

My Distinguished - Beautiful
Sister Sister:-

How glad I was to see your
most-pleasing face in the
folds of the Journal. now what
I want is, a copy of that:-

Thom. and Sue are justly
proud of their attractive
visitors - and I am so glad your
health permits you to enjoy
being with them.

You know no doubt that
I had Memory, and Snow with
me for a few days? but was
and am still too feeble to relish
the great-blessing they brought

I was up, but not myself
while they were here:

Spring, and Easter are
bringing out newness -

Fluence is working
harder than ever - was
re-elected to her same
position. The children
are so good to me in
my weakened condition
I don't improve but little.
Thom. is as busy as if the

man, Ory, and will never
not our enemies - Can't afford to
sit still. Your admirer, Mrs. Fox
was out to see M. & S. and is very
chummy at all times - Memory
Walker sent me a copy of Mrs. Johnson's
late Cook Book, which is acceptable
having enjoyed the one she gave
Memory Lillie. You are two far South
to realize the chill that is there
with the Sunshine.

Again Reminding you
that I want a copy of
your late pictures
will have to stop.
With the love and pride
that is always yours
Mabel Tracy.
