The following claim was filed by Malone and Malone,
Attorneys:

STATE OF ALABAMA

LIMESTONE COUNTY

To the County Board of Revenue of Limestone County,
Alabama:

Now comes R. D. Thornton, a resident citizen of Limestone County, Alabama, and files this his claim against Limestone County, Alabama, and sets out and assigns the following:

That on or about the 24th day of August, 1950, I was traveling on the road which runs from Goodsprings to Union Hill, traveling in a northerly direction on horseback. I was traveling on a county road maintained by Limestone County, Alabama, and as I was crossing a bridge the horse's leg broke through a rotten board in said bridge causing me to fall off of said horse and resulting in my sustaining a broken collar bone on the left side of my body. Pryor to this fall which was received as a result of the bridge being in a rotten condition, the County Board of Revenue had been notified that the said bridge was in a dangerous condition.

As a result of the above injury I had to pay out large doctor's bills and could not carry on my work for a period of about 6 weeks and at the present time I am unable to do any work.

In view of the above injury and suffering that I have sustained and loss of time from my work, I feel that \$150.00 would be a reasonable amount. My doctor's bills amount to about \$25.00 and I have lost at least \$125.00 in labor and supervision of my farm work.

In view of my age I will likely be unable to ever use my left arm and will probably suffer greatly in the future.

It will be appreciated if this claim will be allowed.

Respectfully submitted

ORDER DECLARING RESULTS OF ELECTION

In the matter of a special election to determine whether or not a special tax of 10 cents on each one hundred (\$100.00) dollars' worth of taxable property shall be levied and collected for support of the public schools in Limestone County, Alabama.

It appears that, in conformity with the order of the Board of Revenue of Limestone County, Alabama, made on the 2nd day of October, 1950, a special election was held on the 7th day of November, 1950, in said County to determine whether or not a special tax shall be levied and collected at the rate of 10 cents on each one hundred (\$100.00) dollars' worth of taxable property in Limestone County for the support of the public schools within said County; said tax to be levied annually for a period of twenty years, beginning October 1, 1956, and to be collected annually for a period of twenty years, beginning October 1, 1956.

It further appears that due notice of said election was given as required by law and said former order of the Board of Revenue by publication of such notice in Alabama Courier, a newspaper published in said County, for four successive weeks prior to the day of said election; and that the first publication of said notice was at least thirty days before the day of said election; that the notice of said election, published as aforesaid, showed the rate of such proposed tax, the time it was proposed to be levied and collected, and the purpose for which the levy of said tax was proposed to be made.

It is found that said election was duly and legally held within said County on the 7th day of November, 1950, as aforesaid; and that returns of said election have now been made as provided in the general election laws of the State; and that canvass of the returns of said election reveals the following:

732 Votes were cast in said election for the proposed taxation.

156 Votes were cast in said election against the proposed taxation.

The Canvassing Board, therefore, finds and declares that three-fifths of those voting in said election have voted for the proposed taxation.

Signed:

R. L. Malone, Judge of Probate

John G. Sandlin, Sheriff

John R. Coffman, Clerk Circuit Court.

It further appears that due notice of said election was given as required by law and said former order of the Board of Revenue by publication of such notice in Alabama Courier, a newspaper published in said County, for four successive weeks prior to the day of said election; that the first publication of said notice was at least thirty days before the day of said election; and that the notice of said election, published as aforesaid, showed the rate of such proposed tax, the time it was proposed to be continued, and the purpose for which the levy of said tax was proposed to be made.

TO: County Board of Revenue of Limestone County:

CLAIM: of R. D. Thornton against Limestone County, Alabama, for Damages; Amount of Claim - \$2,000.00.

To the County Board of Revenue of Limestone County, Alabama:

Now comes R. D. Thornton, a resident citizen of Limestone County, Alabama, and files the above claim for damages against Limestone County, and sets out hereinbelow the circumstances giving rise to said claim for damages:

That on or about August 24, 1950, I was traveling on a public highway in Limestone County, Alabama, which said road runs from Goodsprings to Union Hill, traveling in a northerly direction on horseback; that said road was a county road and maintained by the county; that on said highway at a point north of Goodsprings, perhaps a half mile, there was a wooden bridge across said highway over which the traveling public passed and travelled; that without my knowledge the bridge was in bad condition and as I rode over the bridge on my horse, one of the planks or timbers gave way and broke and my horse's leg went through the board which was rotten in said bridge causing the horse to stumble and fall to his knees and as the horse fell to his knees I was thrown over his head a considerable distance resulting in serious injuries to my body, namely, the collar bone was broken on the left side of my body and my left arm was badly bruised and wrenched and made sore; that I am a farmer and make a living with my hands and have to

MINUTES, LIFESTONE COUNTY BOARD OF REVENUE, DECEMBER 18, 1950

work for a living; that as a result of the fall and injury to my shoulder and collar bone I have not been able to work and have lost at least three months' time from my work and labor and have had to pay out considerable sums in doctors' bills amounting to \$33.00 and about \$5.00 for medicine; that I have suffered a great deal and still suffer from the injury to my shoulder and broken collar bone; that I am permanently injured and on account of the fact that my left arm is stiff and sore and having lost the use of the same I have a permanent injury in the left arm which makes me less able to earn and make a living. All these disabilities from which I now suffer are the direct and proximate result of the negligence of the county in failing to keep the bridge in proper condition.

It is respectfully submitted that in view of the circumstances, the county should pay me for the injuries which I have suffered and which I shall continue to suffer for the rest of my life.

The following is an itemized statement of my claim:

Doctors' bill to date	\$33.00
Drug bill	5.00
Three month loss of time.	300.00
Personal injuries (pain and suffering)	<u>1662.00</u>
Total	\$2000.00

The members of the Board discussed briefly the provisions of the new Social Security law covering County Employees, Action was deferred until more information could be obtained.

Estimates of the cost of repairing the Courthouse clocks were obtained from the Haraldson Company of Birmingham and the I. T. Virden Company of Cincinnati.

John G. Sandlin, County Sheriff and Thomas Steel, County Solicitor came before the Board to discuss the new law regarding the cost and fees for feeding prisoners. It was recommended by the County Solicitor that the Chairman of the Board request a ruling by the Attorney General on certain questions, relative to the methods of pay for groceries and employees.

A motion was made by Mr. C. E. Leopard and seconded by Mr. John C. Batts that funds be appropriated from the General Fund to pay the salary of one additional deputy from January 1, to 15, 1951. A vote was taken and the motion carried.

Mayor Elmer Vinson of the City of Athens, appeared before the Board to ask permission to place eight street light posts on the margin of the courtyard for lighting the streets, whereupon member John C. Batts offered a motion which was seconded by members Charles E. Leopard, granting the request of the Mayor. The motion carried.

Mayor Summer of the City of Desatur by letter informed the Members of the Board that the Pryor Field Airport Board did not have sufficient funds to pay the next estimate on the runway paving and that it appeared best for each of the four municipalities to advance its pro rata share and receive a refund of the amount so paid when the grant money is received.

CL 8452

Member John C. Batts moved that if needed the Chairman of the Board be authorized to issue a check on the General Fund for the Limestone County share, estimated to be about \$600.00, and the motion was seconded by Member Oscar Vinson and a vote was taken and the motion carried.

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE APRIL 7, 1951

The Board of Revenue met on April 7, 1951, pursuant to Adjournment on April 2, 1951, and there were present and presiding, A. M. Spence, Chairman, And Members Walter A. Dorning, Charles E. Leopard and Mahlon A. LeCroix and Oscar Vinson. The following proceedings were had and done to wit:

The following petition was filed with the Board of Revenue by D. U. Patton, Lawer for M. J. Easter.

STATE OF ALABAMA :

LIMESTONE COUNTY :

TO THE HONORABLE CHAIRMAN OF THE BOARD OF REVENUE AND TO THE BOARD OF REVENUE OF LIMESTONE COUNTY, ALABAMA:

Comes M. J. Easter, a resident citizen of Limestone County, Alabama, and over the age of twenty-one years, and respectfully shows unto this Court that he is a tax payer of Limestone County, Alabama, and that he is engaged in the business of selling, storing and distributing gasoline and other motor fuels used by self-propelled vehicles in Limestone County, Alabama, and that he respectfully prays and petitions this Honorable Board as follows:

1. That this Board will enter a resolution rescinding and expunging the following resolution adopted by this Board, namely:

The resolution by this Board on the 26th day of March, 1951, whereby, among other things, there was fixed a tax of 3¢ per gallon on gasoline sold in Limestone County, Alabama; and particularly Section 1 thereof in words and figures as follows: " Section 1. That any person, firm or coporation selling or keeping in storage for sale, gasoline, Woco-Pep, or any other motor fuel used by self propelled vehicles, shall pay a tax of three cents on each gallon sold in Limestone County, Alabama, or stored for sale in said County, on and after the 15th. day of April 1951, the same to be paid to Limestone County, Alabama, on or before the 15th. day of the next succeeding month, the first payment to be made on or before the 15th. day of May 1951, for such gasoline, Woco Pep, or any other motor fuel used by self propelled vehicles, sold or kept for sale from the 15th day of April 1951, and thereafter; payment to be made on or before the 15th day of each month for sales made during the proceeding month."

2. That this Board will strike from it's Minutes and expunge therefrom the following, which is found in Minute Book 2, Page 420, Minutes, Limestone County Board of Revenue, Jan. 8, 1937, which are in words and figures as follows: " Pursuant to Adjournment on January 4th, 1937, in accordance with a resolution duly moved and carried on the above m mentioned date, the Board of Revenue met and did canvass the returns of the Limestone County gasoline tax referendum which was held on November 3rd, 1936, and the following order was made:

"Order of Board of Revenue Declaring Results of Referendum

" It appears to the Board of Revenue of Limestone County that in conformity to the order of this Board made on September 21st, 1936, a referendum was held on November 3rd, 1936, to determine whether or not a county tax shall be levied on gasoline sold in Limestone County.

" It further appears to the Board of Revenue that the said referendum was held by the officials designated to hold the general election and that said referendum was conducted and held as are general elections in the State of Alabama.

" The Board finds that said referendum was duly and legally held and that the returns of said referendum was delivered by the returning officers of various precincts to the sheriff who is the returning officer for the County and that the sheriff, the probate judge, and the circuit court clerk did canvass the returns of said referendum on Friday, November 6th, 1936, and did announce the results of said canvass as follows:

" Fourteen hundred fifty-two votes were cast in said referendum for the taxation, and fourteen hundred fifty votes were cast in said referendum against the taxation.

" It further appears to said Board of Revenue that the legislative act authorizing the referendum also authorizes the Board of Revenue to canvass the returns of said referendum.

" Therefore, to further comply with the provisions of the said Act, the Board of Revenue did canvass the returns from said referendum, and the results from said canvass were as follows:

" Fourteen hundred fifty-two votes were cast in said referendum for the local gasoline tax and fourteen hundred fifty votes were cast in said referendum against the local gasoline tax.

" The Board therefore finds and declares that a majority of the votes were cast in said referendum for said taxation."

And for grounds for this petition and for each paragraph thereof, separately and severally, he shows unto this Honorable Board the following:

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, APRIL 7, 1951

That House Bill 176 - Walker, approved April 10, 1936, and found on Pages 56 and 57 of Local Act Acts Alabama, Extra Session, 1936, provides as follows:

" No. 98) (H.176 - Walker. AN ACT To Amend Section 1 of an act entitled ' An Act to authorize the Court of County Commissioners of Limestone County, Alabama, to levy a tax or privilege license on all persons selling, or keeping in storage for sale, gasoline, Woco Pep, or any other motor fuel used be self propelled vehicles, and to provide rules, regulations and machinery for the collection thereof; and to provide penalties for the violation of such rules and regulations, ' approved August 5, 1927.

" BE IT ENACTED BY THE LEGISLATURE OF ALABAMA:

" That Section 1 of an act entitled ' An Act to authorize the Court of County Commissioners of Limestone County, Alabama, to levy a tax or privilege license on all persons selling, or keeping in storage for sale, gasoline, Woco Pep, or any other motor fuel used by self propelled vehicles, and to provide rules, regulations and machinery for the collection thereof; and to provide penalties for the violation of such rules and regulations' be and the same is hereby amended to read as follows:

"Section 1. That the Court of County Commissioners of Limestone County, Alabama, may, for the purpose of constructing and maintaining public roads, bridges and ferries in Limestone County, Alabama, impose a tax on gasoline, Woco Pep, or any other motor fuel used be self propelled vehicles and in the county, or stored in the county for sale, not to exceed three cents (3¢) per gallon; or may impose and collect a privilege license or tax of not more than 3¢ per gallon on all gasoline, Woco Pep, or any other motor fuel used by self propelled vehicles and sold in said county, or stored in said county for sale, for the privilege of selling the same. However, provided, such tax or privilege license shall not be imposed by said Court of County Commissioners after January 1, 1937, unless the governing body of said county is directed to do so by a majority of the votes cast at a referendum held on said subject, which referendum the said governing body is hereby authorized and directed to call on the 3rd day of November, 1936."

"Section 2. That the said referendum shall be held by the officers appointed to hold the general election in November, 1936 and the said referendum shall be conducted as are general elections in this state. Returns of said election shall be delivered by the returning officers to the chairman of the said board of revenue who with the commissioners shall canvass said returns on the Thursday succeeding the said general election and shall announce results of said referendum.

"Approved April 10, 1936."

And your petitioner further shows that said election or referendum of November 3, 1936, was regularly held as required by said Act approved April 10, 1936, but that Section 2 of said Act of April 10, 1936, was not complied with in the following respects:

- a. Said election or referendum was not conducted as are general election in this State.
- b. The returns of said election were not delivered by the returning officers to the Chairman of the said Board of Revenue.
- c. The Chairman of the Board of Revenue with the Commissioners did not canvass the returns on the Thursday succeeding the said general election of November 3, 1936.
- d. Neither the Chairman of the said Board of Revenue or the Commissioners, or both, announced the results of said referendum on the Thursday succeeding said general election of November 3, 1936.
- e. That the Chairman of the Board of Revenue never was delivered the ballot of said election or referendum and that said Board never canvassed the returns of said election.
- f. That the Sheriff of Limestone County never turned over to the Chairman of the Board of Revenue or to this Board the ballots of said election or referendum.
- g. That the entire minutes of the Board of Revenue for January 8, 1937, was a fraud and do not speak the truth.
- h. That the Board of Revenue in actuality never met to canvass the returns of said election or referendum and that all minutes of the Board showing such a meeting is a pure fabrication and a fraud upon the tax payers of Limestone County and your petitioner.
- i. That the order or resolution of the Board of Revenue of March 26, 1951, fixing a 3¢ tax on gasoline, sold and stored, etc. in Limestone County, Alabama, is a complete nullity as there is no authority or jurisdiction for such order or resolution.

And your petitioner adopts in full the minutes of the Board of Revenue of Limestone County, Alabama, on January 4, 1937, and January 8, 1937, as recorded in Minute Book 2, Pages 417-420, inclusive, " Minutes, Limestone County Board of Revenue", which minutes by reference are made a part hereof as fully and as completely as set out in haec verba.

Your petitioner further shows that in truth and in fact the returning officers made the returns of said election or referendum to the Sheriff of Limestone County; that the Sheriff, together with the Probate Judge of Limestone County and the Circuit Clerk of Limestone County, did canvass the returns of said election or referendum of November 3, 1936, but that said canvass by said sheriff, Probate Judge and Circuit Clerk was made on the Friday succeeding the said general election and that no announcement of the results of said referendum was made; that the returns of said election were never made to the Chairman, Board of Revenue, and the said Chairman, with the Commissioners, did not canvass said returns at any time, that the minutes of the Board of Revenue of both January 4th. and January 8th., 1937, are fictitious and fraudulent.

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, APRIL 7, 1951

Wherefore, your petitioner shows that its's resolution of March 26, 1951, as found in Book No. 5, Pages 63 and 64, Minutes, Limestone County Board of Revenue, fixing a tax of 3 ¢ on each gallon of gasoline sold in Limestone County is absolutely void and beyond the power and authority of this Honorable Board.

And petitioner further shows unto this Board that it's authority and powers are purely statutory and that it's jurisdiction is limited and that no authority nor power nor jurisdiction rest in said Board for its said order of March 26, 1951, placing a 3 ¢ tax on all gasoline sold or stored, etc. in Limestone County after April 15, 1951.

Your petitioner further shows unto this Board that there is attached hereto and made a part hereof affidavit of Mason C. Freeman, former member of the Board, who was a member of the Board at the time the Board met on January 4 and January 8, 1937, and also affidavit of J. E. Wellden, who was Sheriff of Limestone County, Alabama, during the period January 15, 1935 to January 16, 1939.

Wherefore, your petitioner prays that this honorable Board will pass an order or resolution wholly recinding and expunging from it's records, it's illegal acts of January 8th, 1937, finding and declaring that a majority of the votes cast in the referendum of November 3, 1936, favoring said gasoline tax.

And your petitioner further prays that this Board will rescind and expunge from it's records, it's order or resolution of March 26, 1951, levying a said 3¢ tax on all gasoline sold and stored in Limestone County after April 15, 1951.

All of which your petitioner is ready to verify.

Respectfully submitted.

Before me, the undersigned authority in and for said County and State, this day personally appeared Mason C. Freeman, who, being by me first duly sworn, deposes and says as follows: During the period September 1, 1936, through January 8, 1937, the Board of Revenue of Limestone County consisted of the following: J. M. Holt, Chairman, Mascon C. Freeman, Russell Balch, W. C. Marks and Will H. Beasley, members. Of Course, this affiant was one of the members during all of said period. At no time while I was a member of the Board were the ballots of the special election or referendum regarding gasoline tax in Limestone County, which was held on November 3, 1936, brought before the Board of Revenue and counted or canvassed while I was present and I did not take part in any count or canvass of said ballots and did not take part in announcing the result of a county or canvass made by the Board of Revenue while I was in office.

This the 7th day of April, 1951.

Before me the undersigned authority in and for said County and State, personally appeared J. E. Wellden, Who, being by me first duly sworn, deposes and says as follows:

I was the Sheriff of Limestone County from January 15, 1935, to January 16, 1939, and I was also Chief Deputy Sheriff of Limestone County, Alabama, for the two years next preceding my term of office as Sheriff.

During the entire time that I was Sheriff and the two years before when I was Chief Deputy Sheriff, I Handled the election returns for the Sheriff's office.

I distinctly remember that the returning officers from all voting boxes in Limestone County made a return to the Sheriff from each election, whether primary or general election.

In all primary election, I turned the returns over to the Limestone County Democratic Executive Committed and I never received the returns again. I am a little hazy after some fifteen years but my best recollection is that as Sheriff I joined the Judge of Probate and Circuit Court Clerk of Limestone County and we canvassed the returns of all general elections. In all cases, the returns from each box were out of my hands within a few days usually, and within a week or ten days in all cases. I Never turned over the returns of any election to anyone except the Limestone County Democratic Executive Committee or the Board composed of, as I remembered it now, the Probate Judge, myself, and the Circuit Court

At no time, did I ever turn over either the ballots or the returns to anyone else. MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, APRIL 16, 1951

The Board of Revenue of Limestone County, Alabama, met in regular meeting at the county courthouse in Athens, Alabama, on April 16, 1951, at 10:00 o'clock, A.M., the third Monday in said month. The following were present: A. L. Spence, Chairman of the Board, and the following members of the board: Messrs. Walter A. Dorning, Charles E. Leopard, Mahlon LeCroix and Oscar Vinson; absent none. Mr. Spence, chairman of the board, presided as chairman of the meeting and, a quorum being present, declared the meeting open for the transaction of business. The minutes of the preceding meeting were read and approved.

Mr. Charles E. Leopard introduced the following resolution and order, including the preambles thereto, which was read to the meeting:

The Board of Revenue of Limestone County (herein called " the board") in Limestone County (herein called " the county") in the State of Alabama (herein called " the state") has ascertained and does hereby find and declare as follows:

(a) It is desirable that the county construct and improve or aid in the construction or improvement of necessary public roads and bridges in the County. The board estimates that the total cost necessary to be paid by the county in the performance of such work will be not less than \$ 100,000.

(b) The county does not now have and will not have from its income which will accrue prior to the end of its current fiscal year or prior to the completion of such work funds which will be sufficient and available for said purposes. The county has ascertained that it will be impossible to raise funds for such purpose in any manner other than by anticipation of the proceeds which will be received by the county in the future from the tax levied by the state under Section 647 of Title 51 of the Code of Alabama of 1940, as amended, and distributed to the county pursuant to the provisions of Section 655 and 657 of Title 51 of said code, as amended, and any substitute for said tax and any tax levied in lieu thereof (which taxes are together herein referred to as " the state tax"). To that end and in order to provide the funds required for said purpose it will be necessary that the county anticipate the proceeds from the state tax by issuance of the warrants of the county hereinafter authorized, payable in installments in the future in the manner hereinafter provided.

(c) During the following fiscal years of the county it received from the state, as the county's share of the state tax, the aggregate sums respectively set opposite the years indicated in the following schedule:

<u>During the county's fiscal year ending:</u>	<u>The county received the aggregate sum of:</u>
September 30, 1946	\$ 157,934.85
September 30, 1947	185,085.39
September 30, 1948	203,609.71
September 30, 1949	218,785.71
September 30, 1950	240,963.71

In the opinion of the board, the aggregate amount which will be received by the county as its share of the state tax during each fiscal year of the county to and including its fiscal year ending September 30, 1957, will be not less than the average of the said sums so received by it during its fiscal year ending in each of the years from 1946 to 1950, inclusive.

(d) There are no bonds, warrants, contracts or claims of any kind now outstanding which were issued or made by the county against, or which are payable out of, the proceeds hereafter to be received by the county from the state tax or for the payment of which such proceeds have been pledged, except:

\$100,000 principal amount of 1-1/4 % State Gasoline Tax anticipation Warrants of the County dated November 1, 1945, being the unpaid portion of an issue in the original aggregate principal amount of \$ 150,000, which were authorized by a resolution and order adopted by the board on December 3, 1945:

\$30,000 principal amount of 1-1/2% State Gasoline Tax Anticipation Warrants of the county dated November 1, 1949, being the unpaid and outstanding portion of an issue in the original aggregate principal amount of \$ 50,000, which were authorized by a resolution and order adopted by the board on October 31, 1949; and

\$ 44,000 Principal amount of 1-1/2 % State Gasoline Tax Anticipation Warrants of the county dated July 1, 1950, being the unpaid and outstanding portion of an issue in the original aggregate principal amount of \$ 50,000, which were authorized by a resolution and order adopted by the board on July 17, 1950.

(e) All the proceeds which will be received by the county during the month of May, 1951, and during each month thereafter from the state tax distributed to the county under said Section 655 and 657 of said Title 51, as amended, will be available for payment of the principal of and interest on the Warrants hereinafter ordered issued, except such portion thereof which may be necessary to pay the principal of and interest on the warrants referred to in paragraph (d) hereof as being now outstanding. When the warrants hereinafter ordered issued shall be so issued, they will constitute the first and only claim and lien on said proceeds which may hereafter be received by the county from the distributions respectively made to it under said sections, except the warrants referred to in paragraph (h).

NOW, THEREFORE, it is hereby RESOLVED, ASCERTAINED, ORDERED AND DECREED by the board as follows:

(1) the findings and statements set out in the foregoing paragraphs lettered from (a) to (e), inclusive, are hereby found and declared to be true and are hereby adopted as a part of this resolution and order.

(2) There are hereby authorized to be issued by the county one hundred State Gasoline Tax Anticipation Warrants (herein called " the warrants") of the county aggregating \$ 100,000 in principal amount, to be numbered consecutively from 1 to 100, inclusive, to be in the denomination of \$1,000 each, to be dated April 1, 1951, and to mature as follows:

In addition thereto, there shall also be paid into the special fund during each successive six months' period commencing with the period beginning October 1, 1951, and continuing until the principal of and interest on all of the warrants shall have been paid in full, the following amounts: (a) the amount by which all payments made into the special fund during any preceding six months' period shall be less than the amount herein required to be paid into the special fund during such preceding period; (b) the amount of all sums theretofore paid into the special fund which shall have been lost or which is not for any reason immediately available for payment of such principal and interest; and (c) any additional sums which may be necessary to pay the principal of and interest on the warrants as said principal and interest are herein provided to be paid.

(5) The moneys so provided to be paid into the special fund shall be paid solely out of the moneys which shall hereafter be or become due or payable to the county, or to which the county shall be entitled, from any of the following sources:

(a) all sums which shall be or become due or payable to the county as payment of its share of the state tax and allocated or distributed to the county pursuant to the provisions of Section 655 of Title 51 of the Code of Alabama of 1940, as amended; plus

(b) All sums which shall be or become due or payable to the county as payment of its share of the State Tax and allocated or distributed to the county pursuant to the provisions of Section 657 of Title 51 of said Code of Alabama of 1940, as amended; plus

(c) All sums and amounts which shall be or become due or payable to the county by any succeeding, corresponding, equivalent, amended, supplemental or additional act or provision of law authorizing or relating to collections received by or apportioned to the county from gasoline or other motor fuel taxes, or the proceeds thereof, or any tax levied by the county or the state all or a portion of the proceeds of which may be received by the county in lieu of the state tax, and which the county shall be lawfully authorized to appropriate, transfer, pledge or use for the construction or maintenance of roads and bridges in the county or for the payment of the warrants and the coupons; it being the intention hereof to include and subject to and set aside, for the payment of the principal of and interest on the warrants, the aforesaid portions of the proceeds payable to the county not merely by virtue of said section 655 and 657 of Title of said Code of Alabama of 1940, as amended, but the proceeds payable to or collected by the county under any corresponding, successive, equivalent, amended, supplemental or additional provision of law or any law in lieu thereof which the county may lawfully pledge, assign or set apart for the purposes hereof, in such wise that if the allocation provided by said sections be repealed, amended or supplemented, any succeeding, corresponding, equivalent or additional fund shall be subject to the payment of the warrants and the interest thereon as contemplated hereby.

(6) The special fund and all moneys at any time in or pertaining thereto, and the proceeds at any time payable to the county from the tax or taxes referred to in paragraph (5) hereof and herein ordered paid into the special fund, are hereby assigned to and pledged with the trustee hereinafter referred to as security for payment of the principal of and interest on the warrants and the coupons. Failure to pay into the special fund the proceeds received by the county from the said tax or taxes which are required in this resolution and order to be paid into the special fund shall constitute a diversion of said proceeds. Said assignment and pledge are made for the pro rate benefit of the warrants without preference or priority of one warrant over another by reason or prior issuance or otherwise, and shall be and remain prior to any assignment or pledge of any proceeds of the said tax or taxes which may hereafter be made for the benefit of any other warrants of the county hereafter issued or any contract of the county hereafter made. The special fund shall constitute a trust fund and the trustee therefor is hereby authorized and directed to use so much of the money on deposit therein as may be necessary to pay the warrants and the coupons at their respective maturities.

(7) the First National Bank of Montgomery (herein called "the trustee"), a bank doing business in the City of Montgomery, Alabama, is hereby designated trustee for the special fund pursuant to the provisions of this resolution and order. The special fund shall be held and treated by the trustee as a trust fund for the purpose herein provided. The Department of Finance of the State of Alabama and any successor to its duties are hereby authorized and directed to transmit directly to the trustee such portion of all moneys hereafter payable to the county out of the taxes referred to in paragraph (5) hereof as may be necessary to make the payment into the special fund in accordance with the provisions of paragraph (4) hereof, beginning with the payment required therein to be made during the month of May, 1951, and each month thereafter as therein provided. The county depository of the county is hereby ordered and directed to take all steps that may be necessary to cause such payments to be made into the special fund, including the grant to the trustee of authority to collect the payment so provided to be made direct to the trustee by the said Department of Finance and the authority to endorse all warrants, vouchers and checks therefor and to apply the proceeds thereof toward payment of the principal of and interest on the warrants. The county agrees with each holder of the warrants and the coupons that, so long as any of the warrants and the coupons shall remain unpaid, it will not revoke the authority and direction for transmission directly to the trustee as contained in the preceding sentence of this paragraph. The trustee is authorized and directed to pay the warrants and the coupons out of the moneys so paid into the special fund as and when the warrants and the coupons respectively mature, and thereupon cancel and transmit to the county depository the warrants and the coupons so paid. If any moneys remain in the special fund following payment of all the warrants and the coupons, such moneys shall thereupon be remitted by the trustee to the county.

(8) The trustee at any time serving hereunder may resign as such by written notice of such resignation given to the county, to the original purchaser of the warrants from the county, and to the said Department of Finance or the successor to its duties. In the event the trustee should at any time hereafter resign or cease or refuse or become unable to act as trustee hereunder for the special fund the county agrees that it will thereupon appoint a successor trustee hereunder which shall be a banking institution in the State of Alabama which is at the time of such appointment a member of the Federal Reserve System and all or any part of whose deposits shall be insured by the Federal Deposit Insurance Corporation or any similar instrumentality of the United States of America, if there is any such. Upon the appointment of such successor trustee the county shall, within five days thereafter, give notice in writing of such appointment to the Department of Finance of the State of Alabama (or to the successor to its duties) and to the original purchaser of the warrants from the county. All provisions of this resolution applicable to the trustee shall like wise be applicable to any successor to it so appointed.

on the 1st day of _____, 19____, with interest thereon from the date hereof until the maturity hereof at the rate of 2-1/4% per annum, payable semi-annually on April 1 and October 1 in each year upon presentation and surrender of the appropriate interest coupons hereto attached as the same respectively become due. Both the principal hereof and the interest hereon shall be payable in lawful money of the United States of America at the principal office of the First National Bank of Montgomery, in the City of Montgomery in the State of Alabama.

This warrant and the interest thereon shall be payable solely from the special fund known as the "State Gasoline Tax Anticipation Warrant Fund of 1951" of the County created by the resolution and order under which this warrant is issued. Said special fund consists of certain sums which are directed by said resolution and order to be paid into said special fund out of the moneys distributed to the county pursuant to the provisions of Section 655 and 657, respectively, of Title 51 of the Code of Alabama of 1940, as amended, as the county's share of the tax levied by the State of Alabama on the sale, distribution, storage and withdrawal from storage of gasoline and other motor fuels under the provisions of section 647 of Title 51 of said code, as amended. The full faith and credit of the county are not pledged to the payment of this warrant or the interest thereon and this warrant is not a general obligation of the county. The county is not obligated to pay the principal of or interest on this warrant except from moneys ordered paid into said special fund, and none of the agreements, representations or warranties made or implied in the issuance of this warrant shall be deemed to impose any liability whatsoever upon the county, except to pay the principal hereof and interest hereon out of the moneys ordered paid into said special fund.

This warrant is one of an issue of warrants (herein called "the warrants") of like tenor and effect except as to number and maturity, aggregating \$ 100,000 in principal amount, all of which are payable solely out of said special fund. For the payment of the principal of and interest on the warrants, the proceeds of the aforesaid tax received by the county under each of said Section 655 and 657 of said Title 51, as amended, and any substitute therefor and any tax levied in lieu thereof which the county may legally assign and pledge for such purpose, have been assigned and pledged solely for payment of the principal of and interest on the warrants, without preference or priority of one over another, to such extent as may be necessary to pay the said principal and interest as the same shall respectively mature. The warrants are issued pursuant to the constitution and laws of the State of Alabama and a resolution and order duly and legally adopted and made by the governing body of the county for the purpose of constructing and improving or aiding in the construction or improvement of necessary public roads and bridges in the County.

It is hereby certified and recited for the benefit of any person or persons to whom this warrant may be issued or assigned that this warrant represents a valid claim against said special fund; that the amount ordered paid hereby will be so due without condition, abatement, recoupment or offset of any kind; and that all conditions, actions, and things required by the constitution and laws of the State of Alabama to exist, be performed or happen precedent to and in the issuance of this warrant and in the establishment of said special fund exist, have been performed and have happened.

This warrant and the interest coupons hereto attached may be assigned or transferred by delivery. The county agrees with the holder hereof, and with any person or persons to whom this warrant and the said coupons may be assigned, that neither the principal of nor the interest on this warrant will be paid except upon presentation and surrender of the respective warrant and coupons. Said holder and said person or persons agree with the county that it may treat the respective bearers of this warrant and of said coupons as the owners thereof, and agree that the respective bearers hereof shall be entitled to receive the principal and interest ordered paid thereby. Any owner or holder of this warrant or of any of said coupons shall be conclusively presumed to forego and renounce his or their equities in favor of subsequent owners or holders thereof for value received without notice, and to agree that this warrant and the said interest coupons may be severally assigned or transferred by any person having possession thereof, however such possession may have been acquired, and that any owner or holder who shall have taken this warrant or any interest coupons from any person for value and without notice shall thereby acquire absolute title thereto and to any claim evidenced thereby, free from any equities and claims of ownership of any such prior owner or holder.

IN WITNESS WHEREOF, the county has caused this warrant to be signed in its behalf by the Chairman of its Board of Revenue, and the official seal of said board to be hereto affixed, and the annexed interest coupons to be executed with the facsimile signature of said officer, and this warrant to be dated April 1, 1951.

LIMESTONE COUNTY *----- COMPLAINANT

VS

TWENTY ACRES OF LAND, more or less in Limestone County, Alabama, described as follows: The North Half of the South east Quarter of the Northeast Quarter of Section 36, Township 2 South, Range 5, west, containing twenty acres; and any and all persons claiming any title to, interest in, lien or incumbrance on said lands, or any part thereof

----- RESPONDENTS

TO THE HONORABLE D. L. ROSENAU, JR., JUDGE OF SAID COURT, SITTING IN EQUITY:

Comes Limestone County, the complainant in the above styled cause, and brings this its bill of complaint against the hereinafter described 20 acres of land, more or less, in Limestone County, Alabama, and against any and all persons claiming any title to, interest in, lien or incumbrance on said lands, or any part thereof, and represents unto your Honor as follows:

1. The complainant herein is Limestone County, a political sub division of the State of Alabama existing under the laws of the State of Alabama.

2. The lands herein in controversy are situated in Limestone County, Alabama, and are more particularly described as follows: the North half of the Southeast Quarter of the Northeast Quarter of Section 36, Township 2 South, Range 5 West, containing 20 acres, more or less. Complainant avers that it is in actual and peaceful possession of said land and has been in such possession since, to-wit; December 3, 1900.

3. Complainant herein claims the fee simple title in and to said above described lands.

4. Complainant herein derived title to said above described lands from Susan C. Tanner, John B. Tanner, Bettie T. McWilliams, William R. McWilliams, Mollie R. Thompson, James L. Thompson, Susan G. Cortes, C. T. Cortes, L. P. Tanner, Lucille W. Tanner, by warranty deed dated December 3, 1900, and filed for record in the Probate Office of Limestone County, Alabama, on the 8th day of December 1900, and duly recorded in Volume 68, page 189 et seq.

5. The title to said land claimed by complainant stands upon the records of the Probate Court of Limestone County, Alabama, the County where said lands are situated, in the name of complainant by virtue of said above described deed. Complainant avers that the description in said deed erroneously describes said lands as follows: The north half of the Southeast Quarter of the Southeast Quarter of Section 36, Township 2, Range 5 west containing 20 acres. Complainant further avers that pursuant to the execution and delivery of said deed it went into actual and peaceable possession of the lands here in above described, that is to say, the North half of the southeast Quarter of the Northeast Quarter of Section 36, Township 2, Range 5, west containing 20 acres, and that since the time complainant has been in continuous and uninterrupted possession of said lands, the said lands being used for many years as the County Pest House property.

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, MAY 7, 1951

6. Complainant avers that it has not assessed said land for taxation within the last ten years next preceding the filing of this bill of complaint, nor paid the same, because of the provisions of Section 91, Constitution of Alabama, 1901, prohibiting the taxation of County property by the legislature. Complainant further alleges that no other persons have paid the taxes on said lands during any part of the ten years preceding the filing of this bill of complaint.

7. Complainant has at all times within the last twenty years been in possession of said above described lands, and complainant has, during said period of twenty years next preceding the filing of this bill of complaint, been in the actual, open, peaceful, continuous, hostile, notorious, and adverse possession of said lands claiming same as its own, and during said period complainant has exercised all rights of ownership over said lands.

8. Complainant avers that it does not know of anyone or any persons who claim said land, any title to, interest in, lien or incumbrance thereon, or any part thereof. Complainant further avers that it has exercised due diligence to ascertain the facts with regard to any one claiming said lands or any interest in said lands but has failed to obtain such information. Complainant states that it has prepared an abstract of title which shows an unbroken chain of title on said land for a period of more than 50 years, and said abstract does not show any adverse claim to complainant's title.

9. Complainant further avers that at this time no suit is pending in any court to test complainant's title to, interest in, or right to possession of said above described lands.

THE PREMISES CONSIDERED, the complainant files this its verified bill of complaint against the said land and against any and all persons claiming any title thereto, interest in, lien or encumbrance upon said lands or any part thereof and to establish the right of title to said lands and to clear up all doubts or disputes concerning the same, and prays that this court will make and enter all orders, judgements, and decrees that may be meet and proper in the premises and that upon final hearing of this cause will decree that complainant is the owner of said lands, and has fee simple title thereto, free from all liens and incumbrances, and will grant to complainant all such other, further, or different relief as may be meet and proper in the premises as it may appear to the Court to be just and equitable.

After carefully considering the bids as received and tabulated on July 16, 1951 the following motion was made by member Charles E. Leopard and seconded by member Mahlon A. A vote was taken and all members present voted aye whereupon the motion was declared adopted by the chairman.

It is ordered that 6 power take offs be ordered from James Chevrolet Co.

Honorable Walter A. Dorning
Commissioner, District 1
Route 2
Toney, Alabama

Dear Mr. Dorning:

We, the undersigned, are all the land owners who live on the Thach Road, running between U.S. Highway 31, and the Upper Elkton Road, along the section line, running through Thach, Alabama.

We individually and jointly respectfully request that this road be declared a farm to market road and that it be paved as soon as practicable thereafter.

We point out to you that this road would connect two paved roads in the northeast portion of Limestone County; that on this Thach Road is located gin, store building, school houses, saw mill, blacksmith shop, church, and thousand of acres of improved land, and dozen of homes.

The road, when paved, would serve the needs of the people in your district.

Respectfully Submitted

The Board of Revenue of Limestone County, Alabama met in regular meeting at the Courthouse in Athens, Alabama on March 3rd, 1952, at 10 A.M., the first Monday in said month. The following were present; A. L. Spence, chairman and the following members of the Board, Messers, Walter A. Dorning, Charles E. Leopard, Mahlon LeCroix, and Oscar Vinson, absent, none. Mr. Spence, Chairman of the Board presided as Chairman of the meeting and a quorum being present, declared the meeting open for the transaction of business. The minutes of the preceding meeting were read and approved.

Nathan Pryor came before the Board asking for a road east from Highway 31 to his place on the section line between the Murphree and Pryor places. It appears that there is a dispute between the above mentioned property owners and the Board feels that it is unwise for the County to become involved in such a dispute. The road proposed by Pryor would be a very expensive road to construct and would serve few people to the mile. Considering all these facts the Board agreed that the request of Nathan Pryor must be rejected for the present.

The following resolution was offered by Member Charles E. Leopard and seconded by Member Oscar Vinson.

WHEREAS, there is a balance of several thousand dollars over and above the amount necessary to meet all obligations of the Athens- Limestone Hospital Fund for the year and,

WHEREAS, in the operation of the Athens- Limestone Hospital there is a deficit in the operating costs,

NOW THEREFORE BE IT RESOLVED, that the Chairman be and he hereby is authorized to sign a warrant payable to the Athens - Limestone Hospital Association in the amount of \$ 6,000.00 in order that said association may pay all current operating expenses of the hospital.

Re: SACP 177-A
Limestone County

Dear Sir:

Enclosed herewith are three copies of a supplemental agreement, approved by

the Board of Revenue, for the above project contract covering the overrun of the project contract.

The original contract was set up at \$51,100.00 and the final estimate for this project totaled \$55,144.32. However the final audit allowed the addition of \$161.84 to the final estimate increasing it to \$55,306.16 and an overrun of \$4,206.16 on the project.

The overrun is explained as follows:

It became necessary during the construction to add 1797 C. Y. of sand stabilizer to the base course material to bring it within standard specifications. This was not considered necessary when planning the project as the pit samples of material for base did not indicate the necessity for sand stabilizer and was not covered in original contract. This item alone cost \$4245.98 which is slightly more than the total overrun on the project.

Dear Sir:

Enclosed herewith are three copies of a supplemental agreement, approved by the Board of Revenue, for the above project contract covering the overrun of the project contract.

In explanation of the overrun on this project I submit the following data sheet.

Data sheet attached.

It appears from the above data that the major overrun on construction items was on the item of common excavation. This item overran the quantity of the original estimate upon actual construction of the project.

The item of engineering and inspection also overran the original estimate. The original estimate however, was only estimated at eight percent rather than the usual ten percent.

Re: SACP 178-A
Limestone County

Dear Sir:

Enclosed herewith are three copies of a supplemental agreement approved by the Board of Revenue, for the above project contract covering the overrun of the project contract.

In explanation of the overrun on this project I submit the following data sheet.

Data sheet attached.

The project audit shows the total cost of the project as \$29,830.04 and an overrun of \$1,103.04. However the total cost of project according to the last estimate was \$29,829.54 and the final audit allowed a claim of an additional amount of \$273.00 or a total cost of \$30,102.54. This makes the actual overrun on the project in the amount of \$1,102.54.

It appears from the above that the main reasons for the overrun are as follows:

The item removal of structures was not foreseen in the original estimate of the project and caused an overrun of \$113.24.

The actual quantities of common excavation were greater than original plan quantities and therefore caused an overrun.

Those items concerning the construction of the base on this project caused the major overrun but as the base costs were only kept on the basis of "per cubic yard in place it is impossible to ascertain just which item caused the overrun".

Mr. Sam A. Gay of Scottsboro, Alabama came before the Board to enter a very vigorous protest to the construction of any road which touches his or his mother's farm in the Southeast Part of Limestone County and a request for the Board to go on record as quashing all talk of any such road.

However, the County may, at its option, purchase any or all of such materials direct, provided that, however purchased, the materials shall conform to the requirements of the specifications.

STATE HIGHWAY DEPARTMENT PRO RATA SHARE OF THE COST OF SAID PROJECT

Article V The State Highway Department pro rata share of the cost of construction of Section B of said project, shall not exceed the sum of thirteen thousand two hundred dollars (\$13,200.00) requested of the State Treasurer as above mentioned, which does not exceed the authorized State Highway Department pro rata share of twenty-six thousand four hundred dollars (\$26,400.00) the approved total estimated cost of Section of said project.

PAYMENTS

Article VI As the construction of said project progresses, the Director shall from time to time draw warrants on the State Treasurer for the payment to hereby designated by the County for that purpose and authorized under the laws of said County to receive public funds of the County of Limestone of such sums as shall not together with previous payments, exceed the State Highway Department Pro rata share, as above specified, of the value, as determined by the director after inspection given time in compliance with the

requirements of Article III hereof. On all except the final payment, a retainage of 7-1/2% shall be withheld. Prior to final payment, all records and accounts of the project shall be audited by the Bureau of Finance of the State Highway Department.

The Director reserves the right to withhold such sum as he may deem necessary to insure completion of construction in compliance with said plans and specifications.

MAINTENANCE OF PROJECT

Article VII The county hereby assumes the obligation of perpetual maintenance of the project beginning on the date same is completed and accepted by the State Highway Department. Such maintenance shall preserve the riding surface and typical section of the roadway by means of systematic routine and periodic repair, the nurture and replacement when necessary of grass and ditch checks, or other devices for prevention of erosion, the protection of inflammable structures from fire, and maintaining the inlet and outlet ditches to drainage structures in such condition that the said structures may function properly at all times. The County agrees that failure on its part to maintain the project in condition satisfactory to the State Highway Department shall be cause for said State Highway Department to defer beginning a new project, until the maintenance of this project has been brought to satisfactory condition.

In witness whereof the parties have hereunto affixed their signatures, the County on the day and year above written and the Director on the 5th day of August 1952.

Re: SACP 137-A
Limestone County

Dear Sir:

Enclosed herewith are signed copies of a supplemental agreement covering the overrun on the above numbered project.

The overrun is explained as follows:

Clearing & Grubbing

1.05 Ac underrun in quantity but the actual cost of item on construction overran the original estimate for the total item in the amount of \$73.20.

Removal of Structures

The actual cost upon construction overran the original estimate of the item in the amount of \$211.70.

Common Excavation

1297 C.Y. Overrun due to discrepancy between the original plans and amount encountered upon construction. Original estimate was figured at .27¢ per C.Y. and actual cost of item was .307¢ per C.Y. This caused a total overrun on item in the amount of \$4,072.84.

Unclassified Bridge Excavation

No overrun in quantity but item cost of \$1.18 more per C.Y. upon construction than was estimated originally. This caused a total overrun on the item in the amount of \$151.60.

Unclassified Culvert Excavation

58 C.Y. overrun due to discrepancy between original plans and amount encountered upon construction. The total item unit cost was \$1.99 per C.Y. more than was originally estimated thereby affecting a total overrun for the item in the amount of \$476.60.

Bridge Concrete Class "A"

38.2 C.Y. overrun due to discrepancy between original plans and amount encountered upon construction. However, the final unit cost was \$7.19 per C.Y. less than the estimated unit cost. This affects an overrun on the total cost for the item in the amount of \$20.16.

Culvert Concrete Class "A"

28.83 C.Y. underrun. A 10' x 3' Culvert at station 34/27 was planned for an additional barrel to be added but upon further check of drainage condition upon construction it was found to afford satisfactory drainage without an additional barrel. The unit cost of this item was also \$9.96 per C.Y. less in final cost than was originally estimated. This affected an underrun on the total cost of the item for the project in the amount of \$1,589.06.

Headwall Concrete Class "B"

45.18 C.Y. overrun due to the use of more headwalls upon construction than originally planned for project. Although the unit cost upon construction was \$5.67 per C.Y. less than estimated the overrun for the total item is in the amount of \$1,823.41.

Reinforcing Steel

7051.2 Lbs. underrun due to eliminating the use of an additional barrel for culvert at station 34/27 and other discrepancies between original plans and amount actually used on construction. This affects an underrun on the total item in the amount of \$461.25.

Structural Steel

1843 Lbs. underrun due to discrepancy between original plans and amount actually used on project. This affects an underrun on the total item for the project in the amount of \$363.81.

Seeding

22 Ac underrun due to the fact that costs for seeding were not claimed on project. This affected an underrun in the amount of \$440.00.

ENGINEERING

\$1,330.03 Overrun due to engineering costs increasing proportionally with increased costs of project.

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, JANUARY 19, 1953

The Board of Revenue of Limestone County, Alabama, met in regular meeting at the Courthouse in Athens, Alabama, on January 19th., 1953, at 10:00 A.M. the third Monday in said month. The following were present: A. L. Spence, Chairman, and the following members of the Board, Messrs. Walter A. Dorning, Charles E. Leopard, Mahlon LeCroix, and Grady McLemore. Absent none. Mr. Spence, Chairman of the Board presided as Chairman of the meeting, a quorum being present, declared the meeting open for the transaction of business. The Minutes of the preceding meeting were read and approved.

Mr. W. H. Christopher of Salem, Alabama, came before the Board requesting the Board to increase royalty on gravel being gotten from his place from 5¢ per c.y. to 8 1/3¢ per c.y. The Board felt that they could not afford this increase at this time.

A discussion was had by the Board of the insurance being carried on the Limestone County Court House. It was decided that we had insufficient insurance, both fire and windstorm. The Chairman was instructed to consult Mr. Martin and Mr. Vinson, local Insurance representatives and increase both the windstorm and the fire insurance to approximately \$125,000.00 coverage.

As per agreement of January 5th., 1953, The Tractor and Equipment Company of Birmingham, Alabama, presented an approved claim for the sum of \$10,000.00 to be paid in 36 equal monthly installments. The Limestone County Bank agreed to purchase said claim for 3% interest on the unpaid balance, whereupon all members signed claim.

After much discussion of the General Welfare of the County, the following resolution was offered by member Mahlon A. LeCroix and seconded by member Walter A. Dorning:

WHEREAS, the Board of Revenue of Limestone County is a Board elected to manage the affairs of the County and ever be on the alert for some means of improving the status of the County and,

WHEREAS, upon receipt of a copy of the audit of the Board of Revenue for the fiscal year 1951-1952 we find that the offices of Sheriff, Tax Collector and Tax Assessor operating under a local act which placed them on a salary did cost the County the sum of \$6,551.20 over and above what it would have had they been on a fee basis instead of a salary.

NOW THEREFORE BE IT RESOLVED, that in view of these figures that the Board of Revenue hereby petition the Hon. W. Amos Jones, Senator and the Hon. W. W. Malone Jr., Representative to enact the necessary Legislation to place the above offices back on a fee basis.

BE IT FURTHER RESOLVED, that a copy of this resolution be mailed to the Hon. W. Amos Jones and the Hon. W. W. Malone and that a copy be given to the local newspaper for publication.

A vote was taken and there being four (4) ayes and no nays the resolution was declared adopted.

Bids having been taken on a new pick-up truck for the use of Dist. 4, the following bids were received and tabulated.

1- New Dodge $\frac{1}{2}$ Ton Pick-up	\$ 1,562.82

Less Allowance for $\frac{1}{2}$ Ton Used Pick-up	<u>1,062.50</u>
<u>Net Difference</u>	\$ 600.00

The bid of Littrell Motor Co. for a new Ford being the lowest and best bid, the following motion was offered by member Grady J. McLemore and seconded by member Charles E. Leopard.

A. L. Spence, Chairman

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, JUNE 22, 1953

The Board of Revenue of Limestone County, Alabama, met in adjourned regular meeting at the county courthouse in Athens, Alabama, on June 22, 1953, at 10:00 o'clock, A.M., pursuant to adjournment of the regular meeting held on June 15, 1953. The following were present: A. L. Spence, chairman of the board, and the following members of the board: Messrs. Walter A. Dorning, Charles E. Leopard, Mahlon A. Lecroix and Grady J. McLemore; absent: NONE. Mr. Spence, chairman of the board, presided as chairman of the meeting and, a quorum being present, declared the meeting open for the transaction of business. The minutes of the preceding meeting were read and approved.

Mr. Dorning introduced the following resolution and order, including the preambles thereto, which was read to the meeting:

The Board of Revenue of Limestone County (herein called "the board") in Limestone County (herein called "the county") in the State of Alabama (herein called "the state") has ascertained and does hereby find and declare as follows:

(a) It is desirable that the county construct and improve or aid in the construction or improvement of necessary public roads and bridges in the county. The board estimates that the total cost necessary to be paid by the county in the performance of such work will be not less than \$100,000.00.

(b) The County does not now have and will not have from its income which will accrue prior to the end of its current fiscal year or prior to the completion of such work funds which will be sufficient and available for said purposes. The county has ascertained that it will be impossible to raise funds for such purposes in any manner other than by anticipation of the proceeds which will be received by the county in the future from the tax levied by the state under Section 647 of Title 51 of the Code of Alabama of 1940, as amended, and distributed to the county pursuant to the provisions of Sections 655 and 657 of Title 51 of said code, as amended, and any substitute for said tax and any tax levied in lieu thereof (which taxes are together herein called "the state tax"). To that end and in order to provide the funds required for said purposes, it will be necessary that the county anticipate the proceeds which will be received by it from the state tax by the issuance of the warrants of the county hereinafter authorized, payable in installments in the future in the manner hereinafter provided.

(c) During the following fiscal years of the county it received from the state, as the county's share of the state tax, the aggregate sums respectively set opposite the years indicated in the following schedule:

<u>During the county's fiscal year ending:</u>	<u>The county received the aggregate sum of:</u>
September 30, 1948	\$203,609.71
September 30, 1949	218,785.71
September 30, 1950	240,963.71
September 30, 1951	267,161.97
September 30, 1952	290,033.53

In the opinion of the board, the aggregate amount which will be received by the county as its share of the state tax during each fiscal year of the county to and including its fiscal year ending September 30, 1960, will be not less than the average of the said sums so received by it during its fiscal year ending in each of the years from 1948 to 1952, inclusive.

(d) There are no bonds, warrants, contracts or claims of any kind now outstanding which were issued or made by the county against, or which are payable out of, the proceeds hereafter to be received by the county from the state tax, or for the payment of which such proceeds have been pledged, except:

\$38,000 principal amount of 1- $\frac{1}{2}$ % State Gasoline Tax Anticipation Warrants of the County dated November 1, 1945, being the unpaid portion of an issue in the original aggregate principal amount of \$150,000, which were authorized by a resolution and order adopted by the board on December 3, 1945;

\$20,000 principal amount of 1- $\frac{1}{2}$ % State Gasoline Tax Anticipation Warrants of the county dated July 1, 1950, being the unpaid and outstanding portion of an issue in the original aggregate principal amount of \$50,000, which were authorized by a resolution and order adopted by the board on July 17, 1950; and

\$100,000 principal amount of 2- $\frac{1}{4}$ % State Gasoline Tax Anticipation Warrants of the county dated April 1, 1951, being all of an issue in said principal amount authorized by a resolution and order adopted by the board on April 16, 1959.

(e) All the proceeds which will be received by the county during the month of July, 1953, and during each month thereafter from the state tax distributed to the county under said Sections 655 and 657 of said Title 51, as amended, will be available for payment of the principal of and interest on the warrants hereinafter ordered issued, except such portion thereof which may be necessary to pay the principal of and interest on the warrants referred to in paragraph (d) hereof as being now outstanding. When the warrants hereinafter ordered issued shall be so issued, they will constitute the first and only claim and lien on said proceeds which may hereafter be received by the county from the distributions respectively made to it under said sections, except the warrants referred to in said paragraph (d).

NOW, THEREFORE, it is hereby RESOLVED, ASCERTAINED, ORDERED AND DECREED by the board as follows:

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, JUNE 22, 1953

The chairman of the board and the County Depository of the county are hereby authorized and directed to register the warrants and the coupons as claims against the State Gasoline Tax Anticipation Warrant Fund of 1953 of the county hereinafter referred to, which registration shall be made simultaneously with respect to all the warrants and the coupons.

(4) There is hereby established a special fund to be known as the "state Gasoline Tax Anticipation Warrant Fund of 1953" (herein called "the special fund") for the purpose of providing for payment of the principal of and interest on the warrants and the coupons. The special fund shall be maintained until both the principal of and interest on the warrants shall be paid in full. There shall be paid into the special fund prior to the last day of each successive month, beginning with the month of July, 1953, the amounts respectively indicated in the following schedule:

<u>Prior to the last day of</u> <u>each of the following months:</u>	<u>There shall be paid</u> <u>into the special fund</u> <u>the following amounts:</u>

May, 1958, to and including October, 1958	3,458.00
November, 1958, to and including April, 1959	3,427.00
May, 1959, to and including October, 1959	3,380.00

In addition thereto, there shall also be paid into the special fund during each successive six months' period commencing with the period beginning November, 1953, and continuing until the principal of and interest on all of the warrants shall have been paid in full, the followings amounts: (a) the amount by which all payments made into the special fund during any preceding six months' period shall be less than the amount herein required to be paid into the special fund during such preceding period; (b) the amount of all sums theretofore paid into the special fund which shall have been lost or which is not for any reason immediately available for payment of such principal and interest; and (c) any additional sums which may be necessary to pay the principal of and interest on the warrants as said principal and interest are herein provided to be paid.

(5) The moneys so provided to be paid into the special fund shall be paid solely out of the moneys which shall hereafter be or become due or payable to the county, or to which the county shall be entitled, from any of the following sources:

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, JUNE 22, 1953

(a) All sums which shall be or become due or payable to the county as payment of its share of the state tax and allocated or distributed to the county pursuant to the provisions of Section 655 of Title 51 of the Code of Alabama of 1940, as amended; plus

(b) All sums which shall be or become due or payable to the county as payment of its share of the state tax and allocated or distributed to the county pursuant to the provisions of Section 657 of Title 51 of the said Code of Alabama of 1940, as amended; plus

(c) All sums and amounts which shall be or become due or payable to the county by any succeeding, corresponding, equivalent, amended, supplemental or additional act or provision of law authorizing or relating to collections received by or apportioned to the county from gasoline or other motor fuel taxes, or the proceeds thereof, or any tax levied by the county or the state all or a portion of the proceeds of which may be received by the county in lieu of the state tax, and which the county shall be lawfully authorized to appropriate, transfer, pledge or use for the construction or maintenance of roads and bridges in the county or for the payment of the warrants and the coupons; it being the intention hereof to include and subject to and set aside, for the payment of the principal of and interest on the warrants, the aforesaid portions of the proceeds payable to the county not merely by virtue of said Sections 655 and 657 of Title 51 of said Code of Alabama of 1940, as amended, but the proceeds payable to or collected by the county under any corresponding, successive, equivalent, amended, supplemental or additional provision of law or any law in lieu thereof which the county may lawfully pledge, assign or set apart for the purposes hereof, in such wise that if the allocation provided by said sections be repealed, amended, or supplemented, any succeeding, corresponding, equivalent or additional fund shall be subject to the payment of the warrants and the interest thereon as contemplated thereby.

(6) The special fund and all moneys at any time in or pertaining thereto, and the proceeds at any time payable to the county from the tax or taxes referred to in paragraph (5) hereof and herein ordered paid into the special fund, are hereby assigned to and pledged with the trustee hereinafter referred to as security for payment of the principal of and interest on the warrants and the coupons. Failure to pay into the special fund the proceeds received by the county from said tax or taxes which are required in this resolution and order to be paid into the special fund shall constitute a diversion thereof. Said assignment and pledge are made for the pro rata benefit of the warrants without preference or priority of one warrant over another by reason of prior issuance or otherwise, and shall be and remain prior to any assignment or pledge of any proceeds of the state tax or taxes which may hereafter be made for the benefit of any other warrants of the county hereafter issued or any contract of the county hereafter made. The special fund shall constitute a trust fund and the trustee therefor is hereby authorized and directed to use so much of the moneys on deposit therein as may be necessary to pay the warrants and the coupons at their respective maturities.

(7) The First National Bank of Montgomery, (herein called "the trustee"), a bank doing business in the City of Montgomery, Alabama, is hereby designated trustee for the special fund pursuant to the provisions of this resolution and order. The special fund shall be held and treated by the trustee as a trust fund for the purposes herein provided. The Department of Finance of the State of Alabama and any successor to its duties are hereby authorized and directed to transmit directly to the trustee such portion of all moneys hereafter payable to the county out of the taxes referred to in paragraph (5) hereof as may be necessary to make the payments into the special fund in accordance with the provisions of paragraph (4) hereof beginning with the payment required therein to be made during the month of July, 1953, and each month thereafter as therein provided. The county depository of the county is hereby ordered and directed to take all steps that may be necessary to cause such payments to be made into the special fund, including the grant to the trustee of authority to collect the payments so provided to be made direct to the trustee by the said Department of Finance and the authority to endorse all warrants, vouchers and checks therefor and to apply the proceeds thereof toward payment of the principal of and interest on the warrants. The county agrees with each holder of the warrants and the coupons that, so long as any of the warrants and the coupons shall remain unpaid, it will not revoke the authority and direction for transmission directly to the trustee as contained in the preceding sentence of this paragraph. The trustee is authorized and directed to pay the warrants and the coupons out of the moneys so paid into the special fund as and when the warrants and the coupons respectively mature, and thereupon cancel and transmit to the county depository the warrants and the coupons so paid. If any moneys remain in the special fund following payment of all the warrants and the coupons, such moneys shall thereupon be remitted by the trustee to the county.

(8) The trustee at any time serving hereunder may resign as such by written notice of such resignation given to the county, to the original purchaser of the warrants from the county, and to the said Department of Finance or the successor to its duties. In the event the trustee should at any time hereafter resign or cease or refuse or become unable to act as trustee hereunder for the special fund the county agrees that it will thereupon appoint a successor trustee hereunder which shall be a banking institution in the State of Alabama which is at the time of such appointment a member of the Federal Reserve System and all or any part of whose deposits shall be insured by the Federal Deposit Insurance Corporation or any similar instrumentality of the United States of America, if there is any such. Upon the appointment of such successor trustee the county shall, within five days thereafter, give notice in writing of such appointment to the Department of Finance of the State of Alabama (or to the successor to its duties) and to the original purchaser of the warrants from the county. All provisions of this resolution and order applicable to the trustee shall likewise be applicable to any successor so appointed.

(9) The general faith and credit of the county are not pledged for the payment of the warrants or the coupons. The warrants and the coupons shall not be general obligations of the county but shall be payable solely out of the special fund. Neither this resolution nor any of the warrants or the coupons issued hereunder shall be deemed to impose upon the county any obligation to pay the principal of and interest on the warrants, or any other sum, except with the moneys herein directed to be paid into the special fund. None of the agreements, representations and warranties made or implied in this resolution and order, or in the issuance of the warrants and the coupons, shall ever impose any pecuniary liability upon the county, except with respect to the said moneys herein directed to be paid into the special fund. Nothing herein, however, shall be construed to relieve the county from the performance of any of its agreements herein contained, or to relieve any of the officials of the county of any of their official duties.

(10) The forms of the warrants and the coupons and the registration certificate thereon shall be substantially as follows, with appropriate changes therein to conform with the provisions hereof:

on the 1st day of _____, 19____, with interest thereon from the date hereof until the maturity hereof at the rate of 2- $\frac{1}{2}$ % per annum, payable semiannually on May 1 and November 1 in each year upon presentation and surrender of the appropriate interest coupons hereto attached as the same respectively become due. Both the principal hereof and the interest hereon shall be payable in lawful money of the United States of America at the principal office of The First National Bank of Montgomery, in the City of Montgomery in the State of Alabama.

This warrant and the interest thereon shall be payable solely from the special fund known as the "State Gasoline Tax Anticipation Warrant Fund of 1953" of the county created by the resolution and order under which this warrant is issued. Said special fund consists of certain sums which are directed by said resolution and order to be paid into said special fund out of the moneys distributed to the county pursuant to the provisions of Sections 655 and 657, respectively, of Title 51 of the Code of Alabama of 1940, as amended, as the county's share of the tax levied by the State of Alabama on the sale, distribution, storage and withdrawal from storage of gasoline and other motor fuels under the provisions of Section 647 of Title 51 of said code, as amended. The full faith and credit of the county are not pledged to the payment of this warrant or the interest thereon and this warrant is not a general obligation of the county. The county is not obligated to pay the principal of or interest on this warrant except from moneys ordered paid into said special fund, and none of the agreements, representations or warranties made or implied in the issuance of this warrant shall be deemed to impose any liability whatsoever upon the county, except to pay the principal hereof and interest hereon out of the moneys ordered paid into said special fund.

This warrant is one of an issue of warrants (herein called "the warrants") of like tenor and effect except as to number and maturity, aggregating \$100,000 in principal amount, all of which are payable solely out of said special fund. For the payment of the principal of and interest on the warrants, the proceeds of the aforesaid tax received by the county under each of said Sections 655 and 657 of said Title 51, as amended, and any substitute therefor and any tax levied in lieu thereof which the county may legally assign and pledge for such purpose, have been assigned and pledged solely for payment of the principal of and interest on the warrants, without preference or priority of one over another, to such extent as may be necessary to pay the said principal and interest as the same shall respectively mature. The warrants are issued pursuant to the constitution and laws of the State of Alabama and a resolution and order duly and legally adopted and made by the governing body of the county for the purpose of constructing and improving or aiding in the construction or improvement of necessary public roads and bridges in the county.

It is hereby certified and recited for the benefit of any person or persons to whom this warrant may be issued or assigned that this warrant represents a valid claim against said special fund; that the amount ordered paid hereby will be so due without condition, abatement, recoupment or offset of any kind; and that all conditions, actions, and things required by the constitution and laws of the State of Alabama to exist, be performed or happen precedent to and in the issuance of this warrant and in the establishment of said special fund exist, have been performed and have happened.

This warrant and the interest coupons hereto attached may be assigned or transferred by delivery. The county agrees with the holder hereof, and with any person or persons to whom this warrant and the said coupons may be assigned, that neither the principal of nor the interest on this warrant will be paid except upon presentation and surrender of the respective warrant and coupons. MINUTES OF A MEETING OF THE PRYOR FIELD AIRPORT
BOARD HELD ON JUNE 18th, 1953.

The Pryor Field Airport Board met in the City Hall at Decatur, Alabama, on June 18th, 1953, at 10:00 o'clock A.M. Mayor H. R. Summer of Decatur, Mayor Elmer L. Vinson of Athens, Chairman Sim L. Howell of the Board of Revenue and Control of Morgan County, and Chairman Arthur L. Spence of the Board of Revenue of Limestone County, being all of the members of the Board, were present in person. The following were also present, at the request of the Board: Mr. John A. Caddell, Attorney, and Mr. Ernie Blackwell, Manager of Tennessee Valley Flight Service, the Airport Operator.

Mr. H. R. Summer, Chairman of the Board, presided.

Each of the members of the Board stated that the proposed contract with Ernie Blackwell, as Airport Operator, in accordance with the minutes of the meeting of the Board of May 14th, 1953, had been approved by the respective governing bodies represented by the members.

Mr. Caddell read the contract which he had been requested to prepare, and it was discussed by the members of the Board and Mr. Blackwell, and approved and executed by all parties.

A discussion was then held as to whether the Board would furnish a white reflector line down the center of the runway, as requested by Mr. Blackwell. Mr. Blackwell stated that with only a North-South runway, it was difficult for planes to land at night, and particularly when it was raining and the cross-wind was encountered, and that a line down the center of the runway would be of a great deal of help to pilots in landing airplanes at all times, and especially under the above conditions.

At the request of the Board, Mr. Caddell telephoned Mr. H. D. Burnum, District Engineer of the Alabama State Highway Department, and asked the cost of providing such a line, and whether the State Highway Department might do the work. After investigation, Mr. Burnum reported that the cost of a 4 inch solid line was approximately \$195.50 a mile. He stated that authority from the Director of the State Highway Department would be necessary in order for the work to be done by the Highway Department, and suggested that this consent be secured through Mr. Asa Rountree, Jr., Director of the Alabama Department of Aeronautics.

The members of the Board calculated that a double 4 inch line should not cost over \$225.00. After considerable discussion, a motion was unanimously adopted that Mr. Caddell be instructed to get in touch with Mr. Rountree and present the problem, with request that the State bear a part, or all of the expense, and the State Highway Department do the work, and that the Board would spend not over \$225.00 toward painting the line; further, that the State be requested to install a deceleration turn for the access road leading from U. S. Highway 31 into the airport.

The question of airline service and other problems were discussed.

There being no further business to come before the meeting, the same was thereupon adjourned.

5. The operator accepts delivery of said property in its present condition and agrees to maintain the buildings, landing field and other property herein leased to him in good condition at all times; and to make such minor repairs as may be needed to maintain the property from time to time, and not to store fertilizer in the buildings.

8. In the operation of said airport the operator shall conform to all the rules and regulations of the Civil Aeronautics Authority which may be applicable to the operation of municipal airports.

9. The operator shall install adequate gasoline and oil servicing facilities on said airport and shall maintain necessary personnel to provide proper service to the public in this respect. 10. The operator shall be obligated to keep said airport designated and open for use of transient aircraft, and shall be obligated to furnish as a minimum the following services:

(a) The operator shall keep an experienced and competent commercial pilot on duty at said airport as manager, who shall devote his full time to the management of said airport under this contract, and shall furnish as many additional instructors and pilots (who shall be only experienced, dependable and capable men) as the business at said airport demands;

(b) The operator shall permanently station at said airport at least four light airplanes, such as Aeronca trainers and Piper Cubs; at least one advance trainer; and at least one three or more place ship; and, if there is a sufficient demand for such training, at least one ship for instrument instruction;

(c) The operator shall provide and made available at the airport services by duly qualified and competent airplane mechanics in such reasonable numbers as may be required by the flying public and the traffic at said airport. The operator shall use his best efforts to provide new and used airplanes for sale to the public and a full line of parts and accessories for airplanes as the trade demands;

(d) The operator shall provide weather reports;

(e) The operator shall make all reports, local, state and Federal, required in the operation of an airport;

(f) The operator shall enforce all flying rules and regulations, Federal, state and local;

(g) The operator shall provide at said airport emergency crash and first aid equipment.

11. All equipment of the operator of every kind and nature brought on the premises by the operator shall remain the property of the operator howsoever the same may be affixed or attached to the premises. Prior to the expiration of this contract or any extension which may be made hereof, all property of the operator may be removed from the premises by the operator. On the date of the expiration of this contract the operator shall deliver the premises to the owner in as good condition as when received, ordinary wear and tear excepted.

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, JULY 20, 1953

The Board of Revenue of Limestone County, Alabama, met in regular meeting at the Courthouse in Athens, Alabama, on July 20, 1953, at 10:00 o'clock A. M., the third Monday in said month. The following were present: A. L. Spence, Chairman, and the following members of the Board, Messrs. Walter A. Dorning, Charles E. Leopard, Mahlon McGroix, and Grady McEmore. Absent none. The minutes of the preceding meeting were read and approved.

Mr. Cobb and Mr. Jones came before the Board with a proposal as follows:

Florence, Alabama
July 20, 1953

The Honorable Board of Revenue
Limestone County
Courthouse
Athens, Alabama

Dear Sirs:

The following is a proposal set forth by the Alabama Department of Conservation, Division of Forestry through the District Two Headquarters located in Florence, Alabama.

An effort is being made to purchase a small Crawler type tractor and fire plow unit costing approximately \$3000. As it is required that the Forest Ranger of Lauderdale county spend 25 or 30 percent of his time in Limestone county, the Division of Forestry is asking that Limestone county make a contribution of \$1000 or 1/3 of the total cost provided that the remaining \$2000 can be secured in Lauderdale county first. The Lauderdale county Ranger in turn can use this unit up to 30% of his time with the Limestone county timber holders at their request during the slack season and any time during a fire emergency.

It is further asked of Limestone county, that an amount of \$250.00/yr be contributed towards operating expense of the above mentioned unit. This amount would be decided on from year to year and the Board of Revenue would be approached at the beginning of the fiscal year.

Any consideration that the Board of Revenue can give this proposal will be greatly appreciated.

Very sincerely yours,

O. R. Cobb, Ranger

J. S. Jones, Project Forester

The Board agreed to consider the above proposal and advice as to the action taken at a later date.

WHEREAS, Section 13 of the Alabama Farm to Market Road Act of 1943, as amended by House Bill 64, approved June 1, 1945, allotted to each county an amount equal to 1/67 of \$2,500,000 of Federal funds from the 1946-1954 Federal-aid Secondary Program with such Federal-aid to be matched by the State and County - share-and-share alike-from the State-County funds provided in the Act.

WHEREAS, the above sum for the County is to cover construction costs and engineering and inspection charges in connection therewith.

NOW THEREFORE, in consideration of these premises the mutual covenants herein contained, and the sum of \$1.00 by each of the parties to the other in hand paid, receipt whereof is hereby acknowledged, the parties hereto agree as follows:

That the State will enter into an agreement with the Bureau of Public Roads covering the improvement of the road and/or bridges near Harvest and Leggtown, known as Project No.S 609 (1) & 610 (1).

That the County hereby authorizes the State to transfer sufficient unobligated funds accrued to the credit of the County and held in the funds of the State to cover one-fourth of the cost of said project and the County agrees to pay to the State on or before the award of the contract a like amount of the unobligated funds accrued in the Treasury of the County to match such funds. Upon completion of the project, a final settlement will be made between the State and County, adjusting overruns and underruns on such a basis whereby the State and County will share equally in the cost thereof over and above the FAS funds allotted to the County for the project.

PURCHASE OF MATERIALS

Article IV The facilities of the State Purchasing Department are at the disposal of the County for the purchase of materials required for the construction of a project. However, the County may, at its option, purchase any or all of such materials direct, provided that, however purchased, the materials shall conform to the requirements of the specifications.

STATE HIGHWAY DEPARTMENT PRO RATA SHARE OF THE COST OF SAID PROJECT

Article V The State Highway Department pro rata share of the cost of construction of Section E of said project, shall not exceed the sum of fourteen thousand four hundred dollars (\$14,400.00) requested of the State Treasurer as above mentioned, which does not exceed the authorized State Highway Department pro rata share of twenty-eight thousand eight hundred dollars (\$28,800.00); the approved total estimated cost of Section E of said project.

PAYMENTS

Article VI As the construction of said project progresses, the Director shall from time to time draw warrants on the State Treasurer for the payment to _____ (Official or Depository) hereby designated by the County for that purpose and authorized under the laws of said County to receive public funds of the County of Limestone of such sums as shall not, together with previous payments, exceed the State Highway Department pro rata share, as above specified, of the value, as determined by the Director after inspection and approval, of the work done on this contract at any given time in compliance with the requirements of Article III hereof. On all except the final payment, a retainage of 7- $\frac{1}{2}$ % shall be withheld. Prior to final payment, all records and accounts of the project shall be audited by the Bureau of Finance of the State Highway Department.

The Director reserves the right to withhold such sum as he may deem necessary to insure completion of construction in compliance with said plans and specifications.

Article VII The County hereby assumes the obligation of perpetual maintenance of the project beginning on the date same is completed and accepted by the State Highway Department. Such maintenance shall preserve the riding surface and typical section of the roadway by means of systematic routine and periodic repair, the nurture and replacement when necessary of grass, and, ditch checks, or other devices for prevention of erosion, the protection of inflammable structures from fire, and maintaining the inlet and outlet ditches to drainage structures in such condition that the said structures may function properly at all times. The County agrees that failure on its part to maintain the project in condition satisfactory to the State Highway Department shall be cause for said State Highway Department to defer beginning a new project, until the maintenance of this project has been brought to satisfactory condition.

In witness whereof the parties have hereunto affixed their signatures, the County on the day and year above written and the Director on the 25th day of September, 1953.

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, OCTOBER 5, 1953

The Board of Revenue of Limestone County, Alabama, met in regular meeting at the Courthouse in Athens, Alabama, on October 5, 1953, at 10:00 o'clock A. M., the first Monday in said month. The following were present: A. L. Spence, Chairman, and the following members of the Board, Messrs. Walter A. Dorning, Charles E. Leopard, Mahlon LeCroix, and Grady McLemore. Absent none. Mr. Spence, Chairman of the Board, presided as Chairman of the meeting, a quorum being present, declared the meeting open for the transaction of business. The minutes of the preceding meeting were read and approved.

Miss Jennie Yarbrough came before the Board in an effort to get the old Decatur Road opened up just South of Town and asking that the County improve said road and construct bridge across Town Creek.

Mr. Leopard told her that it would involve too much expense and benefit too few people unless lots were sold for homesites or else the old quarry was reopened. He assured her that in either event the County would then consider the work asked for on this road.

Mr. Rabon McCormack of the Elkmont Community came before the Board in the interest of the Old Elkmont-Bethel Road near his place. Mr. Dorning assured him that it would be investigated and steps taken to do whatever was necessary to properly maintain this road.

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, DECEMBER 7, 1953

The Board of Revenue of Limestone County, Alabama, met in regular meeting at the Courthouse in Athens, Alabama, on December 7th., 1953, at 10:00 A.M., the first Monday in said month. The following were present: A. L. Spence, Chairman, and the following members of the Board: Messrs. Walter A. Dorning, Charles E. Leopard, Mahlon LeCroix, and Grady J. Mclemore. Absent none. Mr. Spence, Chairman of the Board, presided as Chairman of the meeting, a quorum being present, declared the meeting open for the transaction of business. The minutes of the preceding meeting were read and approved.

Mr. C. Lamar Blazer, representative of the Mullin-Kille Company, a concern making City and County Directories, met with the Board to solicit funds to help defray the expenses of such a publication.

The following motion was introduced by Member Charles E. Leopard and seconded by Member Mahlon A. LeCroix.

Moved that the County take a page advertisement in the Directory to set forth the advantages offered in the County for new industries and further that at least eight copies of the Directory be made available for the County for their use. Moved further that the sum of \$350.00 from the General Fund of the County be and it hereby is appropriated, from funds not already appropriated, to be paid upon delivery of the said Directories.

A vote was taken with all members voting aye, whereupon the motion was declared adopted.

Bids having been solicited from the various building contractors for the construction of a new house for the Sheriff of Limestone County, the following bids were received and tabulated:

Athens Lumber Company agrees to furnish all labor and material necessary to construct, in a workmanlike manner, according to plans submitted for the sum of \$7,890.14.

Flanagan Lumber Company agrees to furnish all labor and material necessary to construct in a workmanlike manner, according to plans submitted for the sum of \$7,850.00 or to construct said building and use a metal stairway instead of wood for the sum of \$8,050.00.

After discussion of the above proposals the following motion was made by Member Mahlon A. LeCroix and seconded by Member Charles E. Leopard.

Moved that the contract be awarded Flanagan Lumber Company according to his bid of \$8,050.00 as it is felt that the metal stairway would be much better and cheaper than a wooden stairway over a period of years.

A vote was taken with all members voting aye and the Chairman declared the motion adopted.

PROPOSAL FOR DEVELOPMENT OF PUBLIC PARK ON TVA LANDS ON WHEELER
RESERVOIR BY LIMESTONE COUNTY BOARD OF REVENUE, ATHENS, ALABAMA

I. INTRODUCTION

The Board of Revenue of Limestone County, Alabama, has determined that the growing recreational needs of the County should be furthered by the acquisition and development of certain TVA lands on the Tennessee River Embayment of Wheeler Reservoir for Public Park Purpose. The following statement described the proposed site and plans for its use and development as a basis for consideration by TVA of its availability for such purposes.

II. DESCRIPTION OF THE AREA

Tracts No. 79R and 361R.

III. PROPOSED IMPROVEMENTS, FACILITIES AND SERVICES

The following improvements, facilities, and services are proposed for the development of said park and it is proposed that they shall be constructed or installed within the period described.

The Board proposed to begin on a small scale by constructing access road with small parking area and a few picnic tables the first year.

Each year we plan to add to these improvements until we have adequate access roads, parking areas, play areas, toilets, fireplaces, refuse containers, picnic shelters, water supply etc. This work to be done over a period of some 10 to 15 years or shorter period should the use of the park demand it.

IV. OPERATION AND MAINTENANCE

The Commissioner in whose district the park is located will make available his equipment for road maintenance, garbage removal and other necessary functions required to keep park in good condition.

V. ADMINISTRATION

The Board of Revenue proposes to appoint a recreational board of 4 or 5 members to study the needs of the park and report such needs to the Board before taking any action on whether it is done or not. Said board to have control of the park, formulate plans and work with the Board of Revenue in the development of said park.

VI. FINANCING

The Limestone County Board of Revenue will make available by appropriation the necessary funds to finance the development of the park. All funds received from the lease of cropland, the sale of timber etc. will be put into the development of the park.

VII. OBJECTIVES AND MASTER PLAN OF DEVELOPMENT

The Primary objective of the whole plan is to provide a place that anyone within the bounds of the County can feel free to go to for an outing or picnic and have good facilities for the convenience and well being of all.

See attached master plan.

AGREEMENT

This agreement by and between the Alabama Highway Department, hereinafter called the Highway Department, and Board of County Commissioners of Madison County, hereinafter called Madison County, and the Board of Revenue of Limestone County, hereinafter called Limestone County, (or where both counties are intended they are called "the counties"), is hereby made a part of the joint contract between the Highway Department and the counties covering the reimbursement by state aid to the counties of 50% of the cost of constructing the bridge over Limestone Creek, known as the County Line Bridge and designated as SACP 1155-A. The estimated cost of the bridge, allowing 10% for engineering and construction, is \$45,000.00.

Under the provisions of the Farm to Market Road Act of 1943, the counties must finance the cost of such construction and are then entitled to claim and receive 50% of such cost.

In view of these premises, it is mutually agreed by the parties hereto, that this project shall be financed and administered as required by the "Farm to Market Road Act of 1943", and that the following procedure shall be used:

1. The preliminary engineering and engineering and inspection of the construction shall be the responsibility of Madison County.
2. Madison County will prepare monthly, or periodic estimates for partial payment to the contractor as the work progresses.
3. When an estimate is ready for payment, Limestone County will be advised by Madison County of the amount (after 7 1/2% retainage is deducted) and Limestone County will prepare a warrant, payable to Madison County for 50% of such amount. Madison County will then make full payment to the contractor for the amount of the estimate.
4. Madison County will prepare monthly statements of engineering and inspection costs, and present one each month to Limestone County, who will issue warrant to Madison County for 50% of the amount of such costs.
5. Madison County will prepare monthly claims against the Highway Department on the usual form, for 50% reimbursement of monthly estimates, including engineering and inspection.
6. Upon receipt of the duly approved monthly claims, indicated in "5" above, the Highway Department will authorize the Comptroller to issue a warrant to Madison County for the total amount of the monthly claim, as soon as sufficient funds shall accrue to the credit of the respective counties. Upon receipt of the warrant for monthly claims Madison County will issue warrant to Limestone County for 50% of such claim.
7. When the construction shall be complete and accepted by Madison County, with the approval of the Highway Department, said Madison County shall prepare the final estimate, and, after obtaining from Limestone County 50% of the balance due, the contractor (including 7 1/2% previously retained) said Madison County shall then make final payment to contractor, provided the usual requirements of advertising by contractor, etc., shall have been performed.
8. Madison County will then prepare a final claim against the Highway Department on the usual form, for 50% reimbursement of the final estimate, including engineering and inspection.
9. Upon receipt of the duly approved final claim, indicated in "8" above, the Highway Department will authorize the Comptroller to issue a warrant to Madison County for the total amount of the final claim, as soon as sufficient funds shall accrue to the credit of the respective counties. Upon receipt of the warrant for the final claim Madison County will issue warrant to Limestone County for 50% of such claim.

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, FEBRUARY 15, 1954

MINUTES OF A MEETING OF THE PRYOR FIELD AIRPORT BOARD HELD ON FEBRUARY 9, 1954

The Pryor Field Airport Board met in the City Hall at Decatur, Alabama, on February 9, 1954, at 10:00 A.M. Mayor H.R. Summer, of Decatur, Mayor Elmer L. Vinson, of Athens, Chairman Sim L. Howell, of the Board of Revenue and Control of Morgan County and Chairman Arthur L. Spence of the Board of Revenue of Limestone County, being all of the members of the Board were present in person. Mr. John A. Caddell, attorney for the Board, and Mr. Ernie Blackwell, the Airport operator, were also present. Mr. H.R. Summer, Chairman of the Board, presided and stated that the purpose of the meeting was to receive bids for repairing the damage caused by lightning to the runway lighting system at Pryor Field.

The original request for bids was as follows:

"February 3, 1954

"TO WHOM IT MAY CONCERN:

"Bid to furnish labor and materials for repair of damaged runway lighting system at Pryor Field.

"Materials needed;

46 Runway Lamps 6.6 amp 30 w
46 Fl 621 Isolation Transformers
9000 feet ditching 2' deep 6" wide
290 feet in concrete ramp
9000 feet #10 600 volt cable Type RR
Stranded CAA spec. L-824

Labor

"Blueprints and details of installation available from airport manager.

"Prices on Crouse-Hinds materials as used in original system available from Moore-Handley Hardware Co.

"Bid to be submitted to Airport Manager by 9:00 AM Friday, Feb. 5, 1954"

Subsequent to the delivery of the foregoing request to electrical contractors, the Board received recommendations from the City of Decatur Electric Department in the following letter:

"ELECTRIC DEPARTMENT
CITY OF DECATUR
DECATUR, ALABAMA

"February 2, 1954

"Mr. Ernie Blackwell, Mgr.
Tennessee Valley Flight Service
Decatur, Alabama

"Dear Mr. Blackwell:

"As a matter of cooperation with you, the Electric Department had two of its Engineers to come over and review your field lighting situation. They have made certain recommendations to you that may eliminate lightning burning out your cable and transformer in the future.

"Mr. Watkins and Mr. Chenault recommend the following and we concur in their recommendations:

- "1. If cost is not prohibitive, use 3000V cable instead of 6000 volt. 3000 volt cable will absorb most surges that would break a lower voltage cable down.
- "2. Use existing 600 volt cable and bond together to form a solid ground around the loop, grounding each light frame.
- "3. Install 600 volt lightning arrestors (1 at every 6th light) and drive 8 ft. Copperweld ground rods at these arrestor locations bonding it to the solid ground recommended in the above step.
- "4. Get City of Athens to check their arrestors on high side of their system and be sure they are good (Note: Arrestor on middle phase looks like it's blown).

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, FEBRUARY 15, 1954

"If there is any further assistance we can give you, please do not hesitate to call on us.

"Yours very truly,

/s/ W.E. Eddens

"W.E. Eddens
Manager"

A copy of the foregoing letter was delivered to each bidder with request that an alternate bid be made incorporating the foregoing suggestions of the City of Decatur Electric Department.

Thereupon it appearing that each of the electrical contractors to whom the proposal for bids had been submitted had filed a bid, the bids were opened, being the following in the following amounts:

NAME	BASE BID	ALTERNATE NO. 1
Lyons Electric Company	\$3450.00	\$4125.00
Devine Electric Company	4440.00	5240.00
Rowland Compton	3513.35	3940.39
Perry Electric Company	6377.00	6642.00
W.E. Estes & Son	3997.00	4953.00

Mr. Ernie Blackwell then explained to the Board that subsequent to placing of requests for bids and alternate, he had received a letter from Crouse-Hinds Company with certain additional recommendations, including a recommendation that their transformer No. FL 4603 be installed instead of transformer No. FL 621, the rated insulation of this transformer being 3000 volts as compared with 600 volts for the FL 621 transformer. It was explained that the difference in cost to the electrical contractors of this transformer over the one on which they bid is \$9.00 each, making a total of \$414.00 on the 46 transformers.

At this point in the meeting, Messrs. Watkins and Chenault of the City of Decatur Electric Department were called and came into the meeting and were asked their opinion as to the value of using the transformer with the 3000 volt insulation. They stated that in their opinion the additional cost would be entirely justified and that, if possible, the change should be made.

Thereupon, upon instructions from the Board, Mr. Caddell telephoned Mr. Rowland Compton and asked him whether he would be willing to substitute the FL 4603 transformer, and, if so, what amount should be added to his bid. Mr. Caddell also asked Mr. Compton if he would make the usual one-year guarantee of the job against defects in workmanship and material and if he would agree to complete the work within three weeks with a penalty of \$50.00 a day for a failure to do so. Mr. Compton stated that he would make the substitution of the transformers for the exact cost to him of \$414.00, making his total bid on Alternate No. 1 with this addition the sum of \$4354.39. He further stated that he would guarantee the work against defects in material and workmanship for a period of one year and would be willing to guarantee completion within three weeks with a \$50.00 a day penalty for failure to do so, provided that the penalty would not apply if his failure to complete the work was due to inability to obtain materials beyond his control.

Thereupon, upon motion by Mr. Vinson, seconded by Mr. Howell, the following resolution was unanimously adopted:

Resolved that the bid of Rowland Compton in the total amount of \$4354.39 (including \$414.00 extra for changing to FL 4603 transformers) be accepted provided that the contractor shall guarantee the work against defective workmanship and materials for a period of one year and will guarantee to complete the work within three weeks with \$50.00 a day penalty for failure to do so, the penalty not to apply if failure is caused by inability to obtain materials beyond the control of the contractor, and further provided that the work shall be inspected by the City of Decatur Electric Department and that payment for the same shall be made upon completion of the work and approval thereof by the City of Decatur Electric Department.

Further Resolved that H.R. Summer, Chairman of the Board, is authorized to enter into a contract with the said Rowland Compton for said work on the foregoing conditions.

There being no further business to come before the Board, the same was thereupon adjourned.

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, March 1, 1954

The Board of Revenue of Limestone County, Alabama, met in regular meeting at the Court-house in Athens, Alabama, on March 1, 1954, at 10:A.M., the first Monday in said month. The following were present: A.L. Spence, Chairman, and the following members of the Board: Messrs. Walter A. Dorning, Mahlon LeCroix, and Grady J. McLemore. Absent was Charles E. Leopard. Mr. Spence, Chairman of the Board, presided as Chairman of the meeting, a quorum being present, declared the meeting open for the transaction of business. The Minutes of the preceding meeting were read and approved.

Much discussion was had as to the program for the year 1953-54.

After an investigation of the proposed reconstruction of the road from Belle Mina west to Highway 31, it was found that in order to make an all weather road through Piney Creek bottom would run the cost so high as to be almost prohibitive. It was the unanimous opinion of the Board that this money could be spent in such a manner elsewhere as to be of much more service to the county as a whole than to spend so much on such a small mileage. In order to expedite plans to insure taking full advantage of all Federal monies available it was decided to construct a bridge over Swan Creek west of Harris and to construct culverts on the Jones Cross Road-Gilliams Corner Road.

February 22, 1954

Mr. A.L. Spence, Chairman
Limestone County Board of Revenue
Athens, Alabama

Dear Mr. Spence:

We are in receipt of the scholarship award from Limestone County to the University of Alabama School of Dentistry to Mr. Fred P. Bickley, Jr. for the school year 1953-54. We also have received the agreement stating that he will practice his profession in that county for the period of one year.

This award has been placed to the credit of Mr. Bickley.

Yours very truly,

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, MARCH 15, 1954

The Board of Revenue of Limestone County, Alabama, met in regular meeting at the Court-house in Athens, Alabama, on March 15, 1954, at 10:A.M., the third Monday in said month. The following were present: A.L. Spence, Chairman, and the following members of the Board: Messrs. Walter A. Dorning, Mahlon LeCroix, Charles E. Leopard, and Grady J. McLemore. Absent none. Mr. Spence, Chairman of the Board, presided as Chairman of the meeting, a quorum being present, declared the meeting open for the transaction of business. The Minutes of the preceding meeting were read and approved.

A small delegation from the Elkmont-Veto Committees came before the Board in the interest of the road from Elkmont to Veto. Mr. Dorning, the member from District One, assured them again that it was in the planning stage and that it would probably be late this year before the machinery would be able to get to this project since the plans were to construct three other projects before this one.

A general discussion was had by the members of the Board as to the status of the program that was planned for the current year. WHEREAS, the Alabama State Highway Department deems this amount excessive of the real value of said lands and have so advised the Limestone County Board of Revenue of their rejection of said value,

Mr. Dave Waitzman of Tractor and Equipment Co. and Mr. Garnett Cox of Joe Money Machinery Co. met with the Board concerning any equipment that the Board might be interested in buying.

Much discussion was had among the Board regarding the Hammer Mill that is being used at our quarry. It was decided that it would be economical to replace said Hammer Mill with some other type secondary crusher. The Chairman of the Board was authorized by the members to investigate the different type crushers available and the cost of the different type crushers. Upon completion of this investigation, the Chairman was authorized and directed to issue a purchase order for the purchase of whatever in his opinion best fitted the needs of the County was most economical to buy and use. Upon making this investigation and study of the needs and prices of the different crushers a purchase order was issued on June 11, 1954 to Tractor and Equipment Co. as follows:

1-Telsmith 28" Intercone Crusher complete with V-Belt Drive Pulley for 3 1/2" shaft with 3/4" keyway for the sum of \$9,000.00 F.O.B. Athens, Ala.

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, AUGUST 16, 1954

The Board of Revenue of Limestone County, Alabama, met in regular meeting at the Courthouse in Athens, Alabama, on August 16, 1954, at 10:30 A.M., the third Monday in said month. The following were present: A. L. Spence, Chairman, and the following members of the Board: Messrs. Walter A. Dorning, Mahlon LeCroix, Charles E. Leopard, and Grady McLemore. Absent none. Mr. Spence Chairman of the Board presided as Chairman of the meeting, a quorum being present, declared the meeting open for the transaction of business. The Minutes of the preceeding meeting were read and approved.

A delegation from the Oak Grove Community came before the Board in the interest of the Thach Section Line Road.

Below is a copy of petition submitted by the delegation for filing with the Board of Revenue:

RESOLUTION 1

August 11, 1954

Athens, Alabama

Board of Revenue
Limestone County
Athens, Alabama

Gentlemen:

We, the undersigned, all live on the Thach Road and in the Oak Grove Community, or own property on said road.

We understand that our road has been approved by both the Federal and State for a Farm-to-Market Road and merely awaits the approval of you gentlemen.

There are more homes, more families and more people living on the Thach Road than on the Section Line one mile South of us and therefore, the paving of our road would serve more people than the paving of the road one mile South of us.

More of the people on our Thach Road are employed at public work than on the other road and therefore, the road is used more often.

There are three stores, one cotton gin, a school, a church, a blacksmith shop a W.O.W. Meeting Hall and a Railroad Siding on our road which is considerably more than on the road to the South of us.

Our Road is used as a through school bus route.

Our road is used as a through mail route.

Two milk companies each have their milk route using our entire road.

There is no dead end to either highway on our road.

Our people are an organized community.

It is our definite opinion that our road is used considerably more than the other road and if paved will serve more people.

We are not engineers, but it is our opinion that it will be much cheaper to pave the Thach Road than the road to the South because there will be fewer hills to cut down on our road and fewer fills to build.

We strongly urge you gentlemen to give full consideration to our need and, if possible, to approve the Thach Road for the next Farm-to-Market Road in our district.

We have elected Frank L. Swanner to represent us before your board and we have done this rather than all of us to try to appear before you gentlemen at your next board meeting.

Respectfully submitted by the members of the Oak Grove Community,

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, SEPTEMBER 20, 1954

The Board of Revenue of Limestone County, Alabama, met in regular meeting at the Courthouse in Athens, Alabama, on September 20th, 1954, at 10:30 A.M., the third Monday in said month. The following were present: A. L. Spence, Chairman, and the following members of the Board: Messrs. Walter A. Dorning, Mahlon LeCroix, Charles E. Leopard and Grady McLemore. Absent none. Mr. Spence, Chairman of the Board presided as Chairman of the meeting, a quorum being present, declared the meeting open for the transaction of business. The minutes of the preceeding meeting were read and approved.

Mr. Joe Money of Joe Money Machinery Company, Mr. John Wise of J. D. Pittman Tractor Company and Mr. Dave Waitzman of Tractor & Equipment Company met with the Board to discuss the needs of the County in heavy equipment. After much discussion and the advancement of many ideas it was decided that no action would be taken on any equipment at this meeting date.

The County owns the block on which the County Jail and Sheriff's Residence is situated. On this lot there is an old barn that detracts from the appearance of the lot and is of no further use to the County. Considering the above facts the following motion was made by Member Mahlon A. LeCroix and seconded by Member Walter A. Dorning.

Moved that the old barn located on the lot owned by Limestone County be sold to Mr. John G. Sandlin for the sum of twenty five (25.00) dollars with the stipulation that Mr. Sandlin move all the barn away from the premises and leave the site in a workman like condition.

A vote was taken with all members voting aye whereupon the motion was declared adopted by the Chairman.

A delegation from Peney Grove Baptist Church came before the Board to discuss the possibility of opening a channel below the Bridge across Piney Creek on the Pinedale Road. A RESOLUTION

After a discussion of their plan and a comparison of it with the plan and a comparison of it with the plan we now have in force it was decided that the very small saving to the County would not off set the work involved in changing over.

MAINTENANCE OF PROJECT

Article VII The County hereby assumes the obligation of perpetual maintenance of the project beginning on the date same is completed and accepted by the State Highway Department. Such maintenance shall preserve the riding surface and typical section of the road way by means of systematic routine and periodic repair, the murture and replacement when necessary of grass, and, ditch checks, or other devices for prevention of erosion, the protection of inflammable structures from fire, and maintaining the inlet and outlet ditches to drainage structures in such condition that the said structures may function properly at all times. The County agrees that failure on its part to maintain the project in condition satisfactory to the State Highway Department shall be cause for said State Highway Department to defer beginning a new project, until the maintenance of this project has been brought to satisfactory condition.

In witness whereof the parties have hereunto affixed their signatures, the County on the day and year above written and the Director on the 13th day of October, 1954.

It was decided that in addition to the bridge over Swan Creek which is to be an FAS project that we would still be able to build another bridge across Swan Creek on the Nick Davis Road and also a bridge across Piney Creek on the Huntsville-Brown's Ferry Road. Mr. Mabry was instructed to proceed to take necessary steps to start planning these bridges. It was also decided to build the approaches to these bridges by including them in our SACP projects.

Mayor Elmer L. Vinson came before the Board to discuss the situation at the Athens-Limestone Hospital. A very lengthy discussion was had, but no action was taken by the Board.

PROPOSAL FOR DEVELOPMENT
OF
PUBLIC PARK ON TVA LANDS ON WHEELER RESERVOIR
BY
LIMESTONE COUNTY BOARD OF REVENUE
AT FLS, ALABAMA

I. INTRODUCTION

The board of Revenue of Limestone County, Alabama recognizes and desires to provide for the growing recreational needs of the citizens of the county through acquisition and development of a site for a public park. On the basis for a careful review of suitable and available sites for this purpose the Board of Revenue has selected a waterfront site on TVA lands which is particularly well qualified to contribute to the public recreation needs of the county. The following statement describes this selected site and sets forth the proposed use and development in support of our request to lease said site.

II. DESCRIPTION OF THE AREA

The selected site which we desire to lease for an initial term of 19 years is situated on Wheeler Reservoir at the Lucy Branch embayment, in Limestone County. This site comprises approximately 100 acres, designated in TVA records as tracts XWR-79R and XWR-361R. It lends itself to development of various day use activities normally associated with county parks and the included embayment is particularly well suited to development of boating and swimming activities. The site also lends itself by size and topography to meeting probable needs for certain group camping activities for the large and growing programs in this field throughout the county.

III. PROPOSED IMPROVEMENTS, FACILITIES, AND SERVICES

We propose to limit development during the first year to basic improvements on a fairly modest scale. These immediate improvements would consist of the construction of an access road, the construction of a parking area, the installation of several picnic tables, and general clean-up and possibly minor grading of certain areas. Among the purposes of this initial development would be to make the area attractive to public recreation use, to develop the identity of the area as a public park, and to determine through such experience the types of development which should be given major emphasis in the future.

Within the financial limitations of the county and with the public support which we confidently anticipate for increased recreational expenditures we plan to carry out a gradual but continuous growth in development of the park, including a fully adequate interior road pattern, additional parking areas, play areas and facilities, toilets, fireplaces, trash receptacles, picnic shelters, water supply, swimming beach, boating facilities and any other recreational improvements for which there is a demonstrated need. We contemplate that this reasonable full development will require a period of some 10 to 15 years for completion, although we fully intend to make every effort to shorten this development period if the recreational demands of the county warrant more rapid development.

We fully recognize the need to carry out the various stages in development of the park in accordance with a master plan. We regard this as an absolute essential to the achievement of a successful ultimate development of the proposed park. The attached master plan, referred to in Item III hereof, will be followed in each step of the development unless or until it is found desirable to prepare a revised master plan.

IV. ADMINISTRATION

Immediately following notification that TVA is willing to lease the requested park site to the county, the Board of Revenue will appoint a county park and recreation commission to plan and administer this proposed park and other recreation programs of the county. The functions of this commission shall include preparation and submission of annual plans and budgets for the development, operation and maintenance of the proposed county park for review and approval by the Board of Revenue and within the approved plans and budgets shall be authorized and be responsible for carrying out said approved plans. The commission shall also be responsible for preparing and submitting for Board of Revenue review long range plans for development and operation of the park. The members of the commission shall be selected and appointed with great care to assure that each such member is well qualified as to ability, genuine interest, and understanding for the task of developing and carrying out a thoroughly successful park administration program.

The County Commissioner in whose district the park is located will make available his equipment and labor for road maintenance, garbage and trash removal and other necessary functions required to keep the park in good condition at all times.

V. FINANCING

The Limestone County Board of Revenue will make available by appropriation the funds necessary to finance the development, operation, and maintenance of the park as contemplated in this proposal. Any revenues derived from the operation of the park will also be used for financing development, operation, and maintenance

activities for this park. It is anticipated that some funds will become available from time to time from civic groups in the county to carry out certain improvement works in the proposed park.

VI. OBJECTIVES

The primary objective of the proposed park project is to provide a properly developed, attractive, and well-administered area that the citizens of Limestone County and other members of the public can use and enjoy to improve the welfare of this county.

VII. MASTER PLAN OF DEVELOPMENT

The attached master plan has been prepared and will be followed to assure that the various stages of development of the park will provide for sound ultimate development of the area. We anticipate that over a period of time new and unforeseen needs will emerge to require modification or complete revision of this existing master plan. As such changes occur it is our sincere intent to prepare a revised master plan to assure that it is current at all times and to assure that any short range changes are in keeping with ultimate development goals.

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, JANUARY 17, 1955

The Board of Revenue of Limestone County, Alabama, met in regular meeting at the Courthouse in Athens, Alabama, on January 17, 1955, at 10:30 A.M., the third Monday in said month. The following were present: A.L. Spence, Chairman, and the following members of the Board: Messers: Walter A. Dorning, Mahlon LeCroix, Charles E. Leopard, and Grady McLeMore. Absent None. Mr. Spence, Chairman of the Board presided as Chairman of the meeting, a quorum being present, declared the meeting open for the transaction of business. The minutes of the preceeding meeting were read and approved.

Member Charles E. Leopard reported to the Board that he had contacted Mr. Joe D. Anderson in regard to his resignation from the Board of Directors of the Athens-Limestone Hospital Association and Mr. Anderson insists that his resignation be accepted.

Member Leopard made the following: Moved that the Board of Revenue accept the resignation of Mr. Joe D. Anderson and moved further that Mr. John D. Anderson be appointed to fill the unexpired term of Mr. Joe D. Anderson.

This motion was duly seconded and upon taking of a vote it was found all members voted aye whereupon the motion was declared adopted by the Chairman.

A group of interested property owners met with the Board and presented the following petition:

STATE OF ALABAMA,
LIMESTONE COUNTY.

TO THE HONORABLE BOARD OF COMMISSIONERS OF SAID COUNTY.

We, the undersigned, as citizens of Limestone County, Alabama and the residents of this section and neighborhood, hereby petition the Board of Commissioners of this county to erect and construct a bridge across Swan Creek on the road connecting Highway 31 and Lindsay Lane Road about three and one half miles from the City of Athens, Alabama. This road on which we wish the bridge to be constructed has recently been graded and traveled and opened for traffic for the public. A bridge is very much needed across the creek. This road serves a good purpose to the public. When the water is high it is impossible to cross it, and especially will it be this way during the winter and spring. The school bus has to turn around and cannot cross it and the milk truck the same way. People have now become accustomed to using the road and frequently drive down to the creek and have to turn around and go back. It being in the shape it is now is very inconvenient. This road cuts off a great distance of travel in connecting these two roads. It is our sincere opinion that this bridge is very much needed and we therefore ask the Commissioners to have this bridge constructed for the interest of the public.

RESPECTFULLY SUBMITTED:

/S/ Mason Jackson
/S/ Lulce Crisby

After reading and discussing the above petition member Charles E. Leopard assured the delegation that their petition would be considered and that the Board would try their best to handle not only this but all needed things in the County to the best advantage of the County as a whole.

Article VI As the construction of said project progresses, the Director shall from time to time draw warrants on the State Treasurer for the payment to _____ hereby designated by the County for that purpose and authorized under the laws of said County to receive public funds of the County of Limestone of such sums as shall not, together with previous payments, exceed the State Highway Department pro rata share, as above specified, of the value, as determined by the Director after inspection and approval, of the work done on this contract at any given time in compliance with the requirements of Article III hereof. On all except the final payment, a retainage of 7-1/2% shall be withheld. Prior to final payment, all records and accounts of the project shall be audited by the Bureau of Finance of the State Highway Department.

The Director reserves the right to withhold such sum as he may deem necessary to insure completion of construction in compliance with said plans and specifications.

MAINTENANCE OF PROJECT

Article VII The County hereby assumes the obligation of perpetual maintenance of the project beginning on the date same is completed and accepted by the State Highway Department. Such maintenance shall preserve the riding surface and typical section of the roadway by means of systematic routine and periodic repair, the nurture and replacement when necessary of grass, and, ditch checks, or other devices for prevention of erosion, the protection of inflammable structures from fire, and maintaining the inlet and outlet ditches to drainage structures in such condition that the said structures may function properly at all times. The County agrees that failure on its part to maintain the project in condition satisfactory to the State Highway Department shall be cause for said State Highway Department to defer beginning a new project, until the maintenance of this project has been brought to satisfactory condition.

In witness whereof the parties have hereunto affixed their signatures, the County on the day and year above written and the Director on the 21st day of January, 1955.

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, MARCH 7, 1955

The Board of Revenue of Limestone County, Alabama, met in regular meeting at the Courthouse in Athens, Alabama, on March 7, 1955, at 10:30 A.M., the first Monday in said month. The following were present: A.L. Spence, Chairman, and the following members of the Board: Messers: Walter A. Downing, Mahlon LeCroix, Charles E. Leopard, and Crady McElmore. Absent None. Mr. Spence, Chairman of the Board presided as Chairman of the meeting, a quorum being present, declared the meeting open for the transaction of business. The minutes of the preceeding meeting were read and approved.

A delogation from the Wooley Springs Road Community came before the Board in the interest of improving the said Wooley Springs Road from Highway 31 West to the Upper Elkton Road.

Member Walter A. Downing in whose district this road lies told them that this road was being considered along with the Thach and Bethel section Line Roads. A study is being made along with a traffic county to determine which of the three roads would be of the most importance to the County as a whole.

The Board having made application to the Tennessee Valley Authority for a lease on 85 acres of TVA property adjoining Luch Branch in Limestone County to be used for recreational purposes the following lease was received and read to the Board.

LEASE AGREEMENT

Between

UNITED STATES OF AMERICA

By

TENNESSEE VALLEY AUTHORITY

And

BOARD OF REVENUE OF LIMESTONE COUNTY, ALABAMA

THIS LEASE AGREEMENT, made and entered into as of the 15th day of January, 1955, by and between the UNITED STATES OF AMERICA (hereinafter called "Lessor"), acting by and through its corporate agency and instrumentality, TENNESSEE VALLEY AUTHORITY (hereinafter called "TVA"), and the BOARD OF REVENUE OF LIMESTONE COUNTY, ALABAMA (hereinafter called "Lessee"),

W I T N E S S E T H:

WHEREAS, TVA, acting in the name and on behalf of the United States, and as an incident to the construction of Wheeler Dam and Reservoir, has heretofore acquired certain land, hereinafter described, located in Limestone County, Alabama, and is authorized and empowered, in the name of the United States, to lease said land for recreational use; and

WHEREAS, the parties hereto desire to provide for the leasing of said land and certain related rights to Lessee, upon terms which will assure the use thereof for recreational purposes, all in accordance with and subject to the provisions of this agreement:

NOW THEREFORE, in consideration of the premises and of the mutual covenants herein contained, and in further consideration of the sum of One Dollar (\$1.00) paid by Lessee to TVA, receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. Lessor, subject to all of the terms, conditions, reservations, and exceptions contained in this agreement, hereby leases and demises to Lessee the following land and related right, all located in Limestone County, Alabama:

(a) A tract of land (sometimes referred to herein as the "leased tract") which is identified by the metes and bounds description attached to and made a part hereof as Exhibit A and which is also shown and described on the map attached to and hereby made a part hereof as Exhibit B.

(b) The following rights: (1) the right, for the benefit of the general public, to construct and maintain, on that land of the United States in the custody of TVA, (hereinafter for convenience sometimes referred to as the easement area), which may at any time or from time to time lie exposed and unsubmerged between the 560-foot MSL contour boundary of the leased tract and the waters of Wheeler Lake, and in the waters upon which said easement area immediately abuts, but solely at locations and in accordance with plans approved in advance and in writing by TVA, floats, floating boathouses, piers, docks, and similar recreational water-use facilities; (2) the right, for the benefit of the general public, to construct and maintain above the 556-foot MSL contour elevation, in areas approved by TVA for that purpose on said easement area, minor incidental recreational facilities such as picnic tables, fireplaces, parking areas, and similar facilities not subject to serious damage by flooding; (3) the right to cross and recross and permit members of the public to cross and recross said easement area for purposes of ingress and egress to and from the waters of Wheeler Lake for recreational purposes, and for purposes of ingress and egress to and from such recreational facilities as may be constructed by Lessee in the exercise of the rights

granted under this subparagraph, it being expressly stipulated as a condition of this lease that said easement area may be used and improved under this agreement only as specifically provided in this subparagraph, and subject always to the applicable exceptions, reservations, covenants, and conditions of this agreement. The easement area which is the subject of the rights described in this subparagraph shall include only those lands lying north of the line identified in the notes and bounds description in Exhibit A as being the center line of a county road; and those lands lying between a line commencing at the west end of the course identified in said Exhibit A by a bearing and distance of due east, approximately 50 feet, and extending thence due west to an intersection with the waters of Wheeler Lake, and a line commencing at the east end of the course identified in said Exhibit A by a bearing and distance of S. 62° 59' E., approximately 430 feet, and extending thence due south to an intersection with the waters of Wheeler Lake.

For the purpose of convenience, the sum total of the lands and rights covered by this lease are sometimes hereinafter collectively referred to as the "leased premises", and said term as hereinafter used shall also be deemed to include any and all of the land embraced within the easement area and which is the subject of the rights described in subparagraph (b) of this article, without, however, changing or enlarging in any respect or degree the Lessee's rights or privileges with respect to said last-mentioned land.

2. The leased premises are leased subject to such rights as may be vested in third parties to a road and right-of-way therefor.

3. To have and to hold the said leased premises solely for the purposes hereinafter stated, and subject to all of the terms and provisions of this agreement, for a term beginning with January 15, 1954, and ending with January 11, 1974.

4. The leased premises may be used by the Lessee, subject always to the exceptions, reservations, covenants, and conditions herein contained, solely for the establishment, maintenance, and operation thereon of a county park for public recreation and for no other purpose or purposes, and the Lessee, by its acceptance hereof, covenants to observe and abide by said conditions at all times.

5. In executing this lease, Lessee expressly recognizes that Congress, in enacting the Tennessee Valley Authority Act of 1933, as amended, and in establishing TVA, authorized and directed TVA to control and regulate the Tennessee River and its tributaries and to operate its dams and reservoirs primarily for purposes of navigation and flood control, and for maximum power production consistent with said primary purposes; that the reservoir system of which Wheeler Reservoir is an integral part will be operated in accordance with the provisions and requirements of said statute; that the present plan for operating Wheeler Reservoir calls for a low reservoir level during the winter months to provide a maximum amount of storage space for use in regulating floods, a higher level during the early summer months, and a gradual drawdown in the late summer and fall to the winter level; and that under said present plan of operation the reservoir may be drawn to lower elevations on the beginning of a flood to provide additional storage space, and will be filled to much higher elevation during a flood to provide the regulation and control desired. Lessee further expressly recognizes, and shall take into account in its development and use of the leased premises under this agreement the fact that rapid and severe fluctuations of the lake level will occur which may temporarily or intermittently inundate some portion of the leased tract and part or all of the easement area and that such fluctuations of the lake level may remove the water's edge a considerable distance from said leased tract. Lessee further recognizes that the present operating plan referred to herein may be changed at any time because of stream flow or other conditions, and nothing herein contained shall prejudice the right of Lessor, its successors, assigns, and agents which right is hereby expressly reserved, to modify or abandon said present plan or any future plan of operation at any time without notice.

6. Lessor shall have and hereby expressly reserves to and for itself, its successors, assigns, and agents, the right to enter in, upon, over, and across any and all portions of the leased premises for the purpose of inspecting said lands and Lessee's operations therein and thereon, together with the further right to enter upon, over, and across any and all of said lands for the purpose of doing and performing or causing the performance thereon of any and all things which it or they may consider or determine to be necessary, desirable, convenient, or proper in connection with any present or future statutory function, activity, or program of TVA, of any function, activity, or program authorized or provided for by the Tennessee Valley Authority Act of 1933, as heretofore or hereafter amended, whether related to river control or development or otherwise, including, without limitation by reason of enumeration, navigation, flood control, power, national defense, malaria control, sanitation, and erosion control; provided, however, that Lessor will, as to the leased tract, but subject to the provisions of Article 7 below, endeavor to exercise said rights only to the extent determined by it or its agents to be reasonably necessary, and in the exercise thereof as to said leased tract will make reasonable efforts to minimize adverse effects upon Lessee's use, operation, and development of said tract for the purposes of this lease.

7. Without limitation of any rights reserved under the preceding section, and notwithstanding any of the provisions or limitations of said preceding section, Lessor shall have and hereby expressly reserves to and for itself, its successors, assigns, and agents, the unqualified and unrestricted right, at any and all times and from time to time, to draw down Wheeler Lake and to fluctuate the level of said lake in any manner which it or they may consider necessary or desirable in its or their sole discretion, and to flood and submerge with water from any source or sources any and all portions of the leased tract and any and all of the lands embraced within the aforesaid easement area, all without regard to the effect of such drawdown,

fluctuation, or flooding upon the property, facilities, operations, or activities of Lessee.

8. Lessor shall have and hereby expressly reserves to and for itself, its successor, assigns, and agents, the exclusive right, to subsists from the date hereof until December 31, 1958, including all necessary rights of ingress and egress, to enter upon the leased premises and to harvest and remove pine timber from the pine plantations located on said leased premises; provided, however, that the rights retained herein shall at all times be exercised with due regard for sound forestry practices; and provided further, that Lessor will in the exercise of said rights endeavor to minimize adverse effects upon the Lessee's use of said leased premises for recreational purposes.

9. This lease in no way constitutes or evidences approval by TVA, within the meaning of Section 26a of the Tennessee Valley Authority Act, as amended, of any structure or facility constructed or to be constructed by Lessee upon the leased premises. No structure or facility for which an approval is required under said Section 26a shall be constructed until plans for such facility or structure have been submitted to the TVA Committee for the Administration of Section 26a and approved by the TVA Board of Directors in accordance with established procedures.

10. As part of the consideration for this lease and by its acceptance hereof, Lessee releases Lessor, its successors, assigns, agents, instrumentalities, and employees, of and from, and agrees that it and they shall not incur, any liability for injury to or death of any person or persons or for any damage to or loss of property resulting from or in any way connected with Lessor's application of larvicides, herbicides, or chemicals in dust, sprays, aerosols or other forms on the leased premises; as a result of the exercise or enforcement of flooding rights or reservoir fluctuation rights herein reserved; as a result of any erosion or saturation of banks or other lands which may accompany or follow such flooding or fluctuation or result from wave action, the percolation or seepage of ground water, or other causes; or as a result of the exercise or enforcement of any of the rights or interests reserved, excepted, or otherwise retained under this agreement.

11. Nothing in this agreement shall be deemed to constitute Lessee the agent of the United States of America and/or TVA for any purpose, and all persons employed or whose services are utilized by the Lessee upon the leased premises shall be Lessee's employees, servants, and agents only.

12. Lessor does not warrant or represent that the leased premises or any means of ingress thereto or egress therefrom are safe, healthful, adequate, or suitable for the purposes for which they are intended or may be used under the terms of this lease. Lessee covenants and agrees to indemnify the Lessor and TVA against, and save them and each of them harmless from all claims, damages, demands, actions, costs and charges to which they or either of them or Lessee may be subject or may have to pay by reason of any injury to any person or property, or loss of life or property, suffered or sustained by all parties whomsoever, resulting from or in any way connected with the condition or use of the leased premises including any means of ingress thereto or egress therefrom, except liability for personal injuries, property damage, or loss of life or property caused by the sole negligence of the Lessor or TVA.

13. If at any time in the performance of the duties imposed upon it by statute or Executive Order, Lessor, its successors, assigns, or agents shall find it necessary or advisable to devote any essential portion of the leased premises to some nonrecreational use which shall be inconsistent with the use of the lands by Lessee as herein provided, Lessor may cancel this lease by giving Lessee notice in writing specifying the termination date. Such notice shall be given not less than ninety (90) days prior to the termination date so specified. Upon the termination date specified in said notice, this lease shall expire. It is the intention of Lessor, however, that the leased premises shall be devoted to use by Lessee for the establishment, maintenance, and operation thereon of recreational facilities for the use, benefit, and enjoyment of the general public to the extent permitted by this lease, and that the power of cancellation herein reserved will be exercised only in the event of some change in conditions making it necessary.

14. Notwithstanding the provisions of Article 13 hereof, if Lessee shall at any time fail to comply with any of the covenants, terms, or conditions of this lease, and shall continue in such default for a period of thirty (30) days after written notice from Lessor requesting compliance therewith, then or at any time thereafter, Lessor may at its option declare this lease terminated, such declaration to be made in writing to Lessee. Upon the termination date specified in said declaration, this lease shall expire. Upon any termination of this agreement, Lessee shall forthwith quit the premises and, subject to the provisions of Article 13 hereof, shall deliver immediate and complete possession thereof to Lessor. No expiration or termination of this lease, howsoever caused, shall affect any rights accrued to Lessor under this lease at the termination date.

15. Lessee shall have the right, subject always to the applicable limitations and other provisions of this lease, and it is Lessee's intent to develop and improve facilities upon the leased tract and to develop and improve water-use facilities upon the easement area for public recreational and related purposes as the need arises, and as means are found to effect necessary developments during the term of this lease; provided, however, that all plans and specifications for the construction, operation, and maintenance of any structures or facilities upon the said leased premises shall be submitted to Lessor for review and approval, and no construction work shall be undertaken or done until such approval shall have been given in writing. It is expressly understood that standards of construction, operation and maintenance of structures and facilities by Lessee hereunder shall be consistent with those standards established by the State of Alabama, and shall conform with applicable State and county building codes and regulations. Any structures and facilities constructed

upon the leased premises by Lessee pursuant to this lease shall be and remain the property of Lessee, and may be removed therefrom by Lessee on or before and within thirty (30) days after any termination of this lease. Any property of Lessee not so removed after thirty (30) days following any termination of this lease shall be considered as abandoned by Lessee, and title to such property shall pass to Lessor without further consideration; provided, however, that if Lessor, upon any termination hereof, desires the removal of any structure or facility placed by Lessee upon said premises the Lessee, upon written notice from Lessor to that effect, shall tear down and/or remove any such structure or facility designated by Lessor not later than the termination date of this lease or thirty (30) days from the date of such notice by Lessor, whichever is the later. Lessee shall promptly repair any damage to Lessor's lands resulting from the erection, installation, tearing down, or removal of said structures or equipment and shall leave said lands in a clean and orderly condition. All property of Lessee constructed, erected, or installed in or upon the lessor's lands pursuant to this lease shall be at the sole risk of Lessee.

16. Lessee's use of the leased premises shall at all times be subject to and in compliance with the laws of the United States, the laws of the State of Alabama and political subdivisions thereof, and such general rules and regulations as Lessor or TVA may prescribe from time to time with respect to property or properties wined by or under its or their control. The term "laws" as used herein shall include administrative rules and regulations.

Lessee shall not permit or suffer any offensive use of the leased premises, shall not permit or suffer the commission of waste upon said premises, shall not use or permit the use of any of said premises for any purpose or in any manner which will result in pollution of Wheeler Reservoir, and shall refrain from acts which have a tendency to cause undue soil erosion thereon. Lessor shall do all in its power to prevent and suppress forest and grass fires upon and in the vicinity of the said premises and shall maintain said premises and all improvements thereon in a safe condition and in good order and appearance.

17. Neither this lease nor any interest therein may be assigned or transferred by Lessee, nor may the leased premises or any of them be sublet in whole or in part, nor the use of the leased premises or any of them be granted by license or permit, unless Lessee has secured written permission from Lessor prior to such assignment, transfer, sublease, license or permit. Any assignment, transfer, sublease, license, or permit granted or issued by Lessee without first obtaining the written consent of Lessor shall be void and of no effect.

18. If any dispute shall arise with reference to any question of fact arising hereunder, the determination of the Director of the Division of Reservoir Properties of TVA with reference thereto shall be final and conclusive upon the parties hereto as to such questions of fact; provided, however, that the parties shall have opportunity to present statements or evidence supporting their respective interpretations and judgments relating to any fact or facts in dispute for consideration by said Director in advance of the Director's determination with reference thereto.

19. No member of or delegate to Congress of Resident Commissioner or employee of Lessor or TVA shall be admitted to any share or part of this agreement or to any benefit to arise therefrom. This article, however, shall not be construed to extend to any incorporated company if the agreement be for the general benefit of such corporation or company.

20. Lessee recognizes, covenants, and agrees that all rights, title, and interests reserved or otherwise retained or possessed by the Lessor under this agreement, and all determinations with respect thereto, may be exercised, enjoyed, and made by the Lessor, acting by and through its authorized agents and representatives; and that (except with respect to the rights and interests reserved by Article 21 hereof) under the provisions of the Tennessee Valley Authority Act of 1933, as amended, all rights, title, and interests so reserved, retained, or possessed by the Lessor, including the use, possession, and control thereof, and all determinations with respect thereto, are entrusted to and may be exercised, enjoyed, and made by TVA as an agent and instrumentality of Lessor.

In all matters relating to this agreement, except as otherwise specifically provided herein, the Manager of Properties, Guntersville-Wheeler Branch, Guntersville, Alabama, shall act for the Lessor and TVA unless and until the Lessor shall notify Lessee in writing that another official has been empowered to perform said function. In all matters relating to this lease the Chairman, Board of Revenue of Limestone County, whose address is Athens, Alabama, shall act for the Lessee unless and until Lessee shall notify the Lessor in writing that another agent has been empowered to perform such function. All notices under the terms of this agreement shall be written notices addressed by either party to the representative of the other as stated above.

21. All uranium, thorium, and all other materials determined pursuant to Section 5(b)(1) of the Atomic Energy Act of 1946 (42 Stat. 417) to be peculiarly essential to the production of fissionable material, contained, in whatever concentration, in deposits in the leased premises are hereby reserved for the use of the United States, together with the right of the United States through its authorized agents or representatives at any time to enter upon the land and prospect for, mine, and remove the same, making just compensation for any damage or injury occasioned thereby. However, such land may be used, and any rights otherwise acquired by this agreement may be exercised, as if no reservation of such materials had been made; except that, when such use results in the extraction of any such material from the land in quantities which may not be transferred or delivered without a license under the Atomic Energy Act of 1946, as it now exists or may hereafter be amended, such material shall be the property of the United States Atomic Energy Commission, and the Commission may require delivery of such material to it by any possessor thereof after such material has been separated as such from the ores in which it was contained.

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, MARCH 7, 1955

if the Commission requires the delivery of such material to it, it shall pay to the person mining or extracting the same, or to such other person as the Commission determines to be entitled thereto, such sums, including profits, as the Commission deems fair and reasonable for the discovery, mining development, production, extraction, and other services performed with respect to such material prior to such delivery, but such payment shall not include any amount on account of the value of such material before removal from its place of deposit in nature. If the Commission does not require delivery of such material to it, the reservation hereby made shall be of no further force or effect.

IN WITNESS WHEREOF, the parties have caused this agreement to be executed by their representatives thereunto duly authorized as of the day and year first above written.

A RESOLUTION

COUNTY OF LIMESTONE
STATE OF ALABAMA

Be it resolved by the Board of Revenue of Limestone County that the U.S. Bureau of Public Roads be requested to approve the addition of the following described road or street to the Federal Secondary Road System of Limestone County.

(1) An extension of FAS 107 beginning at the intersection of Jefferson Street (FAS 107) and Washington Street and extending south 3° E along Jefferson Street to the center of Forrest Street; thence south 3° E a distance of 18 feet; thence with a 11° degree curve to the left a distance of 323 feet; thence south 14° E a distance of 90 feet; thence with a 10° curve to the right a distance of 324 feet; thence S 6° E along the east side of and adjacent to the Glen Augar Sub-division to the intersection of new U.S. Highway 72 west of the L & N Railroad.

The length of proposed addition is approximately 0.9 miles.

(2) The above described route extension is needed to pass traffic entering the City of Athens on Alabama Highway 127 straight through town and to alleviate the necessity of having through traffic make a circuitous route in passing through the City, thereby causing delay and congestion to both local and foreign traffic. This route extension would allow traffic a more direct access to the main business district of the City. It would also prevent traffic on Alabama 127 from crossing the L&N Railroad grade crossing in the City thereby eliminating hazards and congestion at these crossings.

(3) Attached hereto is a map of the City of Athens, Alabama showing location of proposed addition.

(4) The Board of Revenue of Limestone County is hereby submitting the above resolution in cooperation with the City of Athens to add the above described route to the Federal Secondary Road System of Limestone County.

I hereby certify that the above Resolution was duly passed by the Board of Revenue of Limestone County in regular session April 18th, 1955.

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, MAY 2, 1955

The Board of Revenue of Limestone County, Alabama, met in regular meeting at the Courthouse in Athens, Alabama, on May 2, 1955, at 10:30 A.M., the first Monday in said month. The following were present: A.L. Spence, Chairman, and the following members of the Board: Messrs: Walter A. Dornier, Mahlon LeCroix, Charles F. Leopard, and Grady McEmore. Absent none. Mr. Spence, Chairman of the Board presided as Chairman of the meeting, a quorum being present, declared the meeting open for the transaction of business. The minutes of the preceding meeting were read and approved.

Mr. John Doseck, superintendent of the Agricultural Sub-station at Belle Mina, came before the Board to discuss a water problem that affects the Sub-station Farm now and could affect a County Road in the future. After a discussion member Leopard agreed to go over and inspect this situation in the near future.

Mr. Doseck also had another request of the Board. The Agricultural Sub-station at Belle Mina has been selected as one of six such stations in various areas of the United States to cooperate with the U.S. Department of Agriculture and the Alabama Extension Department to run feeding experiments on steers to determine for the public the feasibility of feeding steers. In order to get such program under way the Sub-station must pave and construct a feed area.

Member Charles F. Leopard moved and member Mahlon A. LeCroix seconded the following motion.

Moved that in order for the sub-station at Belle Mina to enter into this project and help the farmers of this area that the Board of Revenue proceed to grade and gravel then to pave a feed lot approximately 125 ft. by 120 ft.

A vote was taken with all members voting aye whereupon the motion was declared adopted.

The grading equipment as set up under the Farm to Market set up in the County is of the old crawler type and has considerable age on it. After a discussion of this situation and a comparison of prices on the different makes of equipment the following resolution was offered by member Mahlon A. LeCroix and seconded by member Grady J. McEmore.

WHEREAS, the Board now has some very old and worn equipment in the farm to market set up for grading, and,

AND WHEREAS, the Board is very desirous of doing all their work at the cheapest possible price, and,

WHEREAS, we feel that to replace some of the old obsolete equipment with new and more modern equipment will greatly reduce our costs on items of work in the grading of roads, and,

WHEREAS, after carefully considering several pieces of equipment we believe that the offer made by Tractor and Equipment Co. to be the best offer obtainable.

BEFORE THE BOARD IT IS RESOLVED, that an order be placed with Tractor and Equipment Co. for equipment as listed below.

1-new International model 2T-55	
pay scraper	\$29,750.00
less allowance on used Caterpillar model	
D-8 tractor and pullman standard pan	9,375.00
Net difference	\$20,375.00
1-new International TB-18-A crawler tractor	17,000.00
less allowance on used model D-8 Tractor	3,375.00
Net difference	13,625.00

All the above to be on an approved claim signed by the Chairman of the Board payable in 48 monthly installments and bearing interest at 4%.

A vote was taken with all members voting aye whereupon the resolution was declared adopted.

PURCHASE OF MATERIALS

Article IV The facilities of the State Purchasing Department are at the disposal of the County for the purchase of materials required for the construction of a project. However, the County may, at its option, purchase any or all of such materials direct, provided that, however purchased, the materials shall conform to the requirements of the specifications.

STATE HIGHWAY DEPARTMENT PRO RATA SHARE OF THE COST OF SAID PROJECT

Article V The State Highway Department pro rata share of the cost of construction of Section A of said project, shall not exceed the sum of Twenty-seven thousand four hundred dollars (\$27,400.00) requested of the State Treasurer as above mentioned, which does not exceed the authorized State Highway Department pro rata share of Fifty-four thousand eight hundred dollars (\$54,800.00); the approved total estimated cost of Section A of said project.

PAYMENTS

Article VI As the construction of said project progresses, the Director shall from time to time draw warrants on the State Treasurer for the payment to _____ hereby designated by the County for that purpose and authorized under the laws of said County to receive public funds of the County of Limestone of such sums as shall not, together with previous payments, exceed the State Highway Department pro rata share, as above specified, of the value, as determined by the Director after inspection and approval, of the work done on this contract at any given time in compliance with the requirements of Article III hereof. On all except the final payment, a retainage of 7% shall be withheld. Prior to final payment, all records and accounts of the project shall be audited by the Bureau of Finance of the State Highway Department.

The Director reserves the right to withhold such sum as he may deem necessary to insure completion of construction in compliance with said plans and specifications.

MAINTENANCE OF PROJECT

Article VII The County hereby assumes the obligation of perpetual maintenance of the project beginning on the date same is completed and accepted by the State Highway Department. Such maintenance shall preserve the riding surface and typical section of the roadway by means of systematic routine and periodic repair, the nurture and replacement when necessary of grass, and, ditch checks, or other devices for prevention of erosion, the protection of inflammable structures from fire, and maintaining the inlet and outlet ditches to drainage structures in such condition that the said structures may function properly at all times. The County agrees that failure on its part to maintain the project in condition satisfactory to the State Highway Department shall be cause for said State Highway Department to defer beginning a new project, until the maintenance of this project has been brought to satisfactory condition.

In witness whereof the parties have hereunto affixed their signatures, the County on the day and year above written and the Director on the 19th day of April, 1955.

The Board of Revenue of Limestone County, Alabama, met in regular meeting at the Courthouse in Athens, Alabama, on June 20th, 1955, at 10:30 A.M., the third Monday in said month. The following were present: A. L. Spence, Chairman; and the following members of the Board: Messers: Walter A. Dorning, Mahlon LeCroix, Charles E. Leopard, and Grady McLemore. Absent none. Mr. Spence, Chairman of the Board presided as Chairman of the meeting, a quorum being present, declared the meeting open for the transaction of business. The minutes of the preceding meeting were read and approved.

Mr. John C. Batts, one of the Directors of the District One T.B. Sanatorium, contacted the Chairman of the Board a few days ago in regards to obtaining County participation for one more bed at the Sanatorium for the remainder of the time from now until October 1st, 1955. At least, he explained that a life long resident of the County one Mr. Owens, had contracted T.B. and was in such condition as to be cured if he could receive immediate treatment at the Sanatorium.

After explaining this request to the Board the following motion was offered by member Charles E. Leopard and seconded by member Mahlon A. LeCroix.

Moved that enough money not otherwise appropriated be appropriated, from the General Fund of the County, to pay the County's share, which is \$2.00 per day for one more bed at the T.B. Sanatorium at Flint, Alabama from now until the beginning of the counties fiscal year, which is October 1st, 1955.

A vote was taken with all members voting aye. Whereupon the motion was declared adopted.

WHEREAS, the annual convention of the Association of County Commissioners meet in Birmingham, Alabama on August 25th and 26th, 1955, and,

WHEREAS, the Association publishes a yearbook each year just before the convention which does much to advertise the resources of the counties of Alabama, and,

WHEREAS, we feel that a page advertisement in the above mentioned yearbook would be worth a considerable sum to the county.

NOW THEREFORE BE IT RESOLVED, that the sum of \$56.00 of, monies not otherwise appropriated, be appropriated to pay for a page advertisement in the yearbook of the Association of County Commissioners of Alabama.

Upon the taking of a vote it was found that all members voted aye. The Resolution was then declared adopted by the Chairman.

The following motion was offered by member Mahlon A. LeCroix and seconded by member Charles E. Leopard.

Moved that since our next regular meeting day is on the 4th day of July, a National Holiday, and since if at anytime the Chairman of the Board can call a meeting, that unless so called the Board defer their next meeting to the 4th Monday in July.

MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, JULY 18th, 1955

The Board of Revenue of Limestone County, Alabama, met in regular meeting at the Courthouse in Athens, Alabama on July 18th, 1955, at 10:30 A.M., the third Monday in said month. The following were present: A. L. Spence, Chairman; and the following members of the Board: Messers: Walter A. Morning, Mahlon A. LeCroix, Charles L. Leopard, and Grady McLemore. Absent none. Mr. Spence, Chairman of the Board, presided as Chairman of the meeting. A quorum being present, declared the meeting open for the transaction of business. The minutes of the preceding meeting were read and approved.

A large delegation from the Wooley Springs Road met with the Board in the interest of improving the Wooley Springs road east from the new Highway 31 to old Highway 31. After much discussion, member Walter A. Morning assured them that he had not only this road, but the two parallell roads north of the Wooley Springs Road under study and that it would depend upon the results of a traffic survey and a study of the different things that would affect the construction as to which of the three roads that would be the first to set up as a project.

Under the new rules of the State Highway Department there is some three ways of receiving state help on road projects in the several counties of the state. The Board spent considerable time in the discussion of all these ways and means of obtaining help from the state that would in our opinion be of the most benefit to the county as a whole. After this discussion it was decided that the program whereby the county will grade and drain and the state will base and pave would be to the county's advantage more than any other method made available to the counties. The Chairman was directed to contact Mr. H. L. Nelson, Director of the Alabama State Highway Department, in regard to this method of obtaining help and get the details of just how to go about obtaining this help.

LIMESTONE COUNTY

TO THE BOARD OF REVENUE OF SAID COUNTY:

WE the undersigned property owners on Thomas Street, do hereby respectfully request that this Board arrange to pave said street as soon as possible and we do agree to pay our fair share of the cost of such paving.

IT is pointed out that this street is an important connection between Old Highway 31 on the North and the Nick Davis Road on the south. More than half of the property on the west side of said streets is owned by the City of Athens for use as a public cemetery and it is suggested that some arrangement be worked out between the County and City so that the cost of such paving may be kept at a minimum for all the parties concerned. It is further pointed out that in some cases where paving a street is in the public interest, the County has supplied the equipment and labor and the property owners paid for the materials used.
