Mr. Claude McMillan,  
Decatur, Alabama.

Dear Claude;

I have your letter of April 1, and appreciate same very much.

Of course, the article by Atticus Mullin relative to the Governorship was more of a "filler" in than anything else. I am not taking such talk seriously, although it is pleasing to one's vanity.

As to the Congressional angle I am somewhat hampered in that I have been elected Speaker for a four-year term, and wonder if it would be the wise thing to do to give it up and try to get something else. I don't want to give too much thought to my political future, but I am going to do the best I can to make an acceptable Speaker.

I saw Mr. Williams last week and he gave me to understand that Miss Frances would be given the vacancy in his office in a short while. I will see him again between now and the 15th in her interest.

Sincerely yours,
