

WILLIAM G. MOFFAT,  
MANAGER

Nov. 10, 1934.

Dear Harry:

Lester Glover, representative elect from Henry County, was here today and intimated very strongly that he will support you. His father, who was Col. Graves' campaign manager in Henry, was here also and agreed with me, in the presence of his son, that you would be the next speaker. Lester, at first, seemed inclined to be for Sparks, but when I told him that I felt certain that the governor favors you, he said that he wanted to support the Colonel's choices, both in the matter of speakership and clerk. I believe a letter from you to him would do the needful. He said that he had had some correspondence with you on the subject.

The story in yesterday's Alabama Journal, re the TVA opposition grooming to fight you, should, if I am any judge, do you a lot of good. The Glovers expressed that belief, also. So have many others here and elsewhere.

I am getting in a lick for you whenever and wherever I can.

With kind personal regards and good wishes,  
I am

n Sincerely,

*W. J. Baldwin*
