and gas development. The first tests are being made up the River, some 15 to 40 miles above your place, but, if successful, as they are almost certain to be, the development will be pushed not merely to the vicinity of your place but beyond. If it violates no confidence I would like to know the nature of the offer made you and the identity of the party making it. Trusting we may meet in the future often,
I am,

Yours very truly,

S. P. Hobson.
