

HARRY T. HARTWELL
MOBILE, ALABAMA

July 6, 1935.

Honorable Harry Walker,
Speaker, House of Representatives,
Montgomery, Alabama.

My dear Harry:-

I am very much interested in House Bill 531 which I believe is in the Health Committee of the House. The bill pertains to the practice of Chiropody and I understand is in force in forty-six of the States, Alabama and Georgia being the only two states that as yet have not adopted this legislation.

One of my good friends, Dr. John S. Blotzer, of this city is also interested in the bill and I do hope you will use your influence in having it placed on the calendar, as it has merit and, therefore, should be decided by vote of both the House and the Senate.

Yours very cordially,

Harry T. Hartwell.
