MONTGOMERY

Honorable Harry T. Hartwell,
Mobile, Alabama.

Dear Harry:

I have your letter of February 21st.

While I thoroughly agree with you as to the Public Service Commission having failed to measure up to its duties in representing the real interest of the people, I have always believed it was not fair to legislate out of office men elected by the people in a public election.

As to your proposed impeachment of the present Commission, I feel that such a course should be initiated by one or more private citizens. Then, too, I feel that the wishes of the Governor should be consulted.

With kindest personal regards, I remain

Sincerely yours,

RHW:fm

R. H. Walker.
