11/4 dear Harry! -
 Your letter came several
 days ago, but as yet have not answered
 have been terribly busy, for the "Stroke"
 we buy in this town however I feel
 you not having in my job and I think
 I have been away from home nearly
 five years, this time has certainly
 flown, I hope to get South this
 Summer, have saved up enough to go
 & return if nothing comes along & sweep
 it out of my hand, like it did
 last Summer, however it is in the
 bank now, don't think it will break.

you did not mention how you felt
but take it for granted that the flesh
has given you strength, and am
so happy you are taking care of your-
self, and pray always you may get
perfectly well. Am anxious to know
what Ric will do, as my plan will
be laid on him - Do you help
you in the paper, or is that his
talent, have so little idea of what
my home people are doing these days
do not have very many letters - am
glad to see he is - why now, he is grow-
ing I expect rapidly -

For Mr. Anderson, he must have
suffered the broken over & have put
an end to his life, he always
seemed so equable, and calm,
it is horrible to have such a

word hanging over my head, my
sympathy certainly goes out to Ruth.
Pat Guttmann left for home to-
day, think it was far from agree-
able, and she had so much to
encounter, am afraid she is deeper
in than she will acknowledge.
Now for the business part I have
absolute & implicit faith in all
your transactions, but I cannot re-
member how much it was I left
you have - but this I know you
will never defraud me out of

me cent & could beat your money
letter than mine, & do not believe
it was any more - I would never
have drawn on you for that ten dollar
if I had any idea things were so upset
at home -

I commenced this letter two days ago, but as
usual did not finish it at one
sitting - There is really no news for me
to impart, only am getting over a wretched
cold, Bet is having a time with children
sick, the baby had a fuss in Feb - Jan &
had them punctured both - having trouble
with - throats & adenoids, would of mastoid
here among the children & Bet had been un-
well all winter, Rex, has had a cold
ever since he was in Athens -

Write of me to Emmy & tell her one of her
new letters would be most enjoyable -
Love & the boys - and a heart full for you
& good health -
Aff. Len -
