Athens, Ala.

Dear Mr. Walker;

I received a copy of a recent issue of your paper in which you are still fighting for ~~equilization~~ equilization of assessments for taxation in Alabama and for the proper apportionment of representation in the legislature. I am glad to know that you continue the agitation and wish you success. Hope you are giving serious consideration to running for congress. Almon has announced and has been hard at work. His friend said after the last election that he would not again stand for election but suppose he will as long as he lives of until he is defeated. There is a lot of opposition to him in this section and a general admission that he now impotent, if he ever had any force, which a great many of us doubt. With an active campaign I believe that most any good man will have a splendid chance of defeating him. Now ~~his~~ the time to make the race. Two years hence Fred Johnson and others may be in the field. With the majority plan now enforce it really makes no difference about the number running. Hope to hear some thing definite soon. I want to ask two favors of you. First I wish you would send me the most recent report of the operation of your city electric plant, showing profits ets. Would like to get this at once if possible. The other favor is that you write Gov. Miller and ask him to give favorable consideration to Mrs J. R. Coleman's application for a position with the State. She is a splendid woman, the widow of J. Richard Coleman, a brother of Miss <sup>Lila</sup> Lila Coleman. She lost her her husband two or three years ago and recently her oldest son, the only dependence she had left. She is about 60, and attractive and active woman. She has recently been employed as City hostess for Montgomery, but this place pays little on account of dull times. A word from you will be appreciated.

With regards,

Yours sincerely,

Allen J. Roulhac
