Dearest Harry:

I was so thrilled to have Sarah's letter this morning telling me you had been elected to the speakership. I am so pleased and want to congratulate you and tell you how glad I am. I wish I could see the paper. Sarah says your picture was in it.

How long will you be in Montgomery for this session? I know it must be interesting, so much going on and you right in the midst of it. Sarah said Bob Terry and memory were with you and I know they must be proud of you -

John is getting ready to start to school, we went down and had him vaccinated the other day and its beginning to take already, that's one of the requirements before they start to school and I always put it off as long as possible.

Yesterday was my birthday and Herbert gave me a new Hoover vacuum cleaner, something I was sorely in need of. Please tell Mema I had a notice about the Magazine and will be delighted to have it and I'll write her as soon as the Magazine comes.

A heart full of love from
Your devoted niece
Baby Jew
