PLEASE REFER TO CORRESPONDENT

Honorable R. H. Walker,  
Athens,  
Alabama.

Dear Senator Walker:

Your letter of the 15th came on to me here and you know without my saying, that I have appreciated tremendously your political and personal friendship for my Father now for these many years. I have always also Senator Walker admired your progressive political thinking. I believe thoroughly in your sincerity and in your patriotism. In my support of Governor Graves, I would not want to do anything that would interfere with his plans for the carrying out of his promises. Governor Graves know already without my telling him of the relations that have existed between you and my Father and he knows how you stood with us back in the other days, and while I don't want to interfere uselessly, I think that Governor Graves knows that if I can help him in any way in the world, that all he has to do is to call on me - and certainly I shall take the first occasion to tell him of this correspondence with you.

By the way, Senator, you never did find that old affidavit that you looked for, remember the last time I was in your office that dealt with the election returns in your city in my father's last race for Governor. I would love to have that sometime.

With best wishes to you always.

Yours sincerely,

Donald Comer,  
FK.
