This Indenture made the 5th day of December, 1966, between Limestone County, Alabama, by and through its governing body, the Limestone County Board of Revenue, hereinafter called Grantor, and the Waterworks Board of the City of Athens, a public corporation, hereinafter called Grantee: WITNESSETH:

Whereas, Grantor is the owner of a right of way in Limestone County, Alabama, known as the Athens-Browns Ferry Road running in a generally Southwesterly direction from the western boundary of the City Limits of Athens, Limestone County, Alabama, to Wheeler Reservoir and more specifically that section of the said Athens-Browns Ferry Road Between the said western boundary of the City Limits of Athens, Limestone County, Alabama, and the said Athens-Browns Ferry Road's intersection with the west section line of Section 7, Township 4 south, Range 5 west.

Whereas, certain portions of the said Athens-Browns Ferry Road were conveyed to Grantor by right of way deeds duly recorded in the Office of the Judge of Probate, Limestone County, Alabama, and certain other portions are owned by the said Grantor by right of prescription only, no right of way deeds ever having been procured for said portions, the hereinafter granted easement is conveyed only to the extent of the right the said Grantor has in said Athens-Browns Ferry Road.

Whereas, the Limestone County Board of Revenue has adopted a Resolution under Title 12, Section 177, Code of Alabama Recompiled 1958, authorizing Hon. M. C. Freeman, Probate Judge of Limestone County, Alabama to convey an easement described in this instrument.

Now, Therefore, in consideration of the sum of ONE AND NO/100 (\$1.00) in hand paid by the Grantee, the receipt whereof is hereby acknowledged by Grantor, and for the further consideration of the benefit accruing to Limestone County, Alabama, from the construction of the herein described water line, the Grantor does hereby grant, bargain, sell and convey unto the Grantee a right of way and easement over, upon, through, under, in or across the hereinafter described lands for the purpose of presently, and from time to time in the future as Grantee may elect, to lay, construct, maintain, operate, alter, repair, and remove a 6" pipe line for the transportation of water over, through, under, in or across the lands of the Grantor as to which this right of way is granted, situated in Limestone County, State of Alabama, described as follows:

That portion of land between the edge of the paved portion of and the northern boundary of that certain right of way known as the Athens-Browns Ferry Road between its intersection with the western boundary of the City Limits of Athens, Limestone County, Alabama, as of the date of this instrument, and the South terminus of that part of said Browns Ferry Road where it intersects the East-West Half Section Line of Section 7, Township 4 South, Range 5 West (which point is also the intersection of the Athens-Browns Ferry Road and the Huntsville-Browns Ferry Road), thence along that portion of land between the edge of the paved portion of the said Browns Ferry Road and the Southern boundary of the right of way of said Browns Ferry Road in a westerly direction, and generally along said East-West Half section line of said Section 7 to a point where said right of way intersects with the west section line of Section 7, Township 4 south, range 5 west, provided however, that the installation of the said 6" pipeline for which this easement is granted shall be as close to the said northern boundary of the said Athens-Browns Ferry Road right of way as is practicable, and in no event shall said pipeline be laid closer than four feet to the paved portion of the said Athens-Browns Ferry Road unless expressly waived in writing by the County Engineer of Limestone County, Alabama.

The said pipeline shall be laid in a ditch so that the top of the pipe is not less than 30 inches below ground level, provided however that on hills on the said right of way the County Engineer of Limestone County,

Alabama, shall have the authority to require the pipe to be laid in a ditch at varying depths up to 84 inches deep measured from the level of the present pavement to the top of the said pipe.

The County Engineer of the Limestone County, Alabama shall have the full authority to approve or reject the installation of said pipeline including the compaction of dirt after refill.

The said pipeline shall always be maintained and repaired at the expense of the Grantee and if any damage to the said Athens-Browns Ferry Road or any lateral or cross drains or any structures located on the said Browns Ferry Road right of way, should ensue as a result of the installation, maintenance or repair of said pipeline such damage shall be repaired by the Grantee and at its expense; and further, where the installation of said pipeline crosses driveways or crossroads on or along said Athens-Browns Ferry Road, said driveways or crossroads shall be repaired at the expense of Grantee and to the satisfaction and approval of the said County Engineer of Limestone County, Alabama.

In the event future widening, straightening or any other improvement of the said Athens-Browns Ferry Road required the relocation of the said pipeline, said relocation of said pipeline shall be accomplished at no expense to the Grantor and at no damage or impairment in any way to either the present or relocated Athens-Browns Ferry Road.

In the event said pipelines are suspended from any bridge along said Athens-Browns Ferry Road, and in the event said bridges are widened or relocated, resuspension of the said pipelines shall be done at the expense of the Grantee.

To have and to hold the said right of way and easement unto the said Grantee, its successors and assigns, until such pipeline be constructed and so long thereafter as a pipeline is maintained thereof; and the undersigned hereby binds itself, its successors and assigns, to warrant and forever defend all and singular the said premises unto the Grantee, its successors and assigns, against every person whomsoever lawfully claiming the same or any part thereof.

The undersigned Grantor reserves unto itself, its successors and assigns, the right to use and enjoy said premises, except as the same may be necessary for the purposes herein granted.

In Witness Whereof, the Grantor herein acting by and through M. G. Freeman, as Probate Judge of Limestone County, Alabama, has executed this conveyance on the day first appearing above.

The Board had previously given permission to Spry Funeral Home, however, we find that this was done in error since Spry Funeral Home did not have the contract with Ashburn and Gray for removal of graves. This contract was awarded to Blythe Funeral Home by Ashburn & Gray.

RESOLUTION

WHEREAS, the State of Alabama has petitioned the Board of Revenue of Limestone County, Alabama, for consent and approval of the Governing Body of said County for the abandonment of a cemetery and removal of the graves as specifically set out above; and,

WHEREAS, Blythe Funeral Home, New Hope, Alabama, a licensed funeral home by the State of Alabama, has joined in said petition and has agreed to furnish containers for all remains, to handle the removal of the remains from their present location in Limestone County, Alabama, to furnish gravesites in Hayden Cemetery, Madison County, Alabama, and to handle the opening and closing of said new graves and to furnish markers as specified; and,

WHEREAS, it appears that the consent and approval of the Board of Revenue of Limestone County, Alabama, should be granted, conditioned upon applicants giving notice of declaration of the proposed abandonment and proposed removal of said remains, and any other remains found thereon, in a newspaper of general circulation in Limestone County, Alabama, for two (2) successive months, and posting in at least three (3) conspicuous places in said cemetery from which said removal of the human remains interred therein are to be made, and mailing a copy of said notice to each person who owns or holds or had right of burial in any lot or plat in said cemetery, or any part thereof, affected by this resolution and affected and affected by the abandonment of said cemetery and the removal of said human remains.

MINUTES, BOARD OF REVENUE, NOVEMBER 18, 1968

The Limestone County Board of Revenue met in regular session on Monday, November 18, 1958 at the Limestone County Courthouse Annex, Athens, Alabama. Thomas L. Hammons, Chairman, presided over the meeting. Present were members, John W. Moore, Grady Holland, Elam B. Hamilton and Lawrence W. Evans. Absent: none. A quorum being present the chairman declared the meeting opened for the transaction of business. The minutes of the preceding meeting were read and approved.

MOTION made by Lawrence W. Evans and seconded by Grady Holland that all fee-basis officials be excluded from our social security agreement with the state. All members voted for motion. The chairman was directed to notify Edna Reeves of the State Agency of Social Security of this so that she can notify the Social Security Administration.

Judge D. L. Rosenau, Jr. appeared before the board in regard to placing the sheriff on a salary and to request an increase in his compensation. He disapproves of the plan to place the sheriff on salary as it has been tried by the county in the past and the loss of revenue was significant, as was brought out in the auditor's reports for the years he was on a salary. Judge Rosenau did not request a definite increase in salary, only that the Board recommend to the legislators that his office be increased to a salary that the Board deemed advisable. The Board discussed these subjects with Judge Rosenau: however, no action was taken.

"County Depository" means, as of any particular time, (a) any bank or banks then acting as County Depository in lieu of Treasurer for the County, (b) the County Treasurer, if at the time the County has a County Treasurer, or (c) any other officer who at the time may be authorized by law to perform the functions of a County Treasurer for the County.

"Financial Journal" means a journal or newspaper printed in the English language, customarily published not less than five days during each calendar week, and devoted primarily to news of financial matters.

"Fiscal Year" means a fiscal year of the County, commencing on each October 1 and ending on the then next succeeding September 30.

"Jail Building Construction" means the work of erecting an addition to the existing jail building of the County in the City of Athens, Alabama, in accordance with plans and specifications for said building prepared by Charles H. "Warrants", without other qualifying words, means the Ad Valorem Tax Anticipation Warrants authorized herein.

Definitions include both singular and plural. Pronouns include both singular and plural and cover all genders. The first letters of words and phrases defined in this section, where used in this resolution and order, are, for convenient reference, capitalized.

SECTION 2 Declarations and Findings. The Board has ascertained and does hereby find and declare that the following statements are true:

(a) In order to provide an adequate jail for the County, it is necessary that the County erect a necessary public building for the County, the said building to be an addition to the existing jail building of the County; the Board has caused plans and specifications for the said addition to be prepared by Charles H. McCauley, Registered Architect, Birmingham, Alabama; the Total costs of constructing the said addition in accordance with the said plans and specifications are estimated by the Board to be in excess of \$260,000: the County has on hand, and proposes to use for payment of a

the

78

portion of the said costs, in excess of \$35,000: the County does not have available the moneys needed to complete payment of the costs of erecting the said addition; and the Board has ascertained that it will be impossible for the County to raise the sum of \$225,000, which is needed to complete payment of the said costs, in any manner other than by anticipation of the proceeds which will be received by the County in the future from the Special Tax:

(b) The useful life of the said addition to the said existing jail building is hereby estimated to be in excess of thirty years:

(c) At the present time the Outstanding Securities are the only outstanding obligations of the County that are payable out of, or that constitute a charge on the proceeds of, the Special Tax:

(d) The assessed valuation of all taxable property in the County as the same was assessed for state taxation for the tax year ending September 30, 1968, was \$27,957.150.00 and on the basis of the assessed valuation, the Board estimates that the aggregate proceeds which will be received by the County from the Special Tax for each of the Tax years of the County until and including the tax year ending September 30, 1984, will be not less than \$69,892.87, and that the proceeds from the Special Tax will, therefore, be sufficient to retire the Warrants in the manner herein contemplated: and

(e) It is necessary, desirable, and in the public interest that the Warrants hereinafter authorized be issued in anticipation of the receipt by the County of the proceeds from the Special Tax.

SECTION 3. Authorization of Jail Building Construction. Acting pursuant to the provisions of, and in exercise of the powers and duties conferred upon the Board, by applicable provisions of the constitution and laws of Alabama including particularly Sections 178, 185, 186, 188, and 189, and 191 of Title 12 of the Code of Alabama of 1940, as amended, the Board hereby authorizes the erection in the County of an addition to the existing jail building of the County, and hereby authorizes and orders the erection of the said building to be accomplished in accordance with the said plans and specifications therefor prepared by Charles H. McCuailey, Registered Architect of Birmingham, Alabama.

SECTION 4. Authorization of the Warrants. Pursuant to the applicable provisions of the constitution and laws of the State of Alabama, including particularly Sections 178, 185, 186, 188, 189, and 191 of Title 12 of the Code of Alabama of 1940, as amended, and for the purpose of providing funds for payment of a portion of the costs of the Jail Building Construction, and in anticipation of the receipt by the County of the Special Tax, there are hereby authorized to be issued by the County forty-five (45) Ad Valorem Tax Anticipation Warrants of the County in the denomination of \$5,000 each, aggregating \$225,000 in principal amount, which shall be numbered consecutively from 1 to 45, inclusive, shall be dated September 1, 1969, and shall mature on September 1, in the following years and amounts.

Section 7 CREATION OF SPECIAL FUND. There is hereby created a special fund to be known as the "1969 Building Warrant Fund" for the purpose of providing for payment of the principal of and the interest on the Warrants and the Coupons. The special Fund shall be maintained until both the principal of and the interest on the Warrants shall be paid in full. Payments shall be made into the Special Fund as follows:

None of the said proceeds herein ordered paid into the Special Fund, and no part of the Special Fund or of the moneys at any time forming a part thereof or pertaining thereto, shall be used for any purpose whatsoever other than for payment of the principal of and the interest on the Warrants and the Coupons. Failure to pay into the Special Fund the proceeds from the Special Tax, to the extent provided herein, shall constitute a diversion thereof. Said pledge is made for the pro rata benefit of the Warrants without preference or priority of one Warrant over another by reason of prior issuance or registration or otherwise. Said pledge shall be prior to any pledge of the Special Tax which may hereafter be made for the benefit of any other securities of the County hereafter issued or any contract of the County hereafter made. The proceeds of the Special Tax Collected each Fiscal Year in excess of the amount required in the preceding section to be paid into the Special Fund during such Fiscal Year are not pledged hereunder. The County hereby expressly recognizes that the pledge with respect to the Special Tax herein made is subordinate to the pledges of the Special Tax hereto fore made in the Underlying Orders for the benefit of the Underlying Securities.

Section 9. AGREEMENT RESPECTING MAINTENANCE AND USE OF THE SPECIAL TAX. The County represents and agrees that, so long as any of the Warrants or any of the Coupons remains unpaid, (a) the County will continue to levy and collect year year the Special Tax at the times and in the manner provided by law for the levy and collection of ad valorem taxes by the County; and (b) the County will apply the proceeds received from the Special Tax, to the extent necessary for such purpose, for payment of the principal of and the interest on the Warrants as said principal and interest respectively mature.

Section 10. GENERAL CREDIT OF COUNTY NOT PLEDGED. The general faith and credit of the County are not pledged for payment of the Warrants and the Coupons. The Warrants and the Coupons shall not be general Obligations of the County but shall be payable solely out of the moneys herein required to be paid into the Special Fund. Neither this resolution nor any of the Warrants or the Coupons issued hereunder shall be deemed to impose upon the County any obligation to pay the principal of or the interest on the Warrants, or any other sum, except with the moneys herein directed to be paid into the Special Fund. None of the agreements, representations and warranties made or implied in this resolution and order, or in the issuance of the Warrants and the Coupons, shall ever impose any pecuniary liability upon the County, except with respect to the levy of the Special Tax and the payments of proceeds therefrom into the Special Fund as provided in Section 7 hereof.

Section 11. FORM OF WARRANTS The Warrants and the Coupons and the provision for assignment thereof shall be in substantially the following forms, respectively, with appropriate changes therein to accord with the provisions hereof:

Approximately 4.7 miles.

Be it resolved that in the opinion of this Board of Revenue these roads are the most important county roads in Limestone County not already included in the Federal Aid Secondary System. This statement of relative importance is based not only on present traffic but also on anticipated future traffic after roads are improved and also on development and service that will result from improved roads in the areas traversed.

Be it resolved that in the opinion of this Board of Revenue these additional routes can be improved to adequate standards within a reasonable time and the County has adequate maintenance forces to keep them properly maintained after they are improved.

It is hereby ordered by this Board of Revenue that six copies of this Resolution be mailed to the State Highway Department of Alabama, requesting that the Department take proper steps with the U. S. Bureau of Public Roads for the inclusion of the above described roads to the Federal Aid Secondary System.

2. County Unit agrees that there will be no discrimination against any employees or applicants for employment because of race, creed, color, religion, sex or national origin. The county unit will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, creed, color, religion, sex or national origin. Such action shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and other selection for training, including apprenticeship. County Unit agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by USDA setting forth the provisions of this non-discrimination clause.

MINUTES, BOARD OF REVENUE, MAY 18, 1970

7. Dunnage or lumber sufficient to construct dunnage or pallets on which commodities are stored.

PART VI= FEES AND CONTRIBUTIONS

Under no circumstances shall recipients be required to make any payments in money, materials, or services for or in connection with the receipt of commodities, nor shall they be solicited in connection with the receipt of commodities for voluntary contributions for any purpose. Under no circumstances may commodities be used to pay in whole or in part for any services rendered in any manner to county units.

PART VII - POLITICAL PROHIBITION

Elected officials at State, County, or local levels in any way responsible for the distribution of these foods are prohibited from using them for electioneering purposes, or in an attempt to influence the votes of the recipients in favor of any individual or political party. Active candidates, or their political workers, for any elective office shall not be permitted to be on the premises of the distribution depot at the time distribution is taking place, except as required in performing their official duties. Political campaign literature shall not be distributed or political posters displayed at the point of distribution.

PART VIII - DISPOSITION OF DAMAGED OR OUT-OF-CONDITION COMMODITIES

Commodities which are found to be damaged or out-of-condition and are declared unfit for human consumption by Federal, State, or local health officials, or by other competent inspection services, shall be disposed of in accordance with the instructions issued by the State Director. Such damaged or out-of-condition commodities are to be reported immediately to the State Director.

PART IX - INSPECTION AND AUDIT

Authorized representatives of the U. S. Government and the State Department of Pensions and Security are authorized to inspect warehouses, distributing facilities, and to audit all records of the county units to assure full compliance with Federal and State requirements.

PART X - RESTITUTION FOR NEGLIGENT LOSSES OF COMMODITIES

All Commodity losses must be promptly reported to the State Director. Any losses resulting from neglect by failure to provide proper storage, care and handling will result in a demand, by the State, for restitution from the responsible county government.

Persistent shortages in excess of one percent of quantities distributed could be classified as "neglect."

PART XI - SANCTIONS

1. In the event the county governing body decides to discontinue the program, the appropriate government official shall notify the State Director in writing as far in advance of the proposed date of closing as possible. It shall be the responsibility of such governing body to plan the orderly depletion of the inventory of commodities. Any remaining inventories shall be transferred to other participating localities in the State as designated by the State Director of Commodity Distribution. The cost of such transfers shall be borne by the county governing body as it discontinues the program.

2. The State Director reserves the right to immediately discontinue further shipments of commodities to a county which fails to comply with the general intents and purposes as set forth in this agreement. The U. S. Department of Agriculture further reserves the right to take other action through other available means when considered necessary, including prosecution under applicable Federal statutes.

3. Recipient agency assures the United States Department of Agriculture and the state distributing agency that it now complies with and shall in the future comply with all requirements imposed by or pursuant to the Civil Rights Act of 1964 and the USDA Regulations (7 C.F.R. Part 15), including any subsequent amendments, issued to effectuate that Act. Compliance will be consistent with the objective that no person in the United States shall, on the ground of race, color, or national origin, be excluded by participation in, be denied the benefits of, or be subject to discrimination under any program or activity of recipient agency to which assistance is provided by the USDA. Admission policies are understood and agreed by recipient agency to be a part of such programs and activities. Recipient agency agrees to be obligated by this assurance as long as it receives assistance hereunder or retains possession of any assistance provided by the USDA or the state distributing agency. Should recipient agency fail to comply with this assurance, the United States or the state distributing agency shall have the right to seek its enforcement by judicial or any other means authorized by law. Federal financial assistance is extended under this agreement in reliance on the representations made herein.

PART XII - PARTICIPATION ON PART OF THE STATE DEPARTMENT OF PENSIONS AND SECURITY.

The State Department of Pensions and Security, through the State Director, Bureau of Commodity Distribution and the County Director, will provide general and overall supervision of the program and will assist county officials in every way possible toward establishing and operating satisfactory systems of commodity distribution. The State Department will advise participating counties of all varieties of food which become available and will requisition such foods for the county units as can be received and distributed by the county units under the terms herein described. The State Department will furnish the necessary printed forms for handling the program.

SECTION III

The State Department of Pensions and Security has entered into written agreement with USDA in which the terms of this section are included and which requires that this section, verbatim, be included in agreements with county units, even though there is repetition.

2. In the event of any violation of the provisions of paragraph (1), approved unit and any subcontractor responsible therefor shall be liable to any affected employee for his unpaid wages. 4. Approved unit shall insert paragraphs (1) through (3) of this clause in all subcontracts, and shall require their inclusion in all subcontracts of any tier.

5. Approved unit shall maintain payroll records containing the information specified in 29 CFR 516.2(a). Such records shall be preserved for three years from the completion of the agreement.

PART IV - FAIR LABOR STANDARDS

This agreement, to the extent that it is of the character to which the Service Contract Act of 1965 (P.L. 89-286) applies, is subject to the following provisions and to all other applicable provisions of the Act and the regulations of the Secretary of Labor thereunder (29 CFR Part 4).

1. Each service employee employed in the performance of this agreement by the approved unit or any subcontractor shall be paid the minimum monetary wage and shall be furnished fringe benefits in accordance with the wages and fringe benefits determined by the Secretary of Labor or his authorized representative, as specified in any attachment to this agreement. If there is such an attachment, any class of service employee which is not listed therein but which is to be employed under this agreement, shall be classified or reclassified and paid wages conformably to the determination of the Secretary of Labor as specified in such attachment, by agreement between the interested parties and USDA shall report the action to the Administrator of the Wage and Hour and Public Contracts Divisions of the Department of Labor. If the interested parties do not agree on a classification or reclassification which is, in fact conformable, USDA shall submit the question, together with his recommendation, to the Administrator of the Wage and Hour and Public Contracts Divisions of the Department of Labor or his authorized representative for final determination. In addition, non-service employees shall be paid not less than the minimum wage specified under section 6 (a) (1) of the Fair Labor Standards Act of 1938, as amended (\$1.40 per hour as of February 1, 1967, and \$1.60 per hour as of February 1, 1968).

2. The approved unit or subcontractor may discharge the obligation to furnish fringe benefits specified in the attachment by furnishing any equivalent combinations of fringe benefits, or by making equivalent or differential payments in cash, pursuant to applicable rules of the Administrator of the Wage and Hour and Public Contracts Divisions of the Department of Labor.

3. In the absence of a minimum wage attachment for this agreement, neither the approved unit nor any subcontractor under this agreement shall pay any of his employees performing work under the agreement (regardless of whether they are service employees) less than the minimum wage specified by section 6(a) (1) of the Fair Labor Standards Act of 1938 (\$1.40 per hour as of February 1, 1967, and \$1.60 per hour as of February 1, 1968). Nothing in this provision shall relieve the approved unit or any subcontractor of any other obligation under law or contract for the payment of a higher wage to any employee.

4. The approved unit shall notify each service employee commencing work on this agreement of the minimum monetary wage and any fringe benefits required to be paid pursuant to this agreement, or shall post a notice of such wages and benefits in a prominent and accessible place at the worksite, using such poster as may be provided by the Department of Labor.

5. The approved unit shall not permit any part of the services called for by this agreement to be performed in buildings or surroundings or under working conditions provided by or under the control or supervision of the approved unit which are unsanitary or hazardous or dangerous to the health or safety of service employees engaged to furnish these services.

6. Each approved unit or subcontractor performing work subject to the Act shall make and maintain for three years from the completion of the work the records identified below for each service employee performing work under the agreement, and shall make them available for inspection and transcription by authorized representatives of the Administrator of the Wage and Hour and Public Contracts Divisions of the U. S. Department of Labor.

(a) His name and address.

(b) His work classification or classifications, rate or rates of monetary wages and fringe benefits provided, rate or rates of fringe benefit payments in lieu thereof, and total daily and weekly compensation.

(c) His daily and weekly hours so worked.

(d) Any deductions, rebates, or refunds from his total daily or weekly compensation.

7. USDA may withhold from Distributing Agency or cause to be withheld from the approved unit under this agreement or any other Government contract such sums as are necessary to pay underpaid employees. Additionally, any failure to comply with the requirements of above paragraphs relating to the Service Contract Act of 1965 may be grounds for termination of his right to proceed with the contract work. In such event, the USDA or Distributing Agency may enter into other contracts or arrangements for completion of the work, charging the approved unit with any additional cost.

8. The approved unit agrees to insert these paragraphs relating to the Service Contract Act of 1965 in all subcontracts. The term "approved unit" as used in these paragraphs in any subcontract, shall be deemed to refer to the subcontractor.

9. As used in these paragraphs relating to the Service Contract Act of 1965, the term "service employee" means guards, watchmen, and any person engaged in a recognized trade or craft, or other skilled mechanical craft, or in unskilled, semi-skilled, or skillen manual labor occupations; and any other employee including a foreman and supervisor in a position having trade, craft or laboring experience as the paramount requirement; and shall include all such persons regardless of any contractual relationship that may be alleged to exist between approved unit or subcontractor and such persons.

Worley & Associates, hereinafter referred to as THE CONSULTING ENGINEER; and the East Limestone Water and Fire Protection Authority: LIMESTONE COUNTY BOARD OF REVENUE hereinafter referred to as THE CLIENT.

W I T N E S S E T H

1. That whereas THE CLIENT wishes to construct a Water Works System, hereinafter referred to as "the Project", and not having engaged other engineers for the work, wishes to engage the services of the Consulting Engineer and in connection therewith, the parties hereto agree as follows:

(a) THE CONSULTING ENGINEER will make the necessary studies, investigations, preliminary surveys of the proposed improvements, and prepare a preliminary engineering report, preliminary layout, and preliminary estimate of cost for submission to and as required by the lending agency.

(b) THE CONSULTING ENGINEER will then assist THE CLIENT in arranging the necessary financing for the project.

(c) THE CONSULTING ENGINEER will, after all financing has been arranged, commence work on the complete engineering design, construction plans, specifications, and contract documents covering the improvements.

(d) THE CONSULTING ENGINEER will obtain approval of the above mentioned plans, specifications, and documents from the State Health Department, and will furnish THE CLIENT with one set bearing the above approval.

MINUTES, LIMESTONE COUNTY COMMISSION, APRIL 19, 1971

STATE OF ALABAMA)

LIMESTONE COUNTY)

THIS AGREEMENT made and entered into this 24th day of February 1971, by and between Limestone County, a municipal corporation, hereinafter referred to as the "County", and the Municipal Utilities Board of Decatur, a municipal corporation, hereinafter referred to as the "Board",

WITNESSETH THAT

1. The County, at no expense to the Board, will promptly construct a water distribution system of cast iron pipelines and appurtenances in South Limestone County, Alabama, known and designated as the South Limestone Water Facilities Project No. WS-Ala-111, as shown on the plat attached hereto marked Exhibit "A" to this agreement, and will complete such construction during the calendar year 1971.

2. Upon completion of the construction of said system by the County the Board will permit the County to connect to the end of the Board's existing 16 inch ductile iron water main, located approximately 200 feet north of Swan Lake Bridge on Highway 31, such location being further identified as being approximately the Alabama State Highway Department Station No. 26+28.50, SHD Project F-157(3), U. S. Highway 31.

3. The Board agrees to furnish and sell to the County, and the county agrees to purchase and take from the Board, potable water as actually needed for said system up to a maximum amount of TWO (2) million gallons per day at a maximum rate flow of 1,400 gallons per minute (with the full understanding of both parties that part of the potable water for said system is to be furnished by the City of Athens, Alabama).

4. It is not feasible to locate a metering station at the point of connection at the northern terminus of the Board's 16 inch main because of physical land limitations of the right-of-way of the state highway at such point. The Board shall install a meter or meters on the County's main north of the connection point and at a point on the County's main on the highway right-of-way to be agreed upon by the County and the Board with permission from the Alabama State Highway Department. All water taken by the County shall pass through such meter or meters.

5. The County agrees to pay to the Board a tapping fee for meter service installation as provided by Ordinance No. 1541 of the City of Decatur, a copy of which is attached hereto as Exhibit "B". The size of the meter or meters to be installed shall be determined by the Board based on flow and demand requirements furnished by the County.

6. The County agrees to pay the Water Department of the City of Decatur for the water furnished to it under this contract upon rates from time to time in force and effect for said Water Department, as established by the governing body of the City of Decatur. The present rates are set forth in Ordinance No. 1541 of the City of Decatur, a copy of which is attached hereto as Exhibit "B". In the event such rates are reduced, the reduced rates will apply to the water furnished under this contract. The County agrees to pay a guaranteed minimum monthly bill of \$400.00 per month. The meter or meters through which such water is furnished to the County shall be read by the Board on the first business day of each month and bill for the water used to the date of such reading, or the sum of \$400.00, whichever is larger, shall be mailed to the County on such date. Such bill shall be payable within ten days and if not paid within ten days from the date of such mailing the gross rate shall apply. In the event such bill is not paid within twenty-five days after the date of mailing, the Board may discontinue service. In the event service is discontinued for non-payment of charges, the County shall still pay the minimum monthly bill of \$400.00 even during the period of such discontinuance.

7. The term of this agreement is for a period of Thirty (30) years beginning on the first day of the first month following initial delivery of water hereunder and from month to month thereafter until terminated by either of the parties hereto upon thirty days notice to the other party. Any notice required to be given under any provision of this agreement may be given by delivery of a copy of the same or by United States mail, registered or certified, postage prepaid, to the County at the Offices of the Limestone County Commission in Athens, Alabama, and to the Board at the office of the Water Department of the City of Decatur in Decatur, Alabama. Bills for water furnished hereunder shall be mailed to Limestone County Commission, Athens, Alabama, 35611, postage prepaid.

8. Upon completion and sterilization of the County's pipelines and system, the County agrees to immediately serve all existing customers of the Board

MINUTES, LIMESTONE COUNTY COMMISSION, APRIL 19, 1971

on the County side of the metering station and the Board agrees to discontinue their service to all such customers. In the event the corporate limits of the City of Decatur should be extended to include any territory in Limestone County, the Board reserves the right (but does not assume the duty) to offer service to customers in such corporate limits.

9. The Board agrees to operate and maintain, at its expense, during the term of this contract, the transmission system to the metering point, provided, however, that there is no guarantee by the Board of Any specific amounts of water beyond the Board's ordinary responsibility to give customers efficient and responsible service and, provided further, that the Board shall at no time be responsible for any damages or inconvenience caused by reason of service interruptions, if any, occurring in the normal operation of the Board's system which such interruptions the Board agrees to correct promptly in its normal operation. If service by the Board is interrupted from injunction, strike, riot, flood, fire, accident, breakdown or the necessity of repairs to its system, or any part thereof, or from any cause beyond the Board's control, the Board shall not be liable to the County for such interruption, but shall use its best efforts in restoring the service as quickly as possible. As necessity may arise in case of break, emergency or for other unavoidable cause, the Board shall have the right to temporarily cut off the water supply in order to make the necessary repairs.

10. The County shall have the option, after the expiration of five (5) years from the effective date of this contract, to terminate this contract upon one year's written notice to the Board.

IN WITNESS WHEREOF, the parties hereto have caused this agreement to be executed by their undersigned officers, duly authorized hereunto, as of the date and date first hereinabove written.

(1) Findings. The Commission has determed and hereby finds and declares that the following facts are true and correct.

(a) An Official Invitation for Bids for the purchase from the County of its \$400,000 principal amount of Water Revenue Bonds to be dated September 1, 1971, has been heretofore issued in behalf of the County and has been circulated through the State Department of Finance to securities dealers among whom notices of sale of securities by municipalities and other public corporations in Alabama are customarily circulated;

(b) The said Official Invitation for Bids, together with additional and pertinent financial information, has also been circulated among prospective bidders by the County's fiscal agent; and

(c) The said Official Invitation for Bids which was heretofore issued and circulated as aforesaid was in the following form:

OFFICIAL INVITATION FOR BIDS

\$400,000
Limestone County, Alabama
Water Revenue Bonds
Dated September 1, 1971

Limestone County (herein called "the County"), in the State of Alabama invites sealed bids for the purchase from it of the bonds above referred to (herein called "the Bonds"), which bids will be publicly opened and read in the office of Limestone County Commission in the County Courthouse Annex at Athens, Alabama, beginning at 2:00 o'clock, P. M., Central Daylight Time, on

AUGUST 10, 1971

The Bonds will consist of coupon Bonds numbered consecutively from 1 up, and will mature in numerical order in the following aggregate principal amounts on September 1 in each of the following years: \$7,000 in 1974 to 1979 inclusive; \$8,000 in 1980 and 1981; \$9,000 in 1982; \$10,000 in 1983 and 1984;

\$11,000 in 1985; \$12,000 in 1986; \$13,000 in 1987; \$14,000 in 1988; \$15,000 in 1989; \$16,000 in 1990; \$17,000 in 1991 and 1992; \$18,000 in 1993; and \$20,000 in 1994 to 2002 inclusive. Interest on the Bonds will be payable semiannually on March 1 and September 1. Those of the Bonds having stated maturities in 1982 and thereafter will be subject to redemption at the County, as a whole or in part (and if in part, then in the inverse order of their numbers), on September 1, 1981, and on any interest payment date thereafter at a redemption price equal to the face value of those redeemed plus a premium equal to one year's interest thereon' provided, that prior notice of any such redemption prior to maturity must be given not less than thirty days before the date fixed for redemption by publication one time in either a newspaper published in Birmingham, Alabama, or a financial journal published in New York, New York. The Bonds will be registrable as to principal only.

The Bonds will be in the denomination of \$1,000 each; provided, however, that to such extent as is permitted by the schedule of maturities hereinabove set forth, the purchaser of the Bonds may designate particular Bonds of the several maturities that are to be issued in the denomination of \$5,000 each.

The Bonds are to be issued under a Trust Indenture to be dated September 1, 1971 (herein called "the Indenture") between the County and a bank authorized to administer trusts, as trustee thereunder; and the principal of and interest on the Bonds will be payable at the principal office of the said trustee, which shall also be depository for the special funds referred to in clauses (1), (3), (4) and (5) of the seventh paragraph of this invitation. The purchaser of the Bonds shall have the privilege of designating as the said trustee a bank whose charges for its services as such trustee, paying agent, and depository are not in excess of the charges customarily made by Alabama banks for the same services.

The Bonds will be issued for the purpose of paying a portion of the costs of the acquisition, by construction and otherwise, of a water distribution system (herein called "the System" in accordance with plans and specifications therefor prepared by William T. Hill, Consulting Engineer, Huntsville, Alabama. The System was designed for the purpose of rendering water service in certain unincorporated territory in the southern part of Limestone County and has an estimated cost of approximately \$988,000. It is contemplated that the remaining costs of constructing the System will be paid from Federal grants to the County presently estimated at \$538,000 (including a grant by Department of Housing and Urban Development and a grant approved by the Appalachian Commission), and a grant by the State of Alabama estimated at \$50,000.

The Bonds will be payable solely out of revenues derived from operation of the System, as it may at any time be constituted; provided, that interest during construction of the System and for twelve months thereafter is to be paid out of the proceeds from the sale of the Bonds. The Bonds will not be general obligations of the County but will be limited obligations payable solely from the aforesaid source. Payment of the principal of and interest on the Bonds will be secured pro rata by a statutory mortgage lien on the System by a first pledge of the revenues from operation of the System.

The Indenture will provide that additional securities (herein called "Additional Securities"), secured on a parity with the Bonds by the said statutory mortgage lien and pledge, may be issued from time to time (a) when the average annual revenues from the System remaining after payment of the costs of operation and maintenance thereof (herein called "Annual Net Revenues", as certified by a certified public accountant, during the two fiscal years of the County next preceding the issuance of any such Additional Securities were not less than 150% of the maximum annual principal and interest that will mature in any then succeeding fiscal year with respect to the Bonds, the Additional Securities then being issued, and any Additional Securities that may have been theretofore issued; or (b) when a new schedule of rates for water furnished from the System shall have been adopted and a recognized consulting engineer shall certify that if the said new schedule of rates had been in effect throughout the two fiscal years next preceding the issuance of any such Additional Securities, the Annual Net Revenues during the said two fiscal years would have been not less than 150% of the maximum annual principal and interest that will mature in any then succeeding fiscal year with respect to the Bonds, the Additional Securities then being issued, and any Additional Securities that may have been theretofore issued.

The Indenture will also contain a requirement for annual audits, a requirement for maintenance of insurance on the System and fidelity bonds on employees handling funds applicable thereto, a requirement for maintenance of the rates for service from the System, a provision that no free water will be furnished from the System, and other provisions customarily incorporated in similar proceedings. The Indenture will establish a gross revenue account, in which all revenues from the System will be deposited as received, and will also provide for the creation and maintenance of the following special funds into

MINUTES, LIMESTONE COUNTY COMMISSION, AUGUST 10, 1971 (Cont'd from Aug. 2)

which the County will agree to make payments out of the said revenue account: (1) a special fund for payment at their respective maturities of the principal of and interest on the Bonds and any Additional Securities that may be issued on a parity of pledge therewith, as hereinabove provided; (2) an operation and maintenance fund, into which amounts sufficient to pay costs of operating and maintaining the System will be deposited monthly; (3) a special fund to be held as a reserve or cushion for payment of such principal and interest and to be built up over a period of seventy-two months to an amount equal to the maximum annual principal and interest requirements on the Bonds and any Additional Securities that may be issued; (4) a special fund to be built up over a period of sixty months to \$15,000 for capital improvements to the System; and (5) a special fund in which the surplus revenues from the System will be deposited and which will be used for capital improvements, redemption of Bonds and other purposes connected with the System. The said proceedings will provide that the monthly payments into the special funds referred to in the preceding sentence will be made out of revenues from the System.

The statute under which the Bonds will be issued provides that they are legal investments for fiduciary funds and for savings banks and insurance companies organized under the laws of Alabama.

Each bidder is invited to specify a purchase price for each Bond of each maturity and to name the rate or rates of interest to be borne by the Bonds, subject to the following limitations: (a) not more than six different rates may be named, and any rate may be repeated either in or out of sequence without being considered a different rate; (b) all Bonds having the same maturity must bear the same rate of interest throughout their life; (c) if more than one rate is specified, the difference between the highest and lowest rates may not be greater than 2%; (d) no rate in excess of 8% may be specified; (e) no supplemental coupons will be permitted; and (f) the interest rate or rates named and the purchase price specified must be such that (i) the yield from September 15, 1971 (the approximate date on which it is anticipated that the Bonds will be delivered) to maturity will not exceed 8% with respect to any Bond, the said yield to be computed in accordance with standard bond tables, taking into account any premium or discount reflected in the purchase price for that Bond; and (ii) the aggregate purchase price for all of the Bonds shall be not less than an amount equal to 95% of their face value plus accrued interest thereon to the date of their delivery. The County will not consider any bid for less than all of the Bonds. Each bid will be construed as including an agreement on the part of the bidder to pay accrued interest on the Bonds to the date of their delivery, whether or not so stated.

Each bid submitted must state the following: (a) the purchase price expressed in dollars that the bidder will pay for each Bond of each maturity; (b) the aggregate purchase price for all the Bonds; (c) the rate or rates of interest to be borne by each of the Bonds if the bid is accepted; (d) the yield from September 15, 1971, to maturity of each Bond of each maturity; (e) the total net interest cost to the County reflected by the bid, determined as hereinafter provided; and (f) the effective average annual net interest rate reflected by the bid. The total net interest cost reflected by a bid shall be determined by ascertaining the total amount of interest that would be payable by the County on the Bonds, computed at the applicable rate or rates stated in that bid, from September 1, 1971 to the respective absolute maturities of the Bonds, and (i) deducting from the total so ascertained the amount of the premium, if any, in excess of the face value of the Bonds, that is reflected by the total purchase price stated in that bid, or (ii) adding to the total so ascertained the amount of the discount, if any, that is reflected by the total purchase price stated in that bid. The effective average annual net interest rate reflected by a bid shall be determined by dividing the total net interest cost by the total cumulative number of bond years and expressing the figure so obtained as a percentage.

The Bonds will be sold on a total net interest cost basis, and will be awarded to the bidder whose bid names the lowest total net interest cost to the County for the Bonds; provided, that if two or more bids are submitted that name the same lowest total net interest cost for the Bonds, then that one thereof will be accepted which offers to pay the highest purchase price therefor; and provided, further, that the right is reserved to reject any or all bids. If there is a variance between the total net interest cost as stated in any bid and the total net interest cost that is actually reflected by the interest rate or rates and the aggregate purchase price named in that bid, and the total net interest cost stated in that bid will control; and if such a variance exists in the bid on which the Bonds are awarded, then the successful bidder will be required to adjust the interest rate or rates and the purchase price, or either, within the limitations provided in this invitation, so that they will reflect the total net interest cost stated in that bid.

Each bid must be accompanied by a bank cashier's check or a certified check in the amount of \$8,000.00 drawn on a member bank of the Federal Reserve System and payable to the order of the County. No interest will be allowed on any such check. The checks of the unsuccessful bidders will be returned promptly after the sale. The check accompanying the accepted bid will be retained as security for performance of that bid.

The Bonds will be delivered to the purchaser thereof against bankable funds in the City of Birmingham, Alabama. It is anticipated that the Bonds will be so delivered prior to September 15, 1971, and if they are not tendered for delivery to the purchaser by September 25, 1971, the purchaser may at his option terminate his contract of purchase and decline to accept delivery of the Bonds. At the time of the closing, the County will furnish to the purchaser without cost (i) the printed Bonds, (ii) the opinion of Messrs. Bradley, Arant, Rose and White, Birmingham, Alabama, approving the validity of the Bonds and of the aforesaid pledge therefor of revenues from the System; and (iii) customary closing papers, including the customary no-litigation certificate. No conditional bids will be considered but all bids will be construed as being subject to the provisions of this notice.

(d) The said chairman has also caused a notice of bond sale to be published in the Athens News Courier, a newspaper published and having general circulation in the County in the issues of said newspaper dated and published July 30, 1971, and August 6, 1971; the said notice so published having been in substantially the following form:

NOTICE OF BOND SALE

M. Central Daylight Time, on

AUGUST 10, 1971.

The Bonds will consist of coupon Bonds numbered consecutively from 1 up, and will mature in numerical order in the following aggregate principal amounts on September 1 in each of the following years: \$7,000 in 1974 to 1979, inclusive; \$8,000 in 1980 and 1981; \$9,000 in 1982; \$10,000 in 1983 and 1984; \$11,000 in 1985; \$12,000 in 1986; \$13,000 in 1987; and \$14,000 in 1988; \$15,000 in 1989; \$16,000 in 1990; \$17,000 in 1991 and 1992; \$18,000 in 1993; and \$20,000 in 1994 to 2002, inclusive. Interest on the Bonds will be payable semiannually on March 1 and September 1. Those of the Bonds having stated maturities in 1982 and thereafter will be subject to redemption at the option of the County, as a whole or in part (and if in part, then in the inverse order of their numbers), on September 1, 1981, and on any interest payment date thereafter at a redemption price equal to the face value of those redeemed plus a premium equal to one year's interest thereon; provided, that prior notice of any such redemption prior to maturity must be given not less than thirty days before the date fixed for redemption by publication one time in either a newspaper published in Birmingham, Alabama, or a financial journal published in New York, New York. The Bonds will be registrable as to principal only.

The Bonds will be in the denomination of \$1,000 each; provided, however, that to such extent as is permitted by the schedule of maturities hereinabove set forth, the purchaser of the Bonds may designate particular Bonds of the several maturities that are to be issued in the denomination of \$5,000 each.

The Bonds are to be issued under a Trust Indenture to be dated September 1, 1971 (herein called "the Indenture") between the County and a bank authorized to administer trusts, as trustee thereunder; and the principal of and interest on the Bonds will be payable at the principal office of the said trustee, which shall also be depository for certain special funds to be created in the Indenture. The purchaser shall have the privilege of designating as the said trustee a bank whose charges for its services as such trustee, paying agent, and depository are not in excess of the charges customarily made by Alabama banks for the same services.

The Bonds will be issued for the purpose of paying a portion of the costs of the acquisition, by construction and otherwise, of a water distribution system (herein called "the System") in accordance with plans and specifications therefor prepared by William T. Hill, Consulting Engineer, Huntsville, Alabama. The System was designed for the purpose of rendering water service in certain unincorporated territory in the southern part of Limestone County and has an estimated cost of approximately \$988,000. It is contemplated that a portion

of the costs of the System will be paid from federal grants estimated at approximately \$538,000 and a grant from the State of Alabama estimated at \$50,000.

The Bonds will be payable solely out of revenues derived from operation of the System, as it may at any time be constituted: provided, that interest during construction of the System and for twelve months thereafter is to be paid out of the proceeds from the sale of the Bonds. The Bonds will not be general obligations of the County but will be limited obligations payable solely from the aforesaid source. Payment of the principal of and interest on the Bonds will be secured pro rata by a statutory mortgage lien on the System by a first pledge of the revenues from operation of the System.

The Indenture will provide that additional securities, secured on a parity with the Bonds by the said statutory mortgage lien and pledge, may be issued from time to time upon compliance with certain requirements to be set forth in the Indenture. The Indenture will also contain a requirement for annual audits, a requirement for maintenance of insurance on the System and fidelity bonds on employees handling funds applicable thereto, a requirement for maintenance of the rates for service from the System, a provision that no free water will be furnished from the System, and other provisions customarily incorporated in similar proceedings, including provisions for certain special funds, including a Revenue Account, a Bond and Interest Fund, an Operation and Maintenance Fund, A Bond Reserve Fund, A Capital Improvement Fund, and a Surplus Fund.

Each bidder is invited to specify a purchase price for the Bonds and to name the rate or rates of interest to be borne by the Bonds, subject to certain conditions set forth in the Official Invitation for Bids.

The Bonds will be sold on a total net interest cost basis, and will be awarded to the bidder whose bid names the lowest total net interest cost to the County for the Bonds; provided, that if two or more bids are submitted that name the same lowest total net interest cost for the Bonds, then that one thereof will be accepted which offers to pay the highest purchase price therefor; and provided, further, that the right is reserved to reject any or all bids.

The Bonds will be delivered to the purchaser thereof against bankable funds in the City of Birmingham, Alabama; and will be accompanied by the opinion of Messrs. Bradley, Arant, Rose & White, Birmingham, Alabama, Bond Counsel, approving the validity of the Bonds and the said pledge of revenues from the System.

For Official Invitation for Bids and additional information, please write or telephone the undersigned or the County's financial advisers, James Cox and Co., Inc., 916 Brown-Marx Building, Birmingham, Alabama 35203 (Telephone 205-324-7601).

Section 1. Findings. The County has ascertained and hereby determines and finds that the recitals set forth in Section 1.3 of the form of Trust indenture (herein called "the Indenture") provided for and authorized in Section 8 of this resolution are true and correct. The facts recited in Section 1.3 are hereby declared and affirmed as true and correct.

Section 2. Authorization of Bonds. Pursuant to the provisions of Sub division 3 of Article 2 of Chapter 6 of Title 37 (Sections 308 to 340, inclusive) of the Code of Alabama of 1940, as amended, and for the purpose of defraying the costs of constructing the water distribution system briefly described in Section 3.1(a) of the Indenture, including payment of the incidental expenses to be incurred in connection therewith and in connection with the issuance of the bonds hereinafter authorized, there are hereby authorized to be issued \$400,000 principal amount of Water Revenue Bonds, Series 1971-South, of the County, to be dated September 1, 1971 (herein called "the Bonds"). OFFICIAL INVITATION FOR BIDS

Limestone County, Ala
Hospital Tax Anticipation Warrants
Series 1971
Dated November 1, 1971

Limestone County (herein called "the County"), in the State of Alabama, invites sealed bids for the purchase from it of the warrants above referred

MINUTES, LIMESTONE COUNTY COMMISSION, OCTOBER 18, 1971

to (herein called "the Warrants"), which bids will be publicly opened and read in the office of Limestone County Commission in the County Courthouse Annex at Athens, Alabama, beginning at 1:30 o'clock, P. M., Central Daylight Time, on

OCTOBER 18, 1971

The Warrants will consist of sixteen (16) coupon warrants numbered from 1 up, in the denomination of \$5,000 each, and maturing in the aggregate principal amount of \$10,000 on February 1 in each of the years 1972 to 1979, inclusive. The Warrants will bear interest from their date until their respective maturities, such interest to be payable on February 1, 1972, and thereafter semiannually on each February 1 and August 1 and to be evidenced by interest coupons attached to the warrants.

Those of the Warrants having stated maturities in 1977 and thereafter will be subject to redemption at the option of the County, as a whole or in part and if in part then in inverse numerical order, on February 1, 1976, and on any interest payment date thereafter, following prior notice given by publication one time, not less than thirty days before the date fixed for redemption, in a newspaper published in Birmingham, Alabama, or in a financial journal published in the City of New York, New York, at a redemption price for each Warrant redeemed equal to its face value plus a premium equal to one year's interest thereon.

The purchaser of the Warrants shall have the privilege of designating the bank at which the Warrants will be payable; provided, that the charges of any bank so designated must not exceed the charges customarily made by other banks for similar services. The bank so designated will be appointed also as depository for that portion of the special trust fund referred to in the seventh paragraph of this invitation that relates to moneys paid therein in respect of the Warrants.

The Warrants will be issued for the purpose of paying a portion of the costs of the acquisition, by construction and otherwise, of a public health center in and for the County. The estimated cost of the said public health center is approximately \$389,000; and it is contemplated that the remaining costs thereof will be paid from a federal grant approved by the Appalachian Commission and estimated at \$309,000.

The Warrants will be special obligations of the County payable, as to both principal and interest, solely out of 75% of the proceeds from a special annual ad valorem tax at the rate of Two (2) mills on each dollar of taxable property authorized, at an election held in the County on May 4, 1948, to be levied in the County without limit as to time. In the proceedings authorizing the issuance of the Warrants, the County will irrevocably pledge for payment of the principal of and interest on the Warrants, at the respective maturities of such principal and interest, so much as may be necessary for said purpose of 75% of the proceeds from the said tax (75% of the said proceeds so remaining being herein called "the Pledged Tax Proceeds subject only to the reserved privilege, hereinafter referred to, to issue on a parity of pledge additional parity securities).

In the proceedings authorizing the issuance of the Warrants, the County will reserve the privilege of issuing from time to time additional bonds, warrants, or other securities (herein called "Additional Parity Securities") and of securing the same by a pledge of the Pledged Tax Proceeds on a parity with the aforesaid pledge thereof for the benefit of the Warrants; provided, that any such parity pledge for the benefit of Additional Parity Securities can be made only when the Pledged Tax Proceeds during the fiscal year of the County next preceding the fiscal year during which such Additional Parity Securities are issued (as the amount of the Pledged Parity Securities are issued (as the amount of the Pledged Tax Proceeds received during the said fiscal year shall be certified by the chief executive officer of the governing body of the County), shall be not less than 150% of the maximum annual Principal and interest requirements during the then current or any subsequent fiscal year on those of the Warrants and the Additional Parity Securities that will be outstanding immediately following the issuance of the then proposed additional Parity securities).

The said proceedings authorizing the issuance of the Warrants Will contain an agreement on the part of the County to establish a special trust fund for payment of the Warrants and any additional Parity Securities and to pay during each fiscal year all of the Pledged Tax Proceeds, as such proceeds are received, into the said special fund until there shall be on deposit in the said special fund an amount sufficient to pay all principal and interest maturing during the same fiscal year with respect to the Warrants and any Additional Parity Securities.

MINUTES, LIMESTONE COUNTY COMMISSION, OCTOBER 18, 1971

Each bidder is invited to name the rate or rates of interest to be borne by the Warrants, subject to the following limitations: (a) not more than three different interest rates may be named; (b) any rate named may be repeated either in or out of sequence without being counted as another rate; (c) the spread between the highest and lowest rates named may not exceed 1%; (d) all Warrants having the same maturity must bear the same interest rate throughout their life; and (e) no supplemental coupons will be permitted. The County will not consider any bid for less than all of the Warrants or which offers to pay less than the face value of the Warrants plus accrued interest thereon to the date of their delivery. All bids will be construed as including an agreement on the part of the bidder to pay accrued interest on the Warrants to the date of their delivery, whether or not so stated.

Each bid submitted must state the following: (a) the total purchase price expressed in dollars that the bidder will pay for the Warrants; (b) the rate or rates of interest to be borne by the Warrants if the bid is accepted and, if more than one rate is named, the rate applicable to each maturity; (c) the total net interest cost to the County reflected by the bid, determined as hereinafter provided; and (d) the effective average annual net interest rate reflected by the bid, determined as hereinafter provided. The total net interest cost reflected by a bid shall be determined by ascertaining the total amount of interest that would be payable by the County on the Warrants, computed at the applicable rate or rates stated in that bid, from November 1, 1971, to the respective maturities of the Warrants, and deducting from the total so ascertained the amount of the premium, if any, in excess of the face value of the Warrants, that is reflected by the purchase price stated in that bid. The effective average annual net interest rate reflected by a bid shall be determined by dividing the total net interest cost, ascertained in the manner provided in the next preceding sentence, by the total number of warrant years, and expressing the result as a percentage.

The Warrants will be sold on a total net interest cost basis, and will be awarded to the bidder whose bid names the lowest total net interest cost to the County for the Warrants; provided, that if two or more bids are submitted that name the same lowest net interest cost for the Warrants, then that one thereof will be accepted which offers to pay the highest purchase price therefore; and provided, further, that the right is reserved to reject any or all bids. If there is a variance between the total net interest cost, as stated in the successful bid, and the total net interest cost that is actually reflected by the interest rates and the purchase price named in that bid, the total net interest cost stated in that bid will control, and the successful bidder will be required to adjust the interest rates and the purchase price, or either, within the limitations provided in this invitation, so that they will reflect the total net interest cost stated in that bid.

Each bid must be accompanied by a bank cashier's check or a certified check in the amount of \$1,600.00, drawn on a member bank of the Federal Deposit Insurance Corporation and payable to the order of the County. No interest will be allowed on any such check. The checks of the unsuccessful bidders will be returned promptly after the sale. The check accompanying the accepted bid will be retained as security for performance of that bid.

The Warrants will be delivered to the purchaser thereof, at Birmingham, Alabama, against payment therefor in clearing house funds of that city. It is anticipated that such delivery will be made within thirty days after the sale and if the Warrants are not tendered for delivery within forty-five days after the sale, the purchaser may at his option terminate his contract of purchase. Delivery of the printed Warrants will be accompanied, without charge to the purchaser, by customary closing and delivery papers, including the customary no-litigation certificate, and the opinion of Messrs. Bradley, Arant, Rose & White of Birmingham, Alabama, approving the validity of the Warrants, the said tax, and the said pledge of the Pledged Tax Proceeds, subject to the said reserved privilege to make parity pledges. No conditional bids will be considered except that they may be conditioned upon the provisions of this invitation; they will be so considered whether or not so stated.

Additional information may be obtained from the undersigned or from the County's financial adviser, James Cox & Co., Inc., 916 Brown-Marx Building, Birmingham, Alabama 35203 (Telephone 205-324-7601)

(2) Ratification of Official Invitation for Bids. The Commission hereby approved the issuance and circulation of the said Official Invitation for Bids, and hereby adopts, ratifies and confirms the said Official Invitation for Bids.

Mr. Davis moved that the foregoing resolution and order be adopted and spread upon the minutes of the meeting, which motion was seconded by

(b) Need for Construction of Public Health Facilities. In order to make adequate provision for the hospital needs of the inhabitants of the county, it is necessary, desirable and in the public interest that the commission acquire, by construction and otherwise, a public health center in and for the county; the cost of the proposed construction of a public health center is presently estimated to be in excess of \$389,000: arrangements have been made for contributions by the United States of America and its agencies through a federal grant approved by the Appalachian commission and estimated at \$309,000, leaving \$80,000 as the estimated portion of the said costs that is to be borne by the county; the county does not have available funds sufficient to pay its share of the said costs of the proposed construction of a public health center, and it will be necessary, therefore, in order to provide funds for the county's share of the said costs, that the county anticipate the proceeds from seventy-five per centum (75%) of the special tax by the issuance of the warrants of the county hereinafter authorized and payable in installments in the manner hereinafter provided.

(c) The governing body of the county has not designated an agency of the county to acquire, construct, equip, operate and maintain public health centers, pursuant to the provisions of the hospital tax proceeds amendment of 1949 and Act No. 640 enacted at the 1949 Regular Session of the Legislature of Alabama; and the said governing body has taken no proceedings of any kind with respect the appointment by it of such an agency.

(d) There are no bonds, warrants, contracts or claims of any kind now outstanding that are payable out of or that are secured by a pledge of any part of the proceeds from the special tax; and at the time of the issuance of the warrants hereinafter authorized, they will constitute the only securities of the county that are payable out of or secured by a pledge of the pledged tax proceeds.

(e) The assessed valuation of all taxable property in the county as the same was assessed for state taxation for the tax year ending September 30, 1970, was \$31,431.160, consisting of (i) \$5,178,500 assessed valuation of motor vehicles subject to taxation by the county in the said year, and (ii) \$26,252,660 assessed valuation of all other taxable property in the county for the said tax year; assessment of motor vehicles for the tax year ending September 30, 1971, has not yet been completed; the assessed valuation of all taxable property (other than motor vehicles) in the county for the tax year ending September 30, 1971, is \$27,871.145; on the basis of the information set forth in the foregoing paragraph (e), the commission estimates that the assessed valuation of motor vehicles subject to taxation by the county for the tax year ending September 30, 1971, will be not less than \$5,178,500, and that, accordingly, the assessed valuation of all taxable

property in the county for the tax year ending September 30, 1971, will be not less than \$33,049.645.

(f) It is necessary, desirable and in the public interest that the warrants hereinafter authorized be issued in anticipation of the receipt by the county of the pledged tax proceeds.

(g) It is necessary, desirable and in the public interest that the warrants hereinafter authorized be issued in anticipation of the receipt by the county of the pledged tax proceeds.

(g) It is, therefore, the opinion of the commission that the aggregate proceeds which will be received by the county from the special tax during each fiscal year until and including the fiscal year ending September 30, 1979, will be not less than \$66,099.29, that the amount of the pledged tax proceeds received by the county during each of the said fiscal years will be not less than seventy-five per centum (75%) of the last mentioned sum, or \$49,574.46; and that the pledged tax proceeds will, therefore, be sufficient to retire the warrants in the manner herein contemplated.

Setion 3. Authorization of the Warrants. Pursuant to the applicable provisions of the constitution and laws of the State of Alabama, including particularly the hospital tax proceeds amendment of 1949 and for the purpose of paying a portion of the cost of the acquisition and construction of a public health center, there are hereby authorized to be issued by the county sixteen (16) Hospital Tax Anticipation Warrants, Series 1971, of the county in the denomination of \$5,000 each, aggregating \$80,000 in principal amount, which shall be numbered consecutively from 1 to 16, inclusive, shall be dated November 1, 1971, and shall mature on February 1 in the following year and amounts:

<u>Warrant Numbers</u> <u>(both inclusive)</u>	<u>Year of Maturity</u>	<u>Aggregate Principal</u> <u>Amount Maturing</u>
1 and 2	1972	\$ 10,000
3 and 4	1973	10,000
5 and 6	1974	10,000
7 and 8	1975	10,000
9 and 10	1976	10,000
11 and 12	1977	10,000
13 and 14	1978	10,000
15 and 16	1979	10,000

The warrants shall bear interest from their date until their respective maturities at the following rates per annum: 4½% on those having stated maturities in 1972 and 1974, inclusive; and 4% on those having stated maturities in 1975 to 1979, inclusive. The said interest is payable on February 1, 1972, and thereafter semiannually on February 1 and August 1 until and at the respective maturities of the warrants and shall be evidenced by separate interest coupons attached thereto. The warrants and the coupons shall bear interest at the rate of 8% per annum from their respective maturities and shall be payable in lawful money of the United States of America at the principal office of Exchange Security Bank in the City of Birmingham in the State of Alabama.

Section 4. Optional Redemption Provisions. Those of the warrants having stated maturities in 1977 and thereafter shall be subject to redemption and payment by the county at its option on February 1, 1976, and on any interest payment date thereafter, at a redemption price equal to the face value of each warrant redeemed plus a redemption premium equal to one year's interest thereon computed at its coupon rate. Any such redemption may be made as a whole or in part of the callable warrants then outstanding and, if in part, such redemption shall be accomplished in the inverse numerical order of those of the callable warrants at the time outstanding. Any such redemption shall be effected in the following manner:

(a) The County shall by resolution adopted by the commission call for redemption on a stated interest payment date when they are by their terms subject to redemption, callable warrants bearing stated numbers, and shall recite in said resolution (i) that the county is not at the time in default in the payment of the principal of or interest on any of the warrants or (ii) that all of the warrants then outstanding are to be retired on the redemption date.

(b) The commission shall cause to be published one time in either a newspaper published one time in either a newspaper published in the city of Birmingham, Alabama, or a financial journal published in the City and State of New York, a notice stating the numbers of the called warrants, stating the numbers of the called warrants, stating that they will become

due and payable on a specified redemption date (which shall be the redemption date fixed by resolution adopted pursuant to paragraph (a) of this section) at the redemption price which shall be specified in said notice, and stating that all interest on the called warrants will cease after the redemption date. Any such notice shall be published not less than thirty (30) days prior to the redemption date.

(c) On or prior to the redemption date the county shall cause to be deposited with the bank at which the warrants are payable the total redemption price of the callable warrants so called and shall further furnish to said bank a certified copy of the resolution required in paragraph (a) of this section, and an appropriate affidavit showing compliance with the requirements of paragraph (b) of this section.

Upon compliance with the foregoing requirements and if on the redemption date the county is not then in default in payment of the principal of or the interest on any of the warrants, the called warrants shall become due and payable at the place at which the same shall be payable on the redemption date and at the redemption price specified in such notice, anything herein or in the warrants to the contrary notwithstanding, and interest shall thereafter cease to accrue on the called warrants. The said bank at which the called warrants are payable shall not be required to pay any coupon maturing on the redemption date which is applicable to any called warrant unless the called warrant to which such coupon is applicable is also presented for payment; provided, that in the even the said bank should pay any such coupon without payment of the applicable called warrant it shall not be liable to the holder of such applicable called warrant, or to the county, or to anyone whomsoever; and provided further, that the said bank shall pay such coupon if the holder thereof shall present evidence satisfactory to the said bank that such holder is the owner of the coupon so presented and is not the owner of the called warrant to which such coupon is applicable.

Section 5. Execution and Registration of Warrants. The warrants shall be signed in the name of the county by the chairman of the commission, and the official seal of the county shall be reproduced in facsimile on each of the warrants, for which purpose the official seal of the commission is hereby adopted as the official seal of the county. The coupons shall bear the facsimile signature of the chairman of the commission, whose facsimile signature shall be valid in all respects as if his signature had been signed to the coupons by him in person. The said officer and the county depository are hereby authorized and directed to register the warrants and the coupons as claims against seventy-five per centum (75%) of the special tax and also against the special fund hereinafter created, which registration shall be made simultaneously with respect to all of the warrants and the coupons.

Section 6. Source of Payment of Warrants: Special Pledge Therefor.

(a) Limited Obligations. The warrants and the coupons shall be payable solely out of seventy-five per centum (75%) of the proceeds from the special tax, and shall not constitute general obligations of the county. The general faith and credit of the county are not pledged for payment of the warrants or the coupons. Neither this resolution and order nor any of the warrants or the coupons issued hereunder shall be deemed to impose upon the county any obligation to pay the principal of or interest on the warrants, or any other sum except out of seventy-five per centum (75%) of the proceeds from the special tax. None of the agreements, representations and warranties made or implied in this resolution and order, or in the issuance of the warrants and the coupons, shall ever impose any pecuniary liability upon the county, except with respect to seventy-five per centum (75%) of the proceeds from the special tax. Nothing contained in this section, however, shall relieve the county from the duty of observing and performing the several covenants and representations on its part herein contained.

(b) Special Pledge Seventy-five per centum (75%) of the annual proceeds of the special tax, including properties and the proceeds of the special tax, including properties and the proceeds from properties acquired in the enforcement of any lien securing the special tax are hereby irrevocably pledged for payment of the principal of and the interest on the warrants, without preference or priority of one warrant over another by reason of prior issuance or otherwise; provided that so long as there shall be no default in the payment of such principal and interest as the same respectively mature, the pledged tax proceeds may be used for payment of the said principal and interest at the respective maturities thereof. The county represents that the pledge herein made of the pledged tax proceeds constitutes a first pledge thereof, and except for any parity pledge that may hereafter be made for the benefit of any additional parity securities that may be issued pursuant to the provisions of Section 7 hereof, the said pledge shall take precedence over all other claims of any kind against the pledge tax proceeds, including claims for salaries, claims based on expenses of operation and maintenance and any other claims.

The Commission agrees that it will make no other agreement or additional pledge respecting the pledged tax proceeds (except pledges for the benefit of additional parity securities issued as aforesaid pursuant to the provisions of the said Section 7) unless such agreement or additional pledge shall expressly recognize the priority of the pledge herein made. The County hereby represents that at the time of the issuance of the warrants, it will have not outstanding warrants or other securities except the warrants that are payable out of, or secured by, the pledged tax proceeds.

Section 7. Additional Parity Securities. The county reserves the right at any time and from time to time to issue additional parity securities secured by a pledge, for payment at their respective maturities of the principal of an interest on the additional parity securities, of so much of the pledged tax proceeds as may be necessary for such purpose, such pledge to be on a parity with the pledges with respect to the pledged tax proceeds herein made for the benefit of the warrants; provided, that (a) prior to the issuance of any additional parity securities there shall be filed in the office of the chairman of the commission a certificate signed by the chairman of the commission (or certificate, in the event of any change in the manner in which the governing body of the county is organized, the then chief executive officer of the then governing body of the county) that the total amount of the pledged tax proceeds received by the commission during each of the two fiscal years next preceding the issuance of the additional parity securities then proposed to be issued was not less than 150% of the maximum principal and interest that will mature during any then succeeding fiscal year with respect to the warrants, any of the additional parity securities theretofore issued, and the additional parity securities then proposed to be issued, and (b) any of the additional parity securities that may be issued shall have maturities of interest on February 1 and August 1, and shall have maturities of principal on February 1.

Section 8 Special Fund.

(a) Creation of Special Fund. There is hereby established a special public fund to be designated the "Limestone County 1971 Hospital Special Fund" (herein called "the special Fund"), which shall be impressed with a trust for the purpose herein provided and shall be maintained so long as any of the warrants or the coupons are outstanding and unpaid. The chairman of the commission and the county depository are hereby authorized and directed to take all actions and do all things that may be necessary to cause the pledged tax proceeds to be paid into the special fund in the manner provided in this section and to cause the moneys on deposit on the special fund to be applied as provided in this section. Payments shall be made into the special fund as hereinafter provided:

(1) During the current fiscal year of the county, which began on October 1, 1971, and commencing, with the date of the issuance of the warrants, the commission will pay, or cause to be paid, into the special fund seventy-five per centum (75%) of all proceeds of the special tax as and when the same shall be received by, or shall be made available to, the commission, until there shall have been paid into the special fund during the current fiscal year an amount equal to the principal and interest that will mature with respect to the warrants (and any additional parity securities) on February 1 and August 1 of 1972:

(2) During each successive fiscal year of the county and of the commission, commencing with the fiscal year which will begin October 1, 1972, and continuing each fiscal year thereafter until the principal of and the interest on the warrants shall have been fully paid, the commission will pay or cause to be paid into the special fund seventy-five per centum (75%) of all proceeds from the special tax, as and when the same shall be received by or shall be made available to the commission, until there shall have been paid into the special fund during each fiscal year the following: (i) an amount equal to the principal and interest maturing with respect to the warrants, and any additional parity securities that may hereafter be issued pursuant to Section 7 hereof, on February 1 and August 1 of the same fiscal year, and (ii) the total of any principal and interest which may have theretofore matured with respect to the warrants and any such additional parity securities, which may at the time be outstanding and unpaid, and for the payment of which there are not moneys available in the special fund; and.

The moneys on deposit in the special fund shall be used only for payment of the principal of and the interest on the warrants and any such additional parity securities that may be issued at or after the respective maturities of such principal and interest. When all the warrants and the additional parity securities, and all interest coupons applicable thereto shall have been retired and none of the principal thereof or of the interest thereon shall be outstanding and unpaid, any moneys then remaining on deposit on the special fund shall be returned to the county.

(b) Use of Surplus of Tax Proceeds. All proceeds received from the special tax during each fiscal year after compliance with the provisions of subsection (a) of this section applicable to such fiscal year may be used

by the commission for any lawful purpose, including, but without limitation to, operation and maintenance of its health center.

(c) Depository for the Special Fund. Exchange Security Bank in the City of Birmingham, Alabama, is hereby designated as depository for the special fund. In the event that the said bank (or any successor depository appointed pursuant to the provisions of this subsection) should at any time decline to act as depository for the special fund, or should resign as such depository, or should cease to be a members of the Federal Deposit Insurance Corporation (or of any agency of the United States of America which may succeed to its functions), or should cease to be duly qualified and doing business within the State of Alabam, then the commission may designate a successor to such depository. Any successor depository designated pursuant to the provisions of this section shall be and remain a member of the Federal Deposit Insurance Corporation (or of any agency of the United States of America which may succeed to its functions) and shall be and remain duly qualified and oing business in the State of Alabama.

(d) Security for the Special Fund. The money on deposit in the special fund shall be and at all times remain public funds impressed with a trust for the purpose for which the special fund is herein created. Each depository for the special fund shall at all times keep the moneys on deposit with it in the special fund secured, for the benefit of the county and the holders of the warrants (and any additional parity securities that may be issued), either (1) by holding on deposit, as collateral security, direct general obligations of the United States of America or obligations the principal of and interest on which are unconditionally guaranteed by the United States of America, or other marketable securities eligible as security for the Deposit of public funds under regulations of the Board of Governors of the Federal Reserve System and having market value (exclusive of accrued interest) not less than the amount of moneys on deposit in the special fund, or (2) if the furnishing of such securities is not permitted by the then applicable law or regulation, then in such other manner as may be required or permitted by the then applicable state and federal laws and regulations respecting the security for, or granting a preference in the case of, the deposit of public funds; provided, however, that it shall not be necessary for the depository so to secure any portion of the moneys on deposit in the specail fund is insured by the Federal Deposit Insurance Corporation or by any agency of the United States of America that may succeed to its functions.

(e) Investment of Moneys in the Warrant Fund. The county may at any time and from time to time by resolution duly adopted by the commission direct the depository for the special fund to invest, to the extent practicable, moneys on deposit in the special fund which shall not be currently needed for the purposes for which the special fund is herein created. Any such investment shall be made only in securities which are direct general obligations of the United States of America and which shall mature not later than the next principal or interest payment date on which the moneys so invested shall be needed to pay the principal or interest which payment date on which the moneys so invested shall be needed to pay the principal or interest which may mature with respect to the warrants on the then next principal or interest payment date. In the event of any such investment, the securities in which such moneys are so invested, together with all income derived therefrom shall become a part of the special fund to the same extent as if they were moneys on deposit therein. The county may likewise at any time and from time to time cause any securities in which any such investment shall be made to be converted into cash, whereupon the net proceeds derived from any such conversion shall become a part of the special fund. The depository for the special fund shall be fully protected in making investments or conversions of any such securities upon direction given to it in a resolution adopted by the commission. In any determination of the amount of moneys at any time forming a part of the special fund, all securities in which any portion of the special fund is at the time invested pursuant to the provisions of this subsection shall be included therein at their then market value.

Section 9, Payment at Par Each banking institution at which the warrants and the coupons may at any time be payable, by acceptance of its duties as paying agent therefor, shall be considered to have agreed thereby with the holders of the Warrants and the coupons that it will make all remittances of principal of and interest on the warrants and the coupons, out of moneys supplied to it by the commission for such purpose, in bankable funds at par and without deduction for exchange, fees or expenses. The commission agrees with the holders of the warrants and the coupons and with each of said banking institutions that it will pay all charges for exchange, fees or expenses which may be made by said bank at the making of remittances in bankable funds of the principal of and the interest on the warrants and the coupons at par.

Section 10. Agreement Respecting Maintenance of the Special Tax. The county represents and agrees that, so long as any of the warrants or any of the coupons remains unpaid, the county will continue to levy and collect

year the special tax at the rate of two mills on each dollar of taxable property in the county, at the times and in the manner provided by law for the levy and collection of ad valorem taxes by the county.

Section 11. Form of the Warrants. The warrants and the coupons and the provision for assignment thereof shall be in substantially the following forms, respectively, with appropriate changes therein to accord with the provisions hereof:

HOSPITAL TAX ANTICIPATION WARRANT
SERIES 1971

The County Depository of the County of Limestone (herein called "the County") in the State of Alabama is hereby ordered and directed to pay to William Marx, or his transferee or assigns, solely from the special source hereinafter referred to, the principal sum of

F I V E T H O U S A N D D O L L A R S

on the first day of February, 19__, with interest thereon from the date hereof at the rate of ____% per annum, payable on February 1, 1972, and thereafter semiannually on each February 1 and August 1 until and at the maturity hereof upon presentation and surrender of the appropriate interest coupons hereto attached as the same respectively become due. Both the principal hereof and the interest hereon shall be payable in lawful money of the United States of America at the principal office of Exchange Security Bank in the City of Birmingham in the State of Alabama.

This warrant is one of an issue in the authorized principal amount of \$80,000, consisting of sixteen(16) warrants (herein called "the Warrants") numbered 1 to 16, inclusive, of like tenor herewith except for their numbers and maturity dates, that are issued pursuant to a resolution and order duly and legally adopted by the governing body of the County and pursuant to the applicable provisions of the Constitution and laws of Alabama, including particularly the amendment to the Constitution of Alabama that was proposed by Act No. 570 adopted at the 1949 Regular Session of the Legislature of Alabama. The purpose of the issuance of the Warrants is to provide funds to be applied for payment of a portion of the costs of the acquisition and construction of a public health center in and for the County.

Those of the Warrants having stated maturities in 1977 or thereafter are subject to redemption and payment prior to maturity, as a whole or in part (and if in part then in their inverse numerical order), at the option of the County, on February 1, 1976, after publication of notice of such redemption shall have been made at least one time, not less than thirty (30) days prior to the date fixed for redemption in either a newspaper published in the City of Birmingham, Alabama, or in a financial journal published in the City and State of New York, at a redemption price for each warrant redeemed equal to the face value thereof plus a premium equal to one year's interest thereon computed at the coupon rate thereof.

The principal of and the interest on the Warrants are payable solely out of seventy-five per centum (75%) of the proceeds from a special annual ad valorem tax at the rate not exceeding two (2) mills on each dollar of taxable property in the County, which was authorized to be levied in the County, at a special election held in the County on May 4, 1948, pursuant to the amendment to the Constitution of Alabama that was proposed by Act No. 357 adopted at the 1947 Regular Session of the Legislature of Alabama. The principal of and the interest on the Warrants are secured by a valid pledge of seventy-five per centum (75%) of the annual proceeds of said special tax (seventy-five per centum (75%) of the said annual proceeds being herein called "the Pledged Tax Proceeds"). The full faith and credit of the County are not pledged to the payment of the Warrants or the Interest thereon and they are not general obligations of the County. The County is not obligated to pay the principal of interest on the Warrants except from seventy-five per centum (75%) of the proceeds of said special tax, and none of the agreements, representations or warranties made or implied in the issuance of this warrant shall be deemed to impose any liability whatsoever upon the County, except to pay the principal hereof and interest hereon out of the Pledged Tax Proceeds. In the proceedings authorizing the issuance of the Warrants, the County reserved the privilege, upon compliance with certain requirements set forth in the said proceedings, of issuing from time to time additional securities

(herein called "Additional Parrrity Securities") secured by a pledge of the Pledged Tax Proceeds on a parity with the aforesaid pledge thereof for the benefit of the Warrants.

It is hereby certified and recited for the benefit of any person or persons to whom this warrant may be issued or transferred that his warrant represents a valid claim against the Pledged Tax Proceeds; that the amount ordered paid hereby will be so due without condition, abatement or offset of any kind; and that all conditions, actions and things required by the Constitution and laws of the State of Alabama to exist, be performed and happen precedent to and in the issuance of this warrant and in the levy of the said special tax exist, have been performed and have happened.

This warrant is nonnegotiable, but is transferable by assignment. Each taker, Owner, purchaser or holder hereof, by receiving or accepting this warrant or any interest coupon, shall consent and agree and shall be estopped to deny: (1) that title to the coupons hereunto appertaining may be transferred by delivery without the necessity of a written assignment, and any person making such delivery shall be deemed to have transferred to the person to whom such delivery is made all of his equities or rights in the coupons so delivered; (2) that any person in possession of any such coupon, regardless of the manner in which he shall have acquired possession, is authorized to represent himself as the absolute owner thereof and has the power and authority to transfer absolute title thereto by delivery thereof to a bona fide purchaser for value (present or antecedent) without notice of prior defenses or equities or claims of ownership enforceable against his transferor or any person in the chain of title and before the maturity thereof; and (3) that whenever and so long as this warrant may be assigned in blank by written assignment by the original payee hereof or by any subsequent assignee hereof in the chain of title to whom written assignment is made, the County may treat any person in possession of this warrant, regardless of how such possession may have been acquired and regardless of the genuineness of effectiveness of any assignment, as the absolute owner hereof for all purposes, and payment to any such person shall discharge all obligations hereunder.

IN WITNESS WHEREOF, the County has caused this warrant to be assigned by the chairman of Limestone County Commission, has caused the seal of said Limestone County Commission, as the official seal of the County, to be reproduced hereon in facsimile, has caused the annexed interest coupons to be executed with the facsimile signature of the chairman, and has caused this warrant to be dated November 1, 1971.

MINUTES, LIMESTONE COUNTY COMMISSION, NOVEMBER 12, 1971

The Limestone County Commission was called into special session by Thomas L. Hammons, Chairman for the purpose of awarding bids on Proposal No. 170. The commission met on Friday, November 12, 1971 at the Limestone County Courthouse Annex on South Jefferson Street, Athens, Alabama. Present were John W. Moore, Grady Holland, Elam B. Hamilton and Dave E. Davis. Absent: none. Thomas L. Hammons, chairman presided over the meeting.

MOTION made by Grady Holland and seconded by Elam B. Hamilton to award the bid to Tractor & Equipment Company for a purchase price of \$31,000.00. Tractor & Equipment were the high bidders on this used equipment however, the following reasons are given for the decision.

"After careful consideration of Proposal No. 170 Limestone County Commission chose to purchase the higher priced tractor for the following reasons:

Thompson Tractor Company machine engine was rebuilt in 1969. The hydraulic pump and cylinders were rebuilt in 1969. The transmission was worked on in June of 1970 and in December of 1970 rollers were rebuilt. All of the above was told to Mr. Hammons by the Thompson Tractor Company shop foreman.

Normally a tractor that has been stripping coal for two years has a used-up engine. The idlers have been rebuilt and are ready for repair now. The tracks and sprockets are also worn out.

While talking to the company's shop foreman, I asked what year machine the tractor is and he said it was either a 1966 or 1965. After checking the serial number 46A9768 we found the tractor to be a 1965 model. The salesman told the commission at the time of bid opening the tractor was a 1969 model.

Tractor & Equipment's machine is a model 1969, looks like new and runs the same. They gave us a six (6) months warranty which Thompson Tractor Company did not offer."

All members voted for motion and directed the chairman to issue a purchase order for Proposal No. 170 to Tractor & Equipment Company.

TO BE DATED AUGUST 1, 1972

IT IS HEREBY RESOLVED, ORDERED AND DECREED by Limestone County Commission (herein called "the Commission"), the governing body of Limestone County (herein called "the County") in the State of Alabama, as follows:

(1) Findings. The Commission has determined and hereby finds and declares that the following facts are true and correct:

(a) An Official Invitation for Bids for the purchase from the County of its \$100,000 principal amount of Hospital Tax Anticipation Warrants, Series 1972, to be dated August 1, 1972, has been heretofore issued in behalf of the County and has been circulated through the State Department of Finance to securities dealers among whom notices of sale of securities by municipalities and other public corporations in Alabama are customarily circulated;

(b) The said Official Invitation for Bids, together with additional and pertinent financial information, has also been circulated among prospective bidders by the County's financial adviser; and

(c) The said Official Invitation for Bids which was heretofore issued and circulated as aforesaid was in the following form:

OFFICIAL INVITATION FOR BIDS

\$100,000
Limestone County, Alabama
Hospital Tax Anticipation Warrants
Series 1972
Dated August 1, 1972

Limestone County (herein called "the County"), in the State of Alabama, invites sealed bids for the purchase from it of the warrants above referred to (herein called "the Warrants"), which bids will be publicly opened and read in the office of Limestone County Commission in the County Courthouse Annex at Athens, Alabama, beginning at 10:00 o'clock, A.M., Central Daylight Time, on

JUNE 21, 1972.

MINUTES, LIMESTONE COUNTY COMMISSION, JUNE 21, 1972

The Warrants will consist of twenty (20) coupon warrants numbered from 1 up, in the denomination of \$5,000 each, and maturing in the following aggregate principal amounts on February 1 in each of the following years: \$5,000 in 1973 to 1978, inclusive; \$10,000 in 1979; and \$20,000 in 1980, 1981, and 1982. The Warrants will bear interest from their date until their respective maturities, such interest to be payable semiannually on each February 1 and August 1 and to be evidenced by interest coupons attached to the Warrants.

Those of the Warrants having stated maturities in 1978 and thereafter will be subject to redemption at the option of the County, as a whole or in part and if in part then in inverse numerical order, on August 1, 1977, and on any interest payment date thereafter, following prior notice given by publication one time, not less than thirty days before the date fixed for redemption, in a newspaper published in Birmingham, Alabama, or a financial journal published in the City of New York, New York, at a redemption price for each Warrant redeemed equal to its face value plus a premium equal to one year's interest thereon.

The purchaser of the Warrants shall have the privilege of designating the bank at which the Warrants will be payable; provided, that the charges of any bank so designated must not exceed the charges customarily made by other banks for similar services. The bank so designated will be appointed also as depository for that portion of the special trust fund referred to in the eighth paragraph of this invitation that relates to moneys paid therein in respect of the Warrants.

The Warrants will be issued for the purpose of paying a portion of the costs of the acquisition, by construction and otherwise, of public hospital facilities in and for the County. The estimated costs of the said public hospital facilities amount to approximately \$583,000; and it is contemplated that a portion of the said costs will be paid from a federal grant approved by the Appalachian Commission and estimated at \$448,130, and that the balance of the said costs will be paid from moneys that the County has on hand and available for said purpose.

The Warrants will be special obligations of the County payable, as to both principal and interest, solely out of 75% of the proceeds from a special annual ad valorem tax at the rate of two (2) mills on each dollar of taxable property authorized, at an election held in the County on May 4, 1948, to be levied in the County without limit as to time. In the proceedings authorizing the issuance of the Warrants, the County will irrevocably pledge for payment of the principal of and interest on the Warrants, at the respective maturities of such principal and interest, so much as may be necessary for said purpose of 75% of the proceeds from the said tax remaining after payment of the cost of collection of the tax (75% of the said proceeds so remaining being herein called "the Pledged Tax Proceeds"). The said pledge of the Pledged Tax Proceeds for the benefit of the Warrants will be on a parity with a pledge thereof for the benefit of the County's Hospital Tax Anticipation Warrants, Series 1971, dated November 1, 1971, which were issued in the original aggregate principal amount of \$80,000 and are now outstanding in the aggregate principal amount of \$70,000 (herein called "the Series 1971 Warrants").

In the proceedings authorizing the issuance of the Warrants, the County will reserve the privilege of issuing from time to time additional bonds, warrants, or other securities (herein called "Additional Parity Securities") and of securing the same by a pledge of the Pledged Tax Proceeds on a parity with the aforesaid pledge thereof for the benefit of the Warrants; provided, that any such parity pledge for the benefit of Additional Parity Securities can be made only when the Pledged Tax Proceeds during the fiscal year of the County next preceding the fiscal year during which such Additional Parity Securities are issued (as the amount of the Pledged Tax Proceeds received during the said fiscal year shall be certified by the chief executive officer of the governing body of the County) shall be not less than 150% of the maximum annual principal and interest requirements during the then current or any subsequent fiscal year on those of the Series 1971 Warrants, the Warrants, and the Additional Parity Securities that will be outstanding immediately following the issuance of the then proposed Additional Parity Securities.

The said pledge of the Pledged Tax Proceeds for the benefit of the Warrants will be a first pledge of the Pledged Tax Proceeds, subject only to (a) the said parity pledge for the benefit of the Series 1971 Warrants, and (b) the reserved privilege, hereinabove referred to, to issue on a parity of pledge Additional Parity Securities.

The said proceedings authorizing the issuance of the warrants will contain an agreement on the part of the County to maintain that certain special fund, designated the Limestone County 1971 Hospital Special Fund (which was originally created in the proceedings authorizing the Series 1971 Warrants), for payment of the Series 1971 Warrants and any securities on a parity therewith, and to pay during each fiscal year all of the Pledged Tax Proceeds, as such proceeds are received, into the said special fund until there shall be on deposit in the said special fund an amount sufficient to pay all principal and interest maturing during the same fiscal year with respect to the Series 1971 Warrants, the Warrants, and any Additional Parity Securities.

Each bidder is invited to name the rate or rates of interest to be borne by the Warrants, subject to the following limitations: (a) not more than three different interest rates may be named; (b) any rate named may be repeated either in or out of sequence without being counted as another rate; (c) the spread between the highest and lowest rates named may not exceed 1%; (d) all Warrants having the same maturity must bear the same interest rate throughout their life; and (e) no supplemental coupons will be permitted. The County will not consider any bid for less than all of the Warrants or which offers to pay less than the face value of the Warrants plus accrued interest thereon to the date of their delivery. All bids will be construed as including an agreement on the part of the bidder to pay accrued interest on the Warrants to the date of their delivery, whether or not so stated.

Each bid submitted must state the following: (a) the total purchase price expressed in dollars that the bidder will pay for the Warrants; (b) the rate or rates of interest to be borne by the Warrants if the bid is accepted and, if more than one rate is named, the rate applicable to each maturity; (c) the total net interest cost to the County reflected by the bid, determined as hereinafter provided; and (d) the effective average annual net interest rate reflected by the bid, determined as hereinafter provided. The total net interest cost reflected by a bid shall be determined by ascertaining the total amount of interest that would be payable by the County on the Warrants, computed at the applicable rate or rates stated in that bid, from August 1, 1972, to the respective maturities of the Warrants, and deducting from the total so ascertained the amount of the premium, if any, in excess of the face value of the Warrants, that is reflected by the purchase price stated in that bid. The effective average annual net interest rate reflected by a bid shall be determined by dividing the total net interest cost, ascertained in the manner provided in the next preceding sentence, by the total number of warrant years, and expressing the result as a percentage.

The Warrants will be sold on a total net interest cost basis, and will be awarded to the bidder whose bid names the lowest total net interest cost to the County for the Warrants; provided, that if two or more bids are submitted that name the same lowest net interest cost for the Warrants, then that one thereof will be accepted which offers to pay the highest purchase price therefor; and provided, further, that the right is reserved to reject any or all bids. If there is a variance between the total net interest cost, as stated in the successful bid, and the total net interest cost that is actually reflected by the interest rates and the purchase price named in that bid, the total net interest cost stated in that bid will control, and the successful bidder will be required to adjust the interest rates and the purchase price, or either, within the limitations provided in this invitation, so that they will reflect the total net interest cost stated in that bid.

Each bid must be accompanied by a bank cashier's check or a certified check in the amount of \$2,000.00, drawn on a member bank of the Federal Deposit Insurance Corporation and payable to the order of the County. No interest will be allowed on any such check. The checks of the unsuccessful bidders will be returned promptly after the sale. The check accompanying the accepted bid will be retained as security for performance of that bid.

The Warrants will be delivered to the purchaser thereof, at Birmingham, Alabama, against payment therefor in clearing house funds of that city. It is anticipated that such delivery will be made on August 1, 1972, or promptly thereafter; and if the Warrants are not tendered for delivery by August 15, 1972, the purchaser may at his option terminate his contract of purchase. Delivery of the printed Warrants will be accompanied, without charge to the purchaser, by customary closing and delivery papers, including the customary no-litigation certificate, and the opinion of Messrs. Bradley, Arant, Rose & White of Birmingham, Alabama, approving the validity of the Warrants, the said tax, and the said pledge of the Pledged Tax Proceeds, subject to (a) the said parity pledge for the benefit of the Series 1971 Warrants and (b) the said reserved privilege to make additional parity pledges. No conditional bids will be considered except that they may be conditioned upon the provisions of this invitation; they will be so considered whether or not so stated.

Additional information may be obtained from the undersigned or from the County's financial adviser, Reynolds Securities, Inc., 11 Marietta Street, N.W., P. O. Box 1295, Atlanta, Georgia 30301 (Telephone (404) 521-0270).

"The warrants", without other qualifying language, means those authorized in Section hereof.

Definitions include both singular and plural.

Pronouns include both singular and plural and cover all genders.

Section 2. Declarations and Findings. The commission has ascertained and does hereby find and declare that the following statements are true:

(a) Authorization of Special Tax. Pursuant to the provisions of an amendment to the Constitution of Alabama of 1901 proposed by Act No. 357 enacted at the 1947 Regular Session of the Legislature of Alabama, a special election was held in the county on May 4, 1948, at which a majority of the electors voting at such election voted in favor of the levy of a special annual ad valorem tax not exceeding two (2) mills on each dollar of taxable property in the county, to be used solely for acquiring, by purchase, lease or otherwise, constructing, operating, equipping or maintaining county hospitals, or other public hospitals, non-profit hospitals and public health facilities;

(b) Need for Construction of Public Hospital Facilities. In order to make adequate provision for the hospital needs of the inhabitants of the county, it is necessary, desirable and in the public interest that the commission acquire, by construction and otherwise, public hospital facilities in and for the county, the said public hospital facilities consisting of enlarging the dietary department and the electric power plant forming a part of the public hospital owned and operated by the county in the City of Athens, Alabama; the cost of the proposed public hospital facilities is presently estimated to be approximately \$583,000; arrangements have been made for a contribution by the United States of America through a federal grant approved by the Appalachian Commission and estimated at \$448,130, leaving approximately \$134,870 as the estimated portion of the said costs that is to be borne by the county; the county has available the sum of \$34,870 for application to payment of the said costs but does not have available funds sufficient to pay the remaining \$100,000 of its share of the costs of the proposed public hospital facilities, and it will be necessary, therefore, in order to provide funds for payment of \$100,000 of the county's share of the said costs, that the county anticipate the proceeds from seventy-five per centum (75%) of the special tax by the issuance of the warrants of the county hereinafter authorized and payable in installments in the manner hereinafter provided;

(c) The governing body of the county has not designated an agency of the county to acquire, construct, equip, operate and maintain public hospital facilities, pursuant to the provisions of the hospital tax proceeds amendment of 1949 and Act No. 640 enacted at the 1949 Regular Session of the Legislature of Alabama; and the said governing body has taken no proceedings of any kind with respect to the appointment by it of such an agency;

(d) There are no bonds, warrants, contracts or claims of any kind now outstanding that are payable out of or that are secured by a pledge of any part of the proceeds from the special tax; and at the time of the issuance of the warrants hereinafter authorized, they will constitute the only securities of the county that are payable out of or secured by a pledge of the pledged tax proceeds;

(e) The amount of the proceeds received by the county from the special tax during the fiscal year that ended September 30, 1970, was \$55,107.69; the amount of the proceeds received by the county from the special tax during the fiscal year that ended September 30, 1971, was \$57,685.22; the amounts set forth in this subsection (e) were established by and taken from (i) the official records of the county, and (ii) audits, prepared by certified public accountants, that have been heretofore filed with the county in respect of the said fiscal years; 75% of the said sum of \$55,107.69 is \$41,330.77; and 75% of the said sum of \$57,685.22 is \$43,263.92.

(f) The maximum annual debt service requirement with respect to the Series 1971 warrants and the warrants is \$22,600.00, being the amount of principal and interest that will mature with respect to the Series 1971 warrants and the warrants during the fiscal year ending September 30, 1979; 1.50 times the sum of \$22,600.00 (or 150% of the said sum) is \$33,900.00; in the last two clauses

(g) Each of the two sums set forth in subsection (e) of this section (i.e., the sum of \$41,330.77 and the sum of \$43,263.92) is greater than the sum of \$33,900.00; the amount of the proceeds derived from the special tax during each of the fiscal years ending September 30, 1971, and on September 30, 1971, is, therefore, more than 1.50 times the maximum annual debt service requirement during any succeeding fiscal year with respect to the Series 1971 warrants and the warrants; and the warrants are, therefore, eligible to be issued on a parity with the Series 1971 warrants (all pursuant to and in accordance with the provisions of Section 7 of the 1971 warrant resolution), upon the filing in the office of the chairman of the commission of a certificate signed by the said chairman and setting forth the facts recited in this subsection and in the foregoing subsections (e) and (f) of this section;

(h) An Official Invitation for Bids for purchase from the county of the warrants, together with pertinent financial information with respect to the county, has been circulated among securities dealers and banks; at the time and place fixed in the aforesaid Official Invitation for Bids for the opening of sealed bids for purchase of the warrants, viz., on June 21, 1972, at 10:00 o'clock, A.M., Central Daylight Time, in the office of the commission in the County Courthouse Annex in Athens, Alabama, and at a duly convened session of the commission, sealed bids for purchase from the county of the warrants were received by the county; each of the said sealed bids was publicly opened at the said time and place and each thereof was accompanied by a certified check or cashier's check in the amount of \$2,000.00, payable to the order of the county and drawn on a member bank of the Federal Deposit Insurance Corporation; of the bids so opened, the best bid and the one that reflected the lowest total net interest cost to the county was that of Reynolds Securities Inc., which reflected a net interest cost to the county of \$26,600.00, and an effective average annual net interest rate of 4% and which specified a dollar price of \$100,000 and the interest rates hereinafter provided for; and

* pledged tax proceeds (i.e., 75% of the proceeds derived from the special tax)

MINUTES, LIMESTONE COUNTY COMMISSION, JULY 17, 1972

(i) It is necessary, desirable and in the public interest that the warrants hereinafter authorized be issued in anticipation of the receipt by the county of the pledged tax proceeds.

Section 3. Authorization of the Warrants. Pursuant to the applicable provisions of the constitution and laws of the State of Alabama, including particularly the hospital tax proceeds amendment of 1949 and for the purpose of paying a portion of the costs of the acquisition and construction of the public hospital facilities referred to in Section 2(b) hereof, there are hereby authorized to be issued by the county, twenty (20) Hospital Tax Anticipation Warrants, Series 1972, of the county in the denomination of \$5,000 each, aggregating \$100,000 in principal amount, which shall be numbered consecutively from 1 to 20, inclusive, shall be dated August 1, 1972, and shall mature on February 1 in the following years and amounts;

<u>Warrant Numbers</u> <u>(both inclusive)</u>	<u>Year of</u> <u>Maturity</u>	<u>Aggregate Principal</u> <u>Amount Maturing</u>
1	1973	\$ 5,000
2	1974	5,000
3	1975	5,000
4	1976	5,000
5	1977	5,000
6	1978	5,000
7 and 8	1979	10,000
9 to 12	1980	20,000
13 to 16	1981	20,000
17 to 20	1982	20,000

The warrants shall bear interest from their date until their respective maturities at the rate of 4% per annum. The said interest shall be payable semiannually on February 1 and August 1 until and at the respective maturities of the warrants and shall be evidenced by separate interest coupons attached to the warrants. The warrants and the coupons shall bear interest at the rate of 8% per annum from their respective maturities and shall be payable in lawful money of the United States of America at the principal office of Peoples National Bank of Huntsville in the City of Huntsville in the State of Alabama.

Section 4. Optional Redemption Provisions. Those of the warrants having stated maturities in 1978 and thereafter shall be subject to redemption and payment by the county at its option, on August 1, 1977, and on any interest payment date thereafter, at a redemption price equal to the face value of each warrant redeemed plus a redemption premium equal to one year's interest thereon computed at its coupon rate. Any such redemption may be made as a whole or in part of the callable warrants then outstanding and, if in part, such redemption shall be accomplished in the inverse numerical order of those of the callable warrants at the time outstanding. Any such redemption shall be effected in the following manner:

(a) The county shall by resolution adopted by the commission call for redemption on a stated interest payment date when they are by their terms subject to redemption, callable warrants bearing stated numbers, and shall recite in said resolution (i) that the county is not at the time in default in the payment of the principal of or the interest on any of the warrants, or (ii) that all of the warrants then outstanding are to be retired on the redemption date.

(b) The commission shall cause to be published one time in either a newspaper published in the City of Birmingham, Alabama, or a financial journal published in the City and State of New York, a notice stating the numbers of the called warrants, stating that they will become due and payable on a specified redemption date (which shall be the redemption date fixed by resolution adopted pursuant to paragraph (a) of this section) at the redemption price (which shall be specified in said notice), and stating that all interest on the called warrants will cease after the redemption date. Any such notice shall be published not less than thirty (30) days prior to the redemption date.

(c) On or prior to the redemption date the county shall cause to be deposited with the bank at which the warrants are payable the total redemption price of the callable warrants so called and shall further furnish to said bank a certified copy of the resolution required in paragraph (a) of this section, and an appropriate affidavit showing compliance with the requirements of paragraph (b) of this section.

Upon compliance with the foregoing requirements, and if on the redemption date the county is not then in default in payment of the principal of or the interest on any of the warrants, the called warrants shall become due and payable at the place at which the same shall be payable on the redemption date and at the redemption price specified in such notice, anything herein or in the warrants to the contrary notwithstanding, and interest shall thereafter cease to accrue on the called warrants. The said bank at which the called warrants are payable shall not be required to pay any coupon maturing on the redemption date which is applicable to any called warrant unless the called warrant to which such coupon is applicable is also presented for payment; provided, that in the event the said bank should pay any such coupon without payment of the applicable called warrant, it shall not be liable to the holder of such applicable called warrant, or to the county, or to anyone whomsoever; and provided, further, that the said bank shall pay such coupon if the holder thereof shall present evidence satisfactory to the said bank that such holder is the owner of the coupon so presented and is not the owner of the called warrant to which such coupon is applicable.

Section 5. Execution and Registration of the Warrants. The warrants shall be signed the name of the county by the chairman of the commission, and the official seal of the county shall be reproduced in facsimile on each of the warrants, for which purpose the official seal of the commission is hereby adopted as the official seal of the county. The coupons shall bear the facsimile signature of the chairman of the commission, whose facsimile signature shall be valid in all respects as if his signature had been signed to the coupons by him in person. The said officer and the county depository are hereby authorized and directed to register the warrants and the coupons as claims against seventy-five per centum (75%) of the special tax and also against the special fund hereinafter created, which registration shall be made simultaneously with respect to all of the warrants and the coupons.

MINUTES, LIMESTONE COUNTY COMMISSION, JULY 17, 1972

Section 6. Source of Payment of Warrants; Special Pledge Therefor. (a) Limited Obligations. The warrants and the coupons shall be payable solely out of seventy-five per centum (75%) of the proceeds from the special tax, and shall not constitute general obligations of the county. The general faith and credit of the county are not pledged for payment of the warrants or the coupons. Neither this resolution and order nor any of the warrants or the coupons issued hereunder shall be deemed to impose upon the county any obligation to pay the principal of or interest on the warrants, or any other sum except out of seventy-five per centum (75%) of the proceeds from the special tax. None of the agreements, representations and warranties made or implied in this resolution and order, or in the issuance of the warrants and the coupons, shall ever impose any pecuniary liability upon the county, except with respect to seventy-five per centum (75%) of the proceeds from the special tax. Nothing contained in this section, however, shall relieve the county from the duty of observing and performing the several covenants and representations on its part herein contained.

(b) Special Pledge. Seventy-five per centum (75%) of the annual proceeds of the special tax, including properties and the proceeds from properties acquired in the enforcement of any lien securing the special tax are hereby irrevocably pledged for payment of the principal of and the interest on the warrants, without preference or priority of one warrant over another by reason of prior issuance or otherwise; provided, that so long as there shall be no default in the payment of such principal and interest as the same respectively mature, the pledged tax proceeds may be used for payment of the said principal and interest at the respective maturities thereof. The special pledge, herein made for the benefit of the warrants, of the special tax and its proceeds, is and shall be on a parity with the special pledge of the special tax and its proceeds, made in the 1971 warrant resolution for the benefit of the Series 1971 warrants; and the said special pledge herein made shall be on a parity with any pledge of the special tax and its proceeds that may hereafter be made for the benefit of additional parity securities pursuant to the provisions of Section 7 hereof. The county represents that the pledges of the pledged tax proceeds, made herein and in the 1971 warrant resolution, together constitute a first pledge thereof; and except for any parity pledge that may hereafter be made for the benefit of any additional parity securities that may be issued pursuant to the provisions of Section 7 hereof, the said pledges shall take precedence over all other claims of any kind against the pledged tax proceeds, including claims for salaries, claims based on expenses of operation and maintenance, and any other claims. The commission agrees that it will make no other agreement or additional pledge respecting the pledged tax proceeds (except pledges for the benefit of additional parity securities issued as aforesaid pursuant to the provisions of the said Section 7) unless such agreement or additional pledge shall expressly recognize the priority of the pledge herein made. The county hereby represents that at the time of the issuance of the warrants, it will have no outstanding warrants or other securities that are payable out of, or secured by, the pledged tax proceeds except (1) the Series 1971 warrants and (2) the warrants.

Section 7. Additional Parity Securities. The county reserves the right at any time and from time to time to issue additional parity securities secured by a pledge, for payment at their respective maturities of the principal of and interest on the additional parity securities, of so much of the pledged tax proceeds as may be necessary for such purpose, such pledge to be on a parity with the pledges with respect to the pledged tax proceeds made in the 1971 warrant resolution and herein, for the benefit of the Series 1971 warrants and the warrants; provided, that

(a) prior to the issuance of any additional parity securities, there shall be filed in the office of the chairman of the commission a certificate signed by the chairman of the commission (or in the event of any change in the manner in which the governing body of the county is organized, the then chief executive officer of the then governing body of the county) that the total amount of the pledged tax proceeds received by the commission during each of the two fiscal years next preceding the issuance of the additional parity securities then proposed to be issued was not less than 150% of the maximum annual debt service requirement during any then succeeding fiscal year with respect to the Series 1971 warrants, the warrants, any of the additional parity securities theretofore issued, and the additional parity securities then proposed to be issued, and

(b) any of the additional parity securities that may be issued shall have maturities of interest on February 1 and August 1, and shall have maturities of principal on February 1.

Section 8. Special Fund.

(a) Creation of Special Fund. The special public fund, designated the "Limestone County 1971 Hospital Special Fund", which was created in Section 8(a) of the 1971 warrant resolution, and which shall be impressed with a trust for the purpose herein provided, shall be maintained so long as any of the warrants or the coupons are outstanding and unpaid, and shall be applied for the purpose for which it was so created, viz., payment of the principal of and interest on the parity securities, at the respective maturities of the said principal and interest. The chairman of the commission and the county depository are hereby authorized and directed to take all actions and do all things that may be necessary to cause the pledged tax proceeds to be paid into the special fund in the manner provided in this section and to cause the moneys on deposit in the special fund to be applied as provided in this section. Payments shall be made into the special fund as hereinafter provided:

During each successive fiscal year of the county and of the commission, commencing with the fiscal year which will begin October 1, 1972, and continuing each fiscal year thereafter until the principal of and the interest on the parity securities shall have been fully paid, the commission will pay or cause to be paid into the special fund seventy-five per centum (75%) of all proceeds from the special tax, as and when the same shall be received by or shall be made available to the commission, until there shall have been paid into the special fund during each fiscal year the following: (i) an amount equal to the principal and interest maturing with respect to the parity securities on February 1 and August 1 of the same fiscal year, and (ii) the total of any principal and interest which may have theretofore matured with respect to the parity securities, which may at the time be outstanding and unpaid, and for the payment of which there are no moneys available in the special fund.

The moneys on deposit in the special fund shall be used only for payment of the principal of and the interest on the parity securities at or after the respective maturities of such principal and interest.

When all the parity securities, and all interest coupons applicable thereto, shall have been retired and none of the principal thereof or the interest thereon shall be outstanding and, unpaid, any moneys then remaining on deposit in the special fund shall be returned to the county.

(b) Use of Surplus of Tax Proceeds. All proceeds received from the special tax during each fiscal year after compliance with the provisions of subsection (a) of this section applicable to such fiscal year may be used by the commission for any lawful purpose, including, but without limitation to, operation and maintenance of its public health facilities.

(c) Depository for the Special Fund. Peoples National Bank of Huntsville in the City of Huntsville, Alabama, is hereby designated as depository for the special fund insofar as the payments therein may be measured by the principal of and interest on the warrants. In the event that the said bank (or any successor depository appointed pursuant to the provisions of this subsection) should at any time decline to act as depository for the said portion of the special fund, or should resign as such depository, or should cease to be a member of the Federal Deposit Insurance Corporation (or of any agency of the United States of America which may succeed to its functions), or should cease to be duly qualified and doing business within the State of Alabama, then the commission may designate a successor to such depository. Any successor depository designated pursuant to the provisions of this section shall be and remain a member of the Federal Deposit Insurance Corporation (or of any agency of the United States of America which may succeed to its functions) and shall be and remain duly qualified and doing business in the State of Alabama.

(d) Security for the Special Fund. The moneys on deposit in the special fund shall be and at all times remain public funds impressed with a trust for the purpose for which the special fund is herein created. Each depository for the special fund (or any part thereof) shall at all times keep the moneys on deposit with it in the special fund secured, for the benefit of the county and the holders of the warrants (and any additional parity securities that may be issued), either (1) by holding on deposit, as collateral security, direct general obligations of the United States of America or obligations the principal of and interest on which are unconditionally guaranteed by the United States of America, or other marketable securities eligible as security for the deposit of public funds under regulations of the Board of Governors of the Federal Reserve System and having market value (exclusive of accrued interest) not less than the amount of moneys on deposit in the special fund, or (2) if the furnishing of such securities is not permitted by the then applicable law or regulation, then in such other manner as may be required or permitted by the then applicable state and federal laws and regulations respecting the security for, or granting a preference in the case of, the deposit of public funds; provided, however, that it shall not be necessary for the depository so to secure any portion of the moneys on deposit in the special fund that is insured by the Federal Deposit Insurance Corporation or by any agency of the United States of America that may succeed to its functions.

(e) Investment of Moneys in the Special Fund. The county may at any time and from time to time by resolution duly adopted by the commission direct any depository for the special fund (or any part thereof) to invest, to the extent practicable, moneys on deposit in the special fund which shall not be currently needed for the purposes for which the special fund is herein created. Any such investment shall be made only in securities which are direct general obligations of the United States of America and which shall mature not later than the next principal or interest payment date on which the moneys so invested shall be needed to pay the principal or interest which may mature with respect to the warrants on the then next principal or interest payment date. In the event of any such investment, the securities in which such moneys are so invested, together with all income derived therefrom, shall become a part of the special fund to the same extent as if they were moneys on deposit therein. The county may likewise at any time and from time to time cause any securities in which any such investment shall be made to be converted into cash, whereupon the net proceeds derived from any such conversion shall become a part of the special fund. Each depository for the special fund shall be fully protected in making investments or conversions of any such securities upon direction given to it in a resolution adopted by the commission. In any determination of the amount of moneys at any time forming a part of the special fund, all securities in which any portion of the special fund is at the time invested pursuant to the provisions of this subsection shall be included therein at their then market value.

Section 9. Payment at Par. Each banking institution at which the warrants and the coupons may at any time be payable, by acceptance of its duties as paying agent therefor, shall be considered to have agreed thereby with the holders of the warrants and the coupons that it will make all remittances of principal of and interest on the warrants and the coupons, out of moneys supplied to it by the commission for such purpose, in bankable funds at par and without deduction for exchange, fees or expenses. The commission agrees with the holders of the warrants and the coupons and with each of said banking institutions that it will pay all charges for exchange, fees or expenses which may be made by said bank in the making of remittances in bankable funds of the principal of and the interest on the warrants and the coupons at par.

Section 10. Agreement Respecting Maintenance of the Special Tax. The county represents and agrees that, so long as any of the warrants or any of the coupons remains unpaid, the county will continue to levy and collect each year the special tax at the rate of two mills on each dollar of taxable property in the county, at the times and in the manner provided by law for the levy and collection of ad valorem taxes by the county.

Section 11. Form of the Warrants. The warrants and the coupons and the provision for assignment thereof shall be in substantially the following forms, respectively, with appropriate changes therein to accord with the provisions hereof:

UNITED STATES OF AMERICA

STATE OF ALABAMA

COUNTY OF LIMESTONE

MINUTES, LIMESTONE COUNTY COMMISSION, JULY 17, 1972

HOSPITAL TAX ANTICIPATION WARRANT
SERIES 1972

The County Depository of the County of Limestone (herein called "the County") in the State of Alabama is hereby ordered and directed to pay to _____, or his transferee or assigns, solely from the special source hereinafter referred to, the principal sum of

FIVE THOUSAND DOLLARS

on the 1st day of February, 19____, with interest thereon from the date hereof at the rate of 4% per annum, payable semiannually on each February 1 and August 1 until and at the maturity hereof, upon presentation and surrender of the appropriate interest coupons hereto attached as the same respectively become due. Both the principal hereof and the interest hereon shall be payable in lawful money and the interest hereon shall be payable in lawful money of the United States of America at the principal office of Peoples National Bank of Huntsville in the City of Huntsville in the State of Alabama.

This warrant is one of an issue in the authorized principal amount of \$100,000, consisting of twenty (20) warrants (herein called "the Warrants") numbered 1 to 20, inclusive, of like tenor herewith except for their numbers and maturity dates, that are issued pursuant to a resolution and order duly and legally adopted by the governing body of the County and pursuant to the applicable provisions of the Constitution and laws of Alabama, including particularly the amendment to the Constitution of Alabama that was proposed by Act No. 570 adopted at the 1949 Regular Session of the Legislature of Alabama. The purpose of the issuance of the Warrants is to provide funds to be applied for payment of a portion of the costs of the acquisition and construction of public hospital facilities in and for the County.

Those of the Warrants having stated maturities in 1978 or thereafter are subject to redemption and payment prior to maturity, as a whole or in part (and if in part, then in their inverse numerical order), at the option of the County, on August 1, 1977, after publication of notice of such redemption shall have been made at least one time, not less than thirty (30) days prior to the date fixed for redemption in either a newspaper published in the City of Birmingham, Alabama, or a financial journal published in the City and State of New York, at a redemption price for each warrant redeemed equal to the face value thereof plus a premium equal to one year's interest thereon computed at the coupon rate thereof.

The principal of and the interest on the Warrants are payable solely out of seventy-five per centum (75%) of the proceeds from a special annual ad valorem tax at the rate of not exceeding two (2) mills on each dollar of taxable property in the County, which was authorized to be levied in the County at a special election heretofore held in the County pursuant to the amendment to the Constitution of Alabama that was proposed by Act No. 357 adopted at the 1947 Regular Session of the Legislature of Alabama. The principal of and the interest on the Warrants are secured by a valid pledge of seventy-five per centum (75%) of the annual proceeds of said special tax (seventy-five per centum (75%) of the said annual proceeds being herein called "the Pledged Tax Proceeds"). The full faith and credit of the County are not pledged to the payment of the Warrants or the interest thereon and they are not general obligations of the County. The County is not obligated to pay the principal of or interest on the Warrants except from seventy-five per centum (75%) of the proceeds of said special tax, and none of the agreements, representations or warranties made or implied in the issuance of this warrant shall be deemed to impose any liability whatsoever upon the County, except to pay the principal hereof and interest hereon out of the Pledged Tax Proceeds. The said pledge of the Pledged Tax Proceeds for the benefit of the Warrants is on a parity with the pledge of the Pledged Tax Proceeds for the benefit of the County's outstanding Hospital Tax Anticipation Warrants, Series 1971, dated November 1, 1971; and in the proceedings authorizing the issuance of the Warrants, the County has reserved the privilege, upon compliance with certain requirements set forth in the said proceedings, of issuing from time to time additional securities (herein called "Additional Parity Securities") secured by a pledge of the Pledged Tax Proceeds on a parity with the aforesaid pledges thereof for the benefit of the said Series 1971 Warrants the Warrants.

It is hereby certified and recited for the benefit of any person or persons to whom this warrant may be issued or transferred that this warrant represents a valid claim against the Pledged Tax Proceeds; that the amount ordered paid hereby will be so due without condition, abatement or offset of any kind; and that all conditions, actions and things required by the Constitution and laws of the State of Alabama to exist, be performed and happen precedent to and in the issuance of this warrant and in the levy of the said special tax exist, have been performed and have happened.

This warrant is nonnegotiable, but is transferable by assignment. Each taker, owner, purchaser or holder hereof, by receiving or accepting this warrant or any interest coupon, shall consent and agree and shall be estopped to deny: (1) that title to the coupons hereunto appertaining may be transferred by delivery without the necessity of a written assignment, and any person making such delivery shall be deemed to have transferred to the person to whom such delivery is made all of his equities or rights in the coupons so delivered; (2) that any person in possession of any such coupon, regardless of the manner in which he shall have acquired possession, is authorized to represent himself as the absolute owner thereof and has the power and authority to transfer absolute title thereto by delivery thereof to a bona fide purchaser for value (present or antecedent) without notice of prior defenses or equities or claims of ownership enforceable against his transferor or any person in the chain of title and before the maturity thereof; and (3) that whenever and so long as this warrant may be assigned in blank by written assignment by the original payee hereof or by any subsequent assignee hereof in the chain of title to whom written assignment is made, the County may treat any person in possession of this warrant, regardless of how such possession may have been acquired and regardless of the genuineness or effectiveness of any assignment, as the absolute owner hereof for all purposes, and payment to any such person shall discharge all obligations hereunder.

IN WITNESS WHEREOF, the County has caused this warrant to be signed by the chairman of Limestone County Commission, has caused the seal of said Limestone County Commission, as the official seal of the County, to be reproduced hereon in facsimile, has caused the annexed interest coupons to be executed with the facsimile signature of the said chairman, and has caused this warrant to be dated August 1, 1972.

The accrued interest received on the sale of the warrants shall be paid into the special fund.

Section 15. Proceeds from Warrants. The proceeds from the sale of the warrants shall be set aside in a special account and used solely for the purpose for which the warrants are herein authorized to be issued. Pending use of the said proceeds for the said purpose, the said proceeds may be invested in United States Securities or in bank certificates of deposit fully secured by United States Securities; provided, however, that no such investment shall be made which will result in a yield higher than the yield on the warrants computed in accordance with the standard bond tables.

Mr. Dave E. Davis moved that the said resolution be adopted and spread upon the minutes of this meeting, which motion was seconded by Mr. Grady Holland, and, upon the said motion being put to vote, the following vote was recorded: Yeas: Messrs. Davis, Hamilton, Hammons, Holland and Moore; Nays: None. The chairman thereupon announced that the motion for adoption of said resolution had been unanimously carried.

Relating to

HIGHWAY ADJUSTMENTS - BROWNS FERRY NUCLEAR PLANT

THIS AGREEMENT, made and entered into as of the 7th day of August, 1972, by and between TENNESSEE VALLEY AUTHORITY ("TVA"), a corporate agency and instrumentality of the United States of America and LIMESTONE COUNTY, ALABAMA ("County"), a political subdivision of the State of Alabama, acting herein by and through its duly authorized representative, its County Commission;

MINUTES, LIMESTONE COUNTY COMMISSION, AUGUST 7, 1972

W I T N E S S E T H :

WHEREAS, TVA, pursuant to the powers vested in it by the Tennessee Valley Authority Act of 1933, as amended, is engaged in the construction of a nuclear powered electric generating plant, known as the Browns Ferry Nuclear Plant ("nuclear plant"), on the north bank of the Tennessee River (Wheeler Reservoir) near Athens, Alabama; and

WHEREAS, the construction, maintenance, and operation of said nuclear plant will result in the closing or taking of or adverse effect upon certain portions of public roads, highways, or bridges of County; and

WHEREAS, County and TVA desire to agree concerning the performance of highway relocation, construction, and/or maintenance work necessitated by the nuclear plant project, and desire to settle and dispose of any and all claims and demands of County with respect to public roads, highways, or bridges adversely affected by said nuclear plant project;

NOW, THEREFORE, in consideration of the premises and of the mutual covenants and promises hereinafter set forth, it is mutually agreed by and between the parties hereto as follows:

1. TVA shall, at its own expense, construct or cause to be constructed the sections of highways designated as project 1001 and project 1002, colored in red on map 67C4-103298 attached hereto and made a part of this agreement as Exhibit A. Such construction for project 1001 shall include a roadway having a minimum width of 36 feet, exclusive of ditches; bituminous pavement with a minimum thickness of 3 inches and a minimum width of 22 feet on a stabilized stone base with a minimum thickness of 8 inches; and a bridge over a drainage channel. Such construction for project 1002 shall include a roadway having a minimum width of 36 feet, exclusive of ditches, and a bituminous pavement with a minimum thickness of 6 inches and a minimum width of 22 feet on a stabilized stone base with a minimum thickness of 8 inches.

2. These projects replace the section of highway colored green on attached Exhibit A. Upon completion of said projects, County, for and upon the consideration flowing to it under this agreement, agrees to transfer, convey, assign, quitclaim, abandon and release unto the United States of America all right, title, and interest which County and the public may have in and to the portion of the existing highway and its appurtenances shown colored in green on Exhibit A. County agrees that upon TVA's request it will immediately take such formal action as may be necessary or appropriate to effect the legal vacation, abandonment, and closure of said highway.

3. During the construction of nuclear plant, TVA will at its expense maintain the sections of highways designated as projects 1001 and 1002. On completion of the construction of nuclear plant and when requested by TVA, County will assume at its expense the maintenance, repair, and upkeep of said sections of highways including the bridge over the drainage channel. Rights of way not presently owned by County and necessary for constructing such projects will be obtained by TVA without cost to County, and after completion of nuclear plant these rights of way will be transferred to County, the minimum width of rights of way to be conveyed to be 40 feet from the centerline of the highway. The conveyance of the highway right of way easement will be subject to such reservations to TVA as may be necessary to operate and maintain nuclear plant and its appurtenances. County will thereafter hold TVA forever harmless from any liability for or on account of any loss, injury, or damage to persons or property sustained by any person or persons arising from or in any way connected with the use, condition, upkeep, care or maintenance of said sections of the highways constructed under projects 1001 and 1002, including the bridge over the drainage channel.

4. County agrees to cooperate fully with TVA in accomplishing and carrying out the work under projects 1001 and 1002 and to take any action in connection therewith as may be reasonably requested by TVA, including the temporary closing of the affected County highways as may be required; and hereby grants TVA full use of the County highway rights of way for the purposes of this agreement and hereby releases, discharges, and acquits TVA and the United States of America from any and all claims, demands, suits, actions, cause and causes of action, of every kind, nature, and description, which County may now or hereafter have or assert against them or either of them arising out of or in any way connected with such closing of, loss, including temporary or other loss, damage, or injury to, interference with or impairment of the efficiency, value, usability, or convenience of the affected County highways and the rights of way therefor; and County covenants that it will not maintain or attempt to maintain any suit or cause of action against TVA or the United States of America by reason of the reconstruction, operation, and maintenance provided for by this agreement, provided that nothing herein shall relieve TVA of its obligations thereunder.

5. County hereby expressly stipulates, covenants, and agrees that the performance of the highway relocation, reconstruction, and/or maintenance work to be performed by TVA under this agreement will effect adequate and sufficient relocation, adjustment and maintenance of the section of the highways taken or adversely affected by the construction of the nuclear plant and that the relocation, construction, and/or maintenance to be performed by TVA constitutes just compensation for said taking or adverse effect on said sections of highway.

6. It is understood and agreed that the representative acting for and on behalf of County is duly authorized to execute this agreement and to bind County for the purposes herein specified.

7. No member of or delegate to Congress or resident commissioner or any officer or agent of TVA shall be admitted to any share or part of this contract or to any benefit that may arise therefrom, but this provision shall not be construed to extend to this contract if made with a corporation for its general benefit.

IN WITNESS WHEREOF, the parties hereto have caused this instrument to be executed by their respective representatives thereunto duly authorized as of the day and year first above written.
