## ORDER OF COUNTY BOARD OF REVENUE DECLARING ELECTION AND LEVYING TAX

In the matter of a special election to determine whether or not a special tax of thirty cents on each one hundred dollars of taxable property should be levied for public school purposes in Pettusville District No. 5 of Limestone County, Alabama.

It appears to the Board of Revenue of said County that in conformity to the order of this Board of Revenue of Limestone County, Alabama, made on the 19th day of March, 1934, a special election was held on the 24th day of April, 1934, in Pettusville District No. 5 of said County to determine whether or not a special tax should be levied at the rate of thirty cents on each one hundred dollars worth of taxable property in said Pettusville District No. 5 for public school purposes within said district.

It further appears to said Board of Revenue that due notices of said election were given as required by law and said former order of this Board by publication of such notice in the Alabama Courier, a newspaper published in said County, for four successive weeks prior to the day of said election, and that the first publication of said notice was at least thirty days before the day of said election; that written notices of said election were also posted in three public places within said district for thirty days prior to said election; that the notice of said election published and posted as aforesaid, showed the rate of such proposed tax, the time it was proposed to be continued, the purpose for which the levy of said tax was proposed to be made, and a description of the boundaries of said school district.

The Board finds that said election was duly and legally held within said district on the 24th day of April, 1934, as aforesaid, and that returns of said election have now been made to this Board, as provided by law. Said Board therefore proceeds to canvass the returns of said election and upon a canvass of such returns, the Board finds and hereby declares the result of said election as follows:

STATE OF ALABAMA )  
LIMESTONE COUNTY )

TO THE BOARD OF REVENUE of Limestone County, Alabama:

The County Board of Education of Limestone County in said State hereby requests your honorable body to order an election to be held on the 14th day of August 1934, in Cairo District No. 29 and in Over Elk District No. 12, to determine whether or not said Cairo District No. 29, in said county shall be consolidated with Over Elk District No. 12 hereinafter described, and whether a special tax shall be levied and collected annually at a uniform rate of thirty cents on each one hundred (\$100.00) dollars worth of taxable property in said consolidated area; the said levy if consolidation is authorized not to operate to increase the present three mill levy in Cairo District No. 29 but to be in lieu thereof.

The boundaries of said proposed consolidated district are described as follows: (A map of said consolidated district showing the present lines of Cairo District No. 29 and the territory which it is proposed to add is hereto attached marked Exhibit A and made a part hereof.)

Begin at the point where Elk River intersects the boundary line between Alabama and Tennessee; thence West to NE corner of Lauderdale County, Alabama; thence South along Limestone and Lauderdale County line to Elk River; thence up said river to point of beginning. This comprises all of that part of Limestone County, Alabama, lying North and West of Elk River.

Such District tax to be levied and collected annually for public school purposes within said district as consolidated in said county and to be continued for a period of three years from September 30, 1933. Petitioners aver that said county is now levying and collecting special county taxes for school purposes of not less than thirty cents on each one hundred (\$100.00) dollars worth of taxable property in such county. Petitioners further aver that the period for which said district tax is to continue does not extend beyond the period for which said special county school tax totaling three mills has been voted; said election to be called and held as provided in Section 275, Article 13 of the School Code of 1927.

This, the 29th day of June 1934.

BOARD OF EDUCATION  
by- Amos C. Clanton,  
Executive Officer

On motion of Member W. H. Beasley and seconded by E. M. Taylor, the following order was unanimously passed:

In the matter of the request of Board of Education of Limestone County for a special election to determine whether or not Cairo District No. 29 in said County shall be consolidated with Over Elk District No. 12, and whether a special tax shall be levied and collected annually at a uniform rate of thirty cents on each one hundred (\$100.00) dollars worth of taxable property in said consolidated area; the said levy if consolidation is authorized not to operate to increase the present three mill levy in Cairo District No. 29 but to be in lieu thereof.

It appears to the Board of Revenue that in conformity to the order of the Board of Revenue of Limestone County, Alabama, made on the 2nd day of July 1934, a special election was held on the 14th day of August 1934, in Cairo District No. 29 of said county to determine whether or not said district in said county shall be consolidated with Over Elk District No. 12, as described in the request of the County Board of Education for this election which is hereby referred to and made a part hereof, and whether a special tax shall be levied and collected annually at a uniform rate of thirty cents on each one hundred (\$100.00) dollars worth of taxable property in said consolidated area for public school purposes within said consolidated district; the said levy, if consolidation is authorized, not to operate to increase the present three mill levy in Cairo District No. 29 but shall be in lieu thereof.

It further appears to said Board that due notice of said election was given as required by law and said formal order of this Board by publication of such notice in the Limestone Democrat, a newspaper published in said county for four successive weeks prior to the day of said election, and that the first publication of said notice was at least thirty days before the day of said election, that written notices of said election were also posted in three public places within said district for thirty days prior to said election; that the notice of said election published and posted as aforesaid, showed the rate of such proposed tax, the time it was proposed to be continued, the purpose for which the levy of said tax was proposed to be made, and a description of the boundaries of said proposed district.

The Board finds that said election was duly and legally held within said Cairo District No. 29, on the 14th day of August, 1934, as aforesaid, and that returns of said election have now been made to this Board, as provided for in Article 13, School Code of 1927. The said Board therefore proceeds to canvass the returns of said election and upon a canvass of such returns, the Board finds and hereby declares the result of said election as follows:

Twenty-eight (28) votes were cast in said election for the proposed consolidation, and taxation.

The Board therefore finds and declares that a majority of the votes cast in said election were cast for said proposed consolidation and taxation.

It is therefore ordered, adjudged and decreed by the Board that said tax voted in said consolidated district for the purposes aforesaid, be and the same is hereby levied for the current tax year as follows:

Thirty cents on each one hundred (\$100.00) dollars worth of taxable property in said consolidated district in said county for public school purposes within said district.

It is further ordered by said Board that a report in writing and under oath of the members of said Board declaring the results of said election be made and filed in the office of the Probate Judge of said County, and that a copy of such report be printed in Alabama Courier, a newspaper published in said County, That such report declaring the results of said election be as follows:

On this day, April 15th, 1935, appeared before the Board, the Hon. J. Fred Johnson of Florence, Alabama, and stated to the court that he was attorney for Mrs. Cora Stone, the widow of Jep D. Stone, - and Mrs. Neacie Burch, the widow of Claude Burch, - and Mrs. Parilee Chandler, the widow of Claude Chandler, - and Mrs. Lenice Barnett, the widow of Hassell Barnett. And as such attorney he claimed a large sum of money against Limestone County, Alabama, because of some alleged negligence of the county with reference to the ferry across Elk River at a point in said county known generally as Stewart's Ferry or Hickory Flat Ferry, about which Hon. J. Fred Johnson, Jr., wrote a letter to the Commissioners Court of Limestone County, Alabama, on March 5, 1935, and the same was received by the Board of Revenue, a copy of which is hereto attached and made exhibit A hereto and made a part hereof as fully and as completely as if it was set out herein.

The Board gave Judge Johnson a patient and careful hearing.

At the same time, there was present George C. Johnson, the County Attorney, and R. B. Patton, Attorney, employed by the County in this matter.

After considering the statements made by Judge Johnson with reference to the sums claimed, and the conditions surrounding the ferry at the time, and after conferring with Mr. Geo. C. Johnson and Mr. Patton, and being by them advised in the premises. It was moved by Mason C. Freeman that the purported claim of Mr. Johnson's clients be disregarded and disallowed, which motion was thereupon duly seconded by Russell Balch, and upon vote, upon submission thereof by the Chairman, on the motion the following members voted yea, namely, Mason C. Freeman, Russell Balch, W. H. Beasley, Claude Marks and J. M. Holt.

It was then thereupon announced by the Chairman that the motion to disregard and disallow the purported claim of Judge Johnson's clients had been unanimously adopted.

## EXHIBIT "A"

Florence, Ala.,  
March 5, 1935.

The County Commission of Limestone County,  
Athens, Ala.

Gentlemen:

I have been employed to represent Mrs. Cora Stone, Mrs. Neacie Burch, Mrs. Parilee Chandler, and Mrs. Lenice Barnett in their cases against Limestone County growing out of the unfortunate accident resulting in the death of their respective husbands when the car in which they were riding rolled off the ferry at Elk River. I am informed that the ferry was being operated by Limestone County, or that the man who was operating it was being paid by Limestone County. From the information at hand there appears no doubt as to actionable negligence, inasmuch as the ferry boat was not provided with any rails, chains, or ropes to prevent vehicles from rolling off.

This is to inquire as to whether or not the County is disposed to adjust these claims without resorting to litigation. I shall appreciate an early reply stating your disposition with reference to the matter.

Yours very truly,

J. Fred Johnson, Jr.

Be it remembered that at a regular meeting of the Board of Revenue of Limestone County, Alabama, held at 10 a.m. on May 20th, 1935 in the Courthouse, the usual place of meeting, there were present and presiding J. M. Holt, Chairman, and members, Mason C. Freeman, Russell Balch, W. C. Marks and Will H. Beasley. The following proceedings were had and done, to-wit:

Mr. W. H. Beasley introduced the following resolution:

WHEREAS, It has come to the attention of the Board of Revenue of Limestone County that a project of approximately three and one-third miles can be graded and drained with an allocation of funds for secondary road work provided that the County will, upon completion of the grading, agree to surface the same with gravel.

WHEREAS, The County is very desirous of having the full three and one-third miles improved in order that the people of a very great area North and West of Elk River may have access to market and a connection with the two national highways that intersect at Athens, Alabama.

WHEREAS, In order that more miles may be graded and drained, the Board requests that the county be permitted to place such an amount of gravel surfacing that will make the road passable at all times. This request is made necessary on account of the county budget plan which will not, during this year, permit the placing of the surfacing the full thickness in one operation.

NOW THEREFORE BE IT RESOLVED, By the Board of Revenue of Limestone County, Alabama, that Limestone County will and hereby agrees to place such an amount of gravel surfacing on a road project known as USPW NRS 351 as will make the road passable at all times and to add additional gravel when needed until the proper depth of surfacing shall have been attained, and the County further agrees to maintain the road after the project has been completed. The above resolution was seconded by Russell Balch. A vote was taken and the motion carried.

WHEREAS, The said appraisers or commissioners have this day made their report to the Probate Court awarding damages to each of the owners of said lands condemned for a public road or highway, as follows:

J. A. Carloss	\$1.00
E. C. Carter	2.00

WHEREAS, The Probate Judge has issued his decree confirming the report and award of the commissioners and has declared that upon payment of the amount so assessed by said commissioners, the property condemned shall be appropriated to the use of Limestone County, as by the law of the State of Alabama, in such cases made and provided, for an easement over the lands so condemned.

NOW THEREFORE BE IT RESOLVED, That the Board of Revenue of Limestone County accept the report and the award of the Commissioners and that the Chairman of the Board be and he is hereby authorized to issue a warrant, payable to the Judge of Probate at once in the total amount of four dollars which shall be used to pay the awards made by the said commissioners.

The motion was seconded by Russell Balch, and the Chairman called for a vote and all members voted aye, whereupon the motion was declared adopted.

#### ORDER OF COUNTY BOARD OF REVENUE DECLARING AND LEVYING TAX

In the matter of a special election to determine whether or not a special tax of thirty cents on each one hundred dollars of taxable property should be levied for public school purposes in East Limestone District No. 13 of Limestone County, Alabama.

It appears to the Board of Revenue of said County that in conformity to the order of this Board of Revenue of Limestone County, Alabama, made on the 3rd day of June 1935, in East Limestone District No. 13 of Limestone County to determine whether or not a special tax should be levied at the rate of thirty cents on each one hundred dollars worth of taxable property in said East Limestone District No. 13 for public school purposes within said district.

It further appears to said Board of Revenue that due notice of said election were given as required by law and said former order of this Board by publication of such notice in the Alabama Courier, a newspaper published in said county, for four successive weeks prior to the day of said election, and that the first publication of said notice was at least thirty days before the day of said election; that written notices of said election were also posted in three public places within each district for thirty days prior to said election; and that the notice of said election published and posted as aforesaid, showed the rate of such proposed tax, the time it was proposed to be continued, the purpose for which the levy of said tax was proposed to be made, and a description of the boundaries of said school district.

The Board finds that said election was duly and legally held within said district on the 9th day of July 1935, as aforesaid, and that returns of said election have now been made to this Board, as provided by law. Said Board therefore proceeds to canvass the returns of said election and upon a canvass of such returns, the Board finds and hereby declares the result of said election as follows:

Twenty-eight votes were cast in said election for the taxation, and six votes were cast in said election against the proposed taxation.

The Board therefore finds and declares that majority of the votes were cast in said election for said proposed taxation.

It is therefore ordered, adjudged and decreed by the Board that said tax voted in said district for the purposes aforesaid, be and the same is hereby levied for the current tax years as follows:

Beginning September 30, 1934, for two years inclusive at thirty cents on each one hundred dollars of taxable property in said East Limestone District No. 13 in said County for public school purposes within said district.

It is further ordered by said Board that a report in writing and under oath of the members of said Board declaring the results of said election be made and filed in the office of the Probate Judge of said County, and that a copy of such report be printed in the Alabama Courier, a newspaper published in said County. That such report declaring the result of said election be as follows:

"A". The Authority further agrees to commence the operations contemplated hereunder within a reasonable time after the execution of this agreement and to prosecute said work with reasonable diligence. The County agrees that the Authority's obligations hereunder shall be regarded as discharged if the above mentioned roads and bridges are constructed, whether such roads and bridges shall be constructed with funds furnished by the Authority or by funds allotted by the Public Works Administration or by any other department, agency, or instrumentality of the Federal Government.

2. The Authority agrees that all steel bridges now existing in the area to be flooded within Limestone County shall be taken down, dismantled and removed by the Authority to such place or places in the County as the Chairman of the Board of Revenue may designate, provided that such designation is made prior to or at the time that the dismantling operations commence, provided further, however, that the Authority reserves the right to use and the County agrees that the Authority may use all or any part of such bridges as the Authority, in its sole discretion, may deem advisable to use in connection with the repair, improvement and/or construction of the roads and bridges which the Authority is obligated to make hereunder. For the purpose of repairing or constructing county roads within the County, the county may remove gravel from the gravel pits listed in the annexed schedule and from such other gravel pits as the Director of the Land Planning and Housing Division may designate from time to time. This permit is not transferable, is revocable at will, and may be terminated by the Authority at any time upon written notice to the Board of Revenue of the county or its successor. In consideration of this permit the county agrees to indemnify and save harmless the Tennessee Valley Authority and the United States of America from all damage, loss or injury resulting directly or indirectly from the county's operations under this permit.

3. The county, in consideration of the foregoing, hereby transfers, conveys and releases to the United States of America all of the County's right, title and interest in and to all such bridges, and to such portions of all County roads or highways in said Wheeler Reservoir area as lie below mean sea level elevation of Five Hundred and Fifty-Six (556') Feet and the County does hereby agree to take any and all action which may be necessary, or appropriate to vacate and abandon as public roads or highways such portions of said highways and said bridges so taken, and to take such action as may be necessary or appropriate to close the same to the use of the public; and does further agree to cooperate fully with the Authority in connection with said program, and to take any action in connection therewith which may be reasonably requested by the Authority.

4. The County hereby releases the Authority from any and all claims, demands, damages, or claims for damage, which the county may have or may assert against the Authority of every nature, character or description whatsoever arising out of or by reason of the inundation or closing of any of the County's roads or bridges, as well as for the impairment of the efficiency, value, usability or convenience of any roads or bridges not so inundated, closed or taken.

5. The County does further agree that as the said roads or highways, or substantial parts thereof, and the said bridges as specified in schedule "A" are completed, the County will, when so requested by the Authority, open the same for public travel and assume and take over, at the expense of the County, the maintenance, repair and up-keep of said highways or portions thereof, and of said bridges, and the County will thereafter forever hold the Authority harmless on account of any loss, injury or damage sustained by persons using said highways or portions thereof and said bridges.

It is understood and agreed that the representatives acting for and on behalf of Limestone County are duly authorized to execute this agreement and bind the County for the purposes hereinabove specified.

IN WITNESS WHEREOF, the parties hereto have caused this instrument to be executed by their respective representatives thereunto duly authorized, as of the day and year first above written.

LIMESTONE COUNTY  
SCHEDULE ATTACHED AND FORMING PART OF AN AGREEMENT BETWEEN LIMESTONE COUNTY, ALABAMA, AND THE TENNESSEE VALLEY AUTHORITY IN REGARD TO ROAD LOCATION AND CONSTRUCTION IN THE WHEELER RESERVOIR AREA

The work of location and construction on all highways outlined in this schedule will be started by the Tennessee Valley Authority as soon after the execution of this agreement as the necessary engineering work, field surveys, plans, advertisements for bids, and letting of contracts are completed by the Authority. The Authority will make all necessary surveys and plans for location of the highways outlined in this schedule, after the completion of this agreement and at such time as may be decided by the Authority.

All highways and bridges which will be located and constructed under this agreement will be maintained by the County. Slopes in earth cuts shall be 1:1. Slopes on earth fills shall be  $1\frac{1}{2}$ :1, with the following exceptions; on such sections of highway as will be lower than mean sea level elevation 556 the slopes on earth fills shall be 3:1; and 2:1 slopes shall be used on such sections of earth fills that lie above elevation 556 that do not require rip-rap protection but will be frequently submerged by high water. Slopes in rock cuts will be such as in the judgment of the Authority will satisfactorily stand. Slopes on rock fills shall be  $1\frac{1}{2}$ :1. Rip-rap shall be used on  $1\frac{1}{2}$ :1 earth slopes on such sections of road and up to such elevation as may be required to protect the slopes from wave action and from headwater overflow. Rip-rap shall also be used on all 3:1 fill slopes lying between mean sea level elevations 545 and 556. The Authority is to determine what part of the  $1\frac{1}{2}$ :1 earth slopes will need protection and to what elevation rip-rap is to be carried. All projects listed in the agreement to have a roadway width of 24 feet on fill sections and 24 foot width in cut sections exclusive of ditches, excepting projects No. 8, 9, and 14, which are to have a roadway width of 28 feet on fill sections and 28 foot width in cut sections exclusive of ditches, and project No 11-A which is to have a roadway width of 22 feet on fill sections and 22 foot width in cut sections exclusive of ditches. All projects listed in this agreement to be surfaced with gravel or crushed stone at the minimum rate of 1000 cu. yds. per mile with the exception of project No. 11-A which is to be surfaced with 200 cu. yd. of gravel or crushed stone. In earth excavation ditches shall be 1 foot in depth and the center line of ditch in each case shall be 3 feet from the edge of the shoulder. In rock excavation ditches shall be 1 foot in depth, 1 foot in width at the bottom and shall have slopes of 1:1. Small culverts and drainage structures shall be corrugated metal, cast iron, or concrete as determined by the Authority. No headwalls shall be used on culvert pipe. The location, alignment gradients, and design of all roads shall be determined entirely by the Authority.

Rights of way for all road locations will be obtained by the Tennessee Valley Authority without cost to the County.

These rights of way shall be 50 feet in width in general. However, through congested districts or where houses or buildings interfere, the Authority reserves the right to acquire lesser width. Also, where the location of existing roadways are followed no additional right of way whatever beyond the existing right of way will be acquired unless the same is necessary for construction purposes.

1. Elk Mill Bridge and Connecting Roads, This project beginning at a point in the present road approximately 1000 feet South of Big Creek and following closely the present road location, to a point just West of where the bluff section ends, from this point holding high ground and back of tenant house; thence to intersect with a tangent line through center points of present bridge over Elk River; thence on this tangent to a point on high ground Northwest of present road leading to Rogersville and Caro; thence Northeast and Southwest to intersect the present road to Rogersville and Caro. All the above described project being within Sections 24, 25, and 26, Township 2-S, Range 6-W, and Section 30, Township 2-S, Range 5-W. The present superstructure over Elk River to be raised to meet the requirements of the War Department as to navigation, using the present piers incased in concrete and adding such additional sub-structure work as is necessary to provide for an ultimate roadway width of 20 feet whenever a new bridge is required. The fill approaches to this structure to be built to a minimum profile grade of 563. The bridge over Big Creek to be raised to an elevation of 565 above mean sea level by adding to or rebuilding the sub-structure using the present super-structure. This project to be constructed on approximately the above described location. All necessary small drainage to be cared for with concrete box culverts or pipe lines. The Authority will erect round untreated timber poles to serve as guard rail on those sections of this road which are immediately adjacent to a permanent lake created by the Wheeler pool. These poles shall be round poles of substantial material, having a minimum diameter of 6" and a maximum diameter not to exceed 12" and shall be placed at a distance not to exceed 6' from center to center of pole parallel to the centerline of the road. The poles shall be placed on the edge of the roadway grade at least 3.5' below the ground surface and shall extend approximately 3' above the ground. The poles shall be painted by the Authority. At its discretion, the Authority may place these poles at other sections of this road on curves which, in the judgment of the Authority, are sufficiently dangerous to warrant such protection. The length of this project is approximately 2.0 miles.

2. A section of the Rogersville-Elk Mill Road beginning at a point in the present road approximately 300 feet North of South section line, Section 29, Township 2-S, Range 6-W, and on a new location just East and North of the present road on higher ground, to a point in the present road approximately  $\frac{1}{4}$  mile East of the West section line, Section 33, Township 2-S, Range 6-W. This section of road being approximately  $\frac{3}{4}$  miles in length. This section of road to be constructed to a minimum profile grade elevation of 560 above mean sea level. Larger culverts and drainage structures shall be of reinforced concrete construction. The Authority will erect round untreated timber poles to serve as guard rail on those sections of this road which are immediately adjacent to a permanent lake created by the Wheeler Pool. These poles shall be round poles of substantial material, having a minimum diameter of 6" and a maximum diameter not to exceed 12" and shall be placed at a distance not to exceed 6' from center to center of parallel to the centerline of the road. The poles shall be placed on the edge of the roadway grade at least 3.5' below the ground surface and shall extend approximately 3' above the ground. The poles shall be painted by the Authority. At its discretion, the Authority may place these poles at other sections of this road on curves which, in the judgment of the Authority, are sufficiently dangerous to warrant such protection. The length of this project is approximately 0.75 mile.

3. A section of Snake Road at the crossing of Lucy Branch, beginning at a point just East of the branch and extending to a point just West of the branch. All this section of road being located approximately on the South section line of Section 13, Township 3-S, Range 7-W, and being approximately 800 feet long. This section of road to be constructed on the present road location to a minimum profile

grade of 560. A concrete box culvert is to be constructed with ample area to care for headwaters of Lucy Branch. The Authority will erect round untreated timber poles to serve as guard rail on those sections of this road which are immediately adjacent to a permanent lake created by the Wheeler pool. These poles shall be round poles of substantial material, having a minimum diameter of 6" and a maximum diameter not to exceed 12" and shall be placed at a distance not to exceed 6' from center to center of pole parallel to the centerline of the road. The poles shall be placed on the edge of the roadway grade at least 3.5' below the ground surface and shall extend approximately 3' above the ground. The poles shall be painted by the Authority. At its discretion, the Authority may place these poles at other sections of this road on curves which, in the judgment of the Authority, are sufficiently dangerous to warrant such protection. The length of this project is approximately 0.1 mile.

4. The section of the Harris Station-Brown Ferry Road beginning approximately at the Northwest corner of the Northeast 1/2 section, Section 15, Township 4-S, Range 5-W, and extending approximately 1/4 mile North along the present road. This section of road to be constructed on the present location to a minimum profile grade elevation of 561 above mean sea level. The present bridge over Broyles Creek not being affected, no work is to be done on this structure. The Authority will erect round untreated timber poles to serve as guard rail on those sections of this road which are immediately adjacent to a permanent lake created by the Wheeler pool. These poles shall be round poles of substantial material having a minimum diameter of 6" and a maximum diameter not to exceed 12" and shall be placed at a distance not to exceed 6' from center to center of poles parallel to the centerline of the road. The poles shall be placed on the edge of the roadway grade at least 3.5' below the ground surface and shall extend approximately 3' above the ground. The poles shall be painted by the Authority. At its discretion, the Authority may place these poles at other sections of this road on curves which, in the judgment of the Authority, are sufficiently dangerous to warrant such protection. The length of this project is approximately 0.25 mile.

5. A section of Harris Station and Brown Ferry Road on a new location beginning at a point approximately 500 feet East of the Southwest corner, Section 13, Township 4-S, Range 5-W, and extending in a Northwest direction to approximately the 1/2 East and West section line, Section 14; thence following approximately this half section line West to intersect the present road at a point approximately 1000 feet West of West section line, Section 14, Township 4-S, Range 5-W. This section of road being approximately 1.5 miles long. This section of road to be constructed approximately on the above described location to a minimum profile grade of 561. All necessary bridges to be constructed with concrete sub-structures, with super-structures of steel I-beams with wooden floors and clear roadway width of 18 feet. All small drainage structures to be concrete box culverts or pipes. The above described section of road to be constructed in lieu of caring for the affected sections of road in Section 14, 15, 22, 23, and 24, Township 4-S, Range 5-W. The length of this project is approximately 1.5 miles.

6. A section of Harris Station-Brown Ferry Road, located in Section 19 and Section 20, Township 4-S, Range 4-W, and beginning approximately 300 feet East of West section line, Section 20, and extending approximately 2000 feet to a point at the South end of bridge over Swan Creek. All bridges on this section of road to remain in their present condition as no work is to be done on them. This section of road to be constructed on present location to a minimum profile grade of 561 above mean sea level elevation. The Authority will erect round untreated timber poles to serve as guard rail on those sections of this road which are immediately adjacent to a permanent lake created by the Wheeler pool. These poles shall be round poles of substantial material having a minimum diameter of 6" and a maximum diameter not to exceed 12" and shall be placed at a distance not to exceed 6' from center to center of pole parallel to the centerline of the road. The poles shall be placed on the edge of the roadway grade at least 3.5' below the ground surface and shall extend approximately 3' above the ground. The poles shall be painted by the Authority. At its discretion, the Authority may place these poles at other sections of this road on curves which, in the judgment of the Authority, are sufficiently dangerous to warrant such protection. The length of this project is approximately 0.4 mile.

7. A section of the Harris Station-Brown Ferry Road beginning just West of the L & N RR crossing at Harris Station, and extending approximately 0.3 mile West and being located approximately on the North section line, Section 32, Township 4-S, Range 4-W. This section of road to be constructed on the present location to a minimum profile grade elevation of 561 above mean sea level. All necessary drainage other than at the creek crossing to be cared for with pipe lines. The existing bridge to be removed and a new bridge, similar in construction, is to be built in a new location. The abutments are to be of concrete and the super-structure of steel beams with a plain timber floor. Portions of the existing superstructure are to be used in the new bridge. The Authority will erect round untreated timber poles to serve as guard rail on those sections of this road which are immediately adjacent to a permanent lake created by the Wheeler pool. These poles shall be round poles of substantial material, having a minimum diameter of 6" and a maximum diameter not to exceed 12" and shall be placed at a distance not to exceed 6' from center to center of pole parallel to the centerline of the road. The poles shall be placed on the edge of the roadway grade at least 3.5' below the ground surface and shall extend approximately 3' above the ground. The poles shall be painted by the Authority. 14. This project, consisting of a section of the Buck Island Road and the Buck Island Bridge over Elk River, being all in Section 5, Township 2-S, Range 5-W, shall be constructed as follows: The construction work shall start at a point in the present road approximately at the intersection of the section line between Section 5 and Section 6, Township 2-S, Range 5-W, said point being at the crossing of survey made by the Alabama State Highway Department with the present road at approximately Station 485 / 95, extending thence along the survey made by the Alabama State Highway Department and crossing Elk River at a point approximately 450 feet downstream from the location of the present county bridge across Elk River near Buck Island to an intersection with the present road at approximately Station 528 / 25 on the survey by the Alabama Highway Department. The clear width of roadway exclusive of ditches on the approaches shall be 26 feet. On the approach South of Elk River 2:1 slopes shall be used on fills. On the approach North of Elk River 1 1/2:1 slopes shall be used on fills. The minimum elevation of roadway shall be 563 above mean sea level. No rip-rap shall be used except around the South end bent of the approach and for the protection of fills immediately adjacent to said bent. If borrow pits are constructed, they shall be left in neat, presentable condition and at such elevation and grade as will properly drain. No borrow pit shall be constructed at elevations lower than 559 above mean sea level. The minimum distance between the toe of the fill on the approaches and the nearest portion of any borrow pit shall be 20 feet. A bridge across Elk River shall be constructed by the Authority at the location previously specified in the following manner: A concrete substructure consisting of four piers and one abutment, said abutment being on the North side of Elk River, shall be constructed by the Authority with a sufficient width to provide for an ultimate roadway width of 26 feet and at an elevation sufficient to meet the requirements of the War Department for navigation. The abutment on the North side shall be on a hard-pan or gravel foundation. Three of the piers shall be on solid rock foundation. One of these concrete piers, being the pier located farthest South, shall be on creosoted timber pile foundation. The remainder of the substructure for this bridge which shall support approach spans on the South side shall consist of creosoted timber pile bents. The width of these creosoted timber pile bents shall be only sufficient for the roadway structure which shall be 15 feet between inside of wheel guards. The south bent shall also be of creosoted timber construction of the type and width specified herein. This bridge shall be constructed by moving those portions of the present bridge across Elk River on Alabama Highway No. 2 from its present location to the proposed site described herein and re-erecting those portions which in the judgment of the Authority shall be suitable and usable for this purpose. The total length of bridge to be constructed shall be approximately 716 feet 9 inches. The superstructure shall consist of the two main truss spans which are now across the Elk River on State Highway No. 2, each span being approximately 176 feet 5 inches in length, and two swing spans now in place on the aforesaid bridge, one of these spans being approximately 69 feet 2 inches in length and the other span being approximately 70 feet in length, and in addition thereto approach spans constructed on creosoted bents consisting of 10 spans, each 18 feet 9 inches in length; one span 18 feet 10 inches in length; and one span approximately 18 feet 4 inches in length. The Authority shall use as much of the material in the superstructure of present Elk River Bridge on State Highway No. 2 in these approach spans as it shall determine to be suitable and economical. The entire structure when completed shall have an H10 loading capacity. It shall have a new timber floor constructed of 2 x 12's placed on edge, this floor to be treated with a light bituminous surface which shall be constructed of bituminous material and stone chips in such manner as the Authority may determine. It is further understood that the State of Alabama and the Counties of Limestone and Lauderdale shall grant permission to the Authority to use the present Elk River Bridge on State Highway No. 2 without cost to the Authority and the Authority shall dismantle said Elk River Bridge on State Highway No. 2 and the approaches thereto and after the dismantling of said bridge the Authority shall move and erect such portions of said bridge as are outlined in this contract and as may be found suitable and usable by the Authority on the location herein described for the the Buck Island Road. In addition the Authority will erect round untreated timber posts to serve as guard rails on those sections of the South roadway approach in fill. These poles shall consist of round native timber, having a minimum diameter of 6 inches and a maximum diameter not to exceed 12 inches, and shall be placed at a distance not to exceed 6 feet from center to center of pole parallel to the center line of the road. The poles shall be placed near the edge of the roadway grade, at least 3 1/2 feet below the ground surface, and shall extend approximately 3 feet above the ground. The poles shall be painted by the Authority. The Authority shall place a surface of gravel on the approaches to this bridge between station 485 / 95 approximately and Station 528 / 25, excluding the bridge proper, at a uniform rate of not less than 1000 cubic yards per mile. All of the expenses of this project including the bridge, approaches, surfacing and guard rail poles shall be borne by the Authority except that Limestone County at its sole expense shall construct the grading and necessary drainage on the entire North approach extending from Station 516 / 6648 to Station 528 / 25, and in addition thereto Limestone County shall place at its entire expense 6000 cubic yards of embankment in the South approach between the South end bent of the proposed bridge and such point South thereof as this amount of material would be required.

to entirely complete a fill consisting of 6000 cubic yards of embankment. Limestone County agrees to perform the work of constructing the grading and drainage on the North approach and the 6000 cubic yards of embankment which shall complete a portion of the fill adjacent to the South end bent according to the lines and grades given by the Authority and in conformity with the terms of this agreement. Limestone County further agrees that any borrow pit which it may use in constructing these approaches will entirely conform with the terms of this agreement. After completion of the new structure and approaches the Authority will dismantle and remove the existing bridge across Elk River on the Buck Island Road. Limestone County further agrees that in the event there is any waste material from the excavation of the North approaches after completing all fills and necessary roadway ramps on the North side of the bridge that it will haul such waste material across the existing bridge and deposit same in the roadway fill on the South approach, said waste material so deposited not to be included in the 6000 cubic yards hereinbefore described to be constructed by Limestone County.

## MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, JULY 12th, 1935

Ragsdale District No. 4 of Limestone County to determine whether or not a special tax should be levied at the rate of thirty cents on each one hundred dollars worth of taxable property in said Ragsdale District No. 4 for public school purposes within said district.

It further appears to said Board of Revenue that due notice of said election were given as required by law and said former order of this Board by publication of such notice in the Limestone Democrat, a newspaper published in said county, for four successive weeks prior to the day of said election, and that the first publication of said notice was at least thirty days before the day of said election; that written notices of said election were also posted in three public places within each district for thirty days prior to said election; and that the notice of said election published and posted as aforesaid, showed the rate of such proposed tax, the time it was proposed to be continued, the purpose for which the levy of said tax was proposed to be made, and a description of the boundaries of said school district.

The Board finds that said election was duly and legally held within said district on the 9th day of July 1935, as aforesaid, and that returns of said election have now been made to this Board, as provided by law. Said Board therefore proceeds to canvass the returns of said election and upon a canvass of such returns, the Board finds and hereby declares the result of said election as follows:

No votes were cast in said election for the taxation and four votes were cast in said election against the proposed taxation.

The Board therefore finds and declares that majority of the votes were cast in said election against said proposed taxation.

It is therefore ordered, adjudged and decreed by the Board that said taxation shall not be levied in said district.

It is further ordered by said Board that a report in writing and under oath of the members of said Board declaring the results of said election be made and filed in the office of the Probate Judge of said County, and that a copy of such report be printed in the Limestone Democrat, a newspaper published in said County. That such report declaring the result of said election be as follows:

It further appears that due notice of said election was given by the Sheriff of Limestone County, Alabama, as required by law and said former order of the Board of Revenue by publication of such notice in The Alabama Courier, a newspaper published in said county, for four successive weeks prior to the day of said election, and that the first publication of said notice was at least thirty days before the day of said election; that the notice of said election published as aforesaid, showed the rate of such proposed tax, the time it was proposed to be continued and the purpose for which the levy of said tax was proposed to be made.

## MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, AUGUST 17th, 1936

Be it remembered that at a regular meeting of the Board of Revenue of Limestone County, Alabama, held at 10 a.m. on August 17th, 1936, in the Courthouse, the usual place of meeting, there were present and presiding J. M. Holt, Chairman, and members, Mason C. Freeman, Russell Balch, W. C. Marks and Will H. Beasley. The following proceedings were had and done, to-wit:

The following resolution was offered by W. H. Beasley and seconded by Mason Freeman:

BE IT RESOLVED, By the Court of County Commissioners of Limestone County, Alabama:

That Whereas, Tennessee Valley Authority, a corporation created and existing under the "Tennessee Valley Authority Act of 1933" has acquired certain transmission and other lines, substations and other appliances, facilities and property for the transmission and distribution of electrical energy in certain parts of Limestone County, Alabama, some of which lines and appliances are located along and across the public highways in said county; and

WHEREAS, Said Tennessee Valley Authority may desire hereafter to extend said lines or construct new ones in, along or across such highways, and this Court deems it in the public interest that said Tennessee Valley Authority be given the right and franchise to use the public places and highways of this County in connection with the transmission and distribution of electrical energy in said County:

NOW THEREFORE BE IT RESOLVED, That said Tennessee Valley Authority its successors and assigns, be and they are hereby given and granted the right and franchise to construct, repair, maintain, operate and conduct in said County a system of poles, towers, conduits, cables, conductors, transforming stations, fittings and all appliances or appurtenances in, over, under, along, upon and across all public highways, roads, alleys, lanes, bridges, viaducts and other publicways and places in said county as they now exist or may hereafter be laid out or extended, to the extent the said Tennessee Valley Authority may deem necessary or desirable to the transmission within, into, through, over and beyond the county and furnishing, supplying, and distributing to the county and to the inhabitants and corporations, both within and beyond the limits thereof, electric energy for lighting, heating, power and all other purposes for which electric energy may be used now or hereafter and for the purpose of extending its lines and furnishing electric current beyond the limits of the county.

This right and franchise is made upon the following conditions:

1. The poles, towers, conduits, cables, conductors, transforming stations, fittings, appliances and appurtenances shall be so constructed as not unreasonably to interfere with the proper use of the public highways, roads, alleys, bridges, viaducts, and other public ways and places in the county and shall be maintained in a reasonably good condition and repair.

2. Whenever the Tennessee Valley Authority shall cause any opening or alteration to be made in any of the public highways, roads, alleys, lanes, bridges, viaducts and other public ways and places in the county for the purpose of installing, maintaining, operating, or repairing any poles, towers, conduits, cables, and other appliances, the work shall be completed within a reasonable time and the Tennessee Valley Authority shall upon the completion of such work restore such portion of the public highways, roads, alleys, lanes, bridges, viaducts and other public ways and places to as good condition as it was before the opening or alteration was so made.

3. The Tennessee Valley Authority shall hold the county harmless from any and all liability or damages resulting from the negligence of the Tennessee Valley Authority in the construction, maintenance or operating of its poles, towers, conduits, wires, cables and other appliances.

3½. Whenever Limestone County shall widen, improve or relocate any public road or bridge which requires additional right of way, the Tennessee Valley Authority shall upon notice from Limestone County move or cause to be moved within a reasonable length of time any or all poles, towers, conduits, wires, cables and other appliances which may be located on the rights of way of the public road or roads to be improved provided that the Tennessee Valley Authority will be permitted to relocate the aforesaid poles, towers, and all other appliances on that portion of the new or old right of way which will not interfere with the proper construction of the road.

4. The invalidity of any sentence, clause, or provision hereof shall not affect the validity of any of the remaining provisions hereof.

5. The consideration hereof is the expenditure by said Tennessee Valley Authority of the funds necessary for the construction of said transmission and/or distributions lines and the proper maintenance thereof.

A vote was taken and the resolution was declared adopted.

The claim of Pearlle Chandler, as the Administratrix of the estate of Claude Chandler against Limestone County, Alabama, for the sum of \$25,000 was filed August 5th, 1936 and was presented to the Board on August 17, 1936. No action was taken.

Member Russell Balch introduced the following resolution and moved that it be adopted:

Whereas, On March 9th, 1928, J.H. Tolley did convey to Limestone County, Alabama, by deed recorded in volume 263 page 152, the Northwest quarter (NW $\frac{1}{4}$ ) of the Northwest quarter (NW $\frac{1}{4}$ ) of Section 20, Township 4 South, Range 3 West, portions of which tract of land contained deposits of gravel suitable for road surfacing, and

Whereas, The Board has determined that the greater portion of said tract of land has no value as gravel producing land, and

Whereas, The said land has no other value to the county for public use, and

Whereas, It has come to the attention of this Board that an additional acreage of land is needed to aid the substation of the Alabama Polytechnic Institute which is located on lands adjoining the forty acre county tract, and

Whereas, There appears a possibility that a livestock department may be added to the substation provided other land is secured for pasture, and

Whereas, The Board deems it desirable and to the best interest of the citizens and taxpayers of Limestone County that the major portion of said lands be donated and given to said substation for experimental purposes,

Therefore Be It Resolved, That Limestone County reserve five acres in the Southwest corner of said forty acre tract for surfacing gravel, and that the remaining thirty-five acres be donated to the experiment station and that the title to said 35 acres be conveyed to the Alabama Polytechnic Institute by deed signed by the members of this Board.

Member Mason Freeman seconded the motion and when the Chairman called for a vote, there were four ayes and no noes, whereupon the motion was declared adopted.

## MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, DECEMBER 21st, 1936

Be it remembered that at a regular meeting of the Board of Revenue of Limestone County, Alabama, held at 10 a.m. on December 21st, 1936, in the Courthouse, the usual place of meeting, there were present and presiding J. M. Holt, Chairman, and members, Mason C. Freeman, Russell Balch, W. C. Marks and Will H. Beasley. The following proceedings were had and done, to-wit:

Member W. H. Beasley moved that the appropriation to the Limestone County Department of Public Welfare be increased to \$408.00 for the months of January, February and March 1937 provided that if other revenues become available from legislation now pending in the State Legislature, the County appropriation may be reduced by the Board. The motion was seconded by Mason Freeman and all members voted aye, whereupon the motion was declared adopted.

A motion was offered by Russell Balch and seconded by W. H. Beasley appropriating \$75.00 per month payable to the County Home Agent and to become effective January 1st, 1937. A vote was taken and the motion carried.

The following resolution was offered by W. H. Beasley:

Whereas, The Uniform Bookkeeping System enacted by the Legislature of Alabama requires and provides for the employment of a competent and experienced person to keep the system, and

WHEREAS, the Act creating a Board of Revenue for Limestone County provides that the Board may employ a Clerk for said Board and that said Clerk may be discharged at anytime, and

Whereas, It appears that the new bookkeeping system may be more accurately kept, and the affairs of the office more efficiently and more economically done by discharging the clerk and by the employment of one bookkeeper or clerk to keep all records required by the new system and to attend to any other clerical or office work connected with the office.

Now Therefore Be It Resolved, That the clerk of the Board be discharged effective January 1st, 1937 and that Mrs. Martha W. Gray be employed as clerk and bookkeeper for the uniform bookkeeping system and that compensation for her services shall be fixed at \$125.00 per month effective January 1st, 1937, and shall continue until notice of discharge is given by said Board.

The foregoing resolution was seconded by W. C. Marks and when a vote was taken all members voted aye, whereupon the resolution was declared adopted.

It is ordered that adequate lighting fixtures be installed in the offices of the Judge of Probate, Tax Assessor, Tax Collector, Board of Revenue and County Agent, and it is ordered that the fixtures for the above named be purchased from Henry E. Neal, Jr. for \$205.00, wiring and labor not included.

## MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, JANUARY 4th, 1937

Be it remembered that at a regular meeting of the Board of Revenue of Limestone County, Alabama, held at 10 a.m. on January 4th, 1937, in the Courthouse, the usual place of meeting, there were present and presiding J. M. Holt, Chairman, and members, Mason C. Freeman, Russell Balch, W. C. Marks and Will H. Beasley. The following proceedings were had and done, to-wit:

It was ordered that the terracing outfit, which was given to Limestone County by the Reconstruction Finance Corporation in lieu of employment of R. F. C. laborers on county roads, be and the same is hereby turned over to and given to the Limestone County Terracing Association to be used by said Association for terracing farm lands, and it is understood that Limestone County is not obligated to repair or keep up said terracing outfit and that said Terracing Association is hereby given the right to own and control said outfit and to trade or exchange the same for other equipment to be used in Limestone County.

Member Russell Balch introduced a resolution to authorize the Limestone County Board of Registrars to hold a ten day session beginning January 11, 1937, at the Courthouse to register eligible citizens of the county. The motion was seconded by W. H. Beasley and when a vote was called for, all members voted aye whereupon the resolution was declared adopted.

It was ordered that the county jail and portions of the courthouse be painted and the chairman was instructed to receive bids for such work to be opened and let on Tuesday, January 12, 1937.

The following resolution was introduced by member Mason C. Freeman and seconded by W. C. Marks:

Whereas, The Board of Revenue did call an election to be held on Nov. 3, 1936, in accordance with an Act of the Legislature of Alabama approved April 10th, 1936, providing for a referendum on the local gasoline tax which was levied by authority of an Act of the Legislature in 1927, and

Whereas, The necessary election supplies for said referendum were provided by Limestone County and the referendum was held by the officers appointed to hold the general election in November 1936, and to the best of our knowledge and belief the referendum was conducted as are general elections in this State, and

Whereas, The returns of said referendum were canvassed by the Sheriff, the Judge of Probate and the Circuit Court Clerk on Friday, November 6th, 1936, and the above mentioned officials made a statement and did announce the total number of votes according to the returns from the several precincts of the county, and

Whereas, It has come to the attention of this Board that it is also the duty of the Board of Revenue to canvass the returns of said election,

Now Therefore Be It Resolved, That the Board of Revenue meet at two o'clock p.m. on January 8th, 1937, for the purpose of canvassing the returns of the County gasoline tax referendum and that the total votes for and against the measure be announced by entering the results of the canvass on the minutes of this Board.

The Chairman called for a vote on the foregoing resolution and all members voted aye, whereupon the motion was declared adopted.

CLM 493

Meeting adjourned to meet January 8th, 1937 at two o'clock p.m.

The Board of Revenue met on January 8th, 1937, pursuant to adjournment on January 4th, 1937, and there were present and presiding J. M. Holt, Chairman and members of said Board, Mason C. Freeman, Russell Balch, W. C. Marks and W. H. Beasley. The following proceedings were had and done, to-wit:

Pursuant to adjournment on January 4th, 1937, in accordance with a resolution duly moved and carried on the above mentioned date, the Board of Revenue met and did canvass the returns of the Limestone County gasoline tax referendum which was held on November 3rd, 1936, and the following order was made:

Order of Board of Revenue Declaring Results of Referendum

It appears to the Board of Revenue of Limestone County that in conformity to the order of this Board made on September 21st, 1936, a referendum was held on November 3rd, 1936, to determine whether or not a county tax shall be levied on gasoline sold in Limestone County.

It further appears to the Board of Revenue that the said referendum was held by the officials designated to hold the general election and that said referendum was conducted and held as are general elections in the State of Alabama.

The Board finds that said referendum was duly and legally held and that the returns of said referendum were delivered by the returning officers of the various precincts to the sheriff who is the returning officer for the County and that the sheriff, the probate judge, and the circuit court clerk did canvass the returns of said referendum on Friday, November 6th, 1936, and did announce the results of said canvass as follows:

Fourteen hundred fifty-two votes were cast in said referendum for the taxation, and fourteen hundred fifty votes were cast in said referendum against the taxation.

It further appears to said Board of Revenue that the legislative act authorizing the referendum also authorizes the Board of Revenue to canvass the returns of said referendum.

Therefore, to further comply with the provisions of the said Act, the Board of Revenue did canvass the returns from said referendum, and the results from said canvass were as follows:

Fourteen hundred fifty-two votes were cast in said referendum for the local gasoline tax and fourteen hundred fifty votes were cast in said referendum against the local gasoline tax.

The Board therefore finds and declares that a majority of the votes were cast in said referendum for said taxation.

It is ordered that time warrants be issued to J. D. Pittman Tractor Company, Birmingham, Alabama, for repairs and road equipment as follows:

No. 4751	for	\$814.27,	due & payable June 14th, 1937 without int.

No. 4754	for	442.37,	due & payable Sept. 14, 1937 without int.

The Board adjourned to meet Jan. 12th, 1937 at 10 a.m.

and it appearing that the bid of King, Mohr & Company, Birmingham, Alabama, being the highest and best bid submitted, the following resolution was introduced by Member W. C. Marks, to-wit:

WHEREAS, The Bid of King, Mohr & Company, Birmingham, Alabama, for \$28,000 Limestone County, Alabama, Refunding Road Bonds, being the highest and best bid received for said bonds and the bid being in all respects satisfactory to the Board of Revenue, it is ordered and resolved that the said bonds be sold to said King, Mohr & Company pursuant to their bid as hereinabove set out and the Chairman of the Board and the Probate Judge are hereby authorized, ordered and directed to sign, seal and deliver said bonds to said purchasers upon delivery to us of \$28,000 Limestone County 4 $\frac{1}{2}$ % Road Bonds due May 1, 1937 in exchange for the above described Refunding Bonds.

The said foregoing resolutions were seconded by member Mason C. Freeman, and upon a vote taken all members voting in favor thereof, the same were declared duly adopted and ordered spread upon the minutes of the Board of Revenue.

Member Fred Dawson moved that the appropriation to the Limestone County Department of Public Welfare be increased to \$408.00 for the months of April, May and June 1937 provided that if other revenues become available from legislation now pending in the State Legislature, the county appropriation may be reduced by the Board. The motion was seconded by Mason Freeman and all members voted aye, whereupon the motion was declared adopted.

The following resolution was introduced by W. C. Marks and seconded by Mason C. Freeman:

Whereas, For several months it has been necessary for Limestone County to pay rent for office space for various public officers and agencies, and

Whereas, Over a period of time the payment of rent will amount to more than the cost of building additional office space, and

Whereas, The Works Progress Administration has approved a project for the construction of a four room building and has agreed to furnish all common labor and certain material valued at approximately five hundred dollars,

Now Therefore Be It Resolved, That a suitable building be erected and that the Chairman of the Board be and he is hereby authorized to proceed with the work to purchase the necessary materials and to employ the necessary skilled labor at the prevailing rate.

## MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, APRIL 5, 1937

Be it remembered that at a regular meeting of the Board of Revenue of Limestone County, Alabama, held at 10 a.m. on April 5, 1937, in the Courthouse, the usual place of meeting, there were present and presiding J.M. Holt, Chairman, and members, Mason C. Freeman, Homer McLemore, W.C. Marks and Fred Dawson. The following proceedings were had and done, to-wit: ---

It was ordered that approximately 500 gal of motor oil be purchased from the Gulf Refining Company at 65 cents per gallon for Gulf Pride and 41 cents per gallon for Gulf Lube. The aforesaid price was considered the lowest and best bid.

Tax Collector, Elmer Vinson, appeared before the Board and stated that the taxes of Robert Brandon had been doubly assessed and collected and that the amounts so overpaid were as follows:

General Fund	\$18.60
Sinking Fund	4.65
Public Improvement	4.65

The Tax Collector also stated that on Feb. 26, 1936 Ella May Brandon also erroneously paid interest on taxes as follows:

General	6.70
Sinking Fund	1.67
Public Improvement	1.68

It was moved by Fred Dawson and seconded by Mason C. Freeman that Limestone County's part of the overpayment of taxes by Robert Brandon and the erroneous amount of interest paid by Ella May Brandon be refunded by Limestone County insofar as it is legal and proper to do so. A vote was taken and all members voted aye whereupon the motion was declared adopted.

## MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, OCTOBER 4th, 1937

Be it remembered that at a regular meeting of the Board of Revenue of Limestone County, Alabama, held at 10 a.m. on October 4th, 1937, in the Courthouse, the usual place of meeting, there were present and presiding J. M. Holt, Chairman, and members, Mason C. Freeman, Homer McLeMORE, W. C. Marks and Fred Dawson. The following proceedings were had and done, to-wit:

The following resolution was introduced by Member Fred Dawson and seconded by Member Mason C. Freeman:

WHEREAS, The CCC Camp near Athens has rented or occupied about one acre of land belonging to Henderson Bullington upon which buildings have been erected by the officials of said Camp, and

WHEREAS, No federal or other funds are available for the payment of rent on the above described tract of land, and

WHEREAS, It appears that the type and amount of work being done in Limestone County by the local CCC Camp is very valuable to a great portion of the citizens of the County

NOW THEREFORE BE IT RESOLVED, That an appropriation of ten dollars be made for the payment of rent on the one acre of land for the year ending Sept. 30, 1937, and that a contract be made with the said Henderson Sullington to rent the said acre of land for ten dollars annually during the time the land may be needed for the Camp or until such time as the Board of Revenue may decide to discontinue the payment of said rental. A vote was taken and the motion carried.

- - - - -

The Board took up the question of securing a bond for the Tax Collector and the Probate Judge which would guarantee the replacement of any public money stolen from the office or the person of the said officials by another person or persons. No action was taken.

Mr. J. T. High and Miss Cureton appeared before the Board and requested additional appropriations for farm and home extension work and for club work for boys and girls. No action was taken.

Since all receipts for the fiscal year ending Sept. 30, 1937 have not been received, the Board deferred the making of budget until the next regular meeting or until such time as the necessary information may be available.

Baker, former Coroner Grigsby Griffis, and the present Sheriff J. E. Wellden were charged to said officials as follows:

Former Report		
A. L. Baker	--	\$170.00
J. E. Wellden	--	85.00
Grigsby Griffis	--	26.45
Last Report		
J. E. Wellden	--	7.00

Whereas, Certain portions of the amounts so paid have been declared to be just and legal charges against the County, and

Whereas, The Board of Revenue has investigated the charges and has determined that the money paid these officials was collected by them in good faith after valuable services were actually rendered the County, that the services of the Sheriffs and Coroner as rendered actually saved the county a greater amount in court costs and jury costs, and

Whereas, the latter report also charged an item of \$20.50 for wood and kindling used in heating water for the prisoners in the county jail for a period of six months, and

Whereas, All of the items charged in the reports of the examiners above referred to are due the County and nothing is due the State, and

Whereas, Under an Act of the Legislature approved April 19th, 1933 amending sub-section 11 of Section 6755 of the Code of Alabama of 1923 the County governing body may compromise doubtful claims in favor of the county when such claims arise on account of moneys, heretofore paid in good faith, by order of such courts, or in any case where they deem it to the best interest of the County.

Now Therefore Be It Resolved, That under the authority of the Act above referred to it is ordered that each of the officers be relieved of the amounts charged in the examiners' reports on the terms set forth in said Act that the money was collected in good faith by the officers and that the services were actually rendered.

The Chairman called for a vote on the foregoing resolution and all members voted aye, whereupon the resolution was declared adopted.

It was ordered that the resolution, authorizing the calling of an election January 4th, 1938 to determine if the people of the County want a hospital, be and the same is hereby rescinded.

It is ordered that the Board members visit hospitals in the adjoining counties on Wednesday, December 8th, for the purpose of obtaining first hand information as to the construction, operation, and maintenance of a county hospital.

## MINUTES, LIMESTONE COUNTY BOARD OF REVENUE, JANUARY 17, 1938

Be it remembered that at a regular meeting of the Board of Revenue of Limestone County, Alabama, held at 10 a.m. on January 17, 1938, in the Courthouse, the usual place of meeting, there were present and presiding J. M. Holt, Chairman, and members, Mason C. Freeman, Homer McLeMore, W. C. Marks and Fred Dawson. The following proceedings were had and done, to-wit:

Moved and carried that the suspension endorsement on the Courthouse steam boiler policy be cancelled in order that insurance protection may be had for the entire year instead of during a seven months period, and that the additional premium cost shall be \$5.99.

Moved and carried that an eight cu yd dirt scraper be rented from the Pittman Tractor Company for a period of approximately three weeks for a rental price of \$1.75 per hour.

The following resolution was offered by W. C. Marks and seconded by Mason C. Freeman:

Whereas, On November 23, 1937, bids were received and a rock crusher was purchased or rented from J. D. Pittman Tractor Company for \$6855.00; and

Whereas, On December 6th, certain additional screens hoppers, and chutes were purchased for \$1227.00 making a total cost of \$8082.00 from which an allowance of \$2355.00 was made for a used speeder tractor shovel, making a net cost of \$5727.00 for cash, and

Whereas, It appears to the best interests of the county to obtain the rock crusher together with the above mentioned necessary equipment on a rental-sales agreement,

Now Therefore Be It Resolved, That the cash price of the equipment plus interest at the rate of five percent making a total price of \$6259.80 be divided into 36 monthly payments and that the equipment shall be rented and if and when all payments shall have been made the equipment shall become property of Limestone County.

Be It Further Resolved, That the Chairman of the Board is hereby authorized and directed to sign an agreement in accordance with this resolution.

A vote was taken and all members voted aye, whereupon the resolution was declared adopted.
