

Athens, Alabama, July 30, 1930.

Hon. A. M. McConnell,
Athens, Alabama.

My dear Judge McConnell:

In line with our conversation on last evening, this is to advise you that I will sever my connection as county engineer of Limestone county, on October 1st, 1930.

In the meantime it shall be my pleasure, of course, to carry out the wishes of the commissioners court. I request, however, that the instructions be made as explicit and clear as possible.

I shall also endeavor to carry along the work of the office so as to be of the most value to the tax-payers.

The machinery and equipment will be cared for properly.

Respectfully yours,

A. P. HENDERSON,

County Engineer.
