

Oct 2, 1939
Monday

Dear Judge,

A letter from Martha
this morning said you have
been under the weather. So
take care of yourself. Maybe
it would be wise to see
the Nashville doctors. You
are the best judge of that but
if you feel you should not
delay so you can get to
feeling better right away.

I haven't had time to
write letters since I've been
here for I've really been very

busy. I didn't realize I had
such a list of things to do.
Haven't seen all my friends
yet but am trying to get the
business out of the way first.
The gift shop is shaping up
and I've learned a lot about
that. Charles gave me a very
helpful suggestion on that.
George has not been in town
but may show up yet.

I didn't know my friends
here would be so good to
me. They have all been
lovely and I believe I could
stay as long as I want and
still not accept all the things
they seem to want to do for me.

It has been a wonderful trip.

Gene and Nellie are considering a trip to Alabama and Florida and want me to ride down with them. They wanted make a very short stop in Athens if they do come. Last week it looked pretty sure but is not so promising this week. Gene is working on a very big advertising program for the stock exchange and may not get away for a while.

I went to church with you yesterday and spent the whole day with her. She seems well but has been terribly hurt by Bill's death. Said she didn't realize she loved him so much.

I will have a lot to tell all of you when I come home since I can't write very long letters.

Take care of yourself. Love to each of you.

Unusually

Mamie
