MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, MAY 7, 1945

Be it remembered that at a regular meeting of the Board of Revenue of Limestone County, Alabama, held at 10 a.m. on May 7, 1945, in the Courthouse, the usual place of meeting, there were present and presiding J. M. Holt, Chairman, and members, R. O. Moore, Edward Burgreen, John C. Batts, and Oscar Vinson. The following proceedings were had and done, to-wit:

The following resolution was introduced by John C. Batts and seconded by Edward Burgreen:

Whereas, it appears that the best interests of Limestone County would be served by the improvement of two miles of road known as the County Line Road, extending from Capshaw north to the Nick Davis Road, and

Whereas, that part of the Nick Davis Road which crosses Limestone Creek has no grade or roadbed and overflows after each rain causing the traffic from this section to detour by way of Capshaw, and

Whereas, the improvement of the said Nick Davis Road section known as No 10 on the approved State Aid County Road System is prohibitive under the federal limitation of five thousand dollars per mile, and

Whereas, the two mile section leading to Capshaw is on practically level land, requiring a minimum of drainage structures and can be constructed for considerably less than the amount set up in the limitation order, and

Whereas, a great number of the employees of the Huntsville Arsenal use this road commuting from home to work.

Therefore Be It Resolved, that the Director of the Alabama State Highway Department be requested to add this two miles of road to the State Aid County Road System of Limestone County and that the road be designated as County Line Road, Number 20, and

Be it further resolved that a copy of this resolution be sent to Mr. I. B. Rutledge, Chief of the Bureau of County Aid, Montgomery Alabama, and a copy to Mr. S. E. Caudill, Division Engineer, State Highway Department, Decatur Alabama.

A vote was taken and members R. O. Moore, Edward Burgreen, John C. Batts and Oscar Vinson voted aye, and no members voted nay, whereupon the resolution was declared adopted.

RESOLUTION FOR STATE AID ON ELKTON ROAD

County of Limestone

State of Alabama

WHEREAS, the Board of Revenue of Limestone County, Alabama, is desirous of constructing or improving, by force account under the provisions of the "Farm to Market Road Act of 1943", a section of road included in the Limestone County Road System, approved by the Alabama Highway Director under date of May 26th, 1944, and described as follows:

A section of the road noted on the State-Aid County Road System Map as Road Number 12 and locally known as the Upper Elkton or Ardmore-Athens Road; the section proposed for construction is 3.25 miles in length, beginning at the Carey Section and extending north to the Thach Section.

WHEREAS, the County agrees to conform to all the provisions of the said "Farm to Market Road Act of 1943", and to Section 14 of said Act in particular, which provides that "The County shall make provision for the maintenance of such road thereafter in accordance with standards established by the Bureau of County Aid, and enter into contract with the State therefor," with the full understanding that failure on the part of the County to satisfactorily maintain any section of road that may be constructed in this county under the provisions of said Act, shall be sufficient cause for the suspension of any further benefits to this County from the operation of such Act until such roads or sections thereof, shall be again placed in a state of maintenance satisfactory to the State Highway Department.

NOW THEREFORE BE IT RESOLVED, That application be made to the Bureau of County Aid, of the Alabama State Highway Department, to investigate the proposed improvement, and if it be found to conform to the eligibility requirements of the "Farm to Market Road Act of 1943," that the provisions of said Act be invoked to accomplish the said improvement at the earliest practicable date.

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, DECEMBER 3, 1945

The Board of Revenue of Limestone County, Alabama, met in regular meeting at the county courthouse in Athens, Alabama, on December 3, 1945, at 10 o'clock, A.M. The following were present: J. M. Holt, Chairman of said board, and the following members of said board: R. O. Moore, Edward Burgreen, John C. Batts, and Oscar Vinson. Mr. Holt presided as chairman of the meeting and, a quorum being present, declared the meeting open for the transaction of business.

Mr. John C. Batts introduced the following resolution and order, including the preambles thereto:

The Board of Revenue (which is herein referred to as "the board") of Limestone County (which is herein referred to as "the county") in the State of Alabama (which is herein referred to as "the state") has ascertained and does hereby find and declare as follows:

(a) It is desirable that the county construct and improve or aid in the construction or improvement of necessary public roads and bridges in the county, and that it purchase machinery and equipment necessary for such purposes. The board estimates that the total cost necessary to be paid by the county in the performance of such work and in order to acquire such machinery and equipment will be not less than \$150,000.00.

(b) The county does not now have and will not have from its income which will accrue prior to the end of its ensuing fiscal year, or prior to the completion of such work, funds which will be sufficient and available for said purposes. The county has ascertained that it will be impossible to raise funds for such purposes in any manner other than by anticipation of the proceeds which will be received by the county in the future from the tax levied by the state under Section 647 of Title 51 of the Code of Alabama of 1940, as amended, and distributed to the county pursuant to the provisions of Sections 655 and 657 of Title 51 of said code, as amended, and any substitute for said tax and any tax levied in lieu thereof (which taxes are together herein referred to as "said state tax"). To that end, in order to provide the funds necessary for said purposes, it will be necessary that the county anticipate the proceeds from said state tax by the issuance of the warrants of the county hereinafter authorized, payable in installments in the future in the manner hereinafter provided.

(c) During the following fiscal years of the county it received from the state, as the county's share of said state tax, the aggregate sums respectively set opposite the years indicated in the following schedule:

<u>During the county's</u> <u>fiscal year ending:</u>	<u>The county received</u> <u>the aggregate sum of:</u>
September 30, 1938	\$ 99,770.86
September 30, 1939	104,936.46
September 30, 1940	110,230.10
September 30, 1941	127,271.47
September 30, 1942	137,561.90
September 30, 1943	115,174.99
September 30, 1944	110,818.58

In the opinion of the board, the aggregate amount which will be received by the county as its share of said state tax during each of the fiscal years of the county to and including the fiscal year ending September 30, 1955, will be not less than the average of the said sums so received by it during its fiscal year ending in each of the years from 1938 to 1944, inclusive.

(d) There are no bonds, warrants, contracts or claims of any kind now outstanding which were issued or made by the county or exist against, or which are payable out of, the proceeds hereafter to be received by the county from said state tax, or for the payment of which such proceeds have been pledged, except the following.

\$4,000.00 principal amount of 3½% State Gasoline Tax Revenue Warrants of the county dated October 15, 1940, being the unpaid and outstanding portion of an issue of said warrants originally issued in the aggregate principal amount of \$150,000.00 pursuant to resolution and order adopted by the board on November 2, 1940; and

\$6,000.00 principal amount of 3½% Warrants of the county dated April 1, 1942, being the unpaid and outstanding portion of any issue of warrants of the county to the extent of \$10,700.00 in principal amount payable out of the Gasoline Fund of the county as the same was constituted on September 30, 1941, which warrants were authorized by resolution and order of the board adopted on April 20, 1942.

(e) All the proceeds which will be received by the county during the month of December, 1945, and during each month thereafter from said state tax distributed to the county under said Sections 655 and 657 of said Title 51 will be available for payment of the principal of and interest on the warrants herein-

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, DECEMBER 3, 1945

after ordered issued, except that portion thereof required for payment of the principal of and interest on the warrants referred to in paragraph (d) above. When the warrants hereinafter ordered issued shall be so issued they will constitute the first and only claim and lien on said proceeds which may hereafter be received by the county from the distributions respectively made to it under said section, except that portion of said proceeds required for payment of the principal of and interest on the warrants referred to in paragraph (d) above as now being outstanding and unpaid.

NOW, THEREFORE, it is hereby RESOLVE, ASCERTAINED, ORDERED AND DECREED by the board as follows:

(1) The findings and statements set out in the foregoing paragraphs lettered from (a) to (e), inclusive, are hereby found and declared to be true and are hereby adopted as a part of this resolution and order.

(c) All sums and amounts which shall be or become due or payable to the county by any succeeding, corresponding, equivalent, amended, supplemental or additional act or provision of law authorizing or relating to collections received by or apportioned to the county from gasoline or other motor fuel taxes, or the proceeds thereof, or any tax levied by the county or the state all or a portion of the proceeds of which may be received by the county in lieu of said state tax, and which the county shall be lawfully authorized to appropriate, transfer, pledge or use for the construction or maintenance of roads and bridges in the county or for the payment of the warrants and the coupons; it being the intention hereof to include and subject to and set aside, for the payment of the principal of and interest on the warrants, the afore-said portions of the proceeds payable to the county not merely by virtue of said Sections 655 and 657 of Title 51 of said Code of Alabama of 1940, as amended, but the proceeds payable to or collected by the county under any corresponding, successive, equivalent, amended, supplemental or additional provision of law or any law in lieu thereof which the county may lawfully pledge, assign or set apart for the purposes hereof, in such wise that if the allocation provided by said sections be repealed, amended or supplemented, any succeeding, corresponding, equivalent or additional fund shall be subject to the payment of the warrants and the interest thereon as contemplated thereby.

(6) Said special fund and all moneys at any time in or pertaining thereto, and the proceeds at any time payable to hereof and herein ordered paid into said special fund, are hereby assigned to the holders of the warrants and the coupons, are hereby pledged solely for the payment of the principal of and interest on the warrants and the coupons, and are hereby declared to be trust funds solely for the benefit of the warrants and the coupons. None of the proceeds so received by the county and herein ordered to be paid into said special fund, and no part of the said special fund or any of the moneys at any time forming a part thereof or pertaining thereto, shall be used for any purposes whatsoever other than for payment of the principal of and interest on the warrants and the coupons. Failure to pay into said special fund the proceeds received by the county from said tax or taxes, in accordance with the provisions hereof, or use of any of such proceeds for any purpose other than for which the same are hereby pledged, shall constitute a diversion thereof. Said assignment and pledge are made for the pro rata benefit of the warrants without preference or priority of one warrant over another by reason of prior issuance or registration thereof or otherwise. Said assignment and pledge shall be prior to any assignment or pledge of any proceeds from said state tax which may hereafter be made for the benefit of any other warrants of the county hereafter issued or any contract of the county hereafter made.

(7) The City National Bank of Tuscaloosa, a bank doing business in the City of Tuscaloosa, Alabama, is hereby designated as trustee for said special fund pursuant to the provisions of this resolution and order. Said special fund shall be held and treated by said trustee as a trust fund for the purposes herein provided. The county depository of the county is hereby ordered and directed to transmit forthwith to said trustee, out of the moneys receivable by the county in December 1945 from said state tax, the sum of \$1,202.50 required in paragraph (4) hereof to be paid into said special fund during the month of December 1945. The Department of Finance of the State of Alabama and any successor to its duties are hereby authorized and directed to transmit directly to said trustee such portion of all moneys hereafter payable to the county out of the taxes referred to in paragraph (5) hereof as may be necessary to make the payments into the said special fund in accordance with the provisions of paragraph (4) hereof beginning with the payment required therein to be made during the month of January 1946 and each month thereafter until and including the month of October 1954. The county depository of the county is hereby ordered and directed to take all steps that may be necessary to cause such payments to be made into said special fund, including the grant to said trustee of authority to collect the payments so provided to be made direct to said trustee by the said Department of Finance and the authority to endorse all warrants, vouchers and checks therefor and to apply the proceeds thereof toward payment of the principal of and interest on the warrants. The county agrees with each holder of the warrants and the coupons that, so long as any of the warrants and the coupons shall remain unpaid, it will not revoke the authority and direction for transmission directly to said trustee as contained in this paragraph. The said trustee is authorized and directed to pay the warrants and the coupons out of the moneys so paid into said special fund as and when the warrants and the coupons respectively mature, and thereupon cancel and transmit to the county depository the warrants and the coupons so paid. If any moneys remain in the said special fund following payment of all the warrants and the coupons, such moneys shall thereupon be remitted by said trustee to the county. Said Trustee may resign as such by written notice of such resignation given to the county, to the original purchaser of the warrants from the county, and to the said Department of Finance or the successor to its duties. In the event the said trustee should at any time hereafter resign or cease or ~~refuse~~ or become unable to act as a trustee hereunder said special fund and it shall thereupon become necessary to appoint a successor trustee to it, then the county may and agrees to appoint as such successor trustee a banking institution in the State of Alabama which shall be a member of the Federal Reserve System and all or any part of whose deposits shall be insured by the Federal Deposit Insurance Corporation or any similar instrumentality of the United States of America, if there is any such. In the event such successor trustee shall be so appointed the county shall, within five (5) days thereafter, give notice in writing of such appointment to the Department of Finance of the State of Alabama (or to the successor to its duties) and to the person to whom the warrants shall have been originally sold by the county. All provisions of this resolution applicable to such trustee shall likewise be applicable to any successor to it so appointed.

(8) The general faith and credit of the county are not pledged for the payment of the warrants or the coupons. The warrants and the coupons shall not be general obligations of the county but shall be payable solely out of said special fund. Neither this resolution nor any of the warrants or the coupons issued hereunder shall be deemed to impose upon the county any obligation to pay the principal of or interest on the warrants, or any other sum, except with the moneys herein directed to be paid into said special fund. None of the agreements, representations and warranties made or implied in this resolution and order, or in the issuance of the warrants and the coupons, shall ever impose any pecuniary liability upon the county, except with respect to the said moneys herein directed to be paid into said special fund.

(9) The forms of the warrants and the coupons and the registration thereof shall be substantially as follows, with appropriate changes therein to accord with the provisions thereof:

RESOLUTION

The following resolution was offered by Edward Burgreen and seconded by Oscar Vinson.

WHEREAS, at a conference of representatives of the Highway Departments of the States of Alabama and Tennessee held in Athens, Alabama some weeks ago it was agreed that each state would consider the construction of a secondary road leading from the end of the pavement on a state maintained road near Elkmont by way of Bethel, Tennessee and the Giles County Airport to a connection with Tennessee Highway No. 11 near Pulaski, and,

WHEREAS, the construction of this road in Limestone County would include the replacement of the Elk River Maples bridge which was destroyed by a cyclone in 1941, and,

WHEREAS, the Alabama Highway engineers have estimated that the construction of that section of the road in Limestone County including the bridge will cost approximately \$400,000, and

WHEREAS, the Alabama State Highway Officials have indicated a willingness to construct this section of highway including the river bridge provided Limestone County will participate in the cost to the amount of \$100,000 and,

WHEREAS, it appears to the best interest of Limestone County to enter into an agreement with the State Highway Department of Alabama to construct the road and bridge at the earliest date possible.

NOW THEREFORE BE IT RESOLVED THAT the State Highway Department be urged to make a survey of the route at the earliest time possible in order that plans may go forward for the construction in the first year's program.

AGREEMENT OF LEASE

THIS AGREEMENT, made and entered into on this 18th day of February, 1946, by and between Reconstruction Finance Corporation, hereinafter called RFC, and the City of Decatur, a municipal corporation, hereinafter called the City,

WITNESSETH:

R E C I T A L S

RFC is presently operating a storage and sales center (No. 36) at Pryor Field in Limestone County, Alabama, being the property formerly designated as Plancor 427, Southern Airways, Inc. RFC owns approximately thirty-three acres of land on which are located buildings, hangars and concrete ramps, and has under lease from Mrs. Lutie P. Shaw approximately six hundred acres of land in Section 34, Township 4 South of Range 4 West of the Huntsville Meridian, Limestone County, Alabama. Of said six hundred acres of land approximately three hundred acres is contained in the flying field proper and the other three hundred acres is being farmed or is unused at the present time.

The city of Decatur, the City of Athens, and Morgan and Limestone Counties are interested in establishing a community air field at said property. The use of the property by RFC as a storage and sales center is such that a community air field could be operated at the property without interfering with RFC's program. This contract is being executed by the City of Decatur for convenience and with the understanding that the City of Athens and the Counties of Morgan and Limestone may participate in the benefits and obligations hereof accruing to the City in the event satisfactory arrangements can be made by the City with such other municipalities. The City has a lease from Mrs. Lutie P. Shaw for the approximately three hundred acres contained in the flying field proper, which becomes effective upon cancellation of the RFC's current lease with the said Mrs. Lutie P. Shaw and runs for a period of one year with the right of renewal by the City for five yearly periods thereafter. The said Mrs. Lutie P. Shaw has agreed that RFC may cancel its current lease at any time and that she will refund the unearned portion of the prepaid rental to RFC.

NOW, THEREFORE, in consideration of the mutual covenants of the parties hereto and the mutual benefits to be derived by the parties hereto from this agreement, the said parties do agree as follows:

1. RFC will immediately cancel its lease from the said Mrs. Lutie P. Shaw and this contract shall become effective upon said cancellation of said lease.
2. RFC shall have the right to use the acreage leased by the City for landing, take-offs and other incidental purposes, and shall have the right to park and tie down its air craft on the portion of the acreage which is now being used for said purposes.
3. The City, or its operator or operators, shall have the full use of Hangar No. 3 and the joint use of the apron on the south of Hangar No. 3 and of the necessary approaches to this Hangar apron. The City agrees, during the term of this agreement, to lend its aid in every reasonable way, in preventing its operator, and his employees and customers, from indiscriminate or casual entrance into RFC buildings or areas, including the leased area on which RFC aircraft are parked.
4. The City, or its agents or operators, may install necessary gasoline tanks and pumps without cost or expense to RFC, adjacent to Hangar No. 4 on the property of RFC, without charge, and upon termination of this agreement the City shall have the right to remove such tanks, pumps and connections, provided that the premises shall be left in substantially the same condition as they are prior to the installation of said tanks, pumps and connections.
5. The RFC agrees to continue the payment of its current minimum electric and water bills, until June 24th, 1946, and as long thereafter as RFC stores aircraft on said leased acreage, and the City agrees to pay all excess charges over the minimum electric and water bills now being paid by RFC.
6. The City agrees to maintain said Hangar No. 3 and said apron and all of the other RFC property, the use of which it obtains under this agreement, and to carry fire and extended coverage insurance on said Hangar No. 3 in such amount as may be from time to time required by RFC, and upon final termination of this agreement to return said property to RFC in as good condition as when received, usual wear and tear excepted, and damage by fire and insurance is carried excepted.

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, MARCH 4, 1946

7. RFC agrees to perform routine maintenance, including mowing of grass on the approximately three hundred acres of land leased by the City, until June 24th, 1946, and as long thereafter as RFC stores aircraft on said leased acreage.

8. RFC agrees to remove all aircraft mooring anchors put in by them, and to fill all mooring wheel-holes dug by them, upon removal of RFC's parked aircraft from the leased portion of the field.

9. The City shall have the right to permit the City of Athens and Morgan and Limestone Counties, separately and severally, to participate in the benefits accruing to the City hereunder upon such terms as it shall desire.

10. The term of this agreement is continuous until cancelled by either of the parties and may be cancelled by either party by the giving of six months written notice to the other party. Said notice or any other communication hereunder shall be sufficient if given by registered mail, postage prepaid, to RFC at Birmingham, Alabama, and to the City of Decatur, Alabama.

11. It is mutually agreed that the RFC may assign its interest in this lease to any Government instrumentality, agency or corporation, and that upon the making of said assignment the RFC shall be relieved of any further responsibility or obligations; the rights, duties, privileges and obligations of the RFC then become vested in its assignee.

IN WITNESS WHEREOF, the parties hereto have executed this agreement of lease on the day and date first above written.

The Owner shall be entitled to twelve (12) copies of all drawings, twelve (12) sets of specifications, and six (6) sets of details. Additional sets shall be furnished parties requesting same at the cost of reproduction.

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, APRIL 15, 1946

Chairman, Board of Revenue

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, SEPTEMBER 16, 1946

The Board of Revenue of Limestone County, Alabama, met in regular meeting at the courthouse in Athens, Alabama, on September 16, 1946, at 10 o'clock, A. M.. The following were present; J. M. Holt, Chairman of said Board, and the following members of said board: R. O. Moore, Edward Burgreen, John C. Batts and Oscar Vinson. Mr. Holt presided as chairman of the meeting and a quorum being present, declared the meeting open for the transaction of business.

A RESOLUTION

Mr. Edward Burgreen introduced the following resolution and order, including the preambles thereto:

The Board of Revenue (which is herein referred to as "the board") of Limestone County (which is herein referred to as "the county") in the State of Alabama (which is herein referred to as "the state") has ascertained and does hereby find and declare as follows:

(a) It is desirable that the county construct and improve or aid in the construction or improvement of necessary public roads and bridges in the county, and that it purchase machinery and equipment necessary for such purposes. The board estimates that the total cost necessary to be paid by the county in the performance of such work and in order to acquire such machinery and equipment will be not less than \$25,000.00.

(b) The county does not now have and will not have from its income which will accrue prior to the end of its ensuing fiscal year, or prior to the completion of such work, funds which will be sufficient and available for said purposes. The county has ascertained that it will be impossible to raise funds for such purpose in any manner other than by anticipation of the proceeds which will be received by the county in the future from the tax levied by the state under Section 647 of Title 51 of the Code of Alabama of 1940, as amended and distributed to the county pursuant to the provisions of sections 655 and 657 of Title 51 of said code, as amended, and any substitute for said tax and any tax levied in lieu thereof (which taxes are to either herein referred to as "said state tax"). To that end, in order to provide the funds necessary for said purposes, it will be necessary that the county anticipate the proceeds from said state tax by the issuance of the warrants of the county hereinafter authorized, payable in installments in the future in the manner hereinafter provided.

(c) During the following fiscal years of the county, it received from the state, as the county's share of said state tax, the aggregate sums respectively set opposite the years indicated in the following schedule:

<u>During the county's</u> <u>fiscal year ending:</u>	<u>The county received</u> <u>the aggregate sum of:</u>
September 30, 1938	\$ 99,770.86
September 30, 1939	104,936.46
September 30, 1940	110,230.10
September 30, 1941	127,271.47
September 30, 1942	137,561.90
September 30, 1943	115,174.99
September 30, 1944	110,818.58
September 30, 1945	119,338.73

In the opinion of the board, the aggregate amount which will be received by the county as its share of said state tax during each of the fiscal years of the county to and including the fiscal year ending September 30, 1948, will be not less than the average of the said sums so received by it during its fiscal year ending in each of the years from 1938 to 1945 inclusive.

(d) There are no bonds, warrants, contracts or claims of any kind now outstanding which were issued or made by the county or exist against, or which are payable out of, the proceeds hereafter to be received by the county from said state tax, or for the payment of which such proceeds have been pledged, except the following.

\$84,000.00 principal amount of 3½% State Gasoline tax Revenue Warrants of the county dated October 15, 1940, being the unpaid and outstanding portion of an issue of said warrants originally issued in the aggregate principal amount of \$150,000.00 pursuant to resolution and order adopted by the board on November 2, 1940; and

\$145,000.00 principal amount of 1½% Warrants of the County dated November 1, 1945, being the unpaid and outstanding portion of any issue of warrants of the county to the extent of \$150,000.00 in principal amount payable out of the Gasoline Fund of the County as the same was constituted on September 30, 1945, which warrants were authorized by resolution and order of the board adopted on December 3, 1945.

(e) All the proceeds which will be received by the county during the month of October 1946, and during each month thereafter from said state tax distributed to the county under said Section 655 and 657 of said Title 51 will be available for payment of the principal of and interest on the warrants hereinafter ordered issued, except that portion of prior issues thereof required for payment of the principal of and interest on the warrants of prior issues referred to in paragraph (d) above. When the warrants hereinafter ordered issued shall be so issued they will constitute the first and only claim and lien on said proceeds which may hereafter be received by the county from the distribution respectively made to it under said section, except that portion of said proceeds required for payment of the principal of and interest on the warrants referred to in paragraph (d) above as now being outstanding and unpaid.

NOW THEREFORE, it is hereby RESOLVED, ASCERTAINED, ORDERED AND DECREED by the board as follows:

(1) The findings and statements set out in the foregoing paragraphs lettered from (a) to (e), inclusive, are hereby found and declared to be true and are hereby adopted as a part of this resolution and order.

4	October 1, 1948	5,000.00
5	January 1, 1949	5,000.00

The warrants shall bear interest at the rate of 2% per annum from their date until their respective maturities, which interest prior to maturity shall be payable semi-annually on April 1 and October 1 of each year. The warrants shall bear interest at the rate of 6% per annum after their respective maturities and shall be payable in lawful money of the United States of America at the principal office of the Limestone County Bank, in the City of Athens in the State of Alabama.

(3) The warrants shall be signed by the chairman of the board and the official seal of the board shall be affixed thereto and attested by the clerk of the board. The chairman of the board and the Judge of Probate of the county and the County Depository are hereby authorized and directed to register the warrants as claims against the State Gasoline Tax Anticipation Warrant Fund of 1946 of the County hereinafter referred to, which registration shall be made simultaneously with respect to all of the warrants.

(4) There is hereby established a special fund to be known as the "Limestone County Gasoline Tax Anticipation Warrant Fund of 1946" (which is herein referred to as "said special fund") for the purpose of providing for payment of the principal of and interest on the warrants. Said special fund shall be maintained until both the principal of and interest on the warrants shall be paid in full. There shall be paid into said special fund on or before the 15th day of each successive month, beginning with the month of October 1946, and continuing to and including the month of December 1948, the amounts respectively indicated in the following schedule:

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, SEPTEMBER 16, 1946

In addition thereto, there shall also be paid into said special fund during each successive six months' period commencing with the period beginning October 1, 1946 and continuing until the principal of and interest on all of the warrants shall have been paid in full, the following amounts: (a) the amount by which all payments made into said special fund during any preceding six months' period shall be less than the amount herein required to be paid into said special fund during such preceding period; (b) the amount of all sums theretofore paid into said special fund which shall have been lost or which is not for any reason immediately available for payment of such principal and interest; And (c) any additional sums which may be necessary to pay the principal of and interest on the warrants as said principal and interest are herein provided to be paid.

(5) The moneys so provided to be paid into said special fund shall be paid solely out of the monies which shall hereafter be or become due or payable to the county, or to which the county shall be entitled, from any of the following sources:

(a) All sums which shall be or become due or payable to the county as payment of its share of said state tax and allocated or distributed to the county pursuant to the provisions of Section 655 of Title 51 of the said Code of Alabama of 1940, as amended; plus

(e) All sums and amounts which shall be or become due or payable to the county by any succeeding, corresponding, equivalent, amended, supplemental or additional act or provision of law authorizing or relating to collections received by or apportioned to the county from gasoline or other motor fuel taxes, or the proceeds thereof, or any tax levied by the county or the state all or a portion of the proceeds of which may be received by the county in lieu of said state tax, and which the county shall be lawfully authorized to appropriate, transfer, pledge or use for the construction or maintenance of roads and bridges in the county or for the payment of the warrants; it being the intention hereof to include and subject to and set aside, for the payment of the principal of and interest on the warrants, the afore-said portions of the proceeds payable to the county not merely by virtue of said Sections 655 and 657 of Title 51 of said Code of Alabama of 1940, as amended, but the proceeds payable to or collected by the county under any corresponding, successive, equivalent, amended, supplemental or additional provision of law or any law in lieu thereof which the county may lawfully pledge, assign or set apart for the purpose hereof, in such wise that if the allocation provided by said sections be repealed, amended or supplemented, any succeeding, corresponding, equivalent or additional fund shall be subject to the payment of the warrants and the interest thereon as contemplated thereby.

(6) Said special fund and all moneys at any time in or pertaining thereto, and the proceeds at any time payable to hereof and herein ordered paid into said special fund, are hereby assigned to the holders of the warrants, are hereby pledged solely for the payment of the principal of and interest on the warrants, and are hereby declared to be trust funds solely for the benefit of the warrants. None of the proceeds so received by the county and herein ordered to be paid into said special fund, and no part of the said special fund or any of the moneys at any time forming a part thereof or pertaining thereto, shall be used for any purposes whatsoever other than for payment of the principal of and interest on the warrants. Failure to pay into said special fund the proceeds received by the county from said tax or taxes, in accordance with the provisions hereof, or use of any of such proceeds for any purpose other than for which the same are hereby pledged, shall constitute a diversion thereof. Said assignment and pledge are made for the pro rata benefit of the warrants without preference or priority of one warrant over another by reason of prior issuance or registration thereof or otherwise. Said assignment and pledge shall be prior to any assignment or pledge of any proceeds from said state tax which may hereafter be made for the benefit of any other warrants of the county hereafter issued or any contract of the County hereafter made.

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, SEPTEMBER 16, 1946

(7) The Limestone County Bank, a bank doing business in the City of Athens, Alabama, is hereby designated as trustee for said special fund pursuant to the provisions of this resolution and order. All provisions of this resolution applicable to such trustee shall likewise be applicable to any successor to it so appointed.

(8) The provisions of this resolution and order shall constitute a contract between the county and each holder of the warrants issued hereunder. Whenever all the agreements on the part of the county herein contained shall have been performed, then the obligation of the county hereunder shall thereupon cease.

(9) The various provisions of this resolution and order are hereby declared to be severable. In the event any provision hereof shall be held invalid by a court of competent jurisdiction, such invalidity shall not effect any other portion of this resolution and order.

Samuel
Chairman, Board of Revenue

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, DECEMBER 2, 1946

The Board of Revenue of Limestone County, Alabama, met in regular session on December 2, 1946 at 10:00 o'clock, A. M., at the county courthouse in Athens, Alabama, the said date being the first Monday in said month. The following were present: J. M. Holt, Chairman of the board, and the following members of the board: R. O. Moore, Edward Burgreen, John C. Batts and Oscar Vinson; Absent: None. Martha W. Hunter, the clerk of the board, was also present at the meeting and acted as clerk thereof. Mr. Holt acted as chairman of the meeting and, a quorum being present, declared the meeting open for the transaction of business.

Mr. Edward Burgreen introduced the following resolution:

The Board of Revenue (which is herein referred to as "the board") of Limestone County (which is herein referred to as the "the county") has ascertained and does hereby find and declare as follows:

(1) Prior to March 16, 1942, the county constructed a bridge which was commonly referred to as the "Bethel Bridge" (herein called "the bridge") and which was located across Elk River on one of the principal highways of the county connecting the City of Athens with the division line between the States of Alabama and Tennessee near the community known as Bethel, Tennessee. The said bridge was of substantial construction, consisting of four steel truss spans on limestone rock abutments, and was in excellent condition. It was extensively used by the inhabitants of the county living nearby and also by the traveling public generally, and it constituted an important link in the highway system of the county.

(2) On the aforesaid date a tornado, accompanied by winds of great velocity, struck the bridge, blowing it upstream and also blowing the intermediate piers thereof over in the same direction, all resulting in substantially total destruction of the bridge and rendering it wholly incapable of use. Because of the scarcity of materials and labor caused by the fact that the United States was at war at the time of and for several years following such destruction, and because of the continued shortage of materials and labor since the cessation of hostilities incident to such war, it has been impossible for the county to replace or rebuild the bridge prior to this time. Because of the high banks along Elk River at and near the place where the bridge was located prior to its destruction, it has been impractical to operate a ferry thereat. As a result of the foregoing facts it has been impossible for vehicular traffic to cross the said river at or near the said location and, in order for such traffic to cross said river, it has been since the said destruction of the bridge and is now necessary for all traffic to detour approximately twelve miles distant to the nearest bridge over said river. Such detour causes great inconvenience to the citizens of the county living in the vicinity of the bridge and causes much delay and loss of time to all who travel over the said road. The population is increasing in the section of the County in which the bridge was located, and the said road is constantly becoming of greater importance as a means of travel both to those citizens of the county who live in the vicinity thereof and to the public generally.

(3) The board is of the opinion that it is necessary to construct a new bridge at approximately the said former location in order to provide adequate means of travel for the citizens of the county, and the board is of the opinion that the construction of such new bridge is essential to any reasonable system of public highways in the county. The board has succeeded in interesting the State of Alabama and the United States in the construction of such bridge, and they have both agreed to contribute to the cost thereof, but if such work is to be done it will be necessary for the county to pay portion of such cost.

(4) The said destruction of the bridge constituted a situation resulting from an act of God over which the board had no control, and has resulted in an appreciable obligation against the county over and above what the board had reason to anticipate both at the time of such destruction and at all times since then and at the present time. In consequence thereof, an emergency obligation on the part of the county has arisen requiring the construction of a new bridge at approximately the same location and the expenditure by the county of moneys necessary therefor. At the time of such destruction and at all times since then and at the present time there have not been and are not now any moneys from any of said current years' incomes available to pay therefor. In order to raise the moneys required for such purpose it will be necessary for the county to sell and issue its warrants hereinafter authorized, payable in installments over a period of years. Thornton, Mohr & Co. has offered to purchase such warrants from the county and the offer made by it is the best offer the county has been able to secure. In the opinion of the board it will be to the best interests of the county and its citizens and taxpayers for such offer to be accepted and for such warrants to be sold and issued as hereinafter provided.

NOW, THEREFORE, it is hereby RESOLVED, ASCERTAINED, ORDERED AND DECREED by the board as follows:

Section 1. The findings and statements set out in the foregoing paragraphs numbered from (1) to (4), inclusive, are hereby found and declared to be true and are hereby adopted as a part of this resolution and order.

Section 2. Pursuant to the applicable provisions of the constitution and laws of the State of Alabama, including particularly Section 90 of Title 12 of the Code of Alabama of 1940, and for the purpose of constructing a new bridge at approximately the site at which the aforesaid Bethel Bridge was formerly located, there are hereby authorized to be sold and issued by the county one hundred General Obligation Bridge Warrants (which are herein referred to as "the warrants") of the county aggregating \$100,000.00 in principal amount, to be numbered consecutively from 1 to 100,

MINUTES, LINSTONE COUNTY BOARD OF REVENUE, DECEMBER 2, 1946

inclusive, to be in the denomination of \$ 1,000.00 each, to be dated January 1, 1947, and to mature as follows:

Warrants Numbers (both inclusive)	Maturity Date	Aggregate Principal Amount
1 to 10	January 1, 1948	\$10,000
11 to 20	January 1, 1949	10,000
21 to 30	January 1, 1950	10,000
31 to 40	January 1, 1951	10,000
41 to 50	January 1, 1952	10,000
50 to 60	January 1, 1953	10,000
61 to 70	January 1, 1954	10,000
70 to 80	January 1, 1955	10,000
80 to 90	January 1, 1956	10,000
91 to 100	January 1, 1957	10,000

The warrants shall bear interest at the rate of $1\frac{1}{2}\%$ per annum from their date until their respective maturities, which interest shall be payable semi-annually on January 1 and July 1 of each year and shall be evidenced by separate interest coupons (which are herein referred to as "the coupons") attached to the warrants. The warrants and the coupons shall bear interest at the rate of 6% per annum after their respective maturities and shall be payable in lawful money of the United States of America at the principal office of The First National Bank of Birmingham, in the City of Birmingham in the State of Alabama.

Section 3. The warrants shall be signed by the chairman of the board and by each of the board members, and the official seal of the board shall be affixed thereto and attested by the clerk of the board. The coupons shall bear the facsimile signature of the said chairman, which shall be valid in all respects as if signed by him in person. The chairman of the board, the Judge of Probate of the county and the county depository are hereby authorized and directed to register the warrants and the coupons as claims against the county and the revenues of the county hereinafter pledged for payment thereof, which registration shall be made simultaneously with respect to all the warrants and the coupons. The county depository is hereby authorized and directed to pay the warrants and the coupons as and when they shall respectively mature.

Section 4. The warrants shall be and evidence general obligations of the county for the payment of which the full faith and credit of the county are hereby irrevocably pledged. In addition thereto, the county does hereby appropriate and agree to segregate, expend and use, and does hereby irrevocably pledge, for payment of the principal of and interest on the warrants as said principal and interest shall respectively mature, the special ad valorem tax of one-fourth of one per centum ($1/4$ of 1%) which is authorized to be levied and collected annually by the county under the provisions of Section 215 of the Constitution of Alabama for the payment of any debt or liability incurred by the county in the erection of public buildings, bridges and roads, together with the revenues received by the county from the levy and collection of said special tax. Such pledge, however, is made only to the extent that may be necessary to pay the principal of and interest on the warrants as said principal and interest shall respectively mature, and any such revenues not needed for that purpose may be used by the county for any lawful purpose for which said special tax shall be levied. The said pledge shall be and remain prior and superior to any pledges, charges or obligation hereafter made or incurred against said special tax. In addition thereto, in the event the revenues from said special ad valorem tax available for payment of the principal of or interest on the warrants shall not be sufficient for such purpose, the county agrees to make up any deficit from such source from the general revenues of the county.

Section 5. The county does hereby agree to levy and collect the said special tax each year as long as the principal of and the interest on the warrants shall remain unpaid, and to use annually so much of the revenues derived therefrom as may be necessary to pay the said principal and interest as the same shall respectively mature. The revenues from the said special tax to the extent to which the same have been so pledged for the benefit of the warrants are hereby declared to be trust funds and the said revenues to the extent to which the same are so pledged shall not be used for any purpose whatsoever other than for the payment of the principal of and interest on the warrants.

Section 6. The form of the warrants and coupons and the form thereon for certification of registration and for assignment thereof shall be substantially as follows, with appropriate changes therein to accord with the provisions of this resolution and order:

COUNTY OF LIMESTONE

GENERAL OBLIGATION BRIDGE WARRANT

The County of Limestone in the State of Alabama hereby acknowledges that it is justly indebted to, and the county depository of said county is hereby directed to pay to, Thornton, Mohr & Co., the registered holder

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, DECEMBER 2, 1946

hereof, or to its registered transferee or endorsee, the sum of

ONE THOUSAND DOLLARS

With interest meanwhile on said indebtedness at the rate of $1\frac{1}{2}\%$ per annum payable semi-annually on January 1 and July 1 in each year until maturity hereof upon presentation and surrender of the appropriate interest coupons thereof hereto attached as the same respectively become due, and after maturity hereof at the rate of 6% per annum. Both the principal hereof and the interest hereon are payable in lawful money of the United State of America at the principal office of The First National Bank of Birmingham, in the City of Birmingham in the State of Alabama.

This warrant is one of a series of warrants of like tenor and effect, except as to their number and maturity dates aggregating \$100,000 in principal amount, and has been issued pursuant to the constitution and laws of the State of Alabama, including particularly Section 90 of Title 12 of the Code of Alabama of 1940, and a resolution and order of the governing body of the county duly and legally adopted to pay costs incurred in the construction of a necessary public bridge in the county.

The indebtedness evidenced by this warrant is a general obligation of the county for the payment of the principal of and interest on which the full faith, credit, resources and taxing powers of the county are hereby irrevocably pledged. In addition thereto, the county hereby agrees to levy annually, until the said series of warrants and the interest thereon shall have been paid in full, all taxes which it is now authorized to levy under the constitution and laws of the State of Alabama, including specifically the special ad valorem tax of one-fourth of one per centum ($1/4$ of 1%) authorized under the provisions of Section 215 of the Constitution of Alabama to be levied by the County for the payment of indebtedness incurred in the erection of necessary public buildings, roads and bridges. The County does further hereby agree to segregate, expend and use, and hereby irrevocably pledges so much of said special ad valorem tax and the revenues derived therefrom as shall be necessary to pay the principal of and interest on the said series of warrants as said principal and interest respectively mature.

It is hereby certified and recited that the claim or indebtedness evidenced and ordered paid by this warrant has been duly verified, audited, allowed and passed by the governing body of the county as a legal claim against the county; that such indebtedness is lawfully due without condition, abatement or offset of any description; that this warrant has been registered in the manner required by law; that all conditions, actions and things, required by the constitution and laws of the State of Alabama to exist, be performed and happen precedent to and in the issuance of this warrant exist, have been performed and have happened; that the indebtedness evidenced and ordered paid by this warrant, together with all other indebtedness of the county, was when created and is now within every debt and other limit prescribed by the constitution and laws of the State of Alabama; and that provision has been made for the segregation and use of funds receivable by the county solely for the payment of the indebtedness evidenced and ordered paid by this warrant and the interest hereon, which funds are hereby represented to be sufficient for such purpose.

This warrant is nonnegotiable but is transferable by assignment noted hereon, and each taker, owner, purchaser or holder hereof, by receiving or accepting this warrant or any interest coupon, shall consent and agree and shall be estopped to deny: (1) that title to the coupons hereunto appertaining may be transferred by delivery without the necessity of a written assignment; (2) that any person in possession of any such coupons, regardless of the manner in which he shall have acquired possession, is authorized to represent himself as the absolute owner thereof, and has the power and authority to transfer absolute title thereto by delivery thereof to a bona fide purchaser for value (present or antecedent) without notice of prior defenses or equities or claims of ownership enforceable against his transferor or any person in the chain and before the maturity thereof; (3) that he has waived and renounced all of his equities or rights therein in favor of every such bona fide purchaser, and every such bona fide purchaser shall acquire absolute title thereto and to all rights represented thereby; and (4) that whenever and as often as this warrant shall be assigned in blank the county may treat any person in possession of this warrant, regardless of how such possession may have been acquired and regardless of the genuineness or effectiveness of any assignment, as the absolute owner for all purpose and payment to any such person shall discharge all obligations hereunder.

IN WITNESS WHEREOF, the county, acting by and through its Board of Revenue, has caused this warrant to be executed in its behalf by the chairman and members of said board, each of whom has hereunto affixed his signature, has caused the seal of said board to be hereunto affixed and attested by the clerk of said board, who has hereunto subscribed her signature, has caused the annexed interest coupons to be executed with the facsimile signature of the chairman of said board, and has caused this warrant to be dated January 1, 1947.

A G R E E M E N T

This agreement made and entered into this 4th day of December One Thousand Nine Hundred and Forty Six, by and between the STATE OF ALABAMA HIGHWAY DEPARTMENT, party of the first part, (hereinafter called the State) and Limestone County, by and through its Commissioners Court (or Board of Revenue), party of the second part, (hereinafter called the County).

WHEREAS, Section 13 of the Alabama Farm to Market Road Act of 1943, as amended by House Bill 64, approved June 1, 1945, authorized the appropriation of \$ 2,500,000 from the State Treasury to the credit of the Highway Department with such funds to be held in reserve by the Highway Department to be used 1/67 in each county on County Farm to Market Roads without matching by the counties but to be matched with the like sum of Federal Aid Funds, and

WHEREAS, the said \$ 2,500,000 has been deposited in what is known as the "Trust Fund County Farm to Market Roads" and, when matched by a like sum of Federal funds, will entitle the county to a project costing \$ 74,626.86, and

WHEREAS, the above sum for the county is to cover construction costs and engineering and inspection charges in connection therewith, and

WHEREAS, in addition to the above described funds, Section 3 of the Farm to Market Road Act authorizes the appropriation to the county of 1/67th part of one cent of the State gasoline excise tax provided same is matched by an equivalent amount of County funds, and

WHEREAS, it is the desire of the State and County to combine the funds accruing from both of the above mentioned sections and apply same toward the understanding that the award of the contract will be made by the State.

NOW, THEREFORE, in consideration of these premises, the mutual covenants herein contained, and the sum of \$1.00 by each of the parties to the other in hand paid, receipt whereof is hereby acknowledged, the parties hereto agree as follows:

That the State will enter into an agreement with the Public Roads Administration covering the improvement of the road and or bridge from Mt Rozelle to Good Springs, known as Project No. S 351 (2), and will include such project in a contract to be awarded by the State with the improvement of the road and/or bridge from Mt Rozelle to Goode Springs,

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, DECEMBER 2, 1946

known as Project No. SACP 128 A.

That the County hereby agrees to authorize the State to transfer sufficient unobligated funds accrued to the credit of the county and held in the funds of the State to cover one-half of the cost in excess of \$74,626.86, and the County agrees to pay to the State on or before the award of the contract a like amount of unobligated funds accrued in the Treasury of the County to match such funds. Should the funds as provided in Section 13, i. e., \$74,626.86, plus the funds accrued to the credit of the County in the State Treasury, plus the funds accrued in the County Treasury for matching same fail to be sufficient to cover the amount of the contract plus 10 per cent for engineering and contingencies, the County will on or before the award of the contract pay to the State the difference in such amount. Should the engineering and contingencies plus the amount of the final estimate be less than the amount of the contract plus the anticipated engineering and contingencies, the State will reimburse the County for all underruns. Should engineering and contingencies plus the amount of the final estimate be more than the amount of the contract plus the anticipated engineering and contingencies, the County will reimburse the State for all such overruns.

IN WITNESS WHEREOF, the State of Alabama Highway Department has caused these present to be executed by N. E. Rogers, Acting Highway Director, and Limestone County, by proper resolution of its Commissioners Court (or Board of Revenue), has caused these present to be executed this the day and year above written.

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, JULY 7, 1947

Be it remembered that a regular meeting of the Board of Revenue of Limestone County, Alabama, held at 10 A. M. on July 7, 1947, in the Courthouse, the usual place of meeting, there were present and presiding Chairman, J. M. Holt, and members T. V. Barksdale, Edward Burgreen, John C. Batts and Oscar Vinson. The following proceeding were had and done to-wit:

Recognizing a need for additional voting places in some of the beats of the County, the members of the Board considered various ways of spitting up the large boxes in order that the work of the election officials may be less burdensome. Disposition of the question was deferred until more study could be given to the selection of proper polling places. It was agreed that action would be taken in due time for the next election.

Dr. Shelamer, County Health Officer came before the Board to recommend additional services in health work and to talk about the budget for 1947-48.

COUNTY OF LIMESTONE

STATE OF ALABAMA

WHEREAS, the Board of Revenue of Limestone County, Alabama, is desirous of constructing or improving, by force account under the provisions of the "Farm to Market Road Act of 1943", a section of road included in the Limestone County Road System, approved by the Alabama Highway Director under date of May 26th, 1944 and described as follows:

A section of road noted on the State Aid County Road System Map as Road Number 4 and on the Federal Aid Secondary System as Road Number FAS 64 and locally known as the New Cut Road. WHEREAS, the County agrees to conform to all the provisions of the said "Farm to Market Road Act of 1943", and to Section 14 of said Act in particular, which provides that "The County shall make provisions for the maintenance of such road thereafter in accordance with standards established by the Bureau of County Aid, and enter into contract with the State therefor", with the full understanding that failure on the part of the County to satisfactorily maintain any section of road that may be constructed in this county under the provisions of said Act, shall be sufficient cause for the suspension of any further benefits to this county from the operation of such Act until such roads or sections thereof, shall be again placed in a state of maintenance satisfactory to the State Highway Department.

NOW THEREFORE BE IT RESOLVED, that application be made to the Bureau of County aid, of the Alabama State Highway Department, to investigate the proposed improvement, and if it be found to conform to the eligibility requirements of the "Farm to Market Road Act of 1943", that the provisions of said Act be invoked to accomplish the said improvement at the earliest practicable date.

The following resolution was offered by Member Edward Burgreen and seconded by Member Oscar Vinson;

Whereas in the construction of the Maples Bridge and the road to the Tennessee line near Bethel, it was necessary to obtain a rightofway 120 feet in width, and

Whereas the owners of the land signed the easement for the road right of way and gave the land required for the 120 foot width without cost to the county, and

Whereas to complete the fill and approaches to the bridge it becomes necessary to acquire additional land in the amount of about five acres from which about 15,000 cu yd. of dirt may be obtained, and

Whereas the taking of the borrow from the area will render the land unproductive for a long time and will damage the land.

Now Therefore Be It Resolved that Limestone County acting through the Board of Revenue agree to pay the owners at the rate of one hundred dollars per acre for the borrow material taken and that payment be made after the material has been taken. A vote was taken and all members voted aye and the resolution was declared adopted.

Resolution adopting and Approving the Execution of the Sponsor's Assurance Agreement to be Submitted to the Administrator of Civil Aeronautics, U. S. Department of Commerce, to Obtain Federal Aid in the Development of Pryor Field.

BE IT RESOLVED BY THE BOARD OF REVENUE OF LIMESTONE COUNTY, ALABAMA AS FOLLOWS:

SECTION 1. That Limestone County, Alabama, shall enter into a Sponsor's Assurance Agreement for the purpose of obtaining Federal Aid in the development of Pryor Field and that such agreement shall be as set forth hereinbelow.

SECTION 2. That the Chairman, J. M. Holt, is hereby authorized and directed to execute said Sponsor's Assurance Agreement in quadruplicate on behalf of Limestone County, Alabama, and he is hereby authorized and directed to impress the official seal of said County thereto.

SECTION 3. That the Sponsor's Assurance Agreement referred to hereinabove shall be as follows:

DEPARTMENT OF COMMERCE
Civil Aeronautics Administration
Federal Airport Program

SPONSOR'S ASSURANCE AGREEMENT

SECTION 1. For and in consideration of the execution by the United States of a Grant Agreement obligating the United States to pay a portion of the allowable projects costs of a project for development of the Pryor Field airport under the provisions of the Federal Airport Act, and the Regulations promulgated thereunder, the City of Decatur, City of Athens, Morgan County, Alabama and Limestone County, Alabama, jointly and severally, hereinafter called the "Sponsor", for itself, its successors, or assigns does hereby covenant and agree with the United States as follows:

a. All terms used in this Agreement which are defined in the Federal Airport Act, and the Regulations promulgated thereunder, shall have the meaning given to them in such Act and Regulation.

b. Insofar as legally possible, the sponsor will maintain a master plan of the airport, including building areas, approach areas, and landing areas indicating present and future proposed development commensurate with the airport and with current approval of the Administrator; and in establishing additional improvements, the sponsor will conform to such master plan or approved changes thereto.

c. During the term of this agreement, the airport will be operated continuously as such and for no other purpose and will at all times be operated for the use and benefit of the public, and on fair and reasonable terms and without unjust discrimination.

d. The sponsor will not hereafter use or permit the use of the airport exclusively for air carrier operations, unless there are other public airport facilities in the area adequate to serve other types of users; it will not grant, exercise, or permit the exercise of any exclusive right for use of the airport by one air carrier operator, or for rental of aircraft to the public, for conducting charter flights, or for operating a flying school, and that, after the date of this agreement, it will not grant or authorize the grant of exclusive right at the airport for selling aircraft, aircraft, aircraft parts or equipment, or for repairing aircraft and engines, or for carrying on other airport services or fixed base operations of an aeronautical nature. Nothing contained herein shall be construed to waive or abrogate the requirements of section 303 of the Civil Aeronautics Act of 1938. In the interests of safety, the Administrator may waive in writing compliance with any or all the provisions of this sub-section.

e. Except as provided in d. above, the sponsor will permit all qualified operators, on reasonable terms and without unjust discrimination, to use the airport for any aeronautical business or operation up to the capacity of the airport.

f. The sponsor will not hereafter grant to any one an exclusive right to sell aviation gasoline or oil.

g. During the term of this agreement the sponsor will continuously maintain in good and serviceable condition and repair the entire airport and all buildings and other improvements, facilities, and equipment, other than facilities or equipment owned or controlled by the United States, provided however, in meeting this requirement the airport is not expected to be operated and maintained for aeronautical uses during temporary periods when climatic or flood conditions interfere substantially with operation and maintenance during such periods. Essential facilities, including night lighting systems, when installed, will operated in such manner as to assure their availability to all users of the airport.

MINUTES, LILESTONE COUNTY BOARD OF REVENUE, MARCH 1, 1948

h. The sponsor will replace and repair all buildings, structures, and facilities developed under the project if such are destroyed or damaged, replacing or restoring them to a condition comparable to that preceding the destruction or damage.

i. If the land or improvements thereon, acquired or developed under the project, are sold, condemned, or otherwise disposed of, wholly or in part, the United States will be reimbursed in proportion to its original investment in the property so disposed of, but not exceeding its original share in the portions so disposed of, except that if the proceeds are used by the sponsor for airport purposes within two years or if a transfer is made pursuant to this agreement to another public agency or agencies for operation as an airport, there shall be no reimbursement to the United States.

j. Insofar as is within its powers and reasonably possible the sponsor will prevent the use of any land either within or outside the boundaries of the airport, including the construction, erection, alteration, or growth of any structure or other object thereon, which would be a hazard to the landing, taking-off, and maneuvering of aircraft at the airport, or otherwise limits its usefulness as an airport. With respect to land outside the boundaries of the airport, the sponsor will move or cause to be moved any growth, structure or other object thereon which would be a hazard to the landing, taking-off, or maneuvering of aircraft at the airport, or when such is not feasible, it will mark or light such growth, structure, or other object. The airport approach standards to be followed in this connection shall be those established by the Administrator in Office of Airports Drawing No. 672 dated September 1, 1946, unless otherwise authorized by the Administrator. Insofar as legally possible, the sponsor will adopt and enforce zoning ordinances and regulations to safeguard aircraft flight operations within the airport hazard areas as defined in the above mentioned drawing, prohibiting the creation, establishment, erection, and construction of hazards to air navigation; or insofar as reasonably possible will acquire such easements or other interests in lands and air space as may be necessary to perform the covenants of this paragraph.

k. All facilities of the airport developed with Federal aid and all those usable for the landing and taking-off of aircraft will be available to the United States at all times without charge for use by military and naval aircraft in common with other aircraft, except, if the use by military and naval aircraft shall be substantial, a reasonable share, proportional to such use, of the cost of operating and maintaining facilities so used, may be charged.

l. The sponsor will furnish to any civil agency of the United States without charge (Except for light, heat, janitor service, and similar facilities and services at the reasonable cost thereof), such space in airport buildings as may be reasonably adequate for use in connection with any airport air traffic control activities, weather-reporting activities and communications activities related to airport air traffic control, which are necessary to the safe and efficient operation of the airport and which such agency may deem necessary to establish and maintain at the airport.

m. The sponsor will maintain a current system of airport accounts and records, using a system of its own choice, sufficient to provide annual statements of income and expense, balance sheet and affiliated fiscal reporting. It shall, upon reasonable request, furnish the Administrator with annual or special financial and operations reports. Such reports may be submitted to the Administrator on forms furnished by him, or may be submitted in such other manner as the sponsor elects, provided the essential data is furnished. The airport and all airport accounts and records will be available for inspection at any time, upon reasonable request, by the regional Superintendent of Airports or his authorized representatives.

n. The sponsor will not enter into any transaction which would operate to deprive it of any of the rights and powers necessary to perform any or all of the covenants made herein, unless by such transaction the obligation to perform all such covenants is assumed by another public agency eligible under the regulations issued pursuant to the Federal Airport Act, to assume such obligations and having the power, authority, and financial resources to carry out all such obligations. If the management and operations of the airport is relinquished wholly or in part, the sponsor agrees that it will reserve sufficient powers and authority to insure that the airport will be operated and maintained in accordance with the Act and the regulations.

o. The sponsor will furnish to the Administrator through the District Airport Engineer within ten days after their execution or adoption, three copies of all deeds, leases, operation or management agreements, laws, ordinances, rules and regulations, or other instruments affecting the aeronautical use of the airport. All leases, operation or management agreements or other instruments affecting the aeronautical use of the airport shall contain a provision that such documents shall be subordinate and subject to the provisions of this agreement.

p. The sponsor will acquire prior to June 1, 1948 the following property interests as shown on Exhibit "A": Attached hereto and made a part hereof: Fee simple title, subject to no liens or encumbrances, to the property shown and legally described on said Exhibit "A"2.

SECTION 2. In order to satisfy the Administrator that the sponsor is qualified to sponsor the project under the requirements established by the Act and the Regulations, and to induce the United States to enter into a Grant Agreement with respect to the project, the sponsor does hereby warrant and represent to the United States as follows:

b. That it has sufficient funds available for that portion of the project costs which is not to be paid by the United States;

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, MARCH 1, 1948

c. That it has the power and authority, of itself or through an agent, to receive a grant of Federal Funds under the Act;

d. That it has the power and authority to make these assurances and to perform all the covenants and agreements contained herein;

e. That it is legally and financially able to operate and maintain the airport and to perform all the covenants contained herein;

f. That there is no pending litigation or other legal proceeding, and no material or relevant fact, which might adversely affect the prosecution of the project, the operation of the airport, or the performance of any of the covenants contained in Sections 1 and 2 hereof, which has not been brought to the attention of the Administrator.

SECTION 3. This agreement shall become effective immediately except that Section 1 hereof shall not be effective until the execution of the Grant Agreement. This agreement shall be incorporated in the Grant Agreement and become part thereof. This Agreement shall remain in full force and effect during the useful life of the facilities developed under the project but in any event not to exceed twenty years from the date of the execution of the Grant Agreement.

SECTION 4. If any provisions of this agreement or any application thereof shall be held invalid, such invalidity shall not affect any provisions or application of this Agreement which can be given effect without the invalid provisions or application.

SECTION 5. This document constitutes the (sponsor's) assurance as required under Section 9 and 11 of the Act and shall be referred to as the "Sponsor's Assurance Agreement".

SECTION 6. TO: The City of Decatur, the City of Athens, Morgan County, Alabama,
and Limestone County, Alabama, Civil Aeronautics Administration
and State Department of Aeronautics:

We, L. B. Wright and H. A. Wyatt each being real estate dealers in Decatur, Alabama, and having knowledge of values of urban and rural property in this vicinity and particularly in Limestone County, Alabama, in the vicinity of Pryor Field, hereby certify that we are familiar with the tract of land containing two hundred acres which is proposed to be acquired by the City of Decatur, City of Athens, Morgan County, Alabama, and Limestone County, Alabama, in Section 34, Township 4 South, of Range 4 West, in Limestone County, Alabama and have made a careful physical inspection of said land and that in our opinion said land has a reasonable market value of \$ 325.00 an acre, or total of \$ 65,000.00, which the said municipalities propose to pay to the owners of said property for the same.

Said land is especially fine land from an agricultural standpoint and is reasonably worth \$ 325.00 an acre on today's market for agricultural purpose, but has been used as an aircraft landing field for several years under rental agreement with the owners and has had many thousands of dollars expended in grading and drainage, which makes it far more valuable for airport purpose than it is for agricultural purposes.

The Board of Revenue Adjourned to meet March 29th, 1948 at 11:00 o'clock at the Courthouse.

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, MARCH 29, 1948

The Board of Revenue of Limestone County, Alabama, met in adjourned regular session on March 29, 1948, at 11:00 o'clock, A.M., at the county courthouse in Athens, Alabama in continuation and adjournment of the regular term or session held on March 15, 1948. The following were present: J. M. Holt, Chairman of the board, and the following members of the board: Edward Burgreen, Oscar Vinson, John C. Batts, and Thomas V. Barksdale; absent: None. Martha G. Hunter, the clerk of the board, was also present at the meeting and acted as clerk thereof. Mr. Holt acted as chairman of the meeting and a quorum being present declared the meeting open for the transaction of business.

Discussion was had of a proposal that the county construct a public hospital building in the county which had been requested by a large number of citizens of the county. After such discussion the following resolution and order, including the preambles thereto, was introduced by Mr. Edward Burgreen and read to the meeting:

The Board of Revenue (herein called "the board") of Limestone County (herein called "the county") in the State of Alabama has ascertained and does hereby find and declare as follows:

(a) In order to afford proper hospital facilities for the citizens of the county it is necessary that the county construct a new public hospital building in the county. The board estimates that the total cost to the county for such construction will be not less than \$ 200,000.

(b) The county does not now have and will not have from its income which will accrue prior to the end of its current fiscal year or prior to the completion of the construction of such hospital funds which will be sufficient and available for said purpose, and it will be necessary for the county to finance such work by the issuance of its bonds in the said principal amount. In order for such bonds to be issued it will be necessary to their validity that an election be called of the voters of the county for the purpose of authorizing the issuance thereof.

(c) The board does hereby estimate that the period of usefulness of the hospital so proposed to be constructed, for which such bonds would be issued if authorized at such election, would be in excess of forty years.

NOW THEREFORE, IT IS HEREBY RESOLVED, ASCERTAINED, ORDERED AND DECREED by the board as follows:

(1) The finding and statements set out in the foregoing paragraphs lettered from (2) to (c), inclusive, are hereby found and declared to be true and are hereby adopted as a part of this resolution and order.

Mr. John C. Batts moved that the foregoing resolution and order be adopted and spread upon the minutes of this meeting, which motion was seconded by Mr. Edward Burgreen, and, upon the motion being put to vote, the following vote was recorded: Ayes: Messrs. Holt, Burgreen, Vinson, Batts and Barksdale; Nays: None. The chairman thereupon announced that the motion for adoption had been unanimously carried.

Discussion was then had of a proposal that the county levy a special ad valorem tax in order to pay the cost that would be incurred in constructing the said hospital and in that connection attention was called to the fact that by amendment to the Constitution of Alabama adopted at an election held on January 6, 1948, in addition to all other taxes authorized by law, the county was authorized to levy a special county tax not exceeding 4 mills on each dollar of taxable property in the county for such purpose if such tax should be authorized by vote of the qualified electors of the county who participate in an election called for that purpose. After such discussion the following resolution and order was introduced by Mr. T. V. Barksdale and read to the meeting:

It is hereby RESOLVED, ORDERED AND DECREED by the Board of Revenue (Herein called " the board") of Limestone County (herein called " the county") in the State of Alabama as follows:

(2) Notice of such election shall be published in the Limestone Democrat, a newspaper of general circulation in and published in the county, once a week for three successive weeks, the first publication to be made at least thirty days prior to the date of such election, which notice shall be in substantially the following form and shall be signed by the Chairman of the board:

The following resolution was offered by Member John C. Batts and seconded by Member Oscar Vinson:

WHEREAS, for several years it has been the desire and purpose of this Board to build or otherwise provide some suitable office space for the Negro Farm and Home Agents and also the Negro School Supervisor, and

WHEREAS, there was provided in the budget for 1948-49 the sum of \$10,000 for the construction of such a building, and

WHEREAS, building plans have been drawn and estimates of the cost of the building have been made, and

WHEREAS, after due consideration has been given all estimates, it appears to be cheaper and better to use county owned equipment and county laborers who are now idle part time together with the services of an experienced carpenter or foreman, and to construct the building by force account.

NOW THEREFORE BE IT RESOLVED, that Mr. John Henry McCurry be employed to do the carpentry work and to supervise the labor, and that all materials be purchased by the county.

BE IT FURTHER ORDERED THAT, plastering, painting, plumbing and heating in this building be done by the contract method or at a unit price approved by the Board. A vote was had and there were four ayes and no noes and the resolution was declared adopted.

February 26, 1949

Mr. I. B. Rutledge, Chief
Bureau of County Aid
State of Alabama Highway Department
Montgomery 4, Alabama

Dear Sir:

Enclosed are resolutions and requests for programing of various roads that the Board wishes to improve.

We wish to get approval for preliminary work on these projects so that our Engineering Department may prepare plans in advance as lags in our construction program permits.

For your further information we wish to handle the enclosed requests for projects as follows.

(1) 1951 FAS Program (Upper Elkton Road). We wish to program, as our fifth FAS Project, the improvement of the gap between the end of pavement near Hollands Gin and Ardmore. This project will not require the full amount of Federal funds allocated for a year but it is thought that the balance could be used on the following FAS Program.

(2) Mooresville - Elkton Road. This section of road was not included on the original State Aid County Road System but it seems to be to the best interest of the people of the county to add this road to the system. Enclosed, I believe, is necessary data for your consideration in making this addition to the State Aid County System.

(3) Huntsville - Brownsferry Road. It is desired to further improve a section of this road by a force account SACP Project.

(4) Brownsferry Road. It is desired to improve a section of this road by a force account SACP Project.

(5) Bridge on Snake Road. It is desired to construct a bridge over Coxey Creek on this road. This road has been paved 3 miles west from the intersection of FAS Route 64 with the exception of the approaches to an inadequate bridge now being used. This project would include the construction of an adequate bridge and a small amount of approach work.

Yours very truly,

H. C. Mabry
County Engineer

JUSTIFICATION SHEET
ALABAMA STATE HIGHWAY DEPARTMENT

1951 FAS Program

Project No. _____ SACP No. 12

County: Limestone FAS Route No. 109

Location: From end of pavement just north of Holland Gin Northeast to highway 31 at Ardmore.

Length: 3.0 Miles Approx. Type of Imp. Grade, Drain and pavement.

Estimate of Cost: \$45,000

Description of Existing Road: Narrow roadway 18-20' feet wide - worn gravel surface - winding alignment - short steep grades - Cross and side drains poor condition.

Description of Existing Bridges: R. R. underpass No. 1 but new location would not cross railway, thereby eliminating structure from route. New location would require small bridge or culvert approximately $\frac{1}{2}$ mile south of Ardmore.

Estimated Traffic 200

Need for improvement from transportation standpoint: This is a farm to market road, a mail route, school bus route, and milk route. This road serves a well populated and developed agricultural area and the farm to market movements to Athens and Ardmore. This route has been improved and paved between Athens and Ardmore except for this section. (This improvement done by county, W. P. A. State Aid projects and FAS Project S-214 (1).) When completed this route will serve as a shorter route between Athens and highway 31 at Ardmore.

Whereas a large trailer truck hauling fertilizer across the Limestone Creek bridge near Limestone Church caused one section of the bridge to fail, and

Whereas the bridge is on or near the Madison-Limestone County line and was constructed jointly by the two counties, and

Whereas certain members of the bridge have failed and it is best to repair the section at the earliest date possible and Madison County has a bridge crew and equipment for such repair,

Now Therefore Be It Resolved that Madison County furnish all labor, material and equipment and repair the bridge and that Limestone County will pay Madison County one-half of the actual cost.

The successful bidder will be permitted to name in its bid the rate of interest to be borne on the bonds, not exceeding 3% per annum, which interest shall be payable semi-annually on June 1 and December 1. No interest will be allowed on any such checks. The checks of the unsuccessful bidders will be returned to them after the sale. The check of the successful bidder will be retained by the county as security for the performance of such successful bid and will be applied on the purchase price of the bonds upon consummation of the purchase thereof. In the event that prior to the delivery of the bonds the income derived by private investors in bonds of the same character should become taxable under the terms of any federal income tax law, the successful bidder therefor may at his election be relieved of his obligation of purchase, whereupon the check so deposited by him will be returned.

Delivery of the bonds will be made in Birmingham as soon as the bonds may be prepared following the sale. The county will furnish to the successful bidder, without cost, the opinion of Messrs. RESOLUTION

BE IT RESOLVED BY THE BOARD OF REVENUE OF LIMESTONE COUNTY, ALABAMA, AS FOLLOWS:

The Board of Revenue of Limestone County, Alabama, met in adjourned regular meeting at the county courthouse in Athens, Alabama, on October 31, 1949, at 10:00 o'clock A. M., being in adjournment of the regular meeting held on October 17, 1949, the third Monday in said month. The following were present; J. M. Holt, chairman of the board, and the following members of the board: Messrs. T. V. Barksdale, Charles E. Leopard, John C. Batts, and Oscar Vinson; absent: none. Mr. Holt, chairman of the board, presided as chairman of the meeting and, a quorum being present, declared the meeting open for the transaction of business. The minutes of the preceding meeting were approved.

Mr. T. V. Barksdale introduced the following resolution and order, including the preambles thereto, which was read to the meeting:

The Board of Revenue of Limestone County (herein called "the board") in Limestone County (herein called "the county") in the State of Alabama (herein called "the state") has ascertained and does hereby find and declare as follows:

- (a) It is desirable that the county construct and improve or aid

in the construction or improvement of necessary public roads and bridges in the County, the total cost to the county being estimated by the board to be not less than \$50,000. The county does not have and will not have from its income which will accrue prior to the end of its current fiscal year, or prior to the completion of such work, funds which will be sufficient and available for said purpose. The county has ascertained that it will be impossible to raise funds for said purpose in any manner other than by anticipation of the proceeds which will be received by the county in the future from the tax levied by the state under Section 647 of Title 51 of the Code of Alabama of 1940, as amended, and distributed to the county pursuant to the provisions of Sections 655 and 657 of Title 51 of said code, as amended, and any substitute for said tax and any tax levied in lieu thereof (which taxes are together herein called "the state tax"). To that end, in order to provide the funds required for said purpose, it will be necessary that the county anticipate the proceeds from the state tax by the issuance of the warrants of the county hereinafter authorized, payable in installments in the future in the manner hereinafter provided.

(b) During the following fiscal years of the county it received from the state, as the county's share of the state tax, the aggregate sums respectively set opposite the years indicated in the following schedule:

<u>During the county's fiscal year ending:</u>	<u>The county received the aggregate sum of:</u>
September 30, 1945	\$119,463.36
September 30, 1946	157,934.85
September 30, 1947	186,168.30
September 30, 1948	203,609.71
September 30, 1949	218,785.71

In the opinion of the board, the aggregate amount which will be received by the county as its share of the state tax during each of the fiscal years of the county to and including the fiscal year ending September 30, 1952, will not be less than the average of the said sums so received by it during its fiscal year ending in each of the years from 1945 to 1949, inclusive.

(c) There are no bonds, warrants, contracts or claims of any kind now outstanding which were issued or made by the county and which exist against, or are payable out of, the proceeds hereafter to be received by the county from the state tax, or for the payment of which such proceeds have been pledged, except the following:

\$6,000 principal amount of 3-1/4% State Gasoline Tax Revenue Warrants of the county dated August 15, 1940, being the unpaid portion of an issue in the amount of \$150,000 authorized resolution and order adopted by the governing body of the county on November 2, 1940; and

\$150,000 principal amount of 1-1/4% State Gasoline Tax Anticipation Warrants of the county dated November 1, 1945, being the unpaid portion of an issue in the amount of \$150,000 authorized resolution and order adopted by the governing body of the county on December 3, 1945.

(d) All the proceeds which will be received by the county during the month of December, 1949, and during each month thereafter from the State tax distributed to the county under said Sections 655 and 657 of said Title 51 will be available for payment of the principal of and interest on the warrants hereinafter ordered issued, except that portion thereof required for payment of the principal of and interest on the warrants referred to in paragraph (c) above. When the warrants hereinafter ordered issued shall be so issued they will constitute the first and only claim and lien on said proceeds which may hereafter be received by the county from the distributions respectively made to it under said sections, except that portion of said proceeds required for payment of the principal of and interest on the warrants referred to in paragraph (c) above as now being outstanding and unpaid.

NOW, THEREFORE, it is hereby RESOLVED, ASCERTAINED, ORDERED AND DECREED by the board as follows:

(1) The findings and statements set out in the foregoing paragraphs lettered from (a) to (d), inclusive, are hereby found and declared to be true and are hereby adopted as a part of this resolution and order.

(2) There are hereby authorized to be issued by the county fifty State Gasoline Tax Anticipation Warrants (herein called "the warrants") of the county aggregating \$50,000 in principal amount, to be numbered consecutively from 1 to 50, inclusive, to be in the denomination of \$1,000 each, to be dated November 1, 1949, and to mature as follows:

<u>Warrant Numbers (both inclusive)</u>	<u>Maturity Date</u>	<u>Aggregate Principal Amount Maturing</u>
1 to 10	May 1, 1950	\$10,000
11 to 20	November 1, 1950	10,000
21 to 30	May 1, 1951	10,000
31 to 40	November 1, 1951	10,000
41 to 50	May 1, 1952	10,000

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, OCTOBER 31, 1949

The warrants shall bear interest at the rate of 1-1/2% per annum from their date until their respective maturities, which interest prior to and at maturity shall be payable semi-annually on May 1 and November 1 of each year and shall be evidenced by separate interest coupons (herein called "the coupons") attached to the warrants. The warrants and the coupons shall bear interest at the rate of 6% per annum after their respective maturities and shall be payable in lawful money of the United States of America at the principal office of Exchange Bank, in the City of Birmingham in the State of Alabama.

(3) The warrants and the coupons shall be signed by the chairman of the board and the official seal of the board shall be affixed thereto. The coupons shall bear the facsimile signature of the chairman of the board, whose facsimile signature shall be valid in all respects as if his signature had been signed to the coupons by him in person. The chairman of the board and the County Depository are hereby authorized and directed to register the warrants and the coupons as claims against the State Gasoline Tax Anticipation Warrant Fund of 1949 of the county hereinafter referred to, which registration shall be made simultaneously with respect to all the warrants and coupons.

(4) There is hereby established a special fund to be known as the "State Gasoline Tax Anticipation Warrant Fund of 1949" (herein called "the special fund") for the purpose of providing for payment of the principal of and interest on the warrants and the coupons. The special fund shall be maintained until both the principal of and interest on the warrants shall be paid in full. There shall be paid into the special fund on or before the 15th day of each successive month, beginning with the month of December, 1949, the amounts respectively indicated in the following schedule:

<u>On or before the 15th day of each of the following months:</u>	<u>There shall be paid into said special fund the following amounts:</u>
December 1949 to and including April, 1950	\$2,076.00
May 1950 to and including October, 1950	1,723.00
November 1950 to and including April, 1951	1,705.00
May 1951 to and including October, 1951	1,695.00
November 1951 to and including April, 1952	1,683.25

In addition thereto, there shall also be paid into the special fund during each successive six months' period commencing with the period beginning May 1, 1950, and continuing until the principal of and interest on all the warrants shall have been paid in full, the following amounts: (a) the amount by which all payments made into the special fund during any preceding six months' period shall be less than the amount herein required to be paid into the special fund during such preceding period; (b) the amount of all sums theretofore paid into the special fund which shall have been lost or which is not for any reason immediately available for payment of such principal and interest; and (c) any additional sums which may be necessary to pay the principal of and interest on the warrants as said principal and interest are herein provided to be paid.

(5) The moneys so provided to be paid into the special fund shall be paid solely out of the moneys which shall hereafter be or become due or payable to the county, or to which the county shall be entitled, from any of the following sources:

(a) All sums which shall be or become due or payable to the county as payment of its share of the state tax and allocated or distributed to the county pursuant to the provisions of Section 655 of Title 51 of the Code of Alabama of 1940, as amended; plus

(b) All sums which shall be or become due or payable to the county as payment of its share of the state tax and allocated or distributed to the county pursuant to the provisions of Section 657 of Title 51 of the Code of Alabama of 1940, as amended; plus

(c) All sums and amounts which shall be or become due or payable to the county by any succeeding, corresponding, equivalent, amended, supplemental or additional act or provision of law authorizing or relating to collections received by or apportioned to the county from gasoline or other motor fuel taxes, or the proceeds thereof, or any tax levied by the county or the state all or a portion of the proceeds of which may be received by the county in lieu of the state tax, and which the county shall be lawfully authorized to appropriate, transfer, pledge or use for the construction or maintenance of roads and bridges in the county or for the payment of the warrants and the coupons; it is being the intention hereof to include and subject to and set aside, for the payment of the principal of and interest on the warrants, the aforesaid portions of the proceeds payable to the county not merely by virtue of said Sections 655 and 657

of Title 51 of said Code of Alabama of 1940, as amended, but the proceeds payable to or collected by the county under any corresponding, successive, equivalent, amended, supplemental or additional provision of law or any law in lieu thereof which the county may lawfully pledge, assign or set apart for the purposes hereof, in such wise that if the allocation provided by said sections be repealed, amended or supplemented, any succeeding, corresponding, equivalent or additional fund shall be subject to the payment of the warrants and the interest thereon as contemplated thereby.

(6) The special fund and all moneys at any time in or pertaining thereto, and the proceeds at any time payable to the county from the tax or taxes referred to in paragraph (5) hereof and herein ordered paid into the special fund, are hereby assigned to the trustee for the benefit of the holders of the warrants and the coupons, are hereby pledged solely for payment of the principal of and interest on the warrants and the coupons, and are hereby declared to be trust funds solely for the benefit of the warrants and the coupons. None of the proceeds so received by the county and herein ordered be paid into the special fund, and no part of the special fund or any of the moneys at any time forming a part thereof or pertaining thereto, shall be used for any purposes whatsoever other than for payment of the principal of and interest on the warrants and the coupons. Failure to pay into the special fund the proceeds received by the county in accordance with the provisions hereof, or use of any of such proceeds for any purpose other than for which the same are hereby pledged, shall constitute a diversion thereof. Said assignment and pledge are made for the pro rata benefit of the warrants without preference or priority of one warrant over another by reason of prior issuance or registration thereof or otherwise. Said assignment and pledge shall be prior to any assignment or pledge of any proceeds from the state tax which may hereafter be made for the benefit of any other warrants of the county hereafter issued or any contract of the county hereafter made.

(7) Exchange Bank (herein called "the trustee"), a bank doing business in the City of Birmingham, Alabama, is hereby designated trustee for the special fund pursuant to the provisions of this resolution and order. The special fund shall be held and treated by the trustee as a trust fund for the purposes herein provided. The Department of Finance of the State of Alabama and any successor to its duties are hereby authorized and directed to transmit directly to the trustee such portion of all moneys hereafter payable to the county out of the taxes referred to in paragraph (5) hereof as may be necessary to make the payments into the special fund beginning with the month of December, 1949, in accordance with the provisions of paragraph (4) hereof. The county depository of the county is hereby ordered and directed to take all steps that may be necessary to cause such payments to be made into the special fund, including the grant to the trustee of authority to endorse all warrants, vouchers and checks therefore and to apply the proceeds thereof toward payment of the principal of and interest on the warrants. The county agrees with each holder of the warrants and the coupons that, so long as any of the warrants and the coupons shall remain unpaid, it will not revoke the authority and direction for transmission directly to the trustee as contained in this paragraph. The trustee is authorized and directed to pay the warrants and the coupons out of the moneys so paid into the special fund as and when the warrants and the coupons respectively mature, and thereupon cancel and transmit to the county depository the warrants and the coupons so paid. If any moneys remain in the special fund following payment of all the warrants and the coupons, such moneys shall thereupon be remitted by the trustee to the county.

(8) The trustee may resign as such by written notice of such resignation given to the county, to the original purchaser of the warrants from the county, and to the said Department of Finance or the successor to its duties. In the event the trustee should at any time hereafter resign or cease or refuse or become unable to act as trustee hereunder for the special fund the county agrees that it will thereupon appoint a successor trustee hereunder which shall be a banking institution in the State of Alabama which is at the time of such appointment a member of the Federal Reserve System and all or any part of whose deposits shall be insured by the Federal Deposit Insurance Corporation or any similar instrumentality of the United States of America, if there is any such. Upon the appointment of such successor trustee the county shall, within five (5) days thereafter, give notice in writing of such appointment to the Department of Finance of the State of Alabama (or to the successor to its duties) and to the original purchaser of the warrants from the county. All provisions of this resolution applicable to the trustee shall likewise be applicable to any successor to it so appointed.

(9) The general faith and credit of the county are not pledged for payment of the warrants or the coupons. The warrants and the coupons shall not be general obligations of the county but shall be payable solely out of the special fund. Neither this resolution nor any of the warrants or the coupons issued hereunder shall be deemed to impose upon the county any obligation to pay the principal of or interest on the warrants, or any other sum, except with the moneys herein directed to be paid into the special fund. None of the agreements, representations and warranties made or im-

plied in this resolution and order, or in the issuance of the warrants and the coupons, shall ever impose any pecuniary liability upon the county, except with respect to the said moneys herein directed to be paid into the special fund.

(10) The forms of the warrants and the coupons and the registration thereof shall be substantially as follows, with appropriate changes therein to accord with the provisions thereof:

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE MARCH 20, 1950

Be it remembered that at a regular meeting of the Board of Revenue of Limestone County, Alabama, held at 10 A.M. on March 20, 1950 in the Court-house, the usual place of meeting, there were present and presiding, J. M. Holt, Chairman, and Members, T. V. Barksdale, Charles E. Leopard, John C. Batts, and Oscar Vinson. The following proceedings were had and done to-wit:

Certain citizens of the Mooresville Community came before the Board to suggest that some type of guard posts or rails be placed on each side of the road across the Pirey Creek bottom west of Mooresville.

A large delegation of residents along the Conn Road appeared before the Board in the interest of paving the road from Highway 31 North to Reunion Corner. Members of the Board made favorable expressions about the project and Mr. Barksdale stated that he would try to begin work hauling gravel on the base sometime during the dry season.

It is ordered that the Project Contract S-214(2), SACP 114-B embracing the construction of that section of road from Hollands Gin to Ardmore including a maintenance agreement be executed by the signatures of all the members of the Board.

The Board of Revenue of Limestone County, Alabama, at a regular session held on March 20th, 1950, did examine the registration and official list of voters as the same is on file in the office of the Judge of Probate of Limestone County and the said Board of Revenue did review the records of the total number of votes cast in each of the four voting places in election precinct No. 1 known as Athens Beat and it was found that the number of votes cast in the 1948 Primary Election at each of said voting places in Athens Beat was in excess of three hundred.

Therefore, in accordance with the provisions of Title 17, Paragraphs 77 through 85 of the 1940 code of Alabama the Board of Revenue has determined that it is to the best interests of the people of Limestone County to designate additional voting places in Beat One.

Therefore Be It Resolved that a careful study be made regarding election districts and the location of voting places in said Beat One and that an order designating the same be made at the regular meeting of this Board on April 17th, 1950.

The foregoing resolution was offered by John C. Batts and seconded by Charles E. Leopard. A vote was taken and all members voted aye and the resolution was declared adopted.

It is ordered that tires be purchased from Goodyear Tire and Rubber Company at state contract prices as follows:

4	1300x24
2	900x24

12 ply Sure Grip Tires	\$8.29
10 ply Ribbed Grader Tires	\$1.42

MINUTES OF MEETING OF PRYOR FIELD AIRPORT BOARD
MAY 5, 1950

Pryor Field Municipal Airport Board met in the office of Peach, Caddell & Shanks, in Decatur, Alabama, at 2:00 O'clock P.M., on May 5, 1950. All members of the Board, consisting of H. R. Summer, Mayor of Decatur, Sim L. Howell, Chairman of the Board of Revenue and Control of Morgan County, Elmer L. Vinson, Mayor of Athens, and J. M. Holt, Chairman of the Board of Revenue of Limestone County, were present in person.

Considerable discussion was had of the improvements to be made at Pryor Field and machinery for handling the bookkeeping was agreed upon by the Board, and the Board's attorney was directed to submit to the four municipalities proper resolutions for putting this machinery into effect.

The Secretary-Treasurer of the Board, Mr. Sim L. Howell, informed the members of the Board that the operator, Tennessee Valley Flight Service, has not paid the one cent per gallon on gasoline as provided by the operations contract for some months, but is paying the rent.

In view of the interference with the operator's activities that the construction of the new paved runway will cause, a motion was made by Mr. Vinson and seconded by Mr. Howell and unanimously adopted that all payments of rent and compensation from Tennessee Valley Flight Service should be suspended from May 1, 1950, until further action.

No action was taken at this meeting with reference to the unpaid rental or compensation of one cent per gallon on gasoline, but action on that matter was deferred until a later meeting.

J. M. Holt, Chairman.

J. M. Holt, Chairman

MINUTES, LIVESTONE COUNTY BOARD OF REVENUE, JULY 17, 1950

The Board of Revenue of Limestone County, Alabama, met in a regular meeting at the county courthouse in Athens, Alabama, on July 17, 1950, at 10:00 o'clock, A.M., the third Monday in said month. The following were present: J. M. Holt, chairman of the board, and the following members of the board: Messrs. T. V. Barksdale, Charles Leopard, John C. Batts, and Oscar Vinson; absent: none. Mr. Holt, chairman of the board, presided as chairman of the meeting and, a quorum being present, declared the meeting open for the transaction of business. The minutes of the preceding meeting were approved.

Mr. Charles E. Leonard introduced the following resolution and order, including the preambles thereto, which was read to the meeting:

The Board of Revenue of Limestone County (herein called "the board") in Limestone County (herein called "the county") in the State of Alabama (herein called "the state") has ascertained and does hereby find and declare as follows:

(a) It is desirable that the county construct and improve or aid in the construction or improvement of necessary public roads and bridges in the county; the total cost to the county being estimated by the board to be not less than \$50,000. The county does not have and will not have from its income which will accrue prior to the end of its current fiscal year, or prior to the completion of such work, funds which will be sufficient and available for said purpose. The county has ascertained that it will be impossible to raise funds for said purpose in any manner other than by anticipation of the proceeds which will be received by the county in the future from the tax levied by the state under Section 647 of Title 51 of the Code of Alabama of 1940, as amended, and distributed to the county pursuant to the provision of Sections 655 and 657 of Title 51 of said code, as amended, and any substitute for said tax and any tax levied in lieu thereof (which taxes are together herein called "the state tax"). To that end, in order to provide the funds required for said purpose, it will be necessary that the county anticipate the proceeds from the state tax by the issuance of the warrants of the county hereinafter authorized, payable in installments in the future in the manner hereinafter provided.

(b) During the following fiscal years of the county it received from the state, as the county's share of the state tax, the aggregate sums respectively set opposite the years indicated in the following schedule:

<u>During the county's fiscal year ending:</u>	<u>The county received the aggregate sum of:</u>
September 30, 1945	\$119, 463.36
September 30, 1946	157, 934.85
September 30, 1947	186, 168.30
September 30, 1948	203, 609.71
September 30, 1949	216, 785.71

In the opinion of the board, the aggregate amount which will be received by the county as its share of the state tax during each of the fiscal years of the county to and including the fiscal year ending September 30, 1954, will be not less than the average of the said sums so received by it during its fiscal year ending in each of the years from 1945 to 1949, inclusive.

(c) There are no bonds, warrants, contracts or claims of any kind now outstanding which were issued or made by the county and which exist against, or are payable out of, the proceeds hereafter to be received by the county from the state tax, or for the payment of which such proceeds have been pledged, except the following:

\$105,000 principal amount of 1-1/4% State Gasoline Tax Anticipation Warrants of the County dated November 1, 1945, being the unpaid portion of an issue in the amount of \$150,000 authorized by resolution and order adopted by the governing body of the county on December 3, 1945; and

\$40,000 principal amount of 1 1/2% State Gasoline Tax Anticipation Warrants of the county dated November 1, 1949, being the unpaid portion of an issue in the principal amount of \$50,000 authorized by resolution and order adopted by the board on October 31, 1949.

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, JULY 17, 1950

(d) All the proceeds which will be received by the county during the month of August, 1950, and during each month thereafter from the state tax distributed to the county under said Sections 655 and 657 of said Title 51 will be available for payment of the principal of and interest on the warrants hereinafter ordered issued, except that portion thereof required for payment of the principal of and interest on the warrants referred to in paragraph (c) above. When the warrants hereinafter ordered issued shall be so issued they will constitute the first and only claim and lieu on said proceeds which may hereafter be received by the county from the distributions respectively made to it under said sections, except that portion of said proceeds required for payment of the principal of and interest on the warrants referred to in paragraph (c) above as now being outstanding and unpaid.

NOW, THEREFORE, it is hereby **RESOLVED**, **AS CERTAINED**, **ORDERED** and **DECREED** by the board as follows:

(1) The findings and statements set out in the foregoing paragraphs lettered from (a) to (d), inclusive, are hereby found and declared to be true and are hereby adopted as a part of this resolution and order.

(2) There are hereby authorized to be issued by the county fifty State Gasoline Tax Anticipation Warrants (herein called "the warrants") of the county aggregating \$50,000 in principal amount, to be numbered consecutively from 1 to 50, inclusive, to be in the denomination of \$1,000 each to be dated July 1, 1950, and to mature as follows:

<u>Warrant numbers</u> <u>(both inclusive)</u>	<u>Maturity date</u>	<u>Aggregate Principal</u> <u>Amount Maturing</u>
1 to 6	January 1, 1951	\$6,000
7 to 12	July 1, 1951	6,000
13 to 18	January 1, 1952	6,000
19 to 24	July 1, 1952	6,000
25 to 30	January 1, 1953	6,000

43 to 50	July 1, 1954	8,000

The warrants shall bear interest at the rate of $1\frac{1}{2}\%$ per annum from their date until their respective maturities, which interest prior to and at maturity shall be payable semi-annually on January 1 and July 1 of each year and shall be evidenced by separate interest coupons (herein called "the coupons") attached to the warrants. The warrants and the coupons shall bear interest at the rate of 6% per annum after their respective maturities and shall be payable in lawful money of the United States of America at the principal office of Birmingham Trust National Bank, in the City of Birmingham in the State of Alabama.

(3) The warrants and the coupons shall be signed by the chairman of the board and the official seal of the board shall be affixed thereto. The coupons shall bear the facsimile signature of the chairman of the board, whose facsimile signature shall be valid in all respects as if his signature had been signed to the coupons by him in person. The chairman of the board and the County Depository are hereby authorized and directed to register the warrants and the coupons as claims against the State Gasoline Tax Anticipation Warrant Fund of 1950 of the county hereinafter referred to, which registration shall be made simultaneously with respect to all the warrants and coupons.

(4) There is hereby established a special fund to be known as the "State Gasoline Tax Anticipation Warrant Fund of 1950" (herein called "the special fund") for the purpose of providing for payment of the principal of and interest on the warrants and the coupons. The special fund shall be maintained until both the principal of and interest on the warrants shall be paid in full. There shall be paid into the special fund on or before the 15th day of each successive month the amounts respectively indicated in the following schedule:

<u>On or before the 15th day of</u> <u>each of the following months;</u>	<u>There shall be paid into said</u> <u>special fund the following amounts:</u>
August, 1950, to and including December, 1950	\$1,275.00
January, 1951, to and including December, 1951	1,065.00
January, 1952, to and including December, 1953	1,030.00
January, 1954, to and including June, 1954	1,330.14

In addition thereto, there shall also be paid into the special fund during each successive six months' period commencing with the period beginning January 1, 1951, and continuing until the principal of and interest on all the warrants shall have been paid in full, the following amounts:

(a) the amount by which all payments made into the special fund during any preceding six months' period shall be less than the amount herein required to be paid into the special fund during such preceding period; (b) the amount of all sums theretofore paid into the special fund which shall have been lost or which is not for any reason immediately available for payment of such principal and interest; and (c) any additional sums which may be necessary to pay the principal of and interest on the warrants as said principal and interest are herein provided to be paid.

(5) The moneys so provided to be paid into the special fund shall be paid solely out of the moneys which shall hereafter be or become due or payable to the county, or to which the county shall be entitled, from any of the following sources:

(a) All sums which shall be or become due or payable to the county as payment of its share of the state tax and allocated or distributed to the state tax and allocated or distributed to the county pursuant to the provisions of Section 655 of Title 51 of the Code of Alabama of 1940, as amended; plus

(b) All sums which shall be or become due or payable to the county as payment of its share of the state tax and allocated or distributed to the county pursuant to the provisions of Section 657 of Title 51 of the Code of Alabama of 1940, as amended; plus

(c) All sums and amounts which shall be or become due or payable to the county by any succeeding, corresponding, equivalent, amended, supplemental or additional act or provision of law authorizing or relating to collections received by or apportioned to the county from gasoline or other motor fuel taxes, or proceeds thereof, or any tax levied by the county or the state all or a portion of the proceeds of which may be received by the county in lieu of the state tax, and which the county shall be lawfully authorized to appropriate, transfer, pledge or use for the construction or maintenance of roads and bridges in the county or for the payment of the warrants and the coupons; it being the intention hereof to include and subject to and set aside, for the payment of the principal of and interest on the warrants, the aforesaid portions of the proceeds payable to the county not merely by virtue of said Sections 655 and 657 of Title 51 of said Code of Alabama of 1940, as amended, but the proceeds payable to or collected by the county under any corresponding, successive, equivalent, amended, supplemental or additional provision of law or any law in lieu thereof which the county may lawfully pledge, assign or set apart for the purposes hereof, in such wise that if the allocation provided by said sections be repealed, amended or supplemented, any succeeding, corresponding, equivalent or additional fund shall be subject to the payment of the warrants and the interest thereon as contemplated thereby.

(6) The special fund and all moneys at any time in or pertaining thereto, and the proceeds at any time payable to the county from the tax or taxes referred to in paragraph (5) hereof and herein ordered paid into the special fund, are hereby assigned to and pledged with the trustee hereinafter referred to as security for payment of the principal of and interest on the warrants and the coupons. Failure to pay into the special fund the proceeds received by the county from the said tax or taxes which are required in this resolution and order to be paid into the special fund shall constitute a diversion of said proceeds. Said assignment and pledge are made for the pro rata benefit of the warrants without preference or priority of one warrant over another by reason of prior issuance or otherwise, and shall be and remain prior to any assignment or pledge of any proceeds of the said tax or taxes which may hereafter be made for the benefit of any other warrants of the county hereafter issued or any contract of the county hereafter made. The special fund shall constitute a trust fund and the trustee therefor is hereby authorized and directed to use so much of the moneys on deposit therein as may be necessary to pay the warrants and the coupons at their respective maturities.

(7) Birmingham Trust National Bank (herein called "the trustee"), a bank doing business in the City of Birmingham, Alabama, is hereby designated trustee for the special fund pursuant to the provisions of this resolution and order. The special fund shall be held and treated by the trustee as a trust fund for the purposes herein provided. The Department of Finance of the State of Alabama and any successor to its duties are hereby authorized and directed to transmit directly to the trustee such portion of all moneys hereafter payable to the county out of the taxes referred to in paragraph (5) hereof as may be necessary to make the payments into the special fund beginning with the month of August, 1950, in accordance with the provisions of paragraph (4) hereof. The county depository of the county is hereby ordered and directed to take all steps that may be necessary to cause such payments to be made into the special fund, including the grant to the trustee of authority to collect the payments so provided to be made direct to the trustee by the said Department of Finance and the authority to endorse all warrants, vouchers and checks therefor and to apply the proceeds thereof toward payment of the principal of and interest on the warrants. The county agrees with each holder of the warrants and the coupons that, so long as any of the warrants and the coupons shall remain unpaid, it will not revoke the authority and direction for transmission directly to the trustee as contained in this paragraph. The trustee is authorized and directed to pay the warrants and the coupons out of the moneys so paid into the special fund as and when the warrants and the coupons respectively mature, and thereupon cancel and transmit to the county depository the warrants and the coupons so paid. If any moneys remain in the special fund following payment of all the warrants and the coupons, such moneys shall thereupon be remitted by the trustee to the county.

(8) The trustee may resign as such by written notice of such resignation given to the county, to the original purchaser of the warrants from the county, and to the said Department of Finance or the successor to its duties. In the event the trustee should at any time hereafter resign or cease or refuse or become unable to act as trustee hereunder for the

special fund the county agrees that it will thereupon appoint a successor trustee hereunder which shall be a banking institution in the State of Alabama which is at the time of such appointment a member of the Federal Reserve System and all or any part of whose deposits shall be insured by the Federal Deposit Insurance Corporation or any similar instrumentality of the United States of America, if there is any such. Upon the appointment of such successor trustee the county shall, within five (5) days thereafter, give notice in writing of such appointment of the Department of Finance of the State of Alabama (or to the successor to its duties) and to the original purchaser of the warrants from the county. All provisions of the resolution applicable to the trustee shall likewise be applicable to any successor to it so appointed.

(9) The general faith and credit of the county are not pledged for payment of the warrants or the coupons. The warrants and the coupons shall not be general obligations of the county but shall be payable solely out of the special fund. Neither this resolution nor any of the warrants or the coupons issued hereunder shall be deemed to impose upon the county any obligation to pay the principal of or interest on the warrants, or any other sum, except with the moneys herein directed to be paid into the special fund. None of the agreements, representations and warranties made or implied in this resolution and order, or in the issuance of the warrants and the coupons, shall ever impose any pecuniary liability upon the county, except with respect to the said moneys herein directed to be paid into the special fund.

(10) The forms of the warrants and the coupons and the registration thereof shall be substantially as follows, with appropriate changes therein to accord with the provisions hereof:

on the 1st day of _____, 19____, with interest meanwhile thereon at the rate of 1-1/2% per annum, payable semi-annually on January 1 and July 1 in each year until maturity hereof upon presentation and surrender of the appropriate interest coupons hereto attached as the same respectively become due. Both the principal hereof and the interest hereon shall be payable in lawful money of the United States of America at the principal office of Birmingham Trust National Bank, in the City of Birmingham in the State of Alabama.

This warrant and the interest thereon shall be payable solely from the special fund known as the "State Gasoline Tax Anticipation Warrant Fund of 1950" of the county created by the resolution and order under which this warrant is issued. Said special fund consists of certain sums which are directed by said resolution and order to be paid into said special fund out of the moneys distributed to the county pursuant to the provisions of Sections 655 and 657, respectively, of Title 51 of the Code of Alabama of 1940, as amended, as the county's share of the tax levied by the State of Alabama on the sale, distribution, storage and withdrawal from storage of gasoline and other motor fuels under the provisions of Section 647 of Title 51 of said code, as amended.
