Dear Senator:

I am grateful for your letter of the first concerning cost of electricity under the TVA and also the dope on your candidacy for the speaker of the house.

I certainly hope that you are the next speaker because I am sure that as such you will guarantee Alabama progressive leadership of the type we so sorely need.

Sincerely,

  
James E. Mills, Jr.

Senator R. H. Walker,  
Limestone Democrat,  
Athens, Ala.

JEM:RO

P.S. I am holding your electric bills until we receive the one promised from the Ritz Theatre. Incidentally I think similar information on some mercantile establishment and also your largest industrial consumer would be really worth while.
