HOME OF THE TIMES

August 30th, 1935.

Mr. Harry Walker,
Speaker of House of Representatives,
State Capitol,
Montgomery, Ala.

My dear Senator:

Yesterday I had a long talk with Jim Simpson, and he told me he had found it necessary to make a slight amendment to the Bill regarding legal advertising. The change is so small that I see no objection to voting in favor of the amended bill. Frankly it merely clarifies what the bill intended to do. I hope you will be able to get this before the House for a vote Tuesday.

Let me thank you for what you have already done to get this Bill through the Legislature. I am deeply indebted and grateful to you.

Our friend Shelby Fletcher did a marvelous job in Huntsville towards straightening out the Merrimack mill. He at least got the ball rolling, and worked it up to the point where a settlement was possible.

With kindest personal regards, I am,

Your friend,

Henry P. Johnston
