A copy of printed commercial rates must be sent with this statement

¹ Insert size of type in which advertisements are set. If type be used other than that stated hereon or that may be specially ordered, no allowance will be made for additional space on that account in auditing bills.

The departments and establishments prefer counted-line rates, as they furnish fewer opportunities for mistakes and misunderstandings in the settlement of bills than do rates based upon the space line, inch, square, word, or folio. If the commercial rates of a publication are by the space line, inch, square, word, or folio, Government counted-line rates should preferably be quoted which would be relatively the same, or less; otherwise the said commercial rates should be quoted in the block marked "Other rates." Rates for inch or square must be quoted as per single column.

² Line out words not applicable.

³ If the oath is administered by an officer not using a seal, a certificate of his official capacity, made under seal by an officer authorized to make such certificate, must be furnished
