Honorable R. H. Walker,
Athens, Alabama.

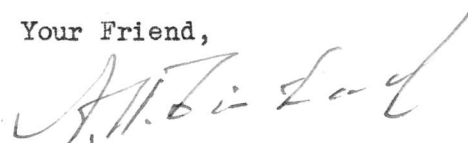

My Dear Walker:

I have your letter of January 7th. I have noticed the figures which you have compiled showing the vast difference in per capita expenditures for schools for white children in the Black Belt and other parts of Alabama.

I appreciate very much the honor of having been selected by you and our friend Willingham to prepare a Constitutional Amendment that would prevent the discrimination, but I have no doubt that your study of the question has been such as that you could do the work better. It would require more work than I now have time to give .

With best wishes,

Your Friend,

A. H. CARMICHAEL
