Honorable Harry Walker,
Speaker of the House,
Montgomery, Alabama.

My dear Harry:-

You have an opportunity of
clarifying a rotten condition in our
political life.

I understand House Bill 727
is on the House calendar. It pro-
hibits numbering ballots in any
election. I believe it was intro-
duced by one of the Montgomery re-
presentatives. The object of the
present law, as you well know, is
to intimidate city, county and state
employees by administration forces.
Correcting this evil will be a monument
to your memory; therefore, I request
that you use your best efforts to have
the bill passed on special order.

In sympathy with your task, I
am,

Sincerely yours,

Harry T. Hartwell
