My dear Harry!— I never
keep records, because I've
always felt you, Ryan &
John did that, Ryan did
have the original note you
gave me a long time ago,
also John, and a will I
made before I was opera-
ted on for appendicitis, don't
know whether you have come

across any of these - I am send-
ing you a letter you wrote me last
May which I believe I wrote you
was my understanding of our affair,
so you can better understand
that all I can say - don't know
whether you kept my answer or
not. I hate to think of all the
work before you, because just
thinking sets me crazy, and found
how heart breaking it is to handle
all of Ryan's paper, take us all in
all, do not - there many children - &
when we had an elder brother
more, there was a peculiar ten-
dency and reverence about it,
all looked up to him, as one
having wonderful judgment, and
knowing he would never fail us.

He was always, for excellence,
in all things, the other was

a different feeling, we meeting
to allieate his pain, altho'
he saw me of the martyr, &
suffered in silence - really
my opinion - in due to other
could have been very good
of three week some - make
me so, for all was honest
and upright - Do take care
of yourself, for remember, we
all look to you - If you work
is wrong will return - I'm
& Tommy & kin Robert Henry -

How is Mary?
