Hon. R. H. Walker,  
Montgomery, Alabama.

Dear Harry:

Was in Montgomery a few hours saturday and was impressed with the reaction to the suggestion of the Advertiser on your being a candidate for governor.

However, Harry, I feel that the best political bet is in the Eight Congressional district. Judge Malone was confiding with me yesterday on significant expressions he heard in Huntsville last week, on a former candidate. The future holds something <sup>more</sup> outstanding for you, but even with that probability, lets act slow and with seeming indifference as to the future for a few months, is my suggestion.

The matter in which I am vitally interested in with one of state departments, seems to be getting all set for final action about the 15th. While there is only "one yard" to go, please keep on the lookout for fumbles. Week-end developments I believe, justify your refreshing the memory of the "powers that be". We are not alarmed and nothing has happened, only, things are getting set to happen.

With all good wishes and many thanks for past favors, I am

Your friend,

  
C. McMillan.
