PROPOSED FISH HATCHERY

Some time ago, I forwarded plans to you for the proposed fish hatchery in the vicinity of Athens. Mr. Quinn, the State Game Warden, is very much interested in having a fish hatchery located at this point, as it will be adjacent to the Wheeler Lake. As I understand it, fish hatcheries and matters of this nature come under your department, so I will appreciate your advising me what steps have been taken to date along this line.

  
John L. Neely, Jr.
