TO MY SISTER

*Do you remember all the times we fought and made up?
The time we plotted and schemed together?
(And almost succeeded)
The time we shared our dreams,
And split our seams laughing
Over the silly things?
The times we cried into the night?
And it's strange,
But even through distance and circumstance changes,
Our relationship is still special.
Love, CAROL*

CHISSEY

*Her life lived here was not long,
For God who knew just what was wrong*

*She'll always be within our mind
Because she was caring and very kind*

*She went the way we all should go
And that was happy for you who know*

*For God who said there will be days like this
For we who know she will be missed*

*She sang God's praise "Amaze and Grace
Who sweet the sound"
For she was lost but now she's found*

*She was loved so very much
All our hearts were very touched*

*She's gone to be in a better place
And that's one thing we all should face*

*I know sometime we wonder why
But he also said we all will die*

*She'll always be within our heart
Because she played a very big part*

*So to the family I say to you,
Just keep your hands in God's hand
And he'll see you through.*
