Association.*PROF. J. A. WOODBURN, Bloomington,  
*History, University of Indiana.*Hon. R. H. Walker,  
Athens,  
Alabama.

My dear Senator Walker:

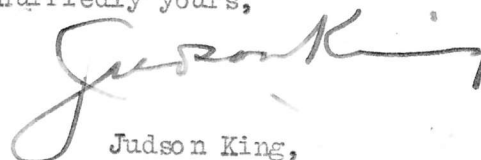

Yours February 22nd. I have sent you 25 copies of the Muscle Shoals bulletin. If you can use an additional number of them to advantage, I'll send you enough to cover the Legislature and other prominent men in Alabama, if you will send them out. I have no time for that.

I wish you would run for Congress, so that we could have a man from the Muscle Shoals District who would not be wabbling all over the map.

When the Democrats picked their members for the Military Affairs Committee it was understood that every man Jack of them would stand by the Norris bill and report it out. Three Southern Democrats went back on their pledges. That caused the deadlock. Whether it will be broken remains to be seen.

The Power Trust is moving Heaven and earth all over the Nation to capture the Democratic party in respect to the Democratic nomination for President. Confidentially, the only two men within gun shot of what the country needs are Roosevelt and Garner. Roosevelt has a 100% record, knows the question and sees what it means. Garner has played square as Floor Leader and Speaker, but he has never opened his head and nobody knows how he stands on the issue at large, although he has, as I say, stood by on Boulder Dam and Muscle Shoals.

Hurriedly yours,

Judson King,  
Director.
