidential.

Yours very truly,

Jimmy Mills.

Sen. R. H. Walker,
Limestone Democrat,
Athens, Ala.
