"God Bless you, Harry"-

I note with great relish that you are up and at 'em again.

Of course you already know where I stand, but I must send you this message: Every single day of the campaign I'll be pulling for you to return to the Legislature by the smashingest majority you ever rolled up. I believe you will.

When the House meets, if there is any special assignment you want (speaker or otherwise) and you feel the slightest delicacy in pleading your own cause, just let your old pal know. I'll slide in to see Bibb, Pitt et al and fix it.

Regards and all luck.

Yours, etc  
*Hubert*

P.S. - Come to think of it, when I do that fixing for you, maybe I'd better arrange for Eddie Reid to go along with me!
