May 28, 1935

Mr. Harry Walker
Speaker of the House
State Capitol
Montgomery, Alabama

Dear Mr. Walker:

The Montgomery Pilot Club is composed of a group of some of the most active and interested business women in our city. This group takes an active part in all civic movements, and views with more than usual interest the activities of our state law-makers.

At their last meeting, the Montgomery Pilots went on record as favoring the passage of the Drivers' License Bill which was introduced by Mr. R. F. Hamner. The Pilots feel that this bill should have the support of every member of both Senate and House when it comes before these bodies for their action. From the terrible toll of lives taken each year because of careless driving, and because of the number of incompetent drivers in our State who are responsible for so many of the accidents which occur, we think this one measure is of vital importance, and we urge the fullest support of every representative for it.

Coupled in importance with the Drivers' License Bill is the Stock Bill known as House Bill 80. The importance of this bill makes it deserve full support, and we trust that every man in our State Legislature will cast his vote for its passage.

Montgomery, Ala.

-2-

We want you to know that we are interested in these two bills, particularly, and that we are watching with eagerness their fate when they come into the hands of our representatives. If there is anything we can do to secure support for them, we trust you will call upon us for this support.

Sincerely yours

Montgomery Pilot Club
